MINUTES

33rd Meeting of the Academic Council

Dated: 12/10/2021 at 11:30 A.M.

The 33rd meeting of the Academic Council of the University of Haryana was held on October 12, 2021 at 11:30 A.M. in the Conference Room, Administrative Block, Central University of Haryana.

The following members attended the meeting:

1. **Prof. (Dr.) Tankeshwar Kumar, Vice Chancellor - Chairperson**
2. Prof. Sathans
3. Prof. Suresh Kumar
4. Prof. (Dr.) Param Jeet Singh
5. Prof. P.C. Pattnaik
6. Dr. P.K. Khurana
7. Dr. Narender Hooda
8. Prof. Sanjiv Kumar
9. Prof. Rajesh Kumar Malik
10. Prof. Neelam Sangwan
11. Prof. Rajbir Singh Dalal
12. Prof. Ravinder Pal Ahlawat
13. Prof. Dinesh Kumar Gupta
14. Prof. Chanchal Kumar Sharma
15. Dr. Anand Sharma
16. Dr. Vinod Kumar
17. Dr. Rajesh Kumar Dubey
18. Dr. Vikas Garg
19. Dr. Gunjan Goel
20. Dr. Rajesh Kumar Gupta
21. Dr. Suneel Kumar
22. Dr. Ranbir Singh
23. Dr. Vishwanand Yadav
24. Dr. Ranjan Aneja
25. Dr. Bijender Singh

26. Dr. Monika
27. Dr. Dinesh Kumar
28. Dr. Rakesh Kumar
29. Dr. Harish Kumar
30. Dr. Pawan Kumar Maurya
31. Dr. Ajay Kumar Bansal
32. Dr. Samiksha Godara
33. Dr. Ravinder Kaur
34. Dr. Santosh C. Hulagabali, Librarian
35. Prof. Ranvir Singh (Special Invitee)
36. Dr. Vipul Yadav, COE (Special Invitee)
37. Ms. Sarita Kumari (Student Representative)
38. **Prof. Sarika Sharma, Registrar (In-Charge)** - **Secretary**

The following members could not attend the meeting: -

1. Prof. Raj Kumar
2. Dr. Annapoorni Subramanian
3. Prof. Ram Singh
4. Dr. Ashwani Mahajan
5. Dr. Markanday Ahuja
6. Dr. (Mrs.) Shimla
7. Mr. Manas Chandra Fuloria

At the outset, the Vice-Chancellor welcomed all the members of the Academic Council particularly the following new members:

1. Dr. Annapoorni Subramanian, Professor, Dept. of Physics and Astrophysics, University of Delhi, Delhi
2. Dr. Narender Hooda, Controller of Examinations, NIFTEM, Kundli, Sonepat, Haryana
3. Dr. Rajesh Kumar Dubey, Dean, School of Engineering & Technology, CUH
4. Dr. Monika, Head, Department of Law, CUH
5. Dr. Chanchal Kumar Sharma, Professor, Department of Political Science, CUH
6. Dr. Harish Kumar, Associate Professor, Department of Chemistry, CUH
7. Dr. Pawan Kumar Maurya, Associate Professor, Department of Biochemistry, CUH
8. Dr. Ravinder Kaur, Assistant Professor, Department of Commerce, CUH
9. Dr. Samiksha Godara, Assistant Professor, Department of Law, CUH

The Council acknowledged and appreciated the contribution of the following members of the Academic Council who have completed their term, for Academic Development of the University:

1. Prof. Deepak Pant, School of Basic Sciences, CUH

2. Prof. Satish Kumar, School of Interdisciplinary & Applied Sciences, CUH
3. Dr. Parmod Kumar, School of Education, CUH
4. Dr. Ajai Pal Sharma, Assistant Professor, Department of Management Studies, CUH
5. Dr. Anju Beniwal, Assistant Professor, Department of Law, CUH

The members were informed about the demise of the esteemed members of the Academic Council namely Prof. Deepak Gaur, Professor, School of Biotechnology, Jawaharlal Nehru University, New Delhi and Dr. Kadloor Savitri, Professor, Dept. of Political Science, Jamia Millia Islamia, New Delhi due to COVID-19. The Council members remembered their contributions and paid tribute to them.

The Council place on record its appreciation on the contribution of previous Vice-Chancellor, Prof. R.C. Kuhad towards the overall development of the University during his tenure. The Council congratulated and welcome Prof. (Dr.) Tankeshwar Kumar as the new Vice-Chancellor of the University.

After that, the Vice-Chancellor briefed the progress made by the University in recent times. Thereafter, the Agenda Items were taken up for consideration.

R.No.	Resolution Passed
1.	The Minutes of the 32nd meeting of the Academic Council held on 23-04-2021, were confirmed. **(Minutes already circulated)**
2.	The action taken on the resolutions of the 32nd meeting of the Academic Council held on 23-04-2021, were reported, recorded and confirmed. **(Annexure-I, Page-33 to 35)**
	ITEMS FOR CONSIDERATION
3.	Resolved that the draft Policy on "Innovation and Startup" recommended by the Committee constituted for drafting guidelines for Innovation and Startup projects (Notified vide notification No. CUH/2021/Estt.Sec.(T)/298 dated 25.03.2021), be approved. **(Annexure-II, Page-36 to 54)**
4.	The Council considered the proposal for award of Ph.D. degree to Late Ms. Ekta (Roll No-10087) a research Scholar in the School of Education, on the basis of the evaluation report of the External and Internal Examiners, posthumously, without *Viva-Voce* examination, as recommended by the Dean, School of Education. The Council further resolved that Examination Branch may send thesis submitted by Late Ms. Ekta for evaluation. After receipt of the evaluation report, the matter may be submitted for consideration of the Academic Council. **(Annexure-III, Page-55)**
5.	Resolved that the addition of new Ordinance-XXXIV relating to undergraduate programmes and UG-PG five-year integrated programmes after Ordinance-XXXIII as recommended by the Committee constituted by the Vice-Chancellor, be approved and recommended to Executive Council for consideration: **ORDINANCE-XXXIV** **UNDERGRADUATE PROGRAMMES AND UG-PG FIVE-YEAR INTEGRATED PROGRAMMES** **1.** Integrated Programmes of study leading to award of respective Certificates/Diplomas/Degrees shall be offered and conducted by the respective Schools/Departments/ Centres established by the University. This Ordinance pertains to Undergraduate programmes and UG-PG Five-Year Integrated Programmes (introduced

w.e.f. the Academic Session: 2021-22 and thereafter) with provision of 'Multiple Entry and Exit' at various stages.

2. Definition of Keywords

2.1 Choice-Based Credit System (CBCS)

The CBCS provides choice for the students to select course from the prescribed courses (Elective or soft-skill courses). It provides a 'cafeteria' approach in which the students can take courses of their choice, learn at their own pace, study additional courses and acquire more than the minimum required credits, and adopt an inter-disciplinary approach to learning.

2.2 Academic Year

Two consecutive (one odd + one even) semesters shall constitute one academic year.

2.3 Semester

Each Semester shall consist of 15-18 weeks of academic work equivalent to 90 actual teaching days. The odd semester may be scheduled ordinarily from July to December and even semester from January to June. The credit-based semester system provides flexibility in designing curriculum and assigning credits based on the course content and hours of teaching.

2.4 Credit

A unit by which the course work is measured. It determines the number of hours of instructions required per week. One credit is equivalent to one hour of teaching (lecture or tutorial) or two hours of practical work/field work, per week.

Credits: A credit defines the quantum of contents/syllabus prescribed for a course and determines the number of hours of instruction required per week. Thus, in each course, credits are assigned on the basis of the number of lectures/tutorials/laboratory work/field work and other forms of learning required for completing the contents in 15 week schedule. 2 hours of laboratory work/field work is generally considered equivalent to 1 hour of lecture.

i. 1 Credit = 1 Theory/Tutorial period of one hour duration, or

ii. In case of practical, 1 Credit = 1 Practical period of two hour duration

iii. Credit(s) for internship shall be one credit per one week of internship, subject to a maximum of six credit

2.5 Grade Point

It is a numerical weight allotted to each letter grade on a 10-point scale.

2.6 Letter Grade

It is an index of the performance of students in a said course. Grades are denoted by letters O, A+, A, B+, B, C, P and F. means a letter grade assigned to a student on the basis of evaluation of a course on a ten point scale.

2.7 Semester Grade Point Average (SGPA)

It is a measure of performance of the work done in a semester. It is ratio of total credit points secured by a student in various courses registered in a semester and the total course credits taken during that semester. It shall be expressed up to two decimal places.

2.8 Cumulative Grade Point Average (CGPA)

It is a measure of overall cumulative performance of a student over all semesters. The CGPA is the ratio of total credit points secured by a student in various courses in all semesters and the sum of the total credits of all courses in all the semesters. It is expressed up to two decimal places.

2.9 Transcript/ Grade Card or Certificate

Based on the grades earned, a grade certificate shall be issued to all the registered students after every semester. The grade certificate will display the course details (code, title, number of credits, grade secured) along with SGPA of that semester and CGPA earned till that semester.

2.10 Programme

An educational programme leading to the award of a Degree, Diploma or Certificate.

2.11 Course

Usually referred to as paper, it is a component of a Programme. All courses need not carry the same weightage. A course may be designed to comprise lectures/tutorials/laboratory work/field work/outreach activities/project work/dissertation/practical training/viva/seminars/term-papers/assignments/presentations/self-studywork/clinical component, etc., or a combination of some of these. Each course should define the learning objectives and the learning outcomes.

2.12 Undergraduate Programmes:

Undergraduate Programmes of study leading to award of Bachelor Degrees shall be offered and conducted by the respective Schools/Departments/ Centres established by the University.

2.13 UG-PG Five-Year Integrated Programmes

Integrated Programmes of study leading to award of respective Certificates/Diplomas/Degrees shall be offered and conducted by the respective Schools/Departments/ Centres established by the University.

3. Type of Courses

Each programme may have various types of courses, namely, Core courses, Ability Enhancement Courses, Skill Enhancement Courses, Discipline Specific Electives, Generic Electives, MOOCs and Self-Study Courses.

3.1 Core Courses

The core courses are those courses whose knowledge is deemed essential for the students registered for a particular programme of study.

3.2 Elective Courses

The elective courses can be chosen from a pool of papers. These courses may be very specific or specialized or advanced or supportive to the discipline/ subject of study or which provide an

extended scope or which enable an exposure to some other discipline/subject/domain or nurtures the candidate's proficiency/skill are called an Elective Courses.

3.3 Discipline Specific Elective (DSE) Course

Elective course offered under the main discipline/subject of study is referred to as Discipline Specific Elective. The respective department may offer various DSE courses based on the requirements, scope and need of the programme. The department may also offer discipline related Elective courses of interdisciplinary nature.

3.4 Generic Elective (GE) Course

It is an elective course chosen from an unrelated discipline/subject, with an intention to seek exposure beyond one's primary discipline. The purpose of this category of papers is to offer the students the option to explore disciplines of interest beyond the choices they make in Core and Discipline Specific Elective papers. The respective department may offer various courses under this category based on the expertise, specialization, requirements, scope and need.

3.5 Ability Enhancement Course (AEC)

The Ability Enhancement (AE) Courses are based upon the content that leads to Knowledge enhancement; i. Environmental Science and ii. English/Hindi/MIL Communication, etc. These courses are mandatory for all disciplines particularly at undergraduate level.

3.6 Skill Enhancement Course (SEC)

These courses may be chosen from a pool of courses designed to provide value-based and/or skill-based knowledge and should contain both theory and lab/hands-on/training/field work. The main purpose of these courses is to provide students life-skills in hands-on mode so as to increase their employability.

3.7 Self-study Courses

The self-study courses, if offered, are optional and not mandatory. Being non-credit courses, the performance of students in these courses shall be indicated either as "satisfactory" or as "unsatisfactory", instead of the Letter Grade and this shall not be counted for the computation of SGPA/CGPA.

3.8 MOOCs

MOOCs (Massive Open Online Courses) approved by the UGC and available on SWAYAM Platform.

4. Duration of the Programmes:

Programmes	**Bachelor's Degree#**	**Integrated UG-PG Degree**
Minimum Duration	Three Years or Six Semesters	Five Years or ten semesters/ Two years or four semesters after obtaining a Bachelor's Degree/One year or two semesters after obtaining a four-year Bachelor's Degree, whatever is applicable

Maximum Duration	Two Years period beyond the normal period to clear the backlog to be qualified for the Degree.	Two Years period beyond the normal period to clear the backlog to be qualified for the Degree.

Pass Course, Subject-specific or Honours as specified by the Board of Studies of the respective Department.

4.1 The students enrolled in Bachelor's or UG-PG Integrated Programme shall also be eligible for multiple entry and exit as prescribed by the respective department/relevant clause of the Ordinance.

4.2 Provided that a semester or a year may be approved a zero semester or a zero year for a student if he/she could not continue with the academic work during that period due to illness and hospitalization, or due to accepting a scholarship/fellowship subject to the fulfilment of requirements laid down in this respect by the regulations with the approval of Academic Council. Such a zero semester/year shall not be counted for calculation of the duration of the programme in case of such a student. On re-joining, the student shall resume the academic programme with the subsequent batch. For example, a student availing zero semester in an odd semester shall resume the studies of that semester with subsequent batch of odd semester students.

5. Eligibility for Admission: The eligibility criteria for admission to various Courses/Programmes offered by the University shall be as decided by the University from time to time.

6. Syllabi and Structure of the Programmes of Study: The Syllabi and Structure of the Programme of study shall be as approved by the Academic Council on the recommendations of the Board of Studies/School Board of the Department/Centre/School concerned.

7. Mobility Options and Credit Transfers:

The students shall be permitted to opt inter-disciplinary/multidisciplinary courses of their choice, learn at their paces, undergo additional courses, acquire more than the required credits, and adopt an interdisciplinary/ multidisciplinary approach to learning.

7.1 The mobility across the disciplines is also subject to availability of desired elective course, faculty, infrastructure and no. of students (as fixed by the University/department from time to time) opting that elective course.

7.2 Mobility of Credits earned by the students from GIAN (Global Initiative of Academic Networks) courses/ MOOCs (Massive Open Online Courses)/ SWAYAM (Study Webs of Active –Learning for Young Aspiring Minds)/ Swachh Bharat Internship Programme/ etc. shall be credited in accordance with the provisions made under the respective schemes, as amended from time to time; subject to compatibility of course content & assessment process with the prior approval of the respective Board of Studies.

7.3 The student shall be given the equivalent credit weightage for the credits earned vide online learning credit courses through SWAYAM platform as approved by the respective Board of Studies.

8. Course Coding:

Each course offered by a school/department is identified by a unique course code indicating school, department, programme, semester, course no., core/ ability enhancement course, skill enhancement course, elective course, and self-study course. The concerned Board of Studies and School Board shall recommend a specific course codification pattern for the approval of the Academic Council.

9. Student Advisor:

The Department shall appoint an Advisor for each student from amongst the faculty members of the Department concerned. All faculty members of the department shall act as Student Advisors and shall have more or less equal number of students. The Student Advisor shall advise the student in selection of courses and shall render all possible support, guidance and counselling to him/her.

10. Course Registration:

10.1 The registration for courses shall be the sole responsibility of the student. No student shall be allowed to do a course without registration, and no student shall be entitled to any credits in the course, unless he/she has been registered for the course by the scheduled date fixed by the University.

10.2 Every student has to register in each semester (in consultation with his/her Student Advisor) for the courses he/she intends to undergo in that semester by applying as per the prescribed proforma, duly signed by him/her, the Student Advisor and the Head of the Department, within the deadline notified for the purpose by the University.

10.3 A student shall register for minimum 18 credits in a semester, and shall register for the required credits for completion of the programme as mentioned at Clause-10.

10.4 Late registration may be permitted by the Head/Incharge of the Department up to a maximum of six weeks after the commencement of the semester, on payment of late fee prescribed by the university.

10.5 Withdrawal from a course may be permitted up to two weeks from the date of registration, provided the courses registered after withdrawal shall enable the student to earn a minimum prescribed credits.

10.6 A student may be allowed by the Head/Incharge of the Department to add a course or substitute a course for another course of the same type (skill enhancement course/ elective course/ self-study course), for valid reasons with the consent of the Student Advisor not later than two weeks from the date of commencement of the semester.

10.7 If a student registers himself/herself for more elective courses than the prescribed in the programme, while calculating the Semester/Cumulative Grade Point Average, only the prescribed number of elective courses for the programme of study shall be included in the descending order of the grades obtained by him/her.

10.8 The elective courses (Discipline-specific or Generic) opted and registered and attempted by the student in the end-semester examination may not be replaced, unless it is otherwise not mandatory. However, a student studying in odd or even semester shall have the option of choosing an elective course offered by the respective/allied/other department at same level from the corresponding semester i.e. students of odd semester shall opt for the

courses of odd semesters and students of even semester shall opt for the courses offered by the parent or other department in even-semester. In case of an elective opted in addition to the minimum requirement of the programme, it will not be binding on the students to qualify such courses.

11. Minimum Credit Requirements

The student shall be required to register for the credits as specified by the Board of Studies of the respective department for a programme of study, as amended from time to time. The Academic Council, on the recommendation of BoS/School Board of the respective Department/School, shall decide the curriculum with specific minimum credit requirements for Certificate, Diploma, Bachelor's Degree, Bachelor's Degree (Honours/Research), Postgraduate Diploma, Postgraduate Degree and UG-PG Integrated programme(s) in accordance with relevant Ordinance/UGC Regulations/Guidelines, as amended from time to time. The credit requirements for various levels of Certificate, Diploma and Degree Programmes are as under:

Sr. No.	Certificate/ Diploma/ Degree	Qualification	Credit Requirements
1.	Undergraduate Certificate	Exit after successful completion of the courses prescribed in the first year of an Undergraduate/UG-PG Integrated programme with required number of credits/grade	36-40, including minimum credits from the elective courses (DSE/GE) as prescribed in the syllabi of the first year).
2.	Undergraduate Diploma	Exit after successful completion of the courses prescribed in the first two years of an Undergraduate/UG-PG Integrated programme with required number of credits/grade	72-80, including minimum credits from the elective courses (DSE/GE) as prescribed in the syllabi of the first two years).
3.	Bachelor's Degree	Exit after successful completion of the courses prescribed in the first three years of an Undergraduate/UG-PG Integrated programme with required number of credits/grade	108-120, including minimum credits from the elective courses (DSE/GE) as prescribed in the syllabi of the first three years).
4.	Bachelor's Degree (Honours)	Exit after successful completion of the courses prescribed in the first three years of an Undergraduate/UG-PG Integrated programme with	148-160, including minimum credits from the elective courses (DSE/GE) as prescribed in the syllabi of the

		required number of credits/grade	Bachelor's Degree (Honours) programme.
5.	Bachelor's Degree (Research)	Exit after successful completion of the courses prescribed in the first four years of an Undergraduate/UG-PG Integrated programme with required number of credits/grade required for Bachelor's Degree (Research), if any such degree is specifically offered by a department.	148-160, including minimum credits from the elective courses (DSE/GE) as prescribed in the syllabi of the Bachelor's Degree (Honours/Research) programme.
6.	Postgraduate Diploma	Exit after successful completion of the courses prescribed in the first four years of the UG-PG integrated Programme with required number of credits/grade.	144-148, including minimum 8 credits from the elective courses (DSE/GE) as prescribed in the syllabi of first four years of the UG-PG integrated Programme.
		Exit after the successful completion of the first year or two semesters of the two-year Master's Degree Programme with required number of credits/grade after obtaining a Bachelor's Degree	36-40, including minimum 8 credits from the elective courses (DSE/GE) of which at least 4 credits shall be from elective courses offered by another Department.
7.	Master's Degree	Exit after the successful completion of the two years or four semesters of the two-year Master's Degree Programme with required number of credits/grade after obtaining a Bachelor's Degree Or	72-80, including a minimum of 16 credits from elective courses (of which at least 8 credits shall be from elective courses offered by other Departments).
		Exit after the successful completion of one year or two semesters of the one-year Master's Degree Programme with required number of credits/grade after obtaining a Bachelor's Degree (Research), if any such degree is specifically offered by the Department.	36-40, including minimum 8 credits from the elective courses (DSE/GE) of which at least 4 credits shall be from elective courses offered by another Department.

8.	Degree in Integrated UG-PG Programme	Exit after successful completion of the courses prescribed in the first five years of the UG-PG integrated Programme with required number of credits/grade.	180-200, including minimum credits from elective courses (DSE/GE) of which at least 8 credits shall be from elective courses offered by other Departments).
9.	Degree in Integrated UG-PG Programme (Hons.)	Exit after successful completion of the courses prescribed in the first five years of the UG-PG integrated Programme with required number of credits/grade.	220-240, including minimum credits from elective courses (DSE/GE) of which at least 8 credits shall be from elective courses offered by other Departments).

However, the Academic Council of the University, on the recommendation of the Board of Studies of the respective department, may increase the minimum and maximum credits for the award of Certificate, Diploma or Degree, wherever required, to ascertain that Certificate, Diploma or Degree meets the equivalence requirements at national/international level.

12. Examination and Internal Assessment

The internal assessment work and the End-Semester examination shall have the weightage of 30% and 70%, respectively. For practical examination also, 70 percent of the marks will be awarded through an end semester practical exam and remaining 30 percent of the marks will consist of internal assessment to be awarded by concerned faculty member(s) of the department.

12.1 Internal Assessment

12.1.1 Internal Assessment shall be done on a continuous basis, taking into account the student's class performance, completion of assignments and performance at the two compulsory sessional tests to be conducted in a semester.

12.1.2 For conducting Internal Assessment, one or more assessment tools, such as written tests, assignments, oral quizzes, paper presentation, laboratory work, etc., suitable to the course may be employed.

12.1.3 The Internal Assessment for theory shall consist of the following components with marks indicated against each:

(i) Attendance:	**5 marks**
Below 75%	Nil
75% to <80%	1 Mark
80 % to <85%	2 Marks
85% to <85%	3 Marks
90% to <95%	4 Marks
95% and above	5 Marks

(ii) Assignments/Presentations and Class Participation	**5 Marks**
(iii) Sessional Tests (Best of the two shall be counted)	**20 Marks**
(iv) Sessional Tests to be conducted at specific intervals	**10 Marks each**

12.1.4 For practical examination, 70 percent of the marks will be awarded through an end semester practical exam and remaining 30 percent of the marks will consist of internal assessment to be awarded by concerned faculty member(s) of the concerned department. Maximum 05 marks to be awarded for attendance of students (Same as mentioned in case of internal assessment for theory examination).

12.1.5 The seminar paper shall be assessed on the basis of the contents of the paper submitted and its presentation, equally. The assessment will be made by the concerned teacher/advisor/supervisor. A Seminar presentation paper will not exceed 4 credits per semester.

12.1.6 The Head/Incharge of the Department may allow a student to repeat one sessional test, if his/her application in this regard is considered as genuine on valid reasons.

12.1.7 A student is required to secure, in aggregate, a minimum of 'P' grade in the Internal Assessment and in the End-Semester examinations. However, he/she shall have to pass the practical examination separately, with a minimum of 'P' grade.

12.2 End-Semester Examination

12.2.1 The End-semester Examinations covering the entire syllabus prescribed for the course and carrying 70% of weightage, shall be conducted by the Examination Branch of the University, in consultation with the Head of the Department.

12.2.2 The Examiners or Board of Examiners shall be appointed for each course by the Board of Studies of the Department concerned.

12.2.3 The hall ticket/admit card shall be issued to the student on the recommendation of the Head of the Department, subject to the following conditions:

(i) Having fulfilled the requirement of attendance as prescribed;

(ii) Submission of a "No dues" certificate in the prescribed form.

12.2.4 The distribution of weightage for the valuation of semester-long project work/ dissertation shall be:

I. Periodic presentation: 30%;
II. Project Report: 40%; and
III. Viva voce- : 30% **Or** as decided by the Board of Studies of the Department concerned.

12.3 Setting of Question Papers, Moderation and Evaluation

12.3.1 The question papers for the End-Semester theory examination shall be set and evaluation of answer books shall be done by the examiners (Internal and/or External) out of the Panel

of Examiners recommended by the Board of Studies of the Department concerned on the basis of their expertise/ specialization/area of interest.

12.3.2 The question papers shall be moderated by a Board of Moderators (ordinarily not below the rank of Associate Professor) to be appointed by the Controller of Examinations out of the panel drawn by the concerned Board of Studies of the department.

12.3.3 In the case of the practical examination of the courses, the assessment shall be jointly undertaken by the internal and external examiners. The External examiners shall be invited from amongst the panel of examiners proposed/recommended by the Head/Dean of the concerned Department and approved by the Vice Chancellor/Vice Chancellor's nominee.

12.3.4 In case of the Project reports, Thesis and Dissertation, the assessment shall be jointly carried out by the internal and external examiners. External examiners shall be invited from amongst the panel of examiners (ordinarily not below the rank of Associate Professor) proposed/recommended by the Head/Dean of the concerned Department and approved by the Vice Chancellor/ Vice Chancellor's nominee.

12.3.5 The result of the students shall be subject to moderation by a Board of Moderators appointed by the Vice Chancellor on the recommendation of the Controller of Examinations.

12.3.6 Unless otherwise specified by the respective Board of Studies, the pattern of Question Papers for End-Semester Examinations shall be as under:

i. Question no. 1: Shall consist of short answer type questions of specific word length from all the units with internal choice.
ii. Question No.2: Shall consist of essay type question of specific word length from all the units with internal choice.

12.4 Letter Grades and Grade Points

12.4.1 In the End-semester theory or practical examinations, the examiner shall award the marks and these marks shall be further converted into Grades/Grade points by the examination branch in accordance with the provisions of the Ordinance.

12.4.2 Detailed Marks Card issued at the end of the semester or the programme shall carry marks/percentage and equivalent grades both.

12.4.3 The University shall adopt the 10-point Grading System, with the Letter Grades as given under:

Letter Grade	**Grade Point (SGPA/CGPA)**	**Range of Grade Point (SGPA/CGPA)**	**Class Interval (in %)**
O (Outstanding)	10	Above 9 to 10	Above 90 and < 100
A+ (Excellent)	9	Above 8 to 9	Above 80 and <90
A (Very Good)	8	Above 7 to 8	Above 70 and < 80
B+ (Good)	7	Above 6 to 7	Above 60 and < 70

B (Above Average)	6	Above 5 to 6	Above 50 and < 60
C (Average)	5	Above 4.5 to 5	Above 45 and < 50
P (Pass)	4	4 to 4.5	40 to 45
F (Fail)	0		< 40
Ab (Absent)	0		Absent

Note:

(i) F= Fail, and the students graded with 'F' in a programme or course shall be required to re-appear in the examination. However, students appearing in their final Semester Examination, may be permitted to appear in the reappear papers of all preceding Semesters.

(ii) The minimum qualifying marks for a course or programme shall be 40% (i.e., 'P' grade).

(iii) The students shall have to qualify at the Internal Assessment and the End-Semester examinations in the aggregate, and in the practical examinations, separately.

(iv) There shall be no rounding off of SGPA/CGPA.

(v) The SGPA/CGPA obtained by a student shall be out of a maximum of 10 points.

(vi) In order to be eligible for the award of the Certificate/Diploma/ Degree of the University, a student must obtain CGPA of 4 at the end of the programme.

(vii) Provided that the student who is otherwise eligible for the award of the certificate/diploma/degree but has secured a CGPA of less than 4 at the end of the permissible period of semesters may be allowed by the Department concerned to repeat the same course(s) or other courses of the same nature in lieu thereof in the extra semesters within the maximum duration of the programme.

(viii) The Cumulative Grade Point Average (CGPA) obtained by a student shall be classified into the following division/Class:

CGPA	Class/Division
Above 9	Outstanding
Above 8 to 9	First Division (With Distinction)
6 to 8	First Division
5.5 to <6	High-Second Division
5 to <5.5	Second Division
4 to <5	Third Division

12.5 Re-appear Examination

The students failing to score minimum grade required to qualify a course/programme may be allowed to re-appear in those papers where they couldn't score 'P' grade in the extra semesters provided in Clause 10 on "Duration of Programme" with the following provisions:

12.5.1 A student securing "F" Grade in a course shall be permitted to repeat/ reappear in the End-Semester Examination of the Course for a maximum number of three times i.e. a student with arrears on account of "F" Grade, shall be permitted to repeat / reappear in the End Semester Examination for a maximum of three times (including the first appearance), along with the subsequent End Semester Examinations.

12.5.2 If a student secures "F" Grade in a Project Work / Project Report/ Dissertation / Field Work Report / Training Report etc, he/she shall be required to resubmit the revised Project Work / Project Report/ Dissertation / Field Work Report / Training Report etc. as required by the evaluator(s). Provided further that a student shall be permitted to resubmit the Project Work / Project Report / Dissertation / Field Work Report/ Training Report etc. for a maximum of three times (including the first submission).

12.5.3 Such students may avail the chance to re-appear only within the maximum duration of the programme.

12.5.4 Re-appear examination of even semesters shall be conducted with the end-semester examinations of even semesters and similarly examinations of odd semesters shall be conducted with the end-semester examinations of odd semesters. However a student in the final semester/exit stage is allowed to re-appear in the courses of both odd and even semesters.

12.5.5 A 'Re-appear' examination shall be based on the syllabi of the course/programme in force at the time of initial registration to the course/programme.

12.5.6 A student who has got the migration certificate issued from the university shall not be allowed to re-appear at any examination.

However, the credits earned by the student shall be credited to the Academic Bank of Credits as per the relevant guidelines/Ordinance, as amended from time to time.

12.6 Improvement of Grades

For improvement of grades, a student shall have to apply on the prescribed form available on the University website or the Examination Branch of the University, along with the original Detail Marks Certificate or the copy of the result sheet and the prescribed fee, as revised from time to time.

12.6.1 A student shall be allowed to improve the division only after qualifying required number of credits as prescribed for the programme.

12.6.2 The student may be allowed to avail only two chances for improvement within the maximum duration of the programme.

12.6.3 Improvement examination of even semesters shall be conducted with the end-semester examinations of even semesters and similarly examinations of odd semesters shall be conducted with the end-semester examinations of odd semesters.

12.6.4 Improvement examination shall be based on the syllabi of the course/programme in force at the time of initial registration to the course/programme.

12.6.5 A student shall be allowed to improve his performance/grades in not more than 30% of total courses prescribed in the programme for improvement of division only.

12.6.6 A student improving the Division/grade shall not be considered for Gold Medal/Rank Certificate.

12.7 Re-evaluation/Re-checking:

12.7.1 A student may apply for revaluation/rechecking of his/her answer scripts within thirty days of the declaration of the result.

12.7.2 For re-evaluation/re-checking of the answer scripts, a student shall have to apply on the prescribed form available on the University website or the Examination Branch of the University, along with the original Detail Marks Certificate or the copy of the result sheet and the prescribed fee for each Course/Paper, or as revised from time to time.

12.7.3 Declaration of Result after Re-evaluation:

(a) If after the first revaluation, the difference of the original marks and re-evaluated marks is up to plus or minus 5% of the maximum marks of the paper, the higher score shall be considered.

(b) If after the first re-evaluation, the difference of the original marks and re-evaluated marks is more than 5% and less than 10%, the average of the two scores will be considered as final score and the result shall be revised accordingly.

(c) If after the first re-evaluation, the difference comes to more than plus or minus 10% of the maximum marks of the paper, the answer script shall be re-evaluated by a third examiner.

(d) After the second re-evaluation, the average of the nearest two awards/marks shall be taken as final and result shall be revised accordingly.

13. Award of Certificate/Diploma/ Degree:

13.1 Unless otherwise prescribed/amended by the University Grants Commission or the respective regulatory body, the Certificate/Diploma/ Degree shall be awarded on successful completion of prescribed courses with minimum credit/grade requirements as specified by the department.

13.2 The student registered for an Undergraduate or UG-PG Integrated programme of study may avail multiple Exit options as under:

13.2.1 If a student enrolled in Undergraduate or UG-PG integrated programme exits after successful completion of the courses prescribed in the first year of an Undergraduate programme with required number of credits/grade, he/she shall be awarded a Certificate.

13.2.2 If a student enrolled in Undergraduate or UG-PG integrated programme exits after successful completion of the courses prescribed in the first two years of an

Undergraduate programme with required number of credits/grade, he/she shall be awarded Undergraduate Diploma.

13.2.3 If a student enrolled in Undergraduate or UG-PG integrated programme exits after successful completion of the courses prescribed in the first three years of an Undergraduate programme with required number of credits/grade, he/she shall be awarded Bachelor's Degree.

13.2.4 If a student enrolled in UG-PG integrated programme exits after successful completion of the courses prescribed in the first four years of the UG-PG integrated Programme with required number of credits/grade, he/she shall be awarded Postgraduate Diploma.

13.2.5 If a student enrolled in UG-PG integrated programme exits after successful completion of the courses prescribed in the first five years of the UG-PG integrated Programme with required number of credits/grade, he/she shall be awarded Master's Degree.

13.3 In addition to the above, the entry and exit options shall also be available as under:

13.3.1 If a student enrolled in Undergraduate or UG-PG integrated programme exits after successful completion of the courses prescribed in the first four years of an Undergraduate programme (Honours/Research), if offered by a department, with required number of credits/grade, he/she shall be awarded Bachelor's Degree (Honours/Research).

13.3.2 Postgraduate Diploma for those who exit after the successful completion of the first year or two semesters of the two-year Master's Degree Programme with required number of credits/grades specified for the programme after obtaining a Bachelor's Degree.

13.3.3 Master's Degree for those who exit after the successful completion of two years or four semesters of the two-year Master's Degree programme with required number of credits/grade specified for the programme after obtaining a Bachelor's Degree.

13.3.4 Master's Degree for those who exit after the successful completion of one year or two semesters of the two-year Master's Degree programme with required number of credits/grade specified for the programme after obtaining a four-year Bachelor's Degree (Honours/Research).

13.3.5 Integrated UG-PG Degree for those who exit after the successful completion of the courses prescribed in the five-years or ten semesters of the five-year Integrated UG-PG Degree programme with required number of credits/grade specified for the programme.

14. Computation of SGPA and CGPA

The University shall follow the following procedure to compute the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA):

14.1 The SGPA is the ratio of sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and sum of the number of credits of all the courses undergone by a student, i.e.

$$SGPA\ (Si) = \sum(Ci \times Gi)/\sum Ci$$

where Ci is the number of credits of the i^{th} course and Gi is the grade point scored by the

student in the i^{th} course.

14.2 The CGPA is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.

$$CGPA=\sum(Ci \times Si)/\sum Ci$$

where Si is the SGPA of the i^{th} semester and Ci is the total no. of credits in that semester.

14.3 The SGPA and CGPA shall be rounded off to 2 decimal points.

15. Illustration of the Computation of SGPA and CGPA

15.1 Illustration of Computation

Course	Credit	Grade Letter	Grade Point	Credit Point
Course I	3	A	8	3 x 8 = 24
Course II	4	B+	7	4 x 7 = 28
Course III	3	B	6	3 x 6 = 18
Course IV	3	O	10	3 x 10 =30
	Total credits for the semester=13			Total Credit points earned= 100

Thus, SGPA= 100/13= 7.69

15.2 Illustrations for computing CGPA:

Semester I	Semester II	Semester III	Semester IV	Semester V	Semester VI
Credit: 20	Credit: 22	Credit: 25	Credit: 26	Credit: 26	Credit: 25
SGPA: 6.9	SGPA: 7.8	SGPA: 5.6	SGPA: 6.0	SGPA: 6.3	SGPA= 8.0

Thus,

$$CGPA = \frac{((20 \times 6.9) + (22 \times 7.8) + (25 \times 5.6) + (26 \times 6.0) + (26 \times 6.3) + (25 \times 8.0))}{(20 + 22 + 25 + 26 + 26 + 25)}$$

= (969.4/144) =6.73

Note: Formula to calculate percentage from CGPA/SGPA= CGPA or SGPA x 10; and formula to calculate percentage to CGPA or SGPA = Percentage/10

e.g. In case of example mentioned in table 12.2, the percentage of CGPA = 6.73x10 =67.30.

15.3 Transcript (Format): Based on the above, letter grades, grade points, SGPA, and the CGPA, the Transcripts/Detail Marks Certificates (DMCs) shall be issued to the candidates for each semester and a consolidated transcript indicating the performance in all the semesters. The percentage of marks shall be reflected in the DMC of the final semester on the basis of the CGPA.

16. Removal of Student Name from the Programme:

16.1 The name of a student falling under any one of the following categories shall automatically stand removed from the rolls of the University:

(a) A student who has failed to fulfil the minimum grade point requirements prescribed for the programme during the maximum duration of the programme.

(b) A student who has already exhausted the maximum duration allowed for completion of the Programme and has not fulfilled the requirements for the award of the degree /diploma.

(c) A student who is found to be involved in misconduct, forgery, indiscipline or any other objectionable conduct, upon recommendation of the Discipline Committee/ Proctorial Board, and

(d) A student who has failed to attend the classes as stipulated under Ordinance XV (II).

16.2 Promotion Rules

(a) A student will be promoted from an odd semester to the next even semester without any restrictions on the minimum number of credits earned. However for promotion from an even semester to the next odd semester, a student should have earned atleast 50% of the credits of the current and all previous semesters taken together. A student failing to earn at least 50% of the credits from the prescribed courses of all present and all previous semesters taken together will be treated as an 'Ex-student' and will be allowed to repeat in the end semester examination of the previous semesters as applicable (for example for a student going from semester 4 to 5 who becomes an Ex. Student, he/ she shall be required to repeat all the papers of semester 3 and semester 4 in the next odd/even semester). However such student will not be allowed to repeat the internal assessment for the said paper/s of the respective semester/s as the case may be. After passing the said semesters, the student shall be promoted to the next odd semester and shall be treated as a 'Regular' student.

(b) A student shall be declared to have passed the programme of study and award of the degree if he/she has secured the required credits with at least 'P' grade.

17. Miscellaneous

17.1 The University shall provide the facility of Academic Bank of Credits in consonance with UGC (Establishment and Operationalisation of Academic Bank of Credits (ABC) Scheme in Higher Education) Regulations, 2021, as amended from time to time.

17.2 For any programme approved by the Academic Council, if a regulation is issued by the Academic Council, which is at variance with the provisions of this Ordinance, then the Ordinance shall prevail.

Notwithstanding anything stated in this Ordinance, for any unforeseen issue arising, and not covered by this Ordinance, or in the event of difference in interpretation, the Vice Chancellor may take an appropriate decision.

6. Resolved that the following amendments to Ordinance-II (A) Degree of Doctor of Philosophy (Ph.D.) of the University, as recommended by the Committee constituted to review the Ordinance-II(A), be approved with minor modifications and recommended to the Executive Council for consideration:

Existing Clause	Proposed Amendments
Clause-2.4: The candidates who have qualified the UGC/CSIR-JRF/NET/SLET, or are Teacher Fellowship-holders or have passed M. Phil. programme with course work recognised by the U.G.C., as per the UGC Regulations (Minimum Standards and Procedure for award of M.Phil./Ph.D. Degree, 2009), shall be exempted from appearing at the written test.	Clause 2.4: The candidates who have qualified the **UGC-NET (including JRF)/ UGC-CSIR-NET (including JRF)/SLET/GATE**, or are Teacher Fellowship-holders or have passed M. Phil. programme with course work recognised by the U.G.C., as per the **UGC (Minimum Standards and Procedure for award of M.Phil./Ph.D. Degree) Regulations 2016,** shall be exempted from appearing at the written test.
Clause-2.5: A candidate shall be eligible for admission to the part-time Ph.D. programme, if he/she fulfils the following conditions: • The candidate should be working in an organization on regular basis. • He/she meets the requisite minimum qualification for admission to Ph. D programme of the University. • The candidate should have at least five years of continuous service. The candidate should furnish a "No Objection Certificate" from his/her organization in the prescribed format.	Clause-2.5: To be deleted.
Clause-3.2: Integrated M.Phil.-Ph.D. Programme	**Clause-3.2:** To be deleted
Clause-6.2: Only a full-time regular teacher of the University can act as a Supervisor. No external supervisor is allowed. However, a Co-Supervisor can be allowed in inter-disciplinary areas from the same/other department(s) of the same institute or from any other related institution, with the approval of the Research Advisory Committee.	**Clause-6.2:** Only a full-time regular teacher of the University can act as a Supervisor. No external supervisor is allowed. However, a Co-Supervisor can be allowed in inter-disciplinary areas from the same/other department(s) of the same institute or from any other related institution, with the approval of the **Departmental Research Committee.**
Clause-6.4: In the case of the topics which are of inter-disciplinary nature, where the Department concerned feels that the expertise in the Department has to be supplemented from outside, the D.R.C. may appoint a Research Supervisor from the Department itself, who	**Clause-6.4:** In the case of the topics which are of inter-disciplinary nature, where the Department concerned feels that the expertise in the Department has to be supplemented from outside, the D.R.C. may appoint a Research Supervisor from the

shall be known as the Research Supervisor, and a Co-Supervisor from outside the Department/ School/Institution, on such terms and conditions as may be specified and agreed upon by the consenting Institutions.	Department itself, who shall be known as the Research Supervisor, and a Co-Supervisor from outside the Department/ School/**University**, on such term, on such terms and conditions as may be specified and agreed upon by the consenting Institutions.
Clause-7.3: Those who have already completed the course work in M.Phil. programme with the required CGPA score, and have been permitted to proceed to the Ph.D. programme in integrated course, may be exempted by the D.R.C. from the Ph.D. course work. In case of a direct Ph.D., the candidates who have passed M.Phil. Degree with Course Work as per the UGC Regulations (Minimum Standards and Procedure for award of M.Phil./Ph.D. Degree, 2009), shall be exempted from the requirements of Course Work. All other candidates admitted to the Ph.D. programme shall be required to complete the Ph.D. course work prescribed by the Department.	**Clause-7.3:** ~~Those who have already completed the course work in M.Phil. programme with the required CGPA score, and have been permitted to proceed to the Ph.D. programme in integrated course, may be exempted by the D.R.C. from the Ph.D. course work. In case of a direct Ph.D.,~~ the candidates who have passed M.Phil. Degree with Course Work as per the **UGC (Minimum Standards and Procedure for award of M.Phil./Ph.D. Degree) Regulations 2016, as amended from time to time,** shall be exempted from the requirements of Course Work. All other candidates admitted to the Ph.D. programme shall be required to complete the Ph.D. course work prescribed by the Department.
Clause-7.7: A student for whom pre-requisite courses are prescribed shall be required to clear the Course Work within the first semester **and in case of part-time Ph.D. within one year**. The registration of such students shall be confirmed only if he/she has qualified minimum credits with a minimum CGPA of the Course Work may be designed by the Department as under: XXX XXX XXX XXX XXX	**Clause-7.7:** A student for whom pre-requisite courses are prescribed shall be required to clear the Course Work within the first semester. The registration of such students shall be confirmed only if he/she has qualified minimum credits with a minimum CGPA of the Course Work may be designed by the Department as under: XXX XXX XXX XXX XXX
Clause-8: Registration and Approval of Topic: a. Consequent upon confirmation of his/her admission in the Board of Studies and/or School Board, the topic of dissertation shall be approved by the School Board/BOS on the recommendations of the Department/Centre concerned and the DRC on a proposal submitted by the student.	**Clause-8: Registration and Approval of Topic:** a. Consequent upon confirmation of his/her admission in the Board of Studies and/or School Board, the topic of dissertation**/thesis** shall be approved by the School Board/BOS on the recommendations of the ~~Department/Centre concerned and the~~ DRC on a proposal submitted by the student.

	After approval of the topic, the student shall submit the registration form with prescribed fee to the Registration Branch.
Clause-9: Requirements during Registration Period d. The research scholar shall present a seminar on his/her research at the completion of each year after his/her registration to Ph.D. programme till submission of Ph.D. thesis. This seminar will be organized by the concerned Department.	**Clause-9: Requirements during Registration Period** d. The research scholar shall present a seminar on his/her research at the completion of each year after his/her registration to Ph.D. programme till submission of Ph.D. thesis. This seminar will be organized by the concerned **Supervisor with the approval of the Head of the Department.**
Clause-9: Requirements during Registration Period e. Every research student shall pursue full time research as a regular student for a minimum period of two years from the date of registration.	**Clause-9: Requirements during Registration Period** e. Every research student shall pursue full time research as a regular student for a minimum period of two years from the date of registration of research topic.
Clause-11: Research Advisory Committee i. To review the research proposal and finalize the topic of research iv. A research scholar shall appear before the Research Advisory Committee once in six months to make a presentation of the progress of his/her work for evaluation and further guidance. The six monthly progress reports shall be submitted by the Research Advisory Committee to the ~~Institution/College~~ with a copy to the research scholar	**Clause-11: Research Advisory Committee** i. **To be deleted.** iv. A research scholar shall appear before the Research Advisory Committee once in six months to make a presentation of the progress of his/her **research** work **related to the topic approved** for evaluation and further guidance. The six monthly progress reports shall be submitted by the Research Advisory Committee to the **Departmental Research Committee** with a copy to the research scholar.
Clause-15: Viva Voce: h. In case the Viva-Voce Board recommends that the candidate be awarded the Ph.D. degree, the Departmental Research Committee shall recommend to the Vice Chancellor that the Ph.D. degree may be awarded to the candidate.	**Clause-15: *Viva-Voce*:** h. In case the *Viva-Voce* Board**/Examiner** recommends that the candidate be awarded the Ph.D. degree, **the recommendation/ report shall be submitted to the Departmental Research Committee. The DRC shall further** recommend to the Vice Chancellor that the Ph.D. degree may be awarded to the candidate**. Accordingly, the notification shall be issued after approval of the Vice Chancellor, and the date of award of**

		Ph.D. Degree shall be the date of Notification.
	The Council further resolved that a new Ordinance will be drafted for part-time Ph.D. programme. A Committee will be constituted for drafting new Ordinance. **Note:** (i) Prof. Rajesh Kumar Malik, Dean, School of Law gave his dissent on proposed amendments in Clause-2.5 and 7.7 of the Agenda Item No-6. **(Annexure-LXX, Page-3463 to 3465)** (ii) It was informed to the house that Ministry of Education has raised objections to the Ordinance-II(A) submitted by the University **(Annexure-LXXI, Page- 3466 to 3467).**	
7.	Resolved that the recommendations of the Board of Studies of the School of Education dated 07.09.2021 and School Board of School of Education dated 14.09.2021, for the scheme and syllabi of B.Ed. programme (Semester III & IV) in the School of Education, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-IV, Page-56 to 124)**	
8.	Resolved that the recommendations of the Board of Studies of the School of Education dated 07.09.2021 and School Board of School of Education dated 14.09.2021, for the scheme and syllabi of M.Ed. programme (Semester III & IV) in the School of Education, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-V, Page- 125 to 172)**	
9.	Resolved that the recommendations of the Board of Studies of the School of Education dated 07.09.2021 and School Board of School of Education dated 14.09.2021, for the scheme and syllabi of B.Ed. programme in the School of Education as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-VI, Page-173 to 368)**	
10. Resolved that the recommendations of the Board of Studies of the Department of Psychology dated 19.08.2021 and School Board of School of Humanities and Social Sciences dated 09.09.2021, for the scheme and syllabi of M.A. Psychology programme in the Department of Psychology, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXI, Page-1439 to 1525)**
25.	संस्कृतविभागस्य एम.ए.-संस्कृत-कक्षायाः प्रथमतः तृतीयसत्र-पर्यन्तस्य, अत्र च संलग्नकेषु 22तमे पी-डी-एफ. इति संलग्नके निबद्धस्य, 2021-2022 वर्षतः प्रस्तावितस्य पाठ्यक्रमस्य स्वीकरणमनुमोदनं च क्रियते। अयं पाठ्यक्रमः पाठ्य-समित्याः 28.08.2021 दिनाङ्कस्य उपवेशने, मानविकी-सामाजिकविज्ञान-विद्यापीठस्य च 09.09.2021 दिनाङ्कस्य उपवेशने स्वीकृतः विद्यते, अधिगम-परिणामाधारित-पाठ्यक्रम-संरचन-स्वरूपमाधृत्य च संरचितः। Resolved that the recommendations of the Board of Studies of the Department of Sanskrit dated 28.08.2021 and School Board of School of Humanities and Social Sciences dated 09.09.2021, for the scheme and syllabi of M.A. Sanskrit (Semester-I to III) programme in the Department of Sanskrit, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXII, Page-1526 to 1565)**
26.	Resolved that the recommendations of the Board of Studies of the Department of Sociology dated 07.09.2021 and School Board of School of Humanities and Social Sciences dated 09.09.2021, for the scheme and syllabi of M.A. Sociology programme in the Department of Sociology, as per the

	Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXIII, Page- 1566 to 1670)**
27.	Resolved that the recommendations of the Board of Studies of the Department of Chemistry dated 09.09.2021 and School Board of School of Basic Sciences dated 20.09.2021, for the scheme and syllabi of M.Sc. Chemistry programme in the Department of Chemistry, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXIV, Page-1671 to 1830)**
28.	Resolved that the recommendations of the Board of Studies of the Department of Chemistry dated 09.09.2021 and School Board of School of Basic Sciences dated 20.09.2021, for the scheme of first three years and syllabi of first year of Integrated B.Sc.-M.Sc. programme in the Department of Chemistry, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXV, Page-1831 to 1888)**
29.	Resolved that the recommendations of the Board of Studies of the Department of Chemistry dated 09.09.2021 and School Board of School of Basic Sciences dated 20.09.2021, for the course work of the Ph.D. programme in the Department of Chemistry, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXVI, Page-1889 to 1906)**
30.	Resolved that the recommendations of the Board of Studies of the Department of Geography dated 13.09.2021 and School Board of School of Basic Sciences dated 20.09.2021, for the scheme and syllabi of M.Sc. Geography programme in the Department of Geography, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXVII, Page-1907 to 1997)**
31.	Resolved that the recommendations of the Board of Studies of the Department of Mathematics dated 04.09.2021 and School Board of School of Basic Sciences dated 20.09.2021, for the scheme and syllabi of M.Sc. Mathematics programme in the Department of Mathematics, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXVIII, Page-1998 to 2180)**
32.	Resolved that the recommendations of the Board of Studies of the Department of Mathematics dated 04.09.2021 and School Board of School of Basic Sciences dated 20.09.2021, for the scheme of first three years and syllabi of first year of Integrated B.Sc.-M.Sc. programme in the Department of Mathematics, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXIX, Page-2181 to 2238)**
33.	The Council considered the request of Ms. Varsha (10909) a student of M.Sc. Mathematics (Batch 2017-19) for another chance to appear for Numerical Analysis (II Semester) end term examination and resolved to give her a Special Chance, keeping in view of hardship faced by her due to technical issues during the online examination. **Note:** Ms. Varsha (10909), student of M.Sc. Mathematics for the academic session 2017-19 appeared for Numerical Analysis (II Semester) end term exam thrice and was not able to clear the passing criteria. However, as per her representation, during the third attempt, which was conducted in online mode due to covid-19 pandemic, she was not able to complete her exam due to technical issue.
34.	Resolved that the recommendations of the Board of Studies of the Department of Physics and Astrophysics dated 08.09.2021 and School Board of School of Basic Sciences dated 20.09.2021, for the scheme and syllabi of M.Sc. Physics programme in the Department of Physics and Astrophysics,

	as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXX, Page-2239 to 2388)**
35.	Resolved that the recommendations of the Board of Studies of the Department of Physics and Astrophysics dated 08.09.2021 and School Board of School of Basic Sciences dated 20.09.2021, for the scheme of first three years and syllabi of first year of Integrated B.Sc.-M.Sc. programme in the Department of Physics and Astrophysics, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXXI, Page-2389 to 2423)**
36.	Resolved that the recommendations of the Board of Studies of the Department of Statistics dated 08.09.2021 and School Board of School of Basic Sciences dated 20.09.2021, for the scheme and syllabi of M.Sc. Statistics programme in the Department of Statistics, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXXII, Page-2424 to 2490)**
37.	Resolved that the recommendations of the Board of Studies of the Department of Electrical Engineering dated 26.08.2021 and School Board of School of Engineering and Technology dated 14.09.2021, for the scheme and syllabi of B.Tech. (Semester 7th & 8th) programme in the Department of Electrical Engineering w.e.f. the Academic Session-2021-22 (for 2018-19 admitted students), be approved. **(Annexure-XXXIII, Page-2491 to 2514)**
38.	Resolved that the recommendations of the Board of Studies of the Department of Civil Engineering dated 04.09.2021 and School Board of School of Engineering and Technology dated 14.09.2021, for the scheme and syllabi of B.Tech. (Semester 7th & 8th) programme in the Department of Civil Engineering w.e.f. the Academic Session-2021-22 (for 2018-19 admitted students), be approved. **(Annexure-XXXIV, Page-2515 to 2556)**
39.	Resolved that the recommendations of the Board of Studies of the Department of Computer Science and Engineering dated 02.09.2021 and School Board of School of Engineering and Technology dated 14.09.2021, for the scheme and syllabi of B.Tech. (Semester 7th & 8th) programme in the Department of Computer Science and Engineering w.e.f. the Academic Session-2021-22 (for 2018-19 admitted students), be approved. **(Annexure-XXXV, Page-2557 to 2600)**
40.	Resolved that the recommendations of the Board of Studies of the Department of Printing and Packaging Technology dated 27.08.2021 and School Board of School of Engineering and Technology dated 14.09.2021, for the scheme and syllabi of B.Tech. (Semester 7th & 8th) programme in the Department of Printing and Packaging Technology w.e.f. the Academic Session-2021-22 (for 2018-19 admitted students), be approved. **(Annexure-XXXVI, Page-2601 to 2629)**
41.	Resolved that the recommendations of the Board of Studies of the Department of Electrical Engineering dated 26.08.2021 and School Board of School of Engineering and Technology dated 14.09.2021, for the scheme and syllabi of M.Tech. (Energy Systems and Management) Programme in the Department of Electrical Engineering, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXXVII, Page-2630 to 2687)**
42.	Resolved that the recommendations of the Board of Studies of the Department of Civil Engineering dated 04.09.2021 and School Board of School of Engineering and Technology dated 14.09.2021, for the scheme and syllabi of M.Tech. (Structural Engineering) Programme in the Department of Civil Engineering, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXXVIII, Page-2688 to 2739)**

43. Resolved that the recommendations of the Board of Studies of the Department of Computer Science and Engineering dated 02.09.2021 and School Board of School of Engineering and Technology dated 14.09.2021, for the scheme and syllabi of M.Tech. (Computer Science and Engineering) Programme in the Department of Computer Science and Engineering, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XXXIX, Page-2740 to 2810)**

44. Resolved that the following amendments in the Admission rules of the University be approved and recommended to the Executive Council for consideration:

Existing Clause	Proposed Amendments
4. (c) Supernumerary seats: **(iv)** Two seats for the students of Jammu & Kashmir	**4. (c) Supernumerary seats:** (iv) Two seats for the wards of Kashmiri Migrants and Kashmiri Pandits/ Kashmiri Hindu families (Non-Migrants) living in the Kashmir Valley.

The Council further resolved that a proposal for providing supernumerary seats in admissions as mentioned as Sr. No- (v) and (vi) may be sent to University Grants Commissions for approval:

(v) Doesn't exist	(v) One seat in each programme (governed by UGC only) for the candidates who are bonafide residents of the Jant and Pali villages, Mahendergarh, Haryana.
(vi) Doesn't exist	(vi) One seat in each programme for the students who have lost their parents due to COVID-19 pandemic.

45. The Council deliberated upon the issue of reservation of PwD in Research Programmes in light of the observation/ recommendations given by the Chief Commissioner for Persons with Disabilities (Divyangjan), Department of Empowerment of Persons with Disabilities (Divyangjan), Ministry of Social Justice and Empowerment, Government of India, in Case No. 12793/1031/2021 titled Ms. Meena Kadian vs Central University of Haryana and resolved to Constitute a Committee to devise modalities for admissions in Ph.D. programme under PwD quota, in consonance with the observation/ recommendations given by the Chief Commissioner for Persons with Disabilities.
(Annexure-XL, Page-2811 to 2814)

REPORTING ITEMS

46. The action taken by the Vice-Chancellor in approving the starting of Ph.D. programme in the following Departments/Subjects, w.e.f. Academic Session 2021-22, was reported, recorded and confirmed:

a. English under School of Engineering and Technology (To be conducted under Department of English and Foreign Languages)
b. Management Studies under School of Engineering and Technology (To be conducted under Department of Management Studies)

Note: The Academic Council vide its Resolution No-17 of the 19th meeting held on 06.02.2016, authorised the Vice-Chancellor to approve starting of Ph.D. programmes.

47.	The action taken by the Vice-Chancellor in approving the Academic Calendars of the University for Academic Session-2021-22, was reported, recorded and confirmed: **(Annexure-XLI, Page-2815 to 2818)**
48.	The action taken by the Vice-Chancellor in condoning the delay in submission of Ph.D. thesis by Ms. Tushma Devi (Roll No-5055), a Research Scholar in the Department of Political Science, was reported, recorded and confirmed. **(Annexure-XLII, Page-2819)**
49.	The Action taken by the Vice-Chancellor in starting of the new programmes from the Academic Session-2021-22, in anticipation of the approval from the Academic Council, was reported, recorded and confirmed:

S.No.	Name of Programme	Name of Department	No. of Seats
1.	B.Sc. (Hons.) Psychology	Department of Psychology	30
2.	Integrated B.Sc.-M.Sc.	Department of Chemistry	30
3.	Integrated B.Sc.-M.Sc.	Department of Mathematics	30
4.	Integrated B.Sc.-M.Sc.	Department of Physics & Astrophysics	30
5.	M.Tech. (Energy Systems and Management)	Department of Electrical Engineering	18
6.	M.Tech. (Structural Engineering)	Department of Civil Engineering	18
7.	M.Tech. (Computer Science and Engineering)	Department of Computer Science and Engineering	18

50.	The receipt of NCTE letter No.F./NRC/NCTE/HR....-M.P.Ed./342nd (Virtual) meeting/2021/215597603 dated 16.09.2021, regarding approval of an Intake of 40 seats in the M.P.Ed. programme in the Central University of Haryana w.e.f. Academic Session-2021-22, was reported and recorded. **(Annexure-XLIII, Page-2820 to 2823)**
51.	The signing of Memorandum of Understanding (MoU) between Department of Printing and Packaging Technology under School of Engineering and Technology, CUH and Offset Printer's Association, 2051, B-XX, Gobind Nagar, Ludhiana, Punjab, was reported and recorded. **(Annexure-XLIV, Page-2824 to 2829)**
52.	The signing of Memorandum of Understanding (MoU) between Department of Electrical Engineering under School of Engineering and Technology, CUH and L&T Electrical and Automation, A-25, Mohan Cooperative, Mathura Road, Sarita Vihar, New Delhi, was reported and recorded. **(Annexure-XLV, Page-2830 to 2832)**
53.	The signing of Memorandum of Understanding (MoU) between Central University of Haryana and J.C. Bose University of Science and Technology, YMCA, Faridabad, was reported and recorded. **(Annexure-XLVI, Page-2833 to 2839)**
54.	The receipt of letter No. F.No.24-9/2021(CU) dated 16.09.2021 received from Under Secretary, UGC regarding CA/CS/ICWA qualification to be treated equivalent to PG Degree, was reported and recorded. **(Annexure-XLVII, Page-2840 to 2842)**
55.	The Agenda Item was withdrawn.

Supplementary Agenda Items	
ITEMS FOR CONSIDERATION	
56.	Resolved that the recommendations of the Board of Studies of the Department of Biochemistry dated 08-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the scheme and syllabi of M.Sc. (Biochemistry) programme in the Department of Biochemistry, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XLVIII, Page-2843 to 2900)**
57.	Resolved that the recommendations of the Board of Studies of the Department of Biochemistry dated 08-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the course work of the Ph.D. programme in the Department of Biochemistry, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-XLIX, Page-2901 to 2909)**
58.	Resolved that the recommendations of the Board of Studies of the Department of Biotechnology dated 01-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the scheme and syllabi of M.Sc. (Biotechnology) programme in the Department of Biotechnology, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-L, Page-2910 to 2993)**
59.	Resolved that the recommendations of the Board of Studies of the Department of Biotechnology dated 24-07-2020 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the course work of the Ph.D. programme in the Department of Biotechnology, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LI, Page-2994 to 3005)**
60.	Resolved that the recommendations of the Board of Studies of the Department of Environmental Studies dated 14-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the scheme and syllabi of M.Sc. programme in the Department of Environmental Studies, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LII, Page-3006 to 3080)**
61.	Resolved that the recommendations of the Board of Studies of the Department of Library and Information Science dated 03-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the scheme and syllabi of M.Lib.I.Sc. programme in the Department of Library and Information Science, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LIII, Page-3081 to 3168)**
62.	Resolved that the recommendations of the Board of Studies of the Department of Library and Information Science dated 03-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the course work of the Ph.D. programme in the Department of Library and Information Science, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LIV, Page-3169 to 3182)**
63.	Resolved that the recommendations of the Board of Studies of the Department of Microbiology dated 09-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the scheme and syllabi of M.Sc. programme in the Department of Microbiology, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LV, Page-3183 to 3239)**
64.	Resolved that the recommendations of the Board of Studies of the Department of Microbiology dated 09-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-

	2021, for the course work of the Ph.D. programme in the Department of Microbiology, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LVI, Page-3240 to 3253)**
65.	Resolved that the recommendations of the Board of Studies of the Department of Nutrition Biology dated 14-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the scheme and syllabi of M.Sc. programme in the Department of Nutrition Biology, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LVII, Page-3254 to 3310)**
66.	Resolved that the recommendations of the Board of Studies of the Department of Nutrition Biology dated 14-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the course work of the Ph.D. programme in the Department of Nutrition Biology, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LVIII, Page-3311 to 3323)**
67.	Resolved that the recommendations of the Board of Studies of the Department of Pharmaceutical Science dated 26-08-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the scheme and syllabi of M.Pharm (Pharmacology) programme in the Department of Pharmaceutical Sciences, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LIX, Page-3324 to 3349)**
68.	Resolved that the recommendations of the Board of Studies of the Department of Pharmaceutical Sciences dated 14-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the course work of the Ph.D. programme in the Department of Pharmaceutical Sciences, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LX, Page-3350 to 3363)**
69.	Resolved that the recommendations of the Board of Studies of the Department of Yoga dated 01-09-2021 and School Board of School of Interdisciplinary and Applied Sciences dated 07-10-2021, for the scheme and syllabi of M.Sc. programme in the Department of Yoga, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines, w.e.f. the Academic Session-2021-22, be approved. **(Annexure-LXI, Page-3364 to 3436)**
70.	Resolved that the guidelines for awarding 1-2 credits for SEVA/Service/Community Service programme in tune with the existing provisions of Swachh Bharat Summer Internship programme and scheme and syllabi of the proposed course, as proposed by the Committee, be approved. **(Annexure-LXII, Page-3437 to 3439)**
	REPORTING ITEMS
71.	The action taken by the Vice-Chancellor in approving the revised Fee Structure of Integrated/UG/PG/Ph.D. programmes, Instruction of Fee Payment, Other Fee Payable by the Students and Rules for the Refund of Fee, was reported, recorded and confirmed. **(Annexure-LXIII, Page-3440 to 3448)**
72.	The action taken by the Vice-Chancellor on 26.08.2021, in approving the starting of the M.Pharm. (Pharmacognosy) programme in the Department of Pharmaceutical Sciences, w.e.f the Academic Session 2022-23, was reported, recorded and confirmed. **(Annexure-LXIV, Page-3449)**
73.	The receipt of the "**UGC Guidelines on Examination and Academic Calendar in view of the COVID-19 Pandemic**" July, 2021, was reported and recorded. **(Annexure-LXV, Page-3450 to 3453)**

	Under Any other Item
74.	The Council authorized the Vice-Chancellor to approve the revised syllabi of the Departments, as per the Learning Outcome Based Curriculum Framework (LOCF) guidelines and the same be reported in the next meeting of the Academic Council.
75.	Resolved that the extension of the period of submission of Ph.D. thesis by Ms. Geeta Rani, a Research Scholar in the Department of Management Studies, be approved, as recommended by the DRC and School Board of the School of Business and Management Studies. **(Annexure-LXVI, Page-3454 to 3455)**
76.	The public Notice No. F.No.1-10/2020(CPP-II) dated 16.03.2021 and D.O.No.1-10/2020(CPP-II) dated 02.09.2021 issued by University Grants Commission regarding **"Extension of date for submission of thesis for terminal M.Phil./Ph.D. students"** was reported and recorded. **(Annexure-LXVII, Page-3456)**
77.	The signing of Memorandum of Understanding (MoU) between Central University of Haryana and Central University of Himachal Pradesh was reported and recorded. **(Annexure-LXVIII, Page-3457 to 3460)**
78.	The Council resolved that a seat under a supervisor be treated as vacant consequent upon submission of thesis by a registered Ph.D. student.
79.	The Council considered the request of Mr. Sudhir, for the continuation of the Ph.D. programme in the Department of Economics after his joining in the Department of Higher Education, Govt. of Haryana, as recommended by the Departmental Research Committee of the Department of Economics and School Board of School of Business and Management Studies and resolved that he may complete the rest of the residency period by taking leave from his Employer. **(Annexure-LXIX, Page-3461 to 3462)**
80.	The Agenda related to change in title of research work of a Ph.D. student, namely, Mr. Ankush in the Department of Biotechnology was put before the Council. In this regard, Head, Department of Biotechnology informed that the matter is being dealt at Departmental level and will be resolved at the earliest.
The meeting ended with a vote of thanks to the chair.

ACTION TAKEN REPORT

32nd Meeting of the Academic Council held on 23/04/2021

R.No.	Resolution Passed	Action Taken
1.	The Minutes of the 31st meeting of the Academic Council held on 08-10-2020, were confirmed.	Noted
2.	The action taken on the resolutions of the 31st meeting of the Academic Council held on 08.10.2020, were reported, recorded and confirmed.	Noted
ITEMS FOR CONSIDERATION		
3.	Resolved that the National Education Policy-2020 notified by the Ministry of Education, Government of India, be adopted.	Noted
4.	Resolved that the implementation plan for National Education Policy-2020, be approved.	Noted
5.	Resolved that the following amendments to Ordinance-II (A) Degree of Doctor of Philosophy (Ph.D.) of the University, in light of the comments received from Ministry of Education vide letter F.No. 58-6/2018-CU.III dated 17.03.2021, be approved and recommended to Executive Council for consideration: **XXXX XXXX XXXX XXXX**	The amendments in Ordinance-II (A); in consonance with the MoE instructions are listed in the main Agenda of the current meeting of the Academic Council.
6.	Resolved that the recommendations of the Board of Studies of the Department of Mathematics dated 09.09.2020 & 19.11.2020 and School Board of School of Basic Sciences dated 14.12.2020, for the scheme and syllabi of course work for Ph.D. programme in the Department of Mathematics, w.e.f. the Academic Session-2020-21, be approved.	Implemented
7.	Resolved that the recommendations of the Board of Studies of the Department of Computer Science and Information Technology dated 02.09.2020 and School Board of School of Basic Sciences dated 14.12.2020, for the scheme and syllabi of course work for Master of Computer Applications (MCA) programme in the Department of Computer Science and Information Technology, w.e.f. the Academic Session-2020-21, be approved.	Implemented
8.	Resolved that the recommendations of Board of Studies, School of Education dated 18.02.2021 and School Board of School of Education dated 09.03.2021, for the Scheme and Syllabus of Semester-II, M.Ed. Programme in the School of Education, w.e.f. Academic Session 2020-2021, be approved.	Implemented
9.	Resolved that the recommendations of Board of Studies, School of Education dated 18.02.2021 and School Board of School of Education dated 09.03.2021, for the Scheme and Syllabus of	Implemented

	Semester-II, B.Ed. Programme in the School of Education, w.e.f. Academic Session 2020-2021, be approved.	
10.	Resolved that the recommendations of Board of Studies of the Department of Vocational Studies and Skill Development dated 13-10-2020, for the Scheme and Syllabus of B.Voc. Biomedical Sciences Programme in the Department of Vocational Studies and Skill Development, w.e.f. Academic Session 2021-2022, be approved.	Implemented
11.	The Council considered the application of Mr Anil Kumar (Roll No-180648) a student of M.Sc. (Statistics) regarding Mercy/Special Chance to appear in Examination of Course "Distribution Theory" of 1st Semester and resolved that he may be given a Mercy/ Special Chance taking into consideration the internet connectivity issues and present COVID-19 pandemic situation.	Resolution sent to concerned Department for further necessary action.
12.	The Council considered the application of Ms. Chetna Singh Meena (Roll No-180617) a student of M.Sc. (Physics) regarding Mercy/Special Chance to appear in Examination of Course "Electronics" and resolved that he may be given a Mercy/ Special Chance taking into consideration the internet connectivity issues and present COVID-19 pandemic situation.	Resolution sent to concerned Department for further necessary action

PREAMBLE

In November, 2016, All India Council of Technical Education (AICTE) released a Startup Policy document for AICTE approved institutions, to address the need of inculcation of innovation and entrepreneurial culture in higher education institutions (HEIs). The policy primarily focused on guiding the AICTE approved institutions in implementing 'Startup Action Plan' of Government of India. Subsequent to release of the Startup policy by AICTE and further interaction & feedback received from education institutions, a need was felt for a more elaborate and comprehensive policy guiding document, which could be applicable for all the HEIs in India.

A fifteen membered committee was constituted by Ministry of Human Resource Development to formulate detailed guidelines for various aspects related to innovation, Startup and entrepreneurship management. This committee deliberated on various facets for nurturing the innovation and Startup culture in HEIs, which covered Intellectual Property ownership, revenue sharing mechanisms, norms for technology transfer and commercialization, equity sharing, etc. After multiple rounds of meetings, National Innovation and Startup Policy , 2019 for students and faculties of HEIs was prepared.

In order to achieve the desired objectives of National Innovation and Start up policy, 2019, there is a need to draft a policy at the level of Higher Education Institutions. Hence, a policy titled as Draft Policy on Innovation and Startup Policy, CUH, 2021 has been prepared.

NEED OF POLICY

India aspires to become 5 trillion-dollar economy by 2024. To reach the mark, it needs to evolve systems and mechanisms to convert the present demographic dividend into high quality technical human resource capable of doing cutting edge research and innovation and deep-tech entrepreneurship.

The 'National Student and Faculty Startup policy, 2019' for HEIs is a guiding framework to envision an educational system oriented towards start ups and entrepreneurship opportunities for student and faculties. The guidelines provide ways to Indian HEIs for developing entrepreneurial agenda, managing Intellectual Property Rights (IPR) ownership, technology licensing and equity sharing in Startups or enterprises established by faculty and students.

In India, innovation is still not the epicenter of education. In order to achieve the cultural and attitudinal shift and to ensure that 'Innovation and Startup' culture is the primary fulcrum of our higher education system, a policy framework and guidelines are the need of this hour. These guidelines will enable **Central University of Haryana (CUH)** to actively support their faculty, staff and students to participate in innovation and entrepreneurship (I&E) related activities, thus encouraging students and faculty to consider start ups and entrepreneurship as a career option.

Central University of Haryana is situated in the remote area of Haryana. For creating new opportunities, to uplift the living standard of local villagers, and to bring the local technologies related to food items, agriculture, science and many more on the world map, decided to create innovation and startup policy.

Based on recommendation made by MHRD's National Innovation and Star up policy, 2019 for students and faculty, a Start up Policy for Central University of Haryana, Mahendergarh has been formulated.

This policy document provides guidelines to actively support, faculty members and students to participate in Innovation and Entrepreneurship (I & E) activities. This policy document will also evolve with time and adopt best practices to facilitate Innovation and Entrepreneurship.

DEFINITIONS:

"CUH" shall mean " Central University of Haryana"

"Policy" shall mean " Innovation and Start up Policy"

"Faculty Member" shall mean "a Regular faculty member of Central University of Haryana"

"**Student**" shall mean a "Full-time studying at Central University of Haryana"

" Member" shall mean shall mean any permanent faculty member of the university , research associates, post-doctoral fellows and students during active registration.

"Startup" shall mean entity that develops a business model based on either product innovation or service innovation and makes it scalable, replicable and self-reliant as defined in Gazette Notification No. G.S.R. 127(E) dated February 19, 2019 or as per the prevailing notifications of the Government of India issued from time to time.

Guidelines Regarding Faculty, Staff, Research Scholars and Students in Startups

Universities throughout the world encourage and enable their faculty members, researchers and students to involve in startups in various capacities in professional employment with the university/institute. Such measures encourage translation of inventions and innovations into commercial products for the larger good of the society. In many instances, such startups are often established in campuses of universities/research institutions due to their special needs and resource requirements such as; domain expertise, specialized facilities and knowhow. Faculty members and students at **CUH** too are motivated and are encouraged continuously who are engaged in several cutting-edge research areas. However, most of these research outcomes may/may not get translated into commercial products, benefiting the society in general, due to one or the other reason. To promote entrepreneurship among faculty members, CUH in line with the best practices of other institutes of higher learning across the world, encourages faculty members and students to undertake entrepreneurship-related activities. The objective of supporting entrepreneurship is to encourage participation of faculty members and students in commercial ventures, companies or similar entities with equity participation as an additional dimension to their existing roles as faculty members or students. CUH encourages its faculty members and students to engage in businesses that are direct results of the research activities at CUH, be on the board of such companies in the capacities of Director, Chairperson, Promoter or any role of similar nature. The overall goal of implementing this Policy is to encourage entrepreneurship at CUH and to link innovation to enterprises to financial success.

With a view to permit and enable the faculty members, research scholars and students to set up and involve in startups set up both at the campus as well as outside the campus, CUH may consider the following guidelines for the same:

Guidelines for Faculty Members:

- Any regular faculty member will be permitted to involve with startups either on a full- or part-time basis as owner/direct promoter/mentor/consultant/on-board member.

- Respective faculty member will be permitted to use specified physical and/or intellectual resources (e.g. laboratory and workshop equipment, laboratory instrument, IT resources).

- The startup formed by the faculty member/staff /student would be promoted at the individuals level as well as University level (Permitted to exhibit at social media).

- It has also to be ensured that no reputational, financial or any other liabilities accrue to CUH.

- Participation in startup related activities will be considered as a legitimate activity of faculty members in addition to teaching, conducting research, guiding researchers, providing industrial consultancy and completing management duties. The same will be considered while evaluating the annual performance of faculty members. Each faculty member is encouraged to mentor at least one startup.

- The faculty member has to take prior permission from the Institute before associating with any business venture or starting a new venture, through a proper application process (Permission on prescribed application/Performa).

- The CUH Member should take all possible steps to ensure that his/her duties and responsibilities as a member of CUH take precedence over all other activities regardless of the nature of his/her engagement with the startup. CUH responsibilities should be on first priority.

- Investment in the entrepreneurial activities may be a part of the institutional financial strategy. Adequate percentage of funds of the total annual budget of the institution may be allocated (As per National Innovation and Startup Policy) for funding and supporting innovation and startups related activities through creation of separate 'Innovation fund'.

- Competent authority may allow faculty member duty leave for taking entrepreneurship training and hand on experience of product development in other institutes..

- In addition to minimum required teaching and guidance respective faculty are evaluated accordingly for their performance and promotion.

- Faculty may be given reward e.g. office space, lab space, reduced teaching load, awards for enhancing startup activities.

- University may start **'Innovation & Entrepreneurship Award'** to recognize outstanding ideas, successful enterprises and contributors for promoting innovation and enterprises ecosystem within the institute.

Guidelines for Research Scholar/ Students

- An CUH Research Scholar/Student/Project fellow can join Startup with prior permission from the competent authorities of CUH for a startup on a part-time basis. An appreciation certificate will be provided as per their contribution in Startup/Innovation Project.

- Weather a research scholar/student initiate or join a startup will have to satisfy all norms including attendance for his/her program of study in order to earn a degree and no relaxation can be given on the basis that research scholar/student is involved in Startup.

- CUH can extend on case to case basis this startup facility to alumni of CUH.

- If a research scholar/student want to initiate a new startup, then he/she must apply for approval from competent authority and the startup must enter into an agreement with CUH. Such an agreement should establish the mode of engagement of the research scholar/student with startup besides including CUH technology/intellectual property being licensed to the startup.

General Guidelines:

- In the event the startup or company uses any "know-how" for business purpose, which has not been secured through any IP registration application, the faculty member has to disclose the source and origin of such "know-how".

- In case the startup or company to which the IP has been licensed to further sublicenses the same to any other entity, then the licensing revenue generated by the said company will be distributed among the inventors and CUH as per the extant IPR Policy of the Institute.

- The startup or company may be permitted to use the laboratory and other such facilities to which the founding faculty member(s) is/are entitled and allowed with a clearly defined conflict of interest policy. The company may also use other facilities of the Institute on payment basis as per prevailing norms. In addition, to ensure safety and security of all concerned, all compliances and procedures for laboratory usage should be strictly adhered to.

- Care must be taken to clearly separate the personal financial aspects of the entrepreneurial activities of faculty members, research scholars and students from their respective roles, duties and responsibilities at CUH and should be consistent with the value system of CUH. Similarly, the use of CUH facilities and equipment must be free from unauthorized and conflicting uses and must be suitably compensated for as per the policies of CUH. Appropriate judgement should be applied by all concerned parties, the faculty members, research scholars, students, CUH employees and associates besides the incubated startups, their promoters, employees and staff.

- Following guidelines are suggested for CUH members:
    i. Obtaining appropriate approvals in advance
    ii. Disclosure of conflict intersts/situations
    iii. Abstain from participating in a decision-making process involving such situations
    iv. Immediate reporting of the breach of policy
    v. Disputes should be reported to the appropriate notified authorities of CUH.

Jurisdiction Regarding Dispute Resolution:

- The Vice Chancellor, Central University of Haryana will be Competent Administrative Authority to decide any dispute related to Startup. The decisions of Vice Chancellor shall be final.

  Further, the judicial jurisdiction will be of the courts situated at Mahendergarh/Narnoul and Punjab & Haryana High court, Chandigarh.

Annexure – B

CENTRAL UNIVERSITY OF HARYANA

Minutes of meeting committee constituted for drafting guidelines for Innnovation and Startup Projects

Dated: 29-04-2021

An University level meeting of the members of committee constituted **(CUH/2021/Est. Sec.(T)/298 dated 25-03-2021)** by Hon'ble Vice Chancellor for drafting the policy for Innovation and Startup projects to be initiated/executed by Faculty/Staff/Research Scholars/Students, held on 27-04-2021 at 2:30 PM in the office of Head, Department of Law, Central University of Haryana. The meeting was attended by the following members via online mode.

1. Prof. Asha Kawatra -Chairperson
2. Prof. Rajesh Malik -Member
3. Prof. Neelam Sangwan -Member
4. Dr. Vikas Garg -Member
5. Dr. Suneel Kumar -Convener

Following issues were discussed in the meeting

1. Prof. Rajesh Malik, welcome the committee member and apprise them for the requirement of policy for Innovation and Startup projects at Central University of Haryana.

2. Dr. Suneel Kumar gave the detailed explanation about the draft of policy. He mentioned that while framing the policy, the guidelines issued by MHRD in 2019 (*National INNOVATION and STARTUP Policy 2019 for Students and Faculty*) were kept in mind. Also guidelines released by other reputed institutes/Universities have been studied.

3. Members of the committee interacted and gave thorough discussion on various pointes. Various issues related to policy were elaborated and corrections were suggested that are required to be incorporated in the present version of policy.

4. It was resolved that discussion will be made again after corrections in the present draft.

Meeting end with vote of thanks

Prof. Asha Kawatra

Prof. Rajesh Malik

	Moderators, Paper Setters, and Examiners for Theory & Practical examination of 1st and 3rd Semester, B.Ed. and M.Ed. programme for the academic session 2020-2021. **(Annexure-VII)**
08	**To consider the case of Rahul Yadav for the continuation of Ph.D. programme.**
	Mr. Rahul Yadav has submitted the NOC from the department where he is presently joined and a letter of self-declaration mentioning that after getting permission from the School of Education, Central University of Haryana; he will join the rest of the residency period by taking leave without pay from his department. The members of BOS discussed the case of Rahul Yadav and considered that keeping in view the academic career of the student, a chance may be given to Rahul Yadav to complete the rest of the residency period as the essential requirement of the Ph.D. Programme as per the recommendation of DRC held on 06.09.2021. Further the members of the BOS are of the view that the case may be forward to the School Board and then to the Academic Council for further necessary action in this regard. The copy of ordinance, NOC and request letter are attached as Annexure **(Annexure VIII)**
09	**Any other items, with the permission of Chairperson**
	Nil

The meeting ended with a vote of thanks to the chair.

Year	II	Assessment for Learning	Course Credit	4
Semester	IV		Course code	SOE 02 04 15 C3104
Learning Outcomes	At the end of the course, the students will be able to: ● Elaborate the fundamentals of evaluation in education. ● Characterize the domains of knowledge and formulate instructional objectives and construct achievement test. ● Estimate characteristics of a good test. ● Appraise realistic, comprehensive and dynamic procedures of assessment. ● Judge the various assessment tools and trends of evaluation in education. ● Employ statistical techniques to analyse data and interpret results of the assessment.			
Course Content				
Unit -1	**An Overview of Evaluation in Education**			
	● Clarifying the terms: Test, Examination, Measurement, Assessment and Evaluation ● Functions and Principles of Evaluation ● Types of Evaluation: Placement, Diagnostic, Formative and Summative ● Continuous and Comprehensive Assessment: Concept, Nature and Process			
Unit -2	**Assessment Tools**			
	● Assessment of Cognitive, Affective and Psychomotor domains of learning (Revised taxonomy of objectives). ● Characteristic of a Good Test: Reliability, Validity, Objectivity and Usability (only concept and use). ● Different kinds of tools: Project, Assignment, Observation &Kinds of Tests- Written and Oral ● Feedback – Concept and Purposes			
Unit -3	**Trends and Issues in Assessment for Learning**			
	● Reporting students' performance: Progress Report, Anecdotal Records, Cumulative Record, Constructing portfolios			

	● Existing practices: Unit test, Half-yearly and Annual examinations, Semester System ● Issues and Problems: Marking Vs. Grading, Credit System, Online Examination, Open Book Examination, Menace of Coaching
Unit -4	**Application of Statistics**
	● Measures of Central Tendency: Mean, Median, Mode – their uses and limitations. ● Measures of Variability: Range, Average Deviation, Quartile Deviation, Standard Deviation – their uses and limitations. ● Percentile and Percentile Rank ● Correlation: Meaning, uses & calculation of correlation of coefficients by Rank Difference and Product Moment Methods. ● Concept and Properties of Normal Probability Curve
Transaction Strategies	Lecture cum Discussion Method, Use of PPT, and Assignments on various topics and their presentation. Continuous practice of the computations of various statistical techniques, Group discussion, Panel discussion and Brainstorming Sessions will be encouraged.

Practicum:

- Preparation of Students' Portfolio
- Designing of Feedback Performa
- Constructing an Achievement Test of any School Subject
- Collection of Examination Marks of examination of students and apply different statistical techniques to analyze data

Year	II	Curriculum Transaction	Course Credits	4
Semester	IV		Course code	SOE 02 04 16 C3104

Learning Outcomes	At the end of the course, the students will be able to: • describe the concept of curriculum and compare various curriculums. • appraise the recommendation of NCF 2005 and NCFTE2009. • criticize various models of curriculum development and implementation. • outline the various factors affecting curriculum transaction and make use of various approaches of curriculum transaction. • appraise the importance of curriculum evaluation and select the sources of curriculum evaluation. • classify contents, analyse and review the contents.
Course Content	
Unit -1	**Foundations of Curriculum Development**
	• Curriculum Development: Concept, Significance and Principles • Foundations of the Curriculum: Philosophical, Sociological, Psychological, and Historical. • Types of Curriculum with special reference to Child-centred curriculum, Subject centred curriculum, Activity curriculum and Hidden Curriculum • Curriculum organization: Horizontal & Vertical
Unit -2	**Curriculum Framework & Models of Curriculum**
	• NCF 2005 and NCFTE 2009: Recommendations on Curriculum • Models of Curriculum Development - Tylor's Model and Hilda Taba's Model • Concept and Nature of Curriculum Implementation • Curriculum Implementation Models: ORC Model and Organizational-Development Model
Unit -3	**Curriculum Transaction**

	• Concept and Factors affecting Curriculum Transaction • Modes of Curriculum Transaction • Approaches for Curriculum Transaction: Collaborative Learning, Cooperative Learning, Team Teaching • Role of different agents in curriculum transaction: Principal & Teachers
Unit -4	**Curriculum Evaluation**
	• Curriculum Evaluation: Concept, Need and Importance • Sources of Curriculum Evaluation • Types of Curriculum Evaluation: Formative and Summative • Content Analysis
Transaction Strategies	Lecture cum Discussion Method, Assignments on various topics, PPT presentation followed by Discussion, Chart preparation on various Models of Curriculum Development, Group Discussion and Panel Discussion on various aspects of Curriculum Development and Transaction, Reviewing B.Ed. curriculum.

Practicum:

- Critical review of any one curriculum framework: NCF, 2005 or NCFTE, 2009
- Practice of Team-Teaching Approach
- Book Review
- Content Analysis of a School Textbook

Suggested Readings:

- Aggrawal, J.C. & Gupta, S. (2005). *Curriculum development.* New Delhi: Shipra Publisher.

Year	II	Comparative Education	Course Credits	4
Semester	IV		Course code	SOE020413 DCEC3104

Learning Outcomes

At the end of the course, the students will be able to:

- acquaint with the concepts of comparative education.
- understand history and developmental stages of comparative education.
- familiar with educational systems in terms of factors and approaches of comparative education.
- acquaint with the efficiency of educational systems of various countries in terms of prevailing trends.
- create a perspective about the implications of educational policies and problems in India.
- acquaint with the concept of primary, secondary and higher education and its implication in India, U.K. and U.S.A.

Course Content

Unit -1 **Conceptual Understanding of Comparative Education**

- Concept of Comparative Education: History and developmental stages of Comparative Education
- Aims of Comparative Education
- Need and scope of Comparative Education
- Approaches to Comparative Education: Historical, Philosophical, Sociological and Problem Approach
- Factors affecting of education system

Unit -2 **Primary/Elementary Education in India, U.K. and U.S.A.**

- Concept, Origin and development of primary education in India, U.K. and U.S.A.
- Primary education- aims, features, Content, methods & instruction and evaluation system in India, U.S.A. and U.K.
- Concept of Universalization of Elementary education in India and its implications.
- Comparison of Primary education of India with U.K. and U.S.A.

Unit -3 **Secondary Education in India, U.K. and U.S.A.**

- Secondary education : Concept, meaning ,Structure ,need and importance

	• Secondary education in India, U.K. and U.S.A. (Aims, Salient features, Content, Methods & Instruction and Evaluation System) • Problems of Secondary education in India
Unit -4	**Higher Education in India, U.K. and U.S.A.**
	• Higher education- meaning, aims, features, Content, methods & instruction and evaluation system in India, U.S.A. and U.K. • Comparison of higher education of India with U.K. and U.S.A. • Defects of the prevalent system of higher education in India • Distance education: its needs and various concepts with reference to India, U.K. and U.S.A.
Transaction Strategies	Lecture cum discussion, use of PPT, assignments on various topics, Lecture cum demonstration, ask pupil teachers to prepare write up on various factors influencing of education system and Comparative Education, debate on aims, content, methods & instruction and evaluation system in India, U.K. and U.S.A., chart preparation on education system in India, U.K. and U.S.A., In depth analysis of various education system by the student teachers and presentations will be encouraged.

Practicum:

- Write up on various factors influencing of education system.
- Chart preparation on education system in India.
- Reflections on secondary and higher education in India, U.K. and U.S.A.

Year	II	Educational Management and Leadership	Course Credits	4
Semester	IV		Course code	SOE 02 04 06 GEC 3104
Learning Outcomes	At the end of the course, the students will be able to: ● understand the concepts of educational management and leadership. ● develop awareness of various functions of educational management. ● understand various styles of leadership. ● develop some leadership qualities in themselves. ● develop some leadership qualities in themselves. ● understand educational administration in India at local, state and central level.			
Course Content				
Unit -1	**Educational Management: Conceptual Understanding** ● Meaning, Concept, Needs of Educational Management ● Objectives & Scope of Educational Management ● Educational Manager: Functions and Roles ● Professional Ethics			
Unit -2	**School Management and Communication** ● Role and functions of Headmaster/ Principal/ Teacher ● Process, Human Relations Approach to Management. ● Types of Communication ● Barriers of Communication			
Unit -3	**Leadership: traits and skills** ● Meaning and Concept of Leadership ● Difference between Leader and Manager			

	• Leadership Traits and Skills • Functions and Styles of Leadership
Unit -4	**Educational Administrative Bodies in India at National Level: Role & Functions**
	• University Grant Commission (UGC) • National Council of Educational Research and Training (NCERT) • National Institute of Educational Planning and Administration (NIEPA) • Ministry of Human Resource Development (MHRD) • National Council for Teacher Education (NCTE)
Transaction Strategies	Lectures, field visits to various educational institutions, case studies, assignments, discussions etc.

Practicum:

- Compile articles from newspapers, magazines, and internet discussing present policies and operational strategies of central and state Govt. for secondary education. Prepare a report of entire activity.
- Review research on educational management or management of secondary schools which are used in other countries but not in India.
- Evaluation of management of SSA activities in a district.
- Collect data from relevant sources on student &teachers' ratio for secondary level school of your district. Is it according to provision of RTE act? Prepare a report and send it to authorities.
- Examine the effectiveness of any one programme run by central Govt. for secondary students. Present the report in a classroom seminar.

Year	II	Peace Education	Course Credits	4
Semester	IV		Course code	SOE 02 04 07 GEC 3104
Learning Outcomes	At the end of the course, the students will be able to: ● explain the need and importance of peace. ● understand various methods, techniques and approaches of Peace development. ● know the different approaches of peace. ● develop personal initiative and resources for the pursuit and Promotion of peace. ● manage conflict in personal and professional life. ● understand the importance of 'livein harmony'.			
Course Content				
Unit -1	**Concept of Peace** ● Concept and importance of Peace ● Gandhian Concept of Peace ● Gandhiji's contributions to peace movement ● Different Approaches of Peace			
Unit -2	**Peace Education** ● Peace Education: Concept and Scope ● Nature of Peace Education ● Aim and objectives of Peace Education ● Organizations involved in promoting peace Education (UNO, UNESCO)			
Unit -3	**Peace and Conflict** ● Conflict: Meaning and characteristics ● Types of Conflict			

	• Process of Conflict • Peace and Conflict Management
Unit -4	**Pedagogy of Peace Education**
	• Approaches and Techniques for PeaceEducation: - Roll Playing, value-based Storytelling • Group activities (literary activities, games and sports, service activities) • Counselling, organizing value based co-curricular activities
Transaction Strategies	Lecture cum discussion, Tutorials, Brainstorming Session, Use of PPTs, Assignments on different key areas of Peace related issues.

Practicum:

- Seminar and group discussion on importance peace in the class.
- Chart preparation on various Peace Education.
- Reflection on various conflicts in day-to-day life.
- Organize mock activities on working of UNO for Peace Education.

Suggested Readings:

- Arulsamy, S. (2016). *Peace and value education.*New Delhi: Neelkamal Publication.
- Barash, P. David (2000). A*pproaches to peace*. New York: Oxford University Press.

SEMESTER-III

M.Ed.

Year	II	TEACHER EDUCATION	Credits	4
Semester	III		Course code	SOE 01 03 12 C 3104
Learning Outcomes	**After the completion of this course the students will be able to:** ● Explain the Concept, Need and Importance and development of Teacher Education. ● Understand the structure, Curriculum and Modes of Pre-Service Teacher Education ● Exhibit the various components of Professional Growth of Teachers. ● Reflect on various Agencies of Teacher Education and categorise various Challenges in teaching profession			
Course Content				
Unit-1	**Introduction to Teacher Education** ● Meaning, Nature and Scope of Teacher Education; Types of Teacher Education Programs. (ONLINE) ● Committees and Commissions contribution to Teacher Education: Kothari Commission Report (1964-66), NCF (2005) and NCFTE (2009), Justice Verma Commission Report (2012). (Both NEP and Online)			
Unit-2	**Structure, Curriculum and Modes of Pre-Service Teacher Education** ● Pre- Service Teacher Education: Concept, Nature, Objectives at different levels. (online) ● Components of Pre-Service Teacher Education: Foundation Courses, Subject Specialization and Pedagogy, School based Practicum and Internship. ● Reflective Teaching and Strategies for promoting reflective teaching.			

Unit-3	**Structure and Modes of In-service Teacher Education** ● In-service Teacher Education; concept, Need, Objectives and areas of Professional development. ● **Types of In-Service courses for Teachers; Orientation and refresher Courses, workshops, seminars, Internship and Summer Institutes. (online)** ● Modes of In-service teacher education; Induction, Cascade, School based, Face to face, Distance and online mode.
Unit-4	**Teaching as a Profession, Agencies of Teacher Education** ● **Agencies of Teacher Education and their functions: DIET, SCERT, NCERT, NCTE.(Both online and NEP)** ● Profession and Professionalism, Teaching as a profession, Professional ethics of a teacher. ● Challenges of teacher education in the 21st Century.
Teaching learning process/Transaction Strategies	Lecture cum Discussion, Debates, illustrations, presentations, Projects Method, E-learning, assignments on different key areas, panel discussion, brainstorming sessions.
Field Trip:	DIET/SCERT/NCERT
Practicum (Assignment on any one of the following):	● Prepare a report on the role of various central and state agencies in Teacher Education. ● Visit DIET/SCERT/NCERT and prepare a note on its functions. ● Attend any program related to in-service teacher education programs and write a report on it.

Year	II	Internship	Credits	4
Semester	III		Course code	SOE 01 03 14 C0044
Learning Outcomes	**After the completion of this course, the students will be able to:** ● Develop nuanced understanding of pedagogical practices and programme structures in institutes and other sites. ● Understanding about children's thinking and learning processes, and their relationships. ● Refine skills of interpersonal interactions with young children. ● Critically reflect upon the field experiences and link them with theoretical constructs.			
Course Content				
Brief description of internship:	Internship have been designed to deepen students' engagement with education as praxis and to develop professionals who understand the interrelationship between the theory and practice in the 'field' which includes development sector, state functionaries, centrally sponsored schemes and initiatives among others. During this field attachment, students will be placed at a field site for three weeks. This prolonged engagement will enable students to gain an "insider-outsider" perspective to the field and critically engage with questions around equity, quality and social justice related to learning and development of young children.			
Assessment Details: **Suggested Internship activities**	**Concerned supervisor will evaluate the internship activities of students. The activities will depend upon the situation of COVID-19. If a normal situation prevails then students will do internships related to teacher training institutes. Otherwise students will do online internship activities.** 1. Collaborative small projects in community 2. Action Research 3. Study of one Moodle/ LMS 4. One course of their interest on swayam 5. preparing small module related to their subjects 6. Observation of B. Ed Plan 7. Interview of teachers working in schools 8. Webinar			

	9. Content review of website 10. Attend live lectures on facebook or any other social media 11. Video analysis of NCERT of content 12. Analysis of website of innovative schools- Doon School, Digenter, Rishi Valley- Compulsory 13. Challenges and Opportunity in COVID-19- interview of 5 people 14. Video presentation – on any relevant topic of teacher education 15. Challenges and Opportunity in COVID-19- for study- interview of 5 students of schools/university

Year	II	Dissertation Part-II	Credits	4
Semester	III		Course code	SOE 01 03 15 C0044
Learning Outcomes		**After the completion of this course, the students will be able to:** ● Critically read, understand and evaluate the latest literature and research process ● Exhibit skills for selecting appropriate research methods ● Demonstrate a comprehensive understanding of techniques critical to scholarship in the field ● Communicate clearly and effectively to specialist and non-specialist research		

ELECTIVE COURSES

Year	II	INSTITUTIONS, SYSTEMS AND STRUCTURES	Credits	4
Semester	III	(ELEMENTARY LEVEL)	Course code	SOE01 03 08 DCEC 2002
Learning Outcomes		**After completion of the course, students will be able to:** ● Explain the role of various institutions and institutional planning in education at the elementary stage ● Reflection on the recommendations of various commissions and committees.		
Course Content				
Unit-1		**Introduction: Elementary Education** ● Indigenous system of Elementary Education, Objectives of Elementary Education ● Recommendations of various committees and commissions: Secondary Education Commission, Kothari commission, NPE – '1986, POA 92, Rama Murthy Committee, Yashpal, Committee and NCF-2005., NEP 2020: Pedagogical and curricular structuring (online & NEP)		
Unit-2		**Educational Management and Institutional planning at Elementary level** ● National Level , State Level and District Level Ministry of Education (MoE) CABE-NCERT-RIE NIEPA, NCTE, CIET State Level and District Level : Ministry of School Education ii. Directorate of School Education iii. Board of Education iv. SCERT – SSA – SIET – SRC – SIEMAT ,District Education Administration –DEO, Dy. DPO (SSA) . ● Concept, scope and nature of Institution Planning ,Need and importance of Institution Planning Types of Institution Planning (online)		
Teaching learning process/Transaction Strategies		Lecture cum discussion, Use of PPT, Assignments on various topics, Lecture cum demonstration, In depth analysis of various education commissions, debate on elementary Education.		

Practicum	• Conduct a play to illustrate recommendations of various committees on elementary education. • Organize a Seminar on indigenous system of elementary education. • Visit any two schools and find out innovative teachers. Prepare a detailed report on their innovation. • Prepare a yearly plan for school after reviewing all the activities of the school. • Design an instructional plan of a unit in a subject at elementary level.

Generic Elective Course (GEC)

<table>
<tr><td>Year</td><td>II</td><td rowspan="2">ART OF TEACHING</td><td>Credits</td><td>4</td></tr>
<tr><td>Semester</td><td>III</td><td>Course code</td><td>SOE010304GEC3014</td></tr>
<tr><td colspan="2">Learning Outcomes</td><td colspan="3">After completion of the course, students will be able to:

● Understand the concept, principles, maxims of teaching and factors influence the teaching- learning process.
● Acquainted with the concept of communication process and its elements, types and barriers
● Understand the techniques and practices used to improve teaching learning process.
● Gain knowledge of various teaching aids and also their significance in transaction of the relevant content.
● Comprehend the characteristics of an effective teacher and realize teaching as a profession.</td></tr>
<tr><td colspan="5">Course Content</td></tr>
<tr><td colspan="2">Unit-1</td><td colspan="3"><u>Understanding of Teaching - Learning Process</u>

● Teaching: Concept, principles, types, and maxims of teaching
● Learning: Concept, and prerequisite relationship of Teaching-Learning and Characteristics of Teaching
● Characteristics of Learning and Factors influencing Teaching & Learning
● Phases of Teaching</td></tr>
<tr><td colspan="2">Unit-2</td><td colspan="3"><u>Communication</u>

● Communication: Meaning and Concept
● Elements of Communication
● Process of Communication
● Types of Communication: Verbal Communication & Non-verbal Communication, Interpersonal, Intra-personal communication, Group and Mass, etc.
● General barriers to Communication
● Ways and means of developing communication</td></tr>
</table>

Unit-3	**Techniques and Practices of Teaching** ● Motivation: Concept and its need and Importance and Types ● Ways and Techniques of Enhancing Learner's Motivation ● Role of Motivation in Teaching – Learning Process ● Micro Teaching: Concept, Objectives, and its need and Importance ● Preparation of lesson plan, and Practices of Skills (Skill of Questioning, and Explanation). ● Need and importance of Aids and its types ● Preparation and use of Teaching aids, Traditional: Black Board, Charts, Models, etc. ● Modern Teaching Aids: ICT, web and video conferences, Power Point Presentation, Presentation Tube, etc. ● Preparation and Presentation of Teaching aids (Practical)
Unit-4	**Teaching as a Profession** ● Teaching as a Profession; Characteristics of an effective teacher () ● Role, Accountabilities and Ethics of a teacher towards teaching Profession ● Approaches of Teaching: Learner centered and teacher centered, various methods and techniques employed in teaching (Group discussion; Brain storming, Collaborative and cooperative teaching, etc.) ● Classroom Management: Teacher as Facilitator (Heterogeneous classroom, Styles of learning, etc.)
Teaching learning process/Transaction Strategies	The content of the course would be transacted through lectures, group discussion, self-study, and seminar/presentations by students.
Practicum	**Each student has to undertake the following activities:** ● Preparation of Teaching aids ● Preparing a lesson plan on any topic and also presented in the class ● Preparation and Presentation of Micro lessons under certain skills ● Group Discussion and seminars presentation through collaboratively

Year	**II**	**EDUCATIONAL TECHNOLOGY**	**Credits**	**4**
Semester	**IV**		**Course Code**	**SOE01 04 19 C 3104**

Learning Outcomes	**After the completion of the course, the students will be able to:** ● Explain the concept, nature, forms and historical development of educational technology. ● Elaborate the steps of instructional designing on the basis of models of Instructional design ● Analyse the implications of digital initiatives by the Government of India for promoting learning Explore the integration of ICT in education.
Course Content	
Unit-I	**Educational Technology: An Overview** ● Educational Technology: Concept, nature, components (hardware & software) and scope (Online mode) ● Historical development of Educational Technology (Online mode) ● Application of educational technology in Formal, Non-formal (open and distance learning) and Informal Education systems Systems approach to education: concept, characteristics and application in education
Unit -2	**Instructional Design** ● Overview of Behaviourist, Cognitive, and Constructivist theories and their implications to instructional design ● Instructional design: Concept, significance, process and stages of development of Instructional Design. (Online mode) ● Overview of models of instructional design: ADDIE, ASSURE, DICK and CAREY Model. (Online mode) Gagne's Nine events of instruction and 5 E's instructional model based on constructivist instructional design (Online mode)
Unit-3	**Emerging Trends in e-learning (NEP)** ● Concept of e- learning and approaches to e-learning (Offline, Online, Synchronous, Asynchronous, Blended Learning, Flipped learning). (Online mode) ● National initiative for Digital education- DIKSHA, SWAYAM PRABHA, SWAYAM, On Air, E content for inclusive education,Open Educational Resources (OERs), National digital Library and other significant initiatives. (Online mode) ● Approaches for development of learner centric MOOC: LCM approach, Four quadrant approach

	(Online mode) • Learning Management Systems (Online mode)
Unit-4	**ICT in Education (NEP)** • ICT in Education: Concept, significance and applications of ICT tools • Social learning- Concept, use of web 2.0 tools for learning, social networking sites, blogs, chats, video conferencing, discussion forum. • E-portfolios and Online Assessment- concept and development. (Online mode) • E- inclusion- Concept, Assistive technology in e-learning and disruptive technologies.
Teaching learning process/Transaction Strategies	Lecture-cum- demonstration and hands on experiences on the production of audio-visual material; observation of various modes of training programmes by the different organizations / institutions and analyzing the different instructional design.

Year	**II**	**ENVIRONMENTAL EDUCATION**	**Credits**	**4**
Semester	**IV**		**Course Code**	**SOE01 04 20 C 3104**

Learning Outcomes	**After the completion of the course, the students will be able to:** ● Develop competencies to examine the intrinsic relationship between biological sciences and Environmental Education vis-à-vis the possibilities and challenges within. ● Explain the role of professionals and ethics in environmental management..
Course Content	
Unit-I	**Environmental Education:** ● Environmental Education: Concept, guiding principles, significance (Online) ● Environmental hazards: pollution, global warming and human health (Online) ● Sustainable development goals: Guiding principles and strategies (Online) ● Place of Environmental Education in National Curricular Framework (2000) given by NCERT and Environmental Education Curriculum Framework For Teachers and Teacher Educators (2005) given by NCTE.
Unit -2	**Environmental Management** ● Characteristics and Functions of Environment management ● Teaching – Learning Strategies For Environmental Education: Field visits, Demonstration, Observation, Group- Discussion and Dramatization. ● Strategies for evaluating environmental education-Use of Observation, Self-reporting techniques (attitude scale, interview and questionnaire) in Environmental Education (Online) ● Relationship between Men and Environment: Ecological and Psychological Perspective
Teaching learning process/Transaction Strategies	**Lectures, Debates, Assignments, Projects, PowerPoint Presentations, Demonstration**
Evaluation Strategies	**Tasks and Assignments : Any two of the following** ● Project on Any Environmental Issue ● Field Experience in a polluted Environmental area. ● Celebrations/observation of different environmentally important days. ● Preparation and Use of a strategy for teaching Environmental Education at school level / college level

Year	**II**	**DISSERTATION**	**Credits**	**4**
Semester	**IV**		**Course Code**	**SOE 01 04 21 C0044**

Learning Outcomes	**After the completion of the course, the students will be able to:** ● Demonstrate comprehensive knowledge of the data analysis techniques ● Critically evaluate the process of report writing. ● Communicate clearly and effectively to specialist and non-specialist research ● Contribute new knowledge and skills for welfare of society and academia.

Year	II	PRACTICE RELATING TO CURRICULUM, PEDAGOGY AND ASSESSMENT (ELEMENTARY LEVEL)	Credits	4
Semester	IV		Course Code	SOE01 01 12 DCEC 2002

Learning Outcomes	**After the completion of the course, the students will be able to:** ● Understanding about development of curriculum in teaching and learning, and assessment practices at elementary level. ● Analyse and reflect on the new developments in the area of curriculum development in elementary level
Course Content	
Unit-I	**Curriculum development in elementary level:** ● Meaning, principles of curriculum development and need of curriculum development ● Selection of content and learning experiences and their organization ● Pedagogy, Pedagogical Analysis-Concept and Stages; Organising teaching: Memory level (Herbatian model), Understanding level (Morrison teaching model), Reflective level (Bigge and Hunt teaching model) Online
Unit -2	**Assessment and evaluation in elementary school level** ● Assessment-Meaning, nature, perspective (Assessment for learning, Assessment of learning and assessment learning);Relation between Objectives and outcomes ● Types of Assessment (Placement, Formative, Diagnostic, Summative); Assessment of cognitive (Anderson and Krathwohl) Affective (Krathwohl) and Psychomotor domains (R.H. Dave) of learning (Online) ● New trends in evaluation-grading, internal assessment, semester system, CCE, On demand examination system, online examination Critical appraisal of the present evaluation system at secondary school level in context to the alignment between the curriculum and forms of assessment with special reference to Learning Outcomes Based Curriculum(LOCF)
Teaching learning process/Transaction	Lectures, Brainstorming, Group Discussion and Self-study Projects

Strategies

Year	II	EDUCATIONAL POLICY, ECONOMICS AND PLANNING AT (ELEMENTARY LEVEL)	Credits	4
Semester	IV		Course Code	SOE01 01 14 DCEC2002
Learning Outcomes	**After the completion of the course, the students will be able to:** ● Understand the financing of education in India. ● Understand the concept and nature of educational planning. ● Define education as an investment ● Critically analyze some governmental plans and policies of education			
Course Content				
Unit-I	**Educational Policy at Elementary Level (NEP)** ● Concept, Need and Importance ● Types of Educational Policy- State level Institutional ,Short –term, Long- term at Elementary Level ● Linkage between national Educational Policy and State Development Policy at Elementary Level ● Government Initiatives and constitutional provisions: NPE (1986); POA (1992); DPEP (1994); SSA; RTE Act			
Unit -2	**Economics of Education** ● Meaning, Significance and Scope of economics of education ● Education and Economic Development, Financing of Education in India: Center- State relationship, mobilization of resources ● Financial Contribution of community to school. ● Models of development based on free market economies			
Unit -3	**Educational Planning at Elementary Level** ● Concept, needs and goals of Educational Planning ● Principles of Educational Planning. ● Approaches of Educational Planning			

	• Educational Planning in India since independence at elementary stage
Unit- 4	**Inspection, Supervision and Monitoring** • Monitoring and Supervision at Elementary Level • Research and Evaluation of specific schemes like Mid-Day Meals, establishments of Village Education Committee and different incentive schemes and achievement levels • Quality concern at elementary Education and assessment of quality • Factors affecting quality and literacy achievement
Teaching learning process/Transaction Strategies	Discussions, debates, analysis of plans and policies, suggestions for improvement
Practicum :	• Preparation of research design on a theme, discipline and RTE act. 2009 • Visit a school for reporting on access, and enrolment/ retentions of girl students and give suggestions for improvement. • Critical Analysis of Research Studies on programs and policies related to elementary education (Survey a Govt. school nearby and Prepare of report on critically analyze the SSA and Mid May Meal programme) • Any other assignment/ project given by the Institute. • Annual Status of Education Report (ASER); Achievement surveys; PROBE; Pratichi Report on Education; Global Monitoring; Report of UNESCO

Year	II	EDUCATIONAL POLICY, ECONOMICS AND PLANNING AT (SECONDARY LEVEL)	Credits	4
Semester	IV		Course Code	SOE01 01 15 DCEC2002

Learning Outcomes	**After the completion of the course, the students will be able to:** ● Understand the financing of education in India. ● Differentiate between education as an investment and education as consumption. ● Discuss the application of economic theories in the educational field. ● Analyse governmental plans and policies related to education.
Course Content	
Unit-I	**Educational Policy at Secondary Level (NEP) (Online)** ● Concept, need and importance of educational policies. ● Types of educational policies- National and State Level, Short and long term ● Relationship between policies and education, Linkage between Educational Policy and National Development Policy ● Planning of policy implementation, policy impact assessment and subsequent policy cycles.
Unit -2	**Economics of Education** ● Education as Consumption and Investment ● Cost Benefit Analysis Vs Cost Effective Analysis in Education. ● Education and Economic Development; ● Signalling theory Vs Human Capital theory
Unit -3	**Educational Planning at Secondary Level** ● Concept, needs, goals and principles of Educational Planning at Secondary Level (online) ● Features of NITI Aayog (online) ● Perspective planning at central, state and local levels: Concepts of Macro, and Micro level planning. ● Priorities to be given at Central and State level, Recent initiatives in educational planning.
Unit- 4	**Educational Expenditure** ● Availability of educational statistics at central, state and district levels. ● Educational Expenditure and its Source of finance: Government grants (Central, State, Local), School Budgetary and accounting procedure. ● Allocation of grants by U.G.C. Grant-in-aid policy, Monitoring of expenditure control and utilization of funds

	Central-State Relationship in Financing of Education. ● Financial estimates by Tapas Mazumdar Committee (GoI, 1998)
Teaching learning process/Transaction Strategies	Lecture**,** Discussions, Debates, Analysis of plans and policies.
Practicum : **Any one of the Following:**	● Preparation of research design on a theme, discipline and RTE act. 2009 ● Estimation of opportunity cost on a sample of working school age children. ● Preparation of a blue-print for expenditure control in a school ● Preparation of a school budget ● Any other given assignment by the teacher educators

Background

Considering the curricular reforms as instrumental for desired learning outcomes, all the academic departments of Central University of Haryana made a rigorous attempt to revise the curriculum of undergraduate and postgraduate programmes in alignment with National Education Policy-2020 and UGC Quality Mandate for Higher Education Institutions-2021. The process of revising the curriculum could be prompted with the adoption of "Comprehensive Roadmap for Implementation of NEP-2020" in the 32nd meeting of the Academic Council of the University held on April 23, 2021. The Roadmap identified the key features of the Policy and elucidated the Action Plan with well-defined responsibilities and indicative timeline for major academic reforms.

The process of revamping the curriculum started with the series of webinars and discussions conducted by the University to orient the teachers about the key features of the Policy, enabling them to revise the curriculum in sync with the Policy. Proper orientation of the faculty about the vision and provisions of NEP-2020 made it easier for them to appreciate and incorporate the vital aspects of the Policy in the revised curriculum focused on 'creating holistic, thoughtful, creative and well-rounded individuals equipped with the key 21st century skills' for the 'development of an enlightened, socially conscious, knowledgeable, and skilled nation'.

With NEP-2020 in background, the revised curricula articulate the spirit of the policy by emphasizing upon— integrated approach to learning; innovative pedagogies and assessment strategies; multidisciplinary and cross-disciplinary education; creative and critical thinking; ethical and Constitutional values through value-based courses; 21st century capabilities across

the range of disciplines through life skills, entrepreneurial and professional skills; community and constructive public engagement; social, moral and environmental awareness; Organic Living and Global Citizenship Education (GCED); holistic, inquiry-based, discovery-based, discussion-based, and analysis-based learning; exposure to Indian knowledge system, cultural traditions and classical literature through relevant courses offering 'Knowledge of India'; fine blend of modern pedagogies with indigenous and traditional ways of learning; flexibility in course choices; student-centric participatory learning; imaginative and flexible curricular structures to enable creative combination of disciplines for study; offering multiple entry and exit points initially in undergraduate programmes; alignment of Vocational courses with the International Standard Classification of Occupations maintained by the International Labour Organization; breaking the silos of disciplines; integration of extra-curricular and curricular aspects; exploring internships with local industry, businesses, artists and crafts persons; closer collaborations between industry and higher education institutions for technical , vocational and science programmes; and formative assessment tools to be aligned with the learning outcomes, capabilities, and dispositions as specified for each course. In case of UG programmes in Engineering and Vocational Studies, it was decided that the departments shall incorporate pertinent NEP recommendations while complying with AICTE, NBA, NSQF, International Standard Classification of Occupations, Sector Skill Council and other relevant agencies/sources. The University has also developed consensus on adoption of Blended Learning with 40% component of online teaching and 60% face to face classes for each programme.

The revised curricula of various programmes could be devised with concerted efforts of the faculty, Heads of the Departments and Deans of Schools of Study. The draft prepared by each department was discussed in series of discussion

sessions conducted at Department, School and the University level. The leadership of the University has been a driving force behind the entire exercise of developing the uniform template and structure for the revised curriculum. The Vice Chancellor of the University conducted series of meetings with Heads and Deans to deliberate upon the vital parameters of the revised curriculum to formulate a uniform template featuring Background, Programme Outcomes, Programme Specific Outcomes, Postgraduate Attributes, Structure of Masters Course, Learning Outcome Index, Semester-wise Courses and Credit Distribution, Course-level Learning Outcomes, Teaching-Learning Process, Blended Learning, Assessment and Evaluation, Keywords, References and Appendices. The experts of various Boards of Studies and School Boards contributed to a large extent in giving the final shape to the revised curriculum of each programme.

To ensure the implementation of curricular reforms envisioned in NEP-2020, the University has decided to implement various provisions in a phased manner. Accordingly, the curriculum may be reviewed annually.

Programme Name: B.Ed., School of Education

Vision and Mission of Central University of Haryana

UNIVERSITY VISION

To develop enlightened citizenship of a knowledge society for peace and prosperity of individuals, nation and the world, through promotion of innovation, creative endeavors, and scholarly inquiry.

UNIVERSITY MISSION

To serve as a beacon of change, through multi-disciplinary learning, for creation of knowledge community, by building a strong character and nurturing a value-based transparent work ethics, promoting creative and critical thinking for holistic development and self-sustenance for the people of India. The University seeks to achieve this objective by cultivating an environment of excellence in teaching, research and innovation in pure and applied areas of learning.

Objectives of School of Education

in consonance with vision and mission of University School of Education has framed following objectives

1. To prepare outstanding teacher educators for transforming lives of individuals and lead to national development.
2. To prepare teacher educators who have a sound knowledge base, essential professional skills and humanitarian values and ethics.
3. To impart skills among teachers in Information & Communication Technology with experiential learning for education.
4. To develop research skills in the pupil teachers with moral and ethical development.
5. To build self-disciplined individuals who appreciate work and manage time efficiently.

Mapping of University Vision and Mission to Department Vision and Mission

Acclaimed as modal Centre of Learning and Research by

University Vision and Mission	**Objectives of School**
High quality knowledge society creation for peace and prosperity of individuals, nation and the world, through and scholarly inquiry	**Yes**

Promotion of innovation, creative endeavours, research and development	**Yes**
Students excellence through multi-disciplinary learning, value-based transparent work ethics, creative and critical thinking	**Yes**
Environment of excellence in teaching, research and innovation in pure and applied areas of learning	**Yes**

1. PROGRAMME OUTCOMES (POs), SCHOOL OF EDUCATION

After successful completion of the programme:

PO1 Learners will be able to comprehend the acquired knowledge during the Programme of study.

PO2 Learners will be able to reflect on the problems relating to discipline and society with ethical guidelines.

PO3 Learners will be able to exhibit the professional skills and competencies acquired during the Programme of study.

PO4 Learners will be able to show scientific & research capabilities in their academic, professional and general life pursuits.

PO5 Learners will be able to apply the knowledge and skills acquired in academic management and resource management according to predetermined objectives/outcomes.

PO6 Learners will be able to work as a member or a leader in various teams and multidisciplinary & diverse settings.

2. PROGRAMME SPECIFIC OUTCOMES (PSOs), B.Ed. Programme

The B.Ed Two-Year, a Pre-Service Teacher Education Programme at Secondary Level Aims at:

PSO-1. Acquiring conceptual understanding of sociological, psychological and philosophical aspects of an individual's development and its relationship with the teaching-learning process.

PSO-2. Develop critical understanding of the school curriculum, pedagogy, discipline and research related to different aspects of teaching-learning.

PSO-3. Enhance professional capacities and 21st Century skills of learners such as Critical reading, communication, literary ICT, aesthetics and self-development.

PSO-4. Enhance the competencies of prospective teachers by way of designing effective lesson-plans, applying various teaching skills, using suitable teaching aids and conducting 360° holistic assessment in their chosen pedagogy subjects.

PSO-5. Providing first-hand experience of all the school activities and field work through engaging learners as interns at secondary and senior secondary school level.

PSO-6. Develop desirable life-skills and values such as environmental awareness, inclusion, yogic life-style and ability to provide suitable guidance and counselling.

Year	I	Understanding Discipline and Subjects	Credits	2
Semester	I		Course Code	SOE 02 01 04 C2002

Learning Outcomes	After the completion of the course, the pupil-teachers will be able to: ● Explain Academic discipline and different levels of integration of knowledge. ● Describe the nature of school subjects and their Inter & multidisciplinary linkage of subjects in curriculum.
Course Content	
Unit -1	**The Doctrine of Academic Discipline and Integration of Knowledge.** ● Meaning, Concept, Classification of Academic Discipline; Approximate classification, Aristotle and Biglan taxonomy. **(Online Mode)** ● Historical, Philosophical, Sociological Perspective of Discipline (Knowledge). **(NEP 2020, Online Mode)** ● Integration of Knowledge: Transdisciplinary approach, Cross disciplinary approach, Multidisciplinary Approach. **(NEP 2020)** ● Relationship between School Subjects and Academic discipline. **(Online Mode)**
Unit -2	**School Subjects & Interdisciplinary Learning** ● Meaning, Definition, Concept & Characteristics of School Subjects. ● Nature & Importance of Subjects in school curriculum: Language, Social Science, Physical & Natural Science, Art & Crafts, Mathematics, Information Technology, Health & Physical Education **(NEP 2020, Online Mode)** ● Inter & Multidisciplinary subjects and Learning. **(NEP 2020)** ● Interdisciplinary Learning and issues and concerns of interdisciplinary learning. **(NEP 2020)**
Transaction Strategies/ Teaching	**Offline Mode;** Lecture cum discussion, assignments on various topics, discussion & Ppt presentations in class.

Learning Process	**Online Mode;** Using PowerPoint Presentations, sharing e content, self-made content, moocs courses, recorded lectures, audio and video materials etc.

Practicum:

- Find out how many disciplines are there in your university and which subjects come under which Disciplines and prepare a chart/ppt.
- Prepare a report on any one school subject (CBSE & ICSE) and their interdisciplinary nature.
- Find out how your pedagogy subject is related to other academic disciplines.
- Find out any five Interdisciplinary topics from your pedagogy subject and their interdisciplinary nature.
- Find out which disciplines are taught at school level by which subjects.
- Find out which subjects come under which disciplines at school level.
- Prepare a chart/ppt on which school subjects are taught in CBSE, ICSE and SBSE at senior secondary level
- Any other activity suggested by the teacher.
- Choose any five topics of your subject and analyze the content knowledge from a different perspective.
- Prepare a report and presentation on historical evolution of your both pedagogy subjects.
- Choose any 2 topics from both pedagogy subjects and analyze the historical evolution of that knowledge.
- Choose any 2 topics from both pedagogy subjects and analyze the philosophical perspective of that knowledge.
- Choose any 2 topics from both pedagogy subjects and analyze the Cultural perspective of that knowledge.
- Choose any 2 topics from both pedagogy subjects and analyze the Sociological perspective of that knowledge.
- Analyze the interdisciplinary linkage of your pedagogy subjects with other disciplines/subjects.

Year	I	CREATING AN INCLUSIVE SCHOOL	Credits	4

Semester	II		Course code	SOE 02 02 08 C3104
Learning Outcomes	After the completion of the course, students will be able to: ● Discuss the various aspects of inclusion. ● Identify CWSN and explain their diverse needs. ● Compare the national & international policies & programmes with respect to the children with special needs. ● Appraise the role of different specialists and inclusive practices to promote inclusion in the school.			
Course Content				
Unit -1	**Conceptual understanding of Inclusive Education** **(Online)** ● Paradigm shift from segregation to inclusion: Special, Integrated and Inclusive Education ● Inclusive Education: Concept, Nature and Principles **(NEP 2020)** ● Models of Inclusion: Charity Model, Medical Model, Social Model, Human Rights Model ● Role of Stakeholders in Inclusive Education: Teacher, Peers, Parents, and Community			
Unit -2	**An overview of Children with Special Needs (CWSN)** **(NEP 2020)** ● Concept of CWSN ● Classification of CWSN ● Characteristics of CWSN with specific reference to Visual Impairment, Hearing and Speech Impairment, Intellectual Disability, Autism Spectrum Disorder, Cerebral Palsy, Learning Disabilities (Dyslexia, Dyscalculia, Dysgraphia, Dyspraxia) ● Educational Programme of CWSN with specific reference to Visual Impairment, Hearing and Speech Impairment,			

	Intellectual Disability, Autism Spectrum Disorder, Cerebral Palsy, Learning Disabilities (Dyslexia, Dyscalculia, Dysgraphia, Dyspraxia)
Unit -3	**National and International Policies for Inclusive Education**
	• Salamanca Statement, 1994 • Policies guidelines on Inclusive Education, UNESCO, 2009 • RCI Act, 1992 **(NEP 2020)** • PWD Act, 1995 & The Right of Persons with Disabilities Act,2016 **(NEP 2020)**
Unit -4	**Preparing Schools for Inclusion**
	• Infrastructural readiness of School **(NEP 2020, Online)** • Aids, Appliances and Information Communication Technology **(NEP 2020, Online)** • Strategies of Teaching-Learning and Evaluation **(NEP 2020, Online)** • Collaboration of different specialists: Speech Therapist, Braille Instructor, Sign Language Tutor, Counsellor **(NEP 2020)**
Transaction Strategies/ Teaching Learning Process	Lecture-cum-Discussion, Group discussion on various policies and programmes, PowerPoint presentation, Film shows, sharing of experiences of people regarding issues of disabilities, Preparation of projects on various issues related to special education and exclusion.
Practicum: • Collection of data regarding children with special needs from school records.	

- Visit to Inclusive Schools and observe classroom transactions and prepare a report of the same.
- Case study of one mainstreamed (Inclusive) student with respect to :
    1. Role of a parent
    2. Role of a teacher, special school teacher
    3. Role of counsellor
- Any other activity suggested by the teacher

Year	I	VALUE AND PEACE EDUCATION	Credits	4
Semester	II		Course code	SOE 02 02 09 C3104

Learning Outcomes

After completion of the course, students will be able to:

- Illustrate the concept of values, classify it's various sources and critically appreciate the role of teachers in promoting values.
- Point out the importance of value education and compare the various models of value education.
- Reflect on ideas of distinguished thinkers and explain the challenges, need and role of UNESCO in promoting peace Education.
- Select and employ various approaches and techniques for teaching of value and peace education.

Course Content

Unit -1 **Conceptual understanding of values**

- Concept, sources, classification and selection of values **(NEP 2020)**
- Values inherent in Preamble of the Indian Constitution **(Online)**
- Values prevalent in the contemporary society **(NEP 2020, Online)**
- Role of teacher in calculating the Values **(NEP 2020)**

Unit -2 **An Overview of Value Education**

- Concept of value education **(NEP 2020)**
- Need for and importance of value education in the present scenario **(NEP 2020)**
- Recommendations of Sri Prakash Committee (1959) on value education **(Online)**
- Models of value education: Rationale building model, the consideration model, valuing process and clarification model (**Online)**

Unit -3	**Peace Education in Contemporary Era and its relevance**
	● Concept, importance of Peace, Needs of Peace Education in contemporary Society **(NEP 2020, Online)** ● Ideas of distinguished thinkers about Peace: **(NEP 2020)** ➢ Mahatma Gandhi ➢ J. Krishnamurthy ➢ Swami Vivekananda ➢ Rabindranath Tagore ● Challenges to peace: Stress, conflicts, crimes, terrorism, violence and poor quality of life **(Online)** ● Role of UNESCO in promoting of peace Education **(Online)**
Unit -4	**Approaches and Techniques of Value and Peace Education**
	● Direct approach: Silent sitting, Yoga and Meditation, Value Based Story-Telling ● Group activities (Dramatization, Literary Activities, Games and Sports, Service Activities) ● Organizing value based co-curricular activities ● Guidance and Counselling
Transaction Strategies/ Teaching Learning Process	Lecture cum discussion, Tutorials, Brainstorming Session, Use of PPTs, Assignments on different key areas of Value and Peace related issues.
Practicum:	

- Develop / compile stories with values from different sources and cultures, organize value based co-curricular activities in the classroom and outside the classroom, develop value-based lesson plans, integrating values in school subjects.
- In addition, school and community-based activities may be organized.
- Any other activity suggested by the teacher.

● Internet: Ways of using the internet in teaching learning process; Google Drive, Google Docs, Google Slides, Google Sheet, Google Classroom, Google Forms, YouTube, Facebook, SWAYAM, Swayam Prabha. (NEP 2020, Online Mode)
● Massive Open Online Courses, their development (NEP 2020, Online Mode)</td></tr>
<tr><td>Transaction Strategies/</td><td colspan="4">● Hands on experience in ICT Lab
● Demonstration on various applications of MS- Office</td></tr>
</table>

Teaching Learning Process	• Discussion on various ICT related issues • Online demonstration of related topics

Practicum: Choose any three from the following and make a soft file of it for final submission

- Making of a resume in MS Word.
- Making of a Lesson Plan in MS Word.
- Making a presentation in MS PowerPoint.
- Making of progress report-card in MS Excel.
- Graphical representation of data.
- Do a short term MOOC.
- Any other project/assignment given by the concerned teacher.

NOTE: External practical will be conducted by external examiner at the end of the semester

Year	**I**	**School Internship (Part – I)**	**Credits**	4
Semester	**II**		**Course code**	SOE020212C0044
Learning	After the completion of the course, students will be able to:			

Outcomes

- Classify and Identify with the various pedagogical skills.
- Practice the various pedagogical skills to develop professional competencies.
- Critically evaluate the lesson delivered by peers.
- Observe the school to gain real experiences.

Sr. No.	Total Marks Distribution (100)	Pedagogy-I (50)	Pedagogy-II (50)
1.	Internal Marks	15	15
2.	External Marks	35	35

Schedule of School Internship Programme:

Sr. No.	Activity During Internship	No. of Lesson for Presentation (Minimum)
1.	Basic Skills Lesson Plan (Pedagogy-I)	10
2.	Basic Skills Lesson Plan (Pedagogy-II)	10
3.	Peer Observation (Pedagogy-I)	10
4.	Peer Observation (Pedagogy-II)	10
5.	Model lesson plan based on the integration of teaching skill (Simulated Lesson Plan) (Pedagogy-I)	1
6.	Model lesson plan based on the integration of teaching skill (Simulated Lesson Plan) (Pedagogy-I)	1

	7.	School Observation Profile	1
	8.	Prepare a school report on the basis of gaining real experience of school observation during the school visit.	1

Elective Courses (DCEC)

Year	I	PEDAGOGY OF HINDI	Credits	4
Semester	II		Course code	SOE 02 02 04 DCEC3104

सखने के परिणाम	इस कोर्स को पूरा करने के बाद, छात्र शक्षक कर सकेंगेः ● हिन्दी भाषा अ धगम के आवश्यक तत्व एवम् उद्देश्यों की व्याख्या कर सकेंगे । ● हिन्दी शक्षण के व भन्न भाषाई कौशलों एवम् सहायक सामग्री का प्रयोग कर सकेंगे । ● हिन्दी शक्षण की व भन्न वधाओं की व्याख्या एवम् उनकी पाठ योजना का निर्माण कर सकेंगे। ● हिन्दी शक्षण में मूल्यांकन व धयों एवम् क्रयात्मक अनुसन्धान का वकास कर सकेंगे ।
पाठ्यक्रम की वषयवस्तु	
इकाई -1	हिन्दी भाषा अ धगम के आवश्यक तत्व एवम् उद्देश्य ● हिन्दी भाषा की प्रकृति, महत्व, उद्देश्य एवम् हिन्दी भाषा अ धगम के सामान्य सद्धान्त । **(NEP 2020, Online)** ● मातृभाषा शक्षण का अर्थ, महत्व एवम् उद्देश्य। **(NEP 2020)** ● हिन्दी शक्षण में सूचना तकनीकी की उपयो गता। **(NEP 2020, Online)** ● ब्लूम द्वारा निर्धारित अनुदेशनात्मक उद्देश्य। **(NEP 2020, Online)**
इकाई -2	हिन्दी शक्षण के भाषाई कौशल एवम् सहायक सामग्री ● श्रवण कौशल के उद्देश्य, प्रकार एवम् शै क्षक क्रयाकलाप। **(NEP 2020)** ● मौ खक अ भव्यक्ति कौशल के उद्देश्य, वकास की क्रयाएं एवम् मौ खक अ भव्यक्ति सम्बन्धी त्रुटियों का निवारण। **(NEP 2020)** ● पठन कौशल के उद्देश्य, प्रकार, पठन अ भरू च का वकास, पठन सम्बन्धी त्रुटियों का निवारण। **(NEP 2020)** ● ल खत अ भव्यक्ति कौशल के उद्देश्य, प्रकार, वकास की क्रयाएं, ल खत सम्बन्धी त्रुटियों का निवारण । **(NEP 2020)**
इकाई -3	हिन्दी शक्षण की व भन्न वधाएँ एवम् उनका शक्षण ● हिन्दी शक्षण कौशलों का वकास एवम् प्रारूप : प्रस्तावना कौशल, व्याख्या कौशल, उदाहरण कौशल,उद्दीपन परिवर्तन कौशल और प्रश्न कौशल। **(NEP 2020, Online)**

	• शक्षण सहायक सामग्री: अर्थ, महत्व एवम् प्रकार । **(NEP 2020, Online)** • गद्य एवम् पद्य शक्षण: अर्थ, महत्व, व धयाँ एवम् पाठ-योजना निर्माण । • व्याकरण शक्षण: अर्थ, महत्व, व धयाँ एवम् पाठ-योजना निर्माण ।
इकाई -4	हिन्दी शक्षण में मूल्यांकन एवम् क्रयात्मक अनुसन्धान
	• हिन्दी शक्षण में सतत् एवम् व्यापक मूल्यांकन: अर्थ एवम् महत्व। **(NEP 2020)** • हिन्दी शक्षण में परिक्षण पदों का निर्माण: प्रश्न पत्र एवम् नील पत्र (ब्लू- प्रंट) निर्माण। • 360* समग्र मूल्यांकन : एन. ई. पी. अवलोकन । **(NEP 2020, Online)** • हिन्दी शक्षण में उपचारात्मक शक्षण एवम् क्रयात्मक अनुसंधान : अर्थ, महत्व एवं प्र क्रया । **(NEP 2020, Online)**
कार्य सम्पादन रणनीतियाँ	इकाई-**1** -व्याख्यान, समूह चर्चा, पावरप्वाइंट प्रस्तुतियाँ, एम ओ ओ सी और ई-लर्निंग का उपयोग इकाई-**2** व्याख्यान, समूह चर्चा, स्कूल के अध्ययन के अध्यापन के भाषा के खेल, ऑ डयों और वी डयों सामग्री आदि का उपयोग। इकाई-**3** व्याख्यान व ध-समूह चर्चा, प्रदर्शन व ध का प्रयोग एवं पावरप्वाईंट प्रस्तुति, ई-लर्निंग आदि का उपयोग। इकाई-**4** व्याख्यान व ध- समूह चर्चा, प्रदर्शन व ध का प्रयोग एवं पावरप्वाईंट प्रस्तुति, ई-लर्निंग, एम ओ ओ सी का उपयोग।

व्यवहारिक कार्य:

- छात्रों में संचार की समस्या/आशंका का पता लगाने के लए बाहरी स्कूलों का दौरा।
- श्रवण, मौ खक, पठन और लेखन कौशल वक सत करने के लए खेल और व्यायाम करना।
- श्रवण, मौ खक, पठन और लेखन कौशल वक सत करने पर गति व धयाँ- मौ खक प्रस्तुतियाँ, बहस, भाषण, चर्चा एवं ब्रेनस्टा र्मंग, अनुच्छेद एवं निबंध लेखन।

इसके अतिरिक्त वद्यालय एवं समुदाय आधारित गति व धयाँ भी आयोजित की जायेगी जिसके अन्तर्गत छात्रो को अ धगम एवं शक्षक प्र शक्षण संस्थाओ मे भ्रमण कराया जायेगा। शक्षण प्र शक्षण एवं स्कूल आधारित क्रयात्मक अनुसंधान भी कराये जायेगे ।

Year	I	PEDAGOGY OF ENGLISH	Credits	4
Semester	II		Course code	SOE 02 02 05DCEC3104
Learning	After the completion of the course, pupil-teachers will be able to: • Explain the specificities of the English Language and develop basic language skills among the students.			

Outcomes	● Critically examine and apply various teaching methods, techniques and approaches. ● Design, develop and conduct teaching using effective lesson-plans for various genres such as poetry, prose, grammar and composition incorporating teaching skills. ● Prepare lesson plans and explain various ways of assessment in pedagogy of English.
Course Content	
Unit -1	**An Overview of specificities of the English Language and Basic Language Skills** ● English language: Nature, functions and importance with specific reference to India **(NEP 2020, Online)** ● English Linguistics and Language Teaching- Sound Patterns and Word Formation ● Teaching of basic language skills- Listening, Speaking, Reading, Writing **(NEP 2020, Online)** ● Teaching of Grammar and Vocabulary
Unit -2	**Approaches, Methods and Techniques of Teaching English** ● **Approaches-** Structural, Lexical, Communicative, Constructivist approach **(NEP 2020, Online)** ● **Methods-** Grammar Translation, Direct, Audio-lingual method (**Online)** ● **Techniques-** ICT integration, Discussions and Debates, Role Play, Language Games **(NEP 2020)** ● **Structure of Content and Basic Conceptual Schemes-** Principles, Guidelines, Sapir Whorf Hypothesis and implications of Conceptual Relativism
Unit -3	**Basic Teaching Skills Lesson Planning** ● Micro Teaching Skills: Skills of Introduction, Explanation, probing question, Illustration with examples, Stimulus Variation, Reinforcement, Class-Room Management, Using Writing Board **(NEP 2020, Online)** ● Approaches to Lesson planning: Herbertarian and Constructivist

<table>
<tr><td></td><td>● Revised Bloom's Taxonomy of writing instructional objectives in behavioral terms (NEP 2020, Online)
● Lesson Planning for Teaching of Prose, Poetry, Grammar and Composition: Micro, Simulated and Daily Lesson Plan.</td></tr>
<tr><td rowspan="2">Unit -4</td><td>Assessment</td></tr>
<tr><td>● Formative and Summative Assessment, Continuous and Comprehensive Assessment (NEP 2020)
● Assessment of Listening, Speaking, Reading, Writing, Grammar and Vocabulary (NEP 2020)
● 360° Holistic Assessment: NEP Vision (NEP 2020, Online)
● Remedial Teaching and Action Research (NEP 2020)</td></tr>
<tr><td>Transaction Strategies/ Teaching Learning Process</td><td>Lecture, Discussion, Debates, Games, Exercises, Use of audio-visual materials, Exposition, Reading demonstration, Games, Exercise, short and long lecture, e-learning etc.</td></tr>
<tr><td colspan="2">Practicum:
● Planning and presentation of lesson-plan on any topic demonstrating all the major teaching skills.
● Record of any event organized in schools to develop reading, writing, speaking and listening skills through extempore, declamation and discussion.
● PPT Presentation on given topic of syllabus.</td></tr>
<tr><td colspan="2">Suggested Readings:

Year	**I**	**PEDAGOGY OF SOCIAL SCIENCES**	**Credits**	**4**
Semester	**II**		**Course code**	SOE 02 02 06 DCEC3104
	After completion of the course, pupil-teacher will be able to:			

Learning Outcomes	• Summarize the various aspects of social science and point out the objectives of teaching social science at different levels. • Describe, select and demonstrate different pedagogical skills, approach and methods of teaching social science. • Elaborate the process of curriculum design, arrange instructional materials, resource center and appraise the qualities of social science teacher. • Use of various techniques of evaluation and construct achievement test in social science.
Course Content	
Unit -1	**An Overview of Social Science**
	• Social Science: concept, nature and scope • Relationship of Social Science with other School Subjects (History, Sociology, Political Science, Economics, Mathematics, Science and Technology) • Need and Importance of Teaching Social Science • Objectives of Teaching Social Science at School Level: **(NEP 2020)** ◦ Elementary Level ◦ Secondary Level
Unit -2	**Pedagogy and Lesson planning**
	• Pedagogical analysis: concept, importance and steps • Pedagogical Analysis on the following: ➢ The Mughal Empire (class ix) ➢ Constitutional Design (Class vii) ➢ Human Environment: settlement, transport and communication (Class vii)

	➢ Poverty as a challenge (class ix) ➢ Diversity and discrimination (Class vi) ● Teaching skills: Questioning, Introduction, Explanation, Stimulus Variation, Board Writing, Illustration with example and Reinforcement **(NEP 2020, Online mode)** ● Lesson Planning ● Methods: Lecture Cum Discussion, Project Method, Problem Solving, Storytelling, Source Method, Deductive & Inductive
Unit -3	**Curriculum, Teacher and Instructional Materials**
	● Characteristics, types and Principles of designing a good curriculum of Social Science ● Instructional Aids: Importance, Use and limitations **(NEP 2020, Online mode)** ● Need, importance and arrangement of Social Science Resource Centre (**NEP 2020, Online mode)** ● Characteristics and qualities of Social Science teacher **(NEP 2020, Online mode)**
Unit -4	**Evaluation in Social Science**
	● Evaluation: concept, needs and types (**Online mode)** ● Evaluation Tools: Check list, Observation and Interview ● Test, its Types and Construction of Achievement Test (**Online mode)** ● Diagnostic and Remedial Teaching: concept, need and importance **(NEP 2020, Online mode)**
Transaction Strategies/ Teaching Learning	Lecture-cum-discussion along with interactive group discussion, field trips, group discussions, brainstorming and simulation in the form of mock sessions, Bal Panchayat etc.

Process	

Practicum: Arrange any two activities: each out of the following two groups:

1) Educational visit:

- ❖ Historical places
- ❖ Ecological places
- ❖ Political places

2) Organization of Programme

- ❖ Social Awareness
- ❖ Election Awareness
- ❖ Exhibition
- ❖ Preparation of Annual Plan, Unit Plan and Lesson Plan
- ❖ Scrapbook

Year	**I**	**PEDAGOGY OF MATHEMATICS**	**Credits**	**4**
Semester	**II**		**Course code**	SOE 02 02 07 DCEC3104
	After the completion of the course, students will be able to:			

Learning Outcomes	● Identify a clear perspective of meaning and nature of mathematics for determining objectives of mathematics. ● Explain various approaches and basic teaching skills of mathematics. ● Applying teaching methods and basic teaching skills of mathematics strategies judiciously for transacting the subject contents with a view to realize the objective of mathematics education. ● Select appropriate tools for evaluating mathematics learning.
Course Content	
Unit -1	**Background for Teaching Mathematics**
	● Mathematics- Nature and Scope ● Need and Significance of Mathematics Education ● History of Mathematics **(NEP 2020)** ● Contribution of Indian Mathematicians **(NEP 2020, Online)**
Unit -2	**Aims and Objectives of Teaching Mathematics**
	● Aim and Objectives of Teaching Mathematics **(Online)** ● Error's analysis and related of Learning and Teaching mathematics ● General Objectives of teaching mathematics at the upper and secondary level ● Bloom's taxonomy of writing Instructional objectives in behavioural terms **(NEP 2020, Online)**
Unit -3	**Methods, Techniques and Resources of Teaching Mathematics**
	● Approaches of Formulation of instructional objectives in Behavioural Term: RCEM, Constructivist, Herbart **(NEP 2020, Online)** ● Methods of Teaching Mathematics: Inductive- Deductive Method, Analytic –Synthetic Method, Heuristic Method or Discovery Method, Activity Based Method, Project Method, Problem Solving Method

	• Basic Teaching skills of Mathematics: Introducing the Lesson, Probing Question, Explanation, Illustration with Examples, Stimulus Variation, Board Writing **(NEP 2020)** • Resources of teaching Mathematics: Text Book, Mathematics Labs, Mathematics Club, Mathematics Library, ICT equipped classroom, Mathematics Learning Software, Audio- Visual Aids **(NEP 2020, Online)**
Unit -4	**Planning & Evaluation of Teaching Mathematics**
	• Planning: Yearly, Unit and Period plan • Lesson planning: Herbert and Constructivist 5E model **(NEP 2020, Online)** • Tools and Techniques of Evaluation • Construction of an Achievement Test with Blue Print **(NEP 2020, Online)**
Transaction Strategies/ Teaching Learning Process	Lecture cum Discussion should follow around readings. Students should be given hands-on experiences and appropriate illustrations be made around methods and strategies. Visit to mathematics library and laboratory and hands on experience to students, e-platforms, library assignment. Critical analysis of the school textbook and syllabus will be made
Practicum: • Content Analysis of Position paper of National Focus Group on Teaching of Mathematics • Prepare a report about the contribution of Indian Mathematicians Mathematics. • Prepare a report on the History of Mathematics (Number System & Measurement etc.) • Critically Review of Mathematics Text book and make a report • Observation of children doing everyday Mathematics, community numeracy practices and making a report.	

- Development and trying out a Teaching-learning strategy for teaching particular Mathematical concepts.
- Construction of Mathematical Working and Non-Working 2D and 3D Models
- Development and use of Mathematics laboratory.
- Organizing a 'Mathmela' in a school or a locality and write a report
- Lesson Plan on one topic from secondary school mathematics
- Construction of an achievement test with blue print
- PPT Presentation on give topic of syllabus

Year	**I**	**PEDAGOGY OF LIFE SCIENCE**	**Credits**	**4**
Semester	**II**		**Course code**	SOE 02 02 08 DCEC3104

Learning Outcomes	**After completion of the course, the students will be able to:** ● Elaborate the dynamics of teaching of life science and plan instructions for teaching. ● Use various Skills, methods, approaches in teaching of life science and apply them in construction of micro lessons. ● Describe various instructional aids, learning resources for pedagogy of life science. ● Critically analyze the importance of various online and offline assessment tools & techniques in pedagogy of life science.
Course Content	
Unit -1	**Teaching of Life Science (NEP 2020, Online)** ● Life science as a Subject in school Curriculum. and Contribution of Indian biologist; Charak, Susruta, Dr. Hargovinda Khurana, Birbal Sahani ● Interdisciplinary learning of Life Science. ● Aims & Objectives of Teaching of Life Sciences. (As per NCF 2005 &NEP2020). ● Bloom's Taxonomy, Planning (DLP and Unit plan)of writing of instructional Objectives using RCEM Approach.
Unit -2	**Teaching Skill, Method and Approaches (NEP 2020)** ● Teaching Skills: Introducing the lesson, Questioning Skill, Explanation Skill, Stimulus Variation Skill, Board Writing Skill, Reinforcement skill, Illustrations with example skill. ● Approach; Inquiry, Problem Solving constructivist approach, cross curricular pedagogy approach; ● Methods; Lecture cum Demonstration Method, Laboratory Method, Project Method, Heuristic Method. ● Experiential Learning; Hands on activities, art integration Experimentation, flipped learning, blended learning, cooperative learning, Collaborative Learning
Unit -3	**Instructional aids and Learning Sources in Life Science (Online)** ● Instructional Aids; concept, types (Audio/visual/ Audio Visual), importance, selection. Creating Charts using live.arm

<table>
<tr><td></td><td>charts, Interactive Open Board. (NEP 2020)
● Learning Resources: Community Resources, immediate surrounding, E- library, Text book & E books and its critical analysis (NEP 2020)
● Laboratory as a Learning Resource; Importance and Safety measures & precautions, Virtual labs OLABS Online Laboratory, learning biology through online Labs, Go Lab ecosystem. (NEP 2020)
● Role of ICT in teaching of Life Science; Mobile learning. (NEP 2020)</td></tr>
<tr><td rowspan="2">Unit -4</td><td>Assessment in Teaching of Life Science</td></tr>
<tr><td>● Assessment: Concept, need, importance, Types (NEP 2020)
● Online & Offline tools and techniques of Assessment.
● Construction of online assessment test (quizzes) using different apps; google form, google classroom etc. (NEP 2020)
● Assessment of practical work & Project work. (online & offline) (NEP 2020)</td></tr>
<tr><td>Transaction Strategies/ Teaching Learning Process</td><td>Lecture cum discussion, Lecture cum demonstration, Use of PPT, Assignments on various topics, Presentation and discussion, Debate and presentations by Pupil Teachers will be encouraged.</td></tr>
<tr><td colspan="2">Practicum:
● To Prepare and Present a lesson plan using various basic teaching skills.
● Visit nearby 5 schools and prepare a report on the Science Laboratory.</td></tr>
</table>

- presentation on Virtual labs.
- Construction of DLP.
- Construction of online assessment test/quiz.
- Critical analysis of a test paper of Biological Science.
- Critical review of a text book of science/.
- Critically analyze the Practical Aspect /syllabi of science/ life science and prepare a report over that.
- NEP 2020.
- 5 E instructional Model.
- any other topic suggested by the teacher.

Year	I	PEDAGOGY OF PHYSICAL SCIENCE	Credits	4
Semester	II		Course code	SOE 02 02 09 DCEC3104

Learning Outcomes	After the completion of the course, students will be able to: • Develop conceptual understanding of teaching Physical Science and appreciate the contribution of great scientists in the field of Physical Science • Acquaint with the aims, objectives and basic skills of teaching Physical Science • Develop scientific thinking after getting acquainted with different teaching methods, strategies, pedagogical analysis, prepare lesson plan and assessment techniques • Familiarize with the virtual learning resources, instructional aids and action research
Course Content	
Unit -1	**Conceptual Understanding of Teaching Physical Science**
	• Concept, Nature and Importance of Physical Science as a Subject of the School Curriculum • Correlation of Science with subjects (Mathematics, Social Studies, Geography, Health & Physical Education). • Contribution of Great Scientists (C.V.Raman, Isaac Newton, Albert Einstein, Prafulla Chandra Ray, J.C. Bose, Homi Jahangir Bhabha, A.P.J. Abdul Kalam) **(NEP 2020)** • Physical Science Teacher: Qualities and Duties **(NEP 2020)**
Unit -2	**Objectives and Basic Teaching Skills**
	• Aims and Objectives: Meaning and Difference between the terms, aims of teaching Physical Sciences at Middle and Secondary level with special reference to NCF 2005 **(Online)** • Bloom's Taxonomy: Traditional and Revised **(NEP 2020)** • Approaches of writing objectives in behavioral terms: Robert Mager, Miller and RCEM approach

	• Basic teaching skills: Meaning and Components of Skills (Skill of Introducing the Lesson, Skill of Reinforcement, Skill of Probing Questioning, Skill of Illustration with Example, Skill of Explanation, Skill of Stimulus Variation, Skill of Board Writing, Skill of Classroom Management **(NEP 2020, Online)**
Unit -3	**Teaching Methods, Strategies, Pedagogical Analysis, Lesson Plan and Evaluation**
	• Methods and Strategies of Teaching Physical Science: Lecture-Cum Demonstration, Project Method, Heuristic Method, Constructivist Approach, Brainstorming, Team Teaching, Panel Discussion, Field Trips, Science Club, Science Fairs **(NEP 2020, Online)** • Pedagogical Analysis: Steps, Principles, Pedagogical Analysis of any one topic of science from class 6th to 10th referred by NCERT **(Online)** • Lesson Plan: Essential features, Requirement, Construction • Evaluation**:** CCE, meaning and needs, Types, Qualities of a good test, Blue Print (In reference to NEP 2020) **(NEP 2020**, **Online)**
Unit -4	**Instructional material, Textbook and Online Resources of Physical Science**
	• Instructional Aids: Meaning, Need, Types (Charts, Models, Display Boards, Black Board, Computer, Science Kit and their merits & demerits), Virtual teaching aids (Creating Charts using live.arm charts, Interactive Open Board), Improvisation: Meaning, need and importance **(NEP 2020**, **Online)** • Laboratory: Planning, equipping and organization, Virtual Laboratory Applications for Physics and Chemistry (OLABS, Go Lab Ecosystem) **(NEP 2020**, **Online)** • Text book: Meaning, Qualities of a good Science Textbook, Critical Analysis of a Secondary School Physical Science

	Textbook, Procedure of Textbook selection ● Action Research: Concept, Steps and Importance **(NEP 2020)**
Transaction Strategies/ Teaching Learning Process	Lecture cum discussion, Lecture cum demonstration, Use of PPT, Assignments on various topics, Presentation and discussion, Debate and presentations by Pupil Teachers will be encouraged.

Practicum:

- Lesson plan presentation on any topic of Physical Science book from Class VIth -X th by using all (mentioned in syllabus) basic teaching skills.
- Presentation on any topic as suggested by the teacher.

Suggestive Readings:

Year	**I**	**PEDAGOGY OF ECONOMICS**	**Credits**	**4**
Semester	**II**		**Course code**	SOE 02 02 10 DCEC3104
Learning Outcomes	After the completion of the course, students will be able to: ● Explain the concept, aims and objectives of Pedagogy Economics. ● Demonstrate the various skills of teaching, special qualities of an Economics teacher and critically analyze the text books of Economics. ● Classify the various methods, techniques of lesson plan and design of instructional aids in Pedagogy of Economics. ● Use of various evaluation techniques in Pedagogy of Economics.			
Course Content				
Unit -1	**Concept, Place, Aims and objectives of Economics in School Curriculum**			
	● Concept, Nature, Scope, Need and Importance of economics. ● Place of Economics in school curriculum at different stages. ● Aims & Objectives of Pedagogy Economics **(NEP 2020, Online)** ● Bloom Taxonomy & Instructional objectives using RCEM Approach **(NEP 2020, Online)**			
Unit -2	**Basic teaching skills, Teacher and Text book of Pedagogy Economics**			
	● Teaching skills: Introductory, Reinforcement, writing board, Stimulus variation, Probing questioning and Illustration with example. **(NEP 2020)** ● Correlation of Economics with other subjects (Mathematics, History, Social Studies, Commerce).			

	● Importance of teacher & Desired qualities of Economics teachers as regard to the subject. ● Text book: Characteristics of a good text book, analysis of text book in Economics.
Unit -3	**Methods, Pedagogic Planning and Aids of Pedagogy Economics** ● Method of Pedagogy Economics (i) Lecture (ii) Project (iii) role-play (iv) Problem solving (v) storytelling **(NEP 2020)** ● Unit Plan: objective, needs and importance. ● Lesson plan: objective, needs and importance. ● Teaching Aids in Economics: Audio, Visual and Audio-visual (meaning, use, merit and limitation). **(NEP 2020, Online)**
Unit -4	**Assessment Techniques of Evaluation** **(Online Mode)** ● Critical understanding of the existing pattern of assessment & 360^0 Holistic Assessment: NEP vision **(NEP 2020)** ● Stages of evaluation: diagnostic, formative and summative. **(NEP 2020)** ● Continuous and Comprehensive Assessment. **(NEP 2020)** ● Objective testing: construction of test items. **(NEP 2020)**
Transaction Strategies/ Teaching Learning Process	Lecture-cum-discussion along with interactive group discussion, field trips, group discussions, brain-storming and simulation in the form of mock session, case study of banks and insurance etc.
Practicum: ● Preparation of Annual plan, Unit plan and Lesson plan ● Identifying and Evaluating ICT resources suitable for teaching Economics ● Develop a Multi-Media lesson using appropriate ICT resources and transacting the same before peers in simulated teaching exercise.	

- Action Research Project Report
- Visits can be organized to

✓ RBI and other Banks

✓ Any Industry or Factory

✓ Finance ministry

*** In addition, school and community-based activities may be organized with provisions for visits to innovative centers of pedagogy and learning, innovative schools, educational resource centers, etc. Action research based on teaching learning and school and community could be conducted.**

Year	I	PEDAGOGY OF COMMERCE	Credits	4
Semester	II		Course code	SOE 02 02 11 DCEC3104
Learning Outcomes	After the completion of the course, students will be able to: ● Explain the concept, aims and objectives of Pedagogy Commerce. ● Demonstrate the various skills of teaching, general qualities of a Commerce teacher and correlation of Commerce with other subjects & critically analyze the text books of Commerce teaching. ● Classify the various methods, techniques of lesson planned design of instructional aids in Pedagogy of Commerce. ● Use of various skills of evaluation techniques in Pedagogy of Commerce.			
Course Content				
Unit -1	**Concept, Aims and objectives of Commerce Teaching** ● Concept, Nature, Scope, Need and Importance of Commerce. ● Place of Commerce in school curriculum at different stages. ● Aims & Objectives Teaching of Commerce Teaching. **(NEP 2020, Online)** ● Bloom Taxonomy & Instructional objectives using RCEM Approach. **(NEP 2020, Online)**			
Unit -2	**Basic teaching skills, Teacher and Textbook of Commerce Teaching** ● Teaching skills: Introductory, Reinforcement, writing board, Stimulus variation, Probing questioning and Illustration with example. **(NEP 2020)** ● Importance and Desired qualities of Commerce teachers. ● Correlation of Economics with other subjects (Mathematics, History, Social Studies, Commerce).			

	• Text book: Characteristics of a good text book, analysis of text book in Commerce.
Unit -3	**Methods, Lesson Planning and Aids of Commerce Teaching** • Method of teaching Commerce (i) Lecture (ii) Project (iii) role-play (iv) Problem solving (v) storytelling **(NEP 2020)** • Unit Plan: objective, needs and importance. • Lesson plan: objective, needs and importance. • Teaching Aids in Commerce: Audio, Visual and Audio-visual (meaning, use, merit and limitation).**(NEP 2020, Online)**
Unit -4	**Assessment Techniques of Evaluation** **(Online)** • Concept and process of evaluation and measurement. **(NEP 2020)** • Difference between Measurement and evaluation & 360^0 Holistic Assessment: NEP vision. **(NEP 2020)** • Tools of evaluation in Commerce (Check list, observation, interview). **(NEP 2020)** • Types of tests (Meaning, Construction, Merit, Limitation). **(NEP 2020)**
Transaction Strategies/ Teaching Learning Process	**Unit I:** Lecture followed by discussion supplemented by searches on MOOCs and augmented by power- point presentation analytical and synthetic discussions. **Unit II:** Lectures, discussions, use of MOOCs, e-platforms, library assignment, **Unit III:** Lectures, discussions, library assignments, PowerPoint presentations on various approaches to lesson planning, discussion on model lesson plan of commerce formulated by RIE's. **Unit IV:** Lecture followed by discussion supplemented by searches on MOOCs and augmented by power- point presentation analytical and synthetic discussions.
Practicum: • Design and deliver a 15 Minutes presentation on any topic by using the Lecture method. • Prepare a report on India's Trade pattern.	

- Prepare PowerPoint presentation on any topic covered in pedagogy of commerce syllabus.
- Sessional work/unit test/practicum/ project-based activities and Terminal Assessments
- Construction of Achievement test in commerce

Generic Elective Courses (GECs)

	Year	**I**	**ESSENTIALS OF GUIDANCE AND COUNSELING**	**Credits**	4 (2 Theory + 2 Practicum)
	Semester	**II**		**Course code**	SOE 02 02 03GEC 2024
Learning Outcomes	After the completion of the course, students will be able to: ● Integrate the fundamental principles and techniques of guidance and counselling as required during the guidance and counselling process; ● Critically analyze the role of a teacher as a guide in guidance programme; ● Identify various qualities of a teacher necessary for a role counsellor; and ● From the practical component they will learn how to administer psychological tests and prepare a case study, guidance programme for school.				
Course Content					
Unit -1	**Conceptual Understanding of Guidance**				
	● Guidance: Concept, functions and fundamental principles of guidance. **(NEP 2020, Online mode)** ● Need for Guidance Services in India. **(NEP 2020, Online mode)** ● Types of Guidance: Educational, vocational and Personal **(NEP 2020, Online mode)** ● Role of a class teacher in Guidance programme **(NEP 2020)**				
Unit -2	**Counselling**				

	• Counselling: Concept, difference between Guidance and Counselling. **(NEP 2020, Online mode)** • Counselling and other allied terms • Types of Counselling: Direct Counselling, Indirect Counselling, Eclectic Counselling **(NEP 2020, Online mode)** • Teacher as a Counsellor in educational institutions **(NEP 2020)**
Transaction Strategies/ Teaching Learning Process	Lecture cum discussion, use of audio-visual learning material, discussion brainstorming reflection, conduct counselling sessions, assignments on various topics, and presentation of case study of students in need of counselling, group participation and group discussions conduct of psychological tests, project work and field.

Practicum: Select any three out of the following

1. Administration and interpretation of any two.
    a) Intelligence Test
    b) Interest Inventory
    c) Aptitude Test
    d) Personality Test
2. Prepare a case study of two students one general and one problem students
3. Planning/Preparing Guidance Programme for School.
4. Plan a Motivational Schedule for enhancing learning
5. Create a School Development Plan for initiating a guidance and counselling programme in schools

Suggested Readings:

Year	**I**	**PERFORMING AND VISUAL ARTS**	**Credits**	**4 (2Theory+ 2 Practical)**
Semester	**II**		**Course code**	SOE 02 02 04 GEC 2024

Learning Outcomes	After the completion of the course, students will be able to: ● Explain of Visual art and its various dimensions ● Illustrate the different areas of Performing Art and organize various activities ● Plan and design various creative Art ● Organize and dramatize various Performing Art and integrate technology in art
Course Content	
Unit -1	**Introduction of Visual Arts (Theory)**
	● Visual Art: Concept, Scope, Elements, Importance and Aesthetics **(NEP 2020, Online)** ● Colour: Concept and Classification **(NEP 2020, Online)** ● Advertising: Concept of Advertising, its Importance in Indian context ● Understanding of Folk and Tribal Arts **(Online)**
Unit -2	**Introduction of Performing Arts (Theory)**
	● Acting according to Natyashastra **(Online)** ● Concept of Direction and Design **(Online)** ● Introduction of Performing Arts in India (Music, Dance and Drama) **(NEP 2020, Online)** ● Indian Classical Art, Forms and Narratives Arts **(NEP 2020, Online)**
Unit -3	**Creative Art (Practical)**
	● Forms of Painting: Study of still life, Portrait, Poster, Paper Art and Collage **(NEP 2020)** ● Basics of Graphic Design and Calligraphy **(NEP 2020)**

	● Folk and Tribal Arts: Pithora, Kalamkari and Gond Painting ● Making of Advertising ideas & posters
Unit -4	**Acting, Direction, Design Technology and Play Production (Practical)**
	● Acting (Rasa & Bhava), Acting Performance with Voice, speech and Body Movements **(NEP 2020)** ● Dance and use of body movements **(NEP 2020)** ● Stage Craft, Direction & Design Technology ● Performance based on Mime, Storytelling & Role Play **(NEP 2020)**
Transaction Strategies/ Teaching Learning Process	Hand on experience of working in different mediums and materials, preparation and presentation of teaching learning materials, slide/film show, group work planning of a stage-setting, visit, role play, celebrations of Indian festivals and fairs, brain-storming, interaction with artists, lectures and demonstration.
Practicum:	1. Making of Study of still life, Portrait, Poster (Social Activist), Paper Art, Collage, Graphic Design, Calligraphy, Waste Utilization, Folk and Tribal Arts: Pithora, Kalamkari and Gond Painting, Advertising posters. 2. Acting (Integration of Performing Arts in Education), Direction, Stage Craft & Design Technology.

SEMESTER-IV

Year	**II**	**Gender, School and Society**	**Course Credits**	**4**
Semester	**IV**		**Course code**	**SOE 02 04 14 C3104**
Learning Outcomes	At the end of the course, the students will be able to: ● Explain the concept of gender and it's related constructs, differentiate between sex and gender and judge gender roles. ● Point out the gender issues in schools & society level ● Criticize the issues related to women and critically appraise the women role models. ● Critically judge the role of mass media and government pertaining to gender issues.			
Course Content				
Unit -1	**Introduction to Gender**			
	● Gender: Concept, difference between gender and sex ● Gender related concepts: Sexuality, feminism, equity and equality **(NEP 2020,Online mode)** ● Gender stereotyping: Physical appearance, domestic behaviour, occupation and personality traits **(NEP 2020, Online mode)** ● Gender roles through social institutions: Family, community, society **(NEP 2020)**			
`Unit -2	**Gender and School**			
	● Gender bias in school enrolments, dropouts, household responsibilities and societal attitudes towards girls education ● Gender Issues in Schools: Bullying, eve teasing, sexual abuse **(NEP 2020,Online mode)** ● Gender construction through curriculum and hidden curriculum **(NEP 2020)** ● Gender Sensitivity Pedagogy **(NEP 2020,Online mode)**			
Unit -3	**Gender, Society and Media**			

	● Concept of Patriarchy and Matriarchy **(Online mode)** ● Issues related to Women/ Girl Child: Female foeticide and infanticide and, sex ratio, honour killing, dowry, property rights and divorce **(NEP 2020,Online mode)** ● Role model for women: Phogat sisters, Ruma Devi, Dipika Karmakar, Gujan Saxena, Chhavi Rajawat **(NEP 2020,Online mode)** ● Role of Print and Electronic Media in Gender Stereotyping
Unit -4	**Provisions for Developing Gender Parity** **(NEP 2020,Online mode)** ● Domestic Violence Act (2005) ● Reservation for Women (2008) ● Supreme Court Verdict about Transgender (2018) ● National Policy for the Empowerment of Women, 2001
Transaction Strategies/ Teaching Learning Process	Lecture cum discussion, Tutorials, Brainstorming Session, Use of PPT, Film Shows (selected films), Assignments on different key areas of gender related issues given in syllabus through Google Group, Google Classroom and other online resources.
Practicum: ● Organizing debates on equality cutting across gender, class, cast and religion. ● Case study on how students perceive role models in their own lives. ● Debate on women role models in various fields with emphasis on women in unconventional roles. ● Prepare an analytical report on portrayal of women in print and electronic media.

Year	II	Assessment for Learning	Course Credit	4
Semester	IV		Course code	SOE 02 04 15 C3104
Learning Outcomes	At the end of the course, the students will be able to: ● Elaborate and differentiate the fundamental aspects of evaluation. ● Categorize the domains of knowledge, formulate instructional objectives and construct testing tools. ● Differentiate the various assessment tools, critically examine the trends and issues of evaluation. ● Employ and interpret the statistical techniques to analyze data and restate the properties of NPC.			
Course Content				
Unit -1	**An Overview of Evaluation** ● Concept of the terms: Test, Examination, Measurement, Assessment and Evaluation ● Distinctions between 'Assessment of Learning', Assessment for Learning' and 'Assessment as Learning' **(Online Mode)** ● Types of Evaluation based on Purpose: Placement, Diagnostic, Formative and Summative (**NEP 2020, Online Mode)** ● Continuous and Comprehensive Assessment: Concept, Nature and Process, 360° Holistic Assessment: NEP Vision **(NEP 2020, Online Mode)**			
Unit -2	**Assessment Tools** ● Assessment of Cognitive, Affective and Psychomotor domains of learning (Revised taxonomy of objectives) **(NEP 2020, Online Mode)** ● Characteristics of a Good Test: Reliability, Validity, Objectivity and Usability (only concept and usage). ● Preparation of an Achievement Test **(Online Mode)** ● Different kinds of tools: Project, Assignment, Practical Work & Kinds of Tests- Written and Oral			

<table>
<tr><td rowspan="2">Unit -3</td><td>Trends and Issues in Assessment for Learning</td></tr>
<tr><td>● Reporting students' performance: Progress Report, Cumulative Record, Constructing portfolios
● Feedback – Concept and Purposes (Online Mode)
● Existing practices: Unit test, Semester system, Annual examination, Online Examination, Open Book Examination
● Issues and Problems: Marking Vs. Grading, Choice based Credit System (CBCS), Menace of Coaching (NEP 2020, Online Mode)</td></tr>
<tr><td rowspan="2">Unit -4</td><td>Application of Statistics</td></tr>
<tr><td>● Measures of Central Tendency (Mean, Median, Mode), Measures of Variability (Range, Average Deviation, Quartile Deviation, Standard Deviation)– their uses and limitations.
● Percentile and Percentile Rank
● Correlation: Meaning, uses & calculation of correlation of coefficients by Rank Difference and Product Moment Methods.
● Concept and Properties of Normal Probability Curve (Online Mode)</td></tr>
<tr><td>Transaction Strategies/ Teaching Learning Process</td><td colspan="2">Lecture cum Discussion Method, Use of PPT, Assignments and their presentation. Year	I	Curriculum Transaction	Course Credits	4

Semester	**IV**		**Course code**	**SOE 02 04 16 C3104**
Learning Outcomes	At the end of the course, the students will be able to: ● Describe the fundamental aspects of the curriculum in education. ● Critically analyze Curriculum frameworks, models of curriculum development and compare them in terms of school curriculum. ● Elaborate the process of Curriculum development, and assess the need of curriculum organization. ● Describe and the process of Implementation, transaction & justify the need of evaluation of curriculum.			
Course Content				
Unit -1	**Introduction To Curriculum (NCF & NEP) (NEP 2020)**			
	● Curriculum: Meaning, Characteristics and Significance. ● Types of Curriculums with special reference to Child-centered curriculum, Subject centered curriculum, Activity curriculum and Hidden Curriculum. ● Principles of Curriculum Construction. ● Foundations of the Curriculum: Philosophical, Sociological, Psychological, and Historical.			
Unit -2	**Curriculum Framework & Models of Curriculum (Online Mode)**			
	● NEP,2020; Recommendations on school Education. ● NCF 2005 & NCFTE 2009 and Recommendations on Curriculum ● Curriculum Approaches; Academic, Behavioral, System approach. ● Models of Curriculum Development; Tylor's Model and Hilda Taba's Model, Wienstien and Fantini Model			
Unit -3	**Process of Curriculum Development**			

	● Meaning, Concept and Significance. ● Process of Curriculum Development. ● Selection of content & Curriculum organization **(NEP 2020)** ● Selection and organization of Learning Experiences. **(NEP 2020)**
Unit -4	**Implementation, Transaction and Evaluation of Curriculum (Online Mode)**
	● Implementation: Concept and Nature & Curriculum Implementation Models: ORC Model and Organizational-Development Model ● Curriculum Transaction: Meaning, Concept and online and offline Modes of Transactions. **(NEP 2020)** ● Curriculum Evaluation: Concept, Need and Sources of Curriculum Evaluation. **(NEP 2020)** ● Types of Curriculum Evaluation: Formative and Summative. **(NEP 2020)**
Transaction Strategies/ Teaching Learning Process	Lecture cum Discussion Method, Assignments on various topics, PPT presentation followed by Discussion, Chart preparation on various Models of Curriculum Development, Group Discussion and Panel Discussion on various aspects of Curriculum Development and Transaction, Reviewing B.Ed. curriculum.
Practicum: ● Reflection on NEP 2020. ● Critical review of any one curriculum framework: NCF, 2005. ● Critical review of any one curriculum framework NCFTE, 2009 ● Practice of Team-Teaching Approach	

- Book Review
- Critical analysis of online mode of transaction.
- Critical Analysis of a School Textbook
- Prepare a report on NCF-2005 with special reference to recommendation for curriculum.
- Prepare a report on NCFTE-2009 with special reference to recommendation for curriculum.
- any other topic approved by the teacher.

Year	**I**	**Environmental Education**	**Course Credits**	**2**
Semester	**IV**		**Course code**	**SOE 02 04 18 C2002**

Learning Outcomes	At the end of the course, the students will be able to: ● Differentiate environment & environmental education and discuss various dimensions of it in terms of human life and society. ● Critically analyze various issues, concerns and threats to environment and interpret different initiatives taken by govt to protect them.
Course Content	
Unit -1	**Conceptual Understanding of Environment and Its Education.** ● Environment: Meaning, component and its types. ● Ecological System; Concept, Structure (Biotic and abiotic factors) its Function and Human interaction and dependency on the Environment. ● Concept, Components, Scope & need to promote of Environmental Education. ● Role of Education, School and Teacher in Environment Conservation. **(NEP 2020)**
Unit -2	**Issues, Concerns and Conservation of Environment. (Online Mode)** ● Air, Water, Soil and Noise Pollution; Causes, Preventions and its impact on health, ozone depletion & Greenhouse effect. ● Threats to natural resources and their conservation (Deforestation, Biodiversity & Wildlife), National River Conservation Plan (NRCP), NRLCP, Project Elephant, and Project Tiger, Forest conservation. ● Sustainable Development **(NEP 2020)** ● Contribution of Prominent Indian Environmentalist: Sundarlal Bahuguna, M.S. Swaminathan **(NEP 2020)**
Transaction Strategies/ Teaching Learning	Lecture cum discussion, Lecture cum demonstration, use of laptop as audio-visual aid, Assignments on various topics, Presentation and group discussion, and presentations by Pupil Teachers will be encouraged.

Process	

Practicum:

1. Organize environmental awareness activities and prepare a video.
    - how to use a dustbin.
    - Road safety.
    - Forest as a life line
    - Plantation
    - use of first aid
    - Polythene.
2. Organize environmental conservation activity and prepare a video.
3. Prepare a report on the present status of climate change.
4. Prepare a report on recycling of non-decomposable material.
5. Prepare a report on the environment protection act.
6. Prepare a report on environmental standards.
7. Prepare a report on environmental issues that you see in your surroundings.
8. Action Plan for Vulture Conservation, 2020-2025.
9. To prepare a report on the State of forest.
10. To prepare a report on administrative bodies in India working for Protection of Environment/Forest/Wildlife.
11. To prepare a report on Govt. Initiatives for preservation of Natural Resources.
12. Govt. Initiatives for saving Rivers.
13. National Green Tribunal Act.

14. To prepare a report on science and technological advancement and degradation of Environment.
15. To organize at least two activities nearby your areas to sensitize people, children, peers etc to preserve and conserve natural Resources.
16. Any topic suggested by the teacher.

Year	**II**	**Guidance and Counselling**	**Course Credits**	**4 (2 Theory + 2 Practical)**
Semester	**IV**		**Course code**	**SOE 020412 DCEC3104**
Learning Outcomes	At the end of the course, the students will be able to: ● Elaborate the concept of guidance and it's various aspects. ● Categories multiple Counselling Services and use various ethics, techniques and approaches of counselling.			

	● Organize Counselling programmes at school level and critically appraise & prepare a case study. ● Learn how to administer the psychological tests for guidance and counselling services.
Course Content	
Theory Unit -1	**Fundamentals of Guidance**
	● Guidance: Concept, need, importance and basic principles **(NEP 2020,** ● Types of Guidance: Educational, Vocational, Social & Personal Guidance **(Online)** ● Types of necessary guidance services **(NEP 2020)** ● Role of parents and teachers in Guidance **(NEP 2020)**
Theory Unit -2	**Counselling Services & Ethics**
	● Counsellor: Characteristics, Functions & Professional Ethics **(NEP 2020, Online)** ● Importance & Dimensions of Counselling in schools ● Skills and Approaches of Counselling ● Organization of Counselling Programmes in schools **(NEP 2020)**
Practical Unit -3	**Administration of Psychological tools for Guidance and Counselling**
	● Administration and Interpretation of (any two) Psychological tools : a) Personality Test b) Intelligence Test c) Interest Test d) Aptitude Test e) Achievement Test
Practical	**Counselling at School Level**

Unit -4	● Conduct any two activities for Guidance Plan on school students or peers: a) Prepare techniques/procedure of Counselling for school level students b) Prepare a case study of two students: normal & problematic child at High schools' level c) Prepare Counselling plan for special children **(NEP 2020)** d) Prepare Counselling plan for drug addicts e) Guidance & Counselling in Promoting Mental Health **(NEP 2020)** f) Preparatory steps of Guidance in stress-management **(NEP 2020)**
Transaction Strategies/ Teaching Learning Process	Lecture cum discussions, presentation of case study of students in need of counselling, use MOOCs and e-platforms. Group discussion and presentation, Lecture, Conduct of Psychological Tests**,** Assignments on various types of knowledge, presentation and discussion, Lecture cum demonstration, Ask pupil teachers to prepare write up on various maxims of education, Preparation of activity based curriculum in groups and discussion, observation of students, conducting career guidance in the schools, counsel students by identifying their mental health problems such as lack of concentration, anxiety, anger etc, Audio and Video Lecture, Group Discussions by online softwares, use of audio and video materials, Review of various literature available, Providing reading material to students, Organizing tutorials if needed.

Practicum:

- Draw a plan for the assessment of ability, aptitude, interest or personality of students. Explore two tests.
- One each for the assessment of intelligence and aptitude at the elementary and secondary stage through different sources and prepare critical writeups.
- Prepare a script of a session with a client student communicating either low ability or high ability scores highlighting the skills used by you in the session.
- Prepare a sociometric test. Administer the test on a group of students. Draw a sociogram and describe in detail the group climate.

- Any other project/assignment prescribed by the teacher.

Year	**II**	**Comparative Education**	**Course Credits**	**4**
Semester	**IV**		**Course code**	**SOE 020413 DCEC3104**
Learning Outcomes	At the end of the course, the students will be able to: ● Build perspective and understanding of concepts, approaches and scope of comparative education;			

	● Compare the primary, secondary and higher education system and its implications in India, U.K. and U.S.A.; ● Analyze the need of distance education in India, U.K. and U.S.A.; and ● Identify and resolve the defects and issues of the prevalent system of education in India.
Course Content	
Unit -1	**Conceptual Understanding of Comparative Education**
	● Comparative Education: Concept, history and developmental stages of comparative education, aims and scope of comparative education. ● Comparison of National Policy of Education, 1986 and National Education Policy, 2020**. (NEP 2020, Online mode)** ● Approaches to Comparative Education: Historical, philosophical, sociological and problem approach ● Factors affecting the education system. **(Online mode)**
Unit -2	**Primary/Elementary Education in India, U.K. and U.S.A.**
	● Primary Education: Concept, origin and development of primary education in India. ● Pre-Primary Education with reference to National Education Policy, 2020. **(NEP 2020, Online mode)** ● Concept of Universalization of Elementary education in India and its implications ● Comparison of primary education of India with U.K. and U.S.A. (Aims, salient features, content, methods & instruction and evaluation system) **(Online mode)**
Unit -3	**Secondary Education in India, U.K. and U.S.A.**
	● Secondary education: Concept, meaning, structure, need and importance. ● National Policy of Education 2020 with reference to secondary education. **(NEP 2020, Online**

	mode) ● Comparison of Secondary education in India, U.K. and U.S.A. (Aims, salient features, content, methods & instruction and evaluation system) **(Online mode)** ● Problems of secondary education in India and suggest their solutions
Unit -4	**Higher Education in India, U.K. and U.S.A.** ● Higher education- meaning, aims, features, content, methods & instruction and evaluation system with reference to NEP,2020. **(NEP 2020, Online mode)** ● Comparison of higher education of India with U.K. and U.S.A. (Aims, salient features, content, methods & instruction and evaluation system) ● Defects of the prevalent system of higher education in India. **(Online mode)** ● Online education mode: its needs and importance in light of NEP,2020. **(NEP 2020)**
Transaction Strategies/ Teaching Learning Process	Lecture cum discussion, use of PPT, assignments on various topics, Lecture cum demonstration, ask pupil teachers to prepare write up on various factors influencing of education system and Comparative Education, debate on aims, content, methods & instruction and evaluation system in India, U.K. and U.S.A., chart preparation on education system in India, U.K. and U.S.A., In depth analysis of various education system by the student teachers and presentations will be encouraged.
Practicum: ● Write up on various factors influencing the education system. ● Chart preparation on the education system in India.	

- Reflections on secondary and higher education in India, U.K. and U.S.A.

Year	**II**	**Life Skills Education**	**Course Credits**	**4**
Semester	**IV**		**Course code**	**SOE020414 DCEC3104**
Learning Outcomes	At the end of the course, the students will be able to: ● Explain the concept of life skills and the role of education in promoting life skills. ● Classify and use the thinking skills. ● Explain and develop coping skills related to emotions & stress.			

	● Hypothesize and choose social and negotiation skills in various spheres of life.
Course Content	
Unit -1	**An Overviews of Life Skills**
	● Life Skills: Genesis of the concept (National and International) **(NEP 2020,Online mode)** ● Need and Significance of Life Skills **(NEP 2020,Online mode)** ● Life Skills Education in the Indian Context ● Role of teacher in encouraging core life skills to practice
Unit -2	**Thinking Skills** **(NEP 2020,Online mode)**
	● Nature and Elements of Thought ● Types of Thinking: Creative and Critical Thinking ● Problem Solving: Concept, Factors affecting and Steps in Problem Solving ● Decision Making: Concept, Process, Need, Consequences, Models of Decision Making and Goal Setting
Unit -3	**Coping Skills** **(NEP 2020)**
	● Emotions: Concept types of emotions, causes and effects of different emotions ● Strategies of coping with emotions: Classroom discussion; brainstorming; role-playing, audio and visual activities (arts, music, theatre, dance; case studies, storytelling, debates) **(NEP 2020,Online mode)** ● Coping with Stress: Concept, types and sources of stress ● The General Adaptation Syndrome Model of Stress and coping strategies
Unit -4	**Social and Negotiation Skills** **(NEP 2020)**
	● Self-Awareness: Concept and types of self -self-concept, body image, self-esteem and techniques for developing Self-Awareness: Johari Window, SWOT Analysis **(Online mode)**

	• Empathy –Concept, importance and teacher's role in developing empathy among learners • Effective Communication - Concept, functions, models and barriers • Interpersonal Relationship - Concept and factors affecting relationships
Transaction Strategies/ Teaching Learning Process	Lecture cum discussion, Group discussion and presentation, Brainstorming Session, Use of PPT, Assignments on various topics, Lecture cum demonstration, Preparation of activity based on the strategies of life skills development in groups and discussion, Debate on various problems, panel discussion, in depth analysis of various life skills by the student teachers and presentations will be encouraged.

Practicum:

- Activities related to the various skills described.
- Organizing workshops on developing social and negotiation skills, thinking skills etc.
- Organize collaborative activities under the guidance of the teacher.
- Case Study in any of the areas.
- Any other activity as assigned by the teacher.

Year	**II**	**Web Technologies in Education**	**Course Credits**	**4**
Semester	**IV**		**Course code**	**SOE 02 04 15 DCEC3104**
Learning Outcomes	After the completion of the course the pupil-teachers will be able to: ● Explain the concept of web technology. ● Critically analyze and discuss various issues associated with using web-based learning platforms. ● Use web-based learning platforms, environment and pages. ● Elaborate the various web-based pages.			

Course Content	
Unit -1	**Introduction to Web Technology**
	● Concept, Meaning and forms of Web Technology ● Aim and importance of Web Technology ● Contribution of Web Technology in teaching ● Constraints in the use of Web Technology
Unit -2	**Web based learning: Issues and Challenges**
	● Security and privacy issues in using web-based learning sites and platforms ● Technical support and infrastructure requirements of web-based learning ● Administrative support and structure for web-based learning ● Psychological aspects of using web-based technologies in teaching learning process.
Unit -3	**An overview of Web based Learning Platforms**
	● SWAYAM ● Unacademy ● NPTEL ● Swayam Prabha ● E-pathshala ● Diksha ● Coursera
Unit -4	**An Introduction to Web based Environment and Pages**
	● Virtual classroom

	● Forum ● Blogs ● Bulletin Board
Transaction Strategies/ Teaching Learning Process	Lecture cum discussion, Lecture cum demonstration, Use of PPT, Assignments on various topics, Presentation and discussion, Debate and presentations by Pupil Teachers will be encouraged.

Practicum:

- Assignments on various topics given in the syllabus.
- Visits in ICT Lab.
- First-hand experience of virtual learning.
- Panel discussion on issues related to Web based Learning.

Suggested Readings:

Year	**II**	**Education for Mental Health**	**Course Credits**	**4**
Semester	**IV**		**Course code**	**SOE020417 DCEC3104**

Learning Outcomes	At the end of the course, the students will be able to: ● Define the concept of mental health and recall the symptoms of bad mental health. ● Explain the importance of mental hygiene ● Illustrate the methods of adjustment/Adjustment mechanism. ● Develop the understanding of the role of home and school in mental health.
Course Content	
Unit -1	**Mental Health**
	● Concept, factors affecting mental health **(Online)** ● Characteristics of a mentally healthy person **(Online)** ● Symptoms and causes of bad mental health ● Role of the parents in developing mental health of their children **(Online)**
Unit -2	**Mental Hygiene**
	● Concept, aspects, goals and principles of mental hygiene. **(Online)** ● Nature and scope of mental hygiene, principles of guidance and counselling for mental health and hygiene. ● Need, importance and functions of mental hygiene. ● Principles of curriculum construction from a mental hygiene point of view. **(NEP 2020)**
Unit -3	**Adjustment or mal-adjustment**
	● Concept, process and perspective for adjustment **(NEP 2020)** ● Methods of adjustment/adjustment mechanism **(NEP 2020)** ● Concept and causes of maladjustment **(Online)**

	● Effects of maladjustment on children/student's mental health
Unit -4	**Mental health in schools** **(NEP 2020)** ● Mental illness/disorder (personality disorder, anxiety, mood disorder, substance related addictive disorder): types, symptoms and causes ● Assessment of mental health status ● Stress: types, symptoms of stress and Stress management for students **(Online)** ● Role of teacher in fostering mental health, ways and means of improving mental health **(Online)**
Transaction Strategies/ Teaching Learning Process	E-learning, Lecture-cum-discussion, Tutorials, Brainstorming Session, Recorded/live Video and Audio lectures, Use of PPT, Assignments on different key areas given in syllabus through Google Group, Google classroom and other appropriate online apps.
Practicum: ● Case Study of Mentally Healthy and Mentally Retarded individual. ● Individualized Education Plan for Mentally Healthy and Mentally Retarded individual. ● Visit a nearby School, gather information and prepare a report on healthy mental habits adopted by school teachers for students.

Year	**II**	**Educational Management and Leadership**	**Course Credits**	**4**
Semester	**IV**		**Course code**	**SOE 02 04 05 GEC 3104**

Learning Outcomes	After the completion of the course the pupil-teachers will be able to: ● Explain the concept and various functions of Educational Management. ● Use effective methods of communication in their life. ● Analyse traits, skills and styles of leadership. ● Compare roles and importance of educational administration in India at local, state and central level**.**
Course Content	
Unit -1	**Educational Management: Conceptual Understanding**
	● Meaning, Concept and importance of Educational Management ● Objectives & Scope of Educational Management ● Educational Manager: Characteristics, Functions and Roles ● Managerial Ethics and creativity
Unit -2	**School Management and Communication**
	● Role and functions of Headmaster, Principal and Teacher ● Process, Human Relations Approach to Management. ● Communication: Types, methods and devices ● Barriers of Communication
Unit -3	**Educational Leadership: traits and skills**
	● Leadership: Concept, functions and roles ● Theories of leadership and management in educational organization ● Leadership Traits and Skills ● Functions and Styles of Leadership

Unit -4	**Educational Administrative Bodies in India at National Level: Roles & Functions** ● University Grant Commission (UGC) ● National Council of Educational Research and Training (NCERT) ● National Institute of Educational Planning and Administration (NIEPA) ● Ministry of Human Resource Development (MHRD) ● National Council for Teacher Education (NCTE)
Transaction Strategies/ Teaching Learning Process	Lecture cum discussion, Tutorials, Brainstorming Session, Recorded/ live Video and Audio lectures, Use of PPT, Film Shows (selected films), assignments on different key areas given in syllabus through Google Group, Google Classroom etc.
Practicum: ● Compile articles from newspapers, magazines, and internet discussing present policies and operational strategies of central and state Govt. for secondary education. Prepare a report of the entire activity. ● Review research on educational management or management of secondary schools which are used in other countries but not in India ● Examine the effectiveness of any one programme run by central Govt. for secondary students. Present the report in a classroom seminar. ● Any other activity/assignment suggested by the teacher.

Year	**II**	**Peace Education**	**Course Credits**	**4**
Semester	**IV**		**Course code**	**SOE 02 04 06 GEC 3104**

Learning Outcomes	After completion of the course, the students will be able to: ● Explain the concept of peace from different perspectives and critically appraise the ideas of thinkers pertaining to peace. ● Explain the concept of peace education and critically appraise the role of various agents in promoting peace education. ● Explain the various aspects of conflict and evaluate the role of peace education in conflict management. ● Select various techniques and approaches for teaching peace Education.
Course Content	
Unit -1	**Introduction to Peace**
	● Concept, importance and Approaches of Peace **(NEP 2020, Online)** ● Ideas of distinguished thinkers about Peace: Mahatma Gandhi, J. Krishnamurthy, Swami Vivekananda, Rabindranath Tagore ● Challenges to peace: Stress, conflicts, crimes, terrorism, violence and poor quality of life **(NEP 2020, Online)** ● Peace in the context of individual, Social, National and International perspectives **(NEP 2020, Online)**
Unit -2	**An Overview of Peace Education**
	● Peace Education: Concept and Scope **(NEP 2020, Online)** ● Needs and Importance of Peace Education in contemporary Society **(NEP 2020, Online)** ● Role of Family, school and Society in the development of values for Peaceful coexistence ● Role of UNESCO in promoting Peace Education **(NEP 2020, Online)**
Unit -3	**Conflict Management and Peace Education**
	● Conflict: Concept, Types and Process ● Conditions of conflicts: limited resources, poverty, socio economic conditions ● Techniques of conflict Resolution

	• Role of Peace Education in Conflict Management **(NEP 2020, Online)**
Unit -4	**Approaches and Techniques of Teaching Peace Education** • Yoga and Meditation • Role Playing, Storytelling • Group activities (literary activities, games & sports, service activities) • Counseling and co-curricular activities
Transaction Strategies/ Teaching Learning Process	Lecture cum discussion, Tutorials, Brainstorming Session, Use of PPTs, Assignments on different key areas of Peace related issues.
Practicum: • Seminar and group discussion on importance peace in the class. • Chart preparation on various Peace Education topics. • Reflection on various conflicts in day-to-day life. • Organize mock activities on working of UNO for Peace Education.	
Suggested Readings: • Arulsamy, S. (2016). *Peace and value education.*New Delhi: Neelkamal Publication. • Barash, P. David (2000). A*pproaches to peace*. Background

Considering the curricular reforms as instrumental for desired learning outcomes, all the academic departments of Central University of Haryana made a rigorous attempt to revise the curriculum of undergraduate and postgraduate programmes in alignment with National Education Policy-2020 and UGC Quality Mandate for Higher Education Institutions-2021. The process of revising the curriculum could be prompted with the adoption of "Comprehensive Roadmap for Implementation of NEP-2020" in the 32nd meeting of the Academic Council of the University held on April 23, 2021. The Roadmap identified the key features of the Policy and elucidated the Action Plan with well-defined responsibilities and indicative timeline for major academic reforms.

The process of revamping the curriculum started with the series of webinars and discussions conducted by the University to orient the teachers about the key features of the Policy, enabling them to revise the curriculum in sync with the Policy. Proper orientation of the faculty about the vision and provisions of NEP-2020 made it easier for them to appreciate and incorporate the vital aspects of the Policy in the revised curriculum focused on 'creating holistic, thoughtful, creative and well-rounded individuals equipped with the key 21st century skills' for the 'development of an enlightened, socially conscious, knowledgeable, and skilled nation'.

With NEP-2020 in background, the revised curricula articulate the spirit of the policy by emphasising upon—integrated approach to learning; innovative pedagogies and assessment strategies; multidisciplinary and cross-disciplinary education; creative and critical thinking; ethical and Constitutional values through value-based courses;

21st century capabilities across the range of disciplines through life skills, entrepreneurial and professional skills; community and constructive public engagement; social, moral and environmental awareness; Organic Living and Global Citizenship Education (GCED); holistic, inquiry-based, discovery-based, discussion-based, and analysis-based learning; exposure to Indian knowledge system, cultural traditions and classical literature through relevant courses offering 'Knowledge of India'; fine blend of modern pedagogies with indigenous and traditional ways of learning; flexibility in course choices; student-centric participatory learning; imaginative and flexible curricular structures to enable creative combination of disciplines for study; offering multiple entry and exit points initially in undergraduate programmes; alignment of Vocational courses with the International Standard Classification of Occupations maintained by the International Labour Organization; breaking the silos of disciplines; integration of extra-curricular and curricular aspects; exploring internships with local industry, businesses, artists and crafts persons; closer collaborations between industry and higher education institutions for technical , vocational and science programmes; and formative assessment tools to be aligned with the learning outcomes, capabilities, and dispositions as specified for each course. In case of UG programmes in Engineering and Vocational Studies, it was decided that the departments shall incorporate pertinent NEP recommendations while complying with AICTE, NBA, NSQF, International Standard Classification of Occupations, Sector Skill Council and other relevant agencies/sources. The University has also developed consensus on adoption of Blended Learning with 40% component of online teaching and 60% face to face classes for each programme.

The revised curricula of various programmes could be devised with concerted efforts of the faculty, Heads of the Departments and Deans of Schools of Study. The draft prepared by each department was discussed in series of

discussion sessions conducted at Department, School and the University level. The leadership of the University has been a driving force behind the entire exercise of developing the uniform template and structure for the revised curriculum. The Vice Chancellor of the University conducted series of meetings with Heads and Deans to deliberate upon the vital parameters of the revised curriculum to formulate a uniform template featuring Background, Programme Outcomes, Programme Specific Outcomes, Postgraduate Attributes, Structure of Masters Course, Learning Outcome Index, Semester-wise Courses and Credit Distribution, Course-level Learning Outcomes, Teaching-Learning Process, Blended Learning, Assessment and Evaluation, Keywords, References and Appendices. The experts of various Boards of Studies and School Boards contributed to a large extent in giving the final shape to the revised curriculum of each programme.

To ensure the implementation of curricular reforms envisioned in NEP-2020, the University has decided to implement various provisions in a phased manner. Accordingly, the curriculum may be reviewed annually.

Programme Name: M.Ed., School of Education

Vision and Mission of Central University of Haryana

UNIVERSITY VISION

To develop enlightened citizenship of a knowledge society for peace and prosperity of individuals, nation and the world, through promotion of innovation, creative endeavours, and scholarly inquiry.

UNIVERSITY MISSION

To serve as a beacon of change, through multi-disciplinary learning, for creation of knowledge community, by building a strong character and nurturing a value-based transparent work ethics, promoting creative and critical thinking for holistic development and self-sustenance for the people of India. The University seeks to achieve this objective by cultivating an environment of excellence in teaching, research and innovation in pure and applied areas of learning.

Objectives of School of Education

in consonance with vision and mission of University School of Education has framed following objectives

1. To prepare outstanding teacher educators for transforming lives of individuals and lead to national development.
2. To prepare teacher educators who have a sound knowledge base, essential professional skills and humanitarian values and ethics.
3. To impart skills among teachers in Information & Communication Technology with experiential learning for education.
4. To develop research skills in the pupil teachers with moral and ethical development.
5. To build self disciplined individuals who appreciate work and manage time efficiently.

Mapping of University Vision and Mission to Department Vision and Mission

Acclaimed as modal Centre of Learning and Research by

University Vision and Mission	**Objectives of School**

High quality knowledge society creation for peace and prosperity of individuals, nation and the world, through and scholarly inquiry	**Yes**
Promotion of innovation, creative endeavours, research and development	**Yes**
Students excellence through multi-disciplinary learning, value-based transparent work ethics, creative and critical thinking	**Yes**
Environment of excellence in teaching, research and innovation in pure and applied areas of learning	**Yes**

1. PROGRAMME OUTCOMES (POs), SCHOOL OF EDUCATION

After successful completion of the programme:

PO1 Learners will be able to comprehend the acquired knowledge during the Programme of study.

PO2 Learners will be able to reflect on the problems relating to discipline and society with ethical guidelines.

PO3 Learners will be able to exhibit the professional skills and competencies acquired during the Programme of study.

PO4 Learners will be able to show scientific & research capabilities in their academic, professional and general life pursuits.

PO5 Learners will be able to apply the knowledge and skills acquired in academic management and resource management according to predetermined objectives/outcomes.

PO6 Learners will be able to work as a member or a leader in various teams and multidisciplinary & diverse settings.

2 PROGRAMME SPECIFIC OUTCOMES (PSOs), M.Ed. Programme

The M.Ed Two-Year Teacher Education Programme aims at:

PSO-1. Acquiring conceptual understanding of educational philosophy, sociology, psychological and other educational aspects with experiential learning.

PSO-2. Reflections on various learning practices and legislative provisions related to Indian Education system for providing integrated learning experiences in the context of socio-cultural milieu of the learners and inclusive setting.

PSO-3. Nurturing professional competencies and 21st Century skills of learners.

PSO-4. Providing exposure to student-teachers for digital literacy, integrated pedagogy, and training for various awareness programmes related to gender, environment, health and contemporary issues.

PSO-5. Providing real experience of all activities of teacher training institutions activities through engaging student-teachers as learners.

PSO-6. Developing research competencies with statistical techniques, research ethics and evaluation strategies to address the contemporary educational problems.

Structure and Syllabus

M. Ed.
(Master of Education)

Year	I	PSYCHOLOGY OF LEARNING AND DEVELOPMENT	Credits	4
Semester	I		Course code	SOE 01 01 01 C3104
Learning Outcomes	**At the end of the course, the students will be able to:** ● Identify the biological and the cultural processes of development and explain how the two are dynamically intertwined. ● Describe the major theories of child development and critically examine the theories as they apply to the lives of culturally diverse children and their families. ● Exhibit appropriate design and methods for carrying out research with children ● Observe children in their natural environments and describe their development in the social, emotional, physical, language, and cognitive domain.			
Course Content				
Unit -1	**Developmental Aspects of the Learner (NEP)**			
	● Growth and development: Concept and principles and its implication (online mode) ● Stages of growth and development across various stages from infancy to adolescence (online mode) ● Piaget cognitive development theory ● Erikson psycho-social development theory			
Unit -2	**Theoretical Frameworks of Learning**			

	• Learning: Concept, characteristics, learning process and factors affecting learning (Online mode) • Vygotsky Sociocultural theory • Bandura Social learning theory **(NEP)** • Motivation: Concept, Types, motivational cycle and its Educational implications (online mode)
Unit -3	**Creativity and Intelligence**
	• Creativity: Meaning, characteristics, components • Role of teachers in fostering creativity (online mode) **(NEP)** • Intelligence: Concept, emotional intelligence and factors affecting intelligence (Online mode) • Theories of intelligence: Sternberg, & Gardner
Unit -4	**Personality and Well Being (NEP)**
	• Personality: Meaning, concept, and nature • Theories of personality: Freud, Carl Rogers, Allport • Mental health and Well being (Online mode) • Defense Mechanisms
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Identify and prepare a case study of underachieving students. • Identify five students showing maladjustment behaviour. List the adjustment problems from which they are suffering and explain their causes • Visit a school, observe X class students and prepare a report on it. Any other task and assignment given by the institution

Year	I	HISTORICAL, POLITICAL AND ECONOMIC FOUNDATIONS OF EDUCATION	Credits	4
Semester	I		Course code	SOE 01 01 02 C3104

Learning Outcomes	**At the end of the course, the students will be able to:** ● Reflect on education during Vedic, Buddhist and Medieval period. ● Describe the historical political and economic perspectives of education. ● Specify and Critically analyse the main recommendations made by various Education Commissions/ Reports/ Schemes during pre and post-Independence Period. ● Reflection on contemporary issues in education.

Course Content	
Unit -1	**Historical Foundations of Education: Pre-Independence Period**
	● **Development of education in India during Vedic, Buddhist and Medieval period.(ONLINE)** ● Development of education in India during British period: Lord Macaulay Minutes (1834), Wood's Dispatch (1854), Hunter Commission (1882), Wardha Scheme of Education (1937).
Unit -2	**Historical Foundations of Education: Post-Independence Period**

	• Secondary Education Commission (1953) • Indian Education Commission (1964-66) • **National Policy on Education (1986)** • Programme of Action (1992) • National Curriculum Framework (2009) • **National Education Policy (2020)- (both NEP and Online)**
Unit -3	**Political Foundations of Education**
	• **Educational provisions in Indian constitution (ONLINE)** • Education and human rights • Role of State in education under Panchayti Raj, State Govt and Central Govt • Education for political development and socialization • **Motives behind various policies of education: NPE-1986, NCTE,-2014, RTE Act, 2009. (ONLINE)**
Unit -4	**Economic Foundations of Education**
	• **Concept of Economics of education (ONLINE)** • **Linkage between educational policy and national development (ONLINE)** • Contribution of education in the economic development of a country. • **Education and employment: investment in education, skill based education. (ONLINE)** • Youth unemployment & education. • Privatization,Globalization and Liberalization in education
Teaching learning process/Transaction Strategies	Lecture cum Discussion Method, Brainstorming Sessions, E-learning, assignments on different key areas, debate & panel discussion, Power Point presentations.

Practicum :	● Critique of any one :NCF-2005 / RTE Act,2009 / NEP 2020 (NEP) ● Visit to a school, observation of implementation of educational schemes in school and prepare a report on it. ● Any other task and assignment given by the institution

Year	I	INTRODUCTION TO EDUCATIONAL RESEARCH	Credits	4
Semester	I		Course Code	SOE 01 01 03 C3104

Learning Outcomes	After the completion of the course, the students will be able to: ● Explain and differentiate among several types of educational research ● Identify the research problem and construct a coherent research proposal ● Uses of appropriate type of sampling and tests for data collection ● Perform basic statistical techniques for data analysis and interpret their results
Course Content (The course is as per recommendations of NEP)	
Unit-I	**Conceptual understanding of Educational Research** ● Educational research: Meaning, nature, scope including multidisciplinary research, and types (fundamental, applied and action) ● Scientific method: meaning, steps, characteristics (replicability, precision, falsifiability and parsimony), methods of acquiring knowledge ● Types of scientific method: Exploratory, explanatory and descriptive (online) ● Approaches to educational research: Quantitative and qualitative (online)
Unit -2	**Development of research proposal** ● Research problem: Concept, sources, and identification of research problem. ● Review of the literature- meaning, purpose, sources (primary and secondary) and resources used for searching latest review of literature ● Variables: meaning of concepts, constructs, and variables; Types of variables- independent, dependent, extraneous (online) ● Research proposal: Concept, types, steps of writing research proposal (including formulation of research questions, objectives and hypotheses)

Unit-3	**Methodology of Educational Research (online)** • Methods of educational research: Descriptive, historical and experimental (meaning, significance, steps) • Population and sample: Concept, types and characteristics of a good sample • Techniques of sampling- • Probability (simple random sampling, systematic sampling, stratified random sampling, cluster sampling, and multi-stage sampling) • Non-probability (convenience, purposive, quota and snowball sampling)
Unit-IV	**Basic Statistical Techniques (online)** • Types of measurement scale: Nominal, ordinal, interval, and ratio • Descriptive Measures: Types and graphical representation of data Measures of Central Tendency: Mean, median and mode Measures of Dispersion: Range, Quartile Deviation, Mean Deviation and Standard Deviation • Normal Probability Curve (NPC): Meaning, characteristics and applications • Correlation: Meaning, assumptions, computation and uses of:- **a.** Rank difference correlation **b.** Product Moment Correlation **c.** Partial and Multiple Correlations
Teaching learning process/Transaction Strategies	Lecture-cum-discussion, brain-storming, group discussion, presentations, panel discussions, seminar presentations, demonstration and practical exercise of statistical problems, research based activities, and case studies.
Practicum	• Preparation of a Research Proposal • Review 5 Research Articles related to selected topic of research

Year	**I**	**ICT IN EDUCATION** (Practical)	**Credits**	**2**
Semester	**I**		**Course Code**	SOE01 01 04 C0022
Learning Outcomes	After completion of the course, students will be able to: • Demonstrate effective use of ICT tools, software applications and digital resources in learning process and research. • Create online learning content and assessment using online tools.			
Course Content				
Unit-I	• MS WINDOWS: Basic concept of an operating system and its functions; introduction of windows & basic components of a window ; MS Office • MS Word: Concept, Features and creation of academic documents • MS Excel: Introduction to spreadsheets, concept of worksheets and their operations • MS PowerPoint: Basic features of MS PowerPoint, creation and online presentation of the slides using various features.			
Unit -2 **(Whole Unit is based on NEP)**	• Critically examine the digital learning initiatives by MHRD, GOI like NMEICT, SWAYAM, national repository of open educational resources, swayam prabha, e-shodhsindhu etc. (online mode) • Technologies for creating interactive content, collaborative learning and online courses. (online mode) • Ethical use of web sites and search engines to locate, retrieve and manage content, tools and resources. (online mode) • Web as a space for continuous/lifelong learning: exploring use of OER and MOOCs.(online mode)			
Teaching Learning Process/ Transaction Strategies	Seminars, Assignments Lecture , Group Discussion			

Practicum	**Any two of the following:** • Preparing a research proposal in MS Word. • Preparation of presentation using MS PowerPoint and sharing on Google slides. • Making of progress report-card and annual results in MS Excel. • Critical review of any three digital initiatives of MHRD. • Preparation of e content using free tools and OER's. • Any other project/assignment given by the institution. **Note** • The student will maintain a file of the record related to activities performed. • Mode of transaction of this course will be a workshop.

Year	I	CURRICULUM STUDIES	Credits	4
Semester	II		Course code	SOE 01 02 09 C3104
Learning Outcomes	**After completion of the course, students will be able to:** ● Describe the concept, scope and principles of curriculum development ● Get sensitized to curriculum as a process, product and praxis. ● Acquaint students with the different aspects of curriculum evaluation. ● Explain the models of curriculum evaluation			
Course Content				
Unit-1	**Conceptual framework of Curriculum** ● Meaning, definition and elements of curriculum ● Types of curriculum-hidden curriculum, integrated curriculum ● Determinants of curriculum (Philosophical, Sociological and Psychological)			
Unit-2	**The Evaluation of Curriculum (NEP, 2020)** ● Formative Evaluation: feedback and guidance for shaping the curriculum ● Summative Evaluation : appraisal of the emergent curriculum ● Models in Curriculum Evaluation: CIPP, Tyler			

Unit-3	**Curriculum Transaction (NEP, 2020), Online** • Flipped classroom • Collaborative learning • Team teaching • Factors influencing Curriculum Transaction
Unit-4	**Trends in Curriculum Development in India (Online)** • Mudaliar Commission • Basic education • Kothari Commission • National Curriculum Framework, 2005
Teaching learning process/Transaction Strategies	Assignments and workshop on curriculum development and evaluation
Practicum	• Identify curriculum perspectives in the literature and develop an annotated bibliography • Identify issues and methods in your own discipline by supporting with relevant literature review on a curriculum topic of your choice. • Assignment on critically reflecting on the issues discussed on the theoretical foundations of curriculum construction and commenting on the future of curriculum theory.

Year	**I**	**INTERNSHIP AND FIELD ENGAGEMENT**	**Credits**	**2**
Semester	**II**		**Course code**	**SOE 01 02 11 C0022**
Learning Outcomes		• Internship program is aimed at providing practice of the concepts and skills learned in theoretical papers in the field of education such as schools, teacher education institutes apart from where the scholar is studying.		

Plan of Activities:

Sr. No.	**Phase**	**Name of Activity**	**Duration**
1	Part -One	Pre Internship training (Each student is required to deliver at least one lecture to B.Ed. students of School of Education)	01 Week
2	Part - Two	Observation of Internship Activities of B.Ed. students	01 Week
3	Part-Three	Attachment in Teacher Training Institution.	02 Week

Total Duration of Internship	**04 Week**

Part-A:

This phase is preparatory in nature aimed at providing students with necessary guidance and skills enriching their field based engagement. In this phase each M.Ed. a student is required to take a minimum of One Pedagogy paper class in the B.Ed. course of the Department.

Part-B:

Each student is required to observe the internship activities of B.Ed. students attached to a high school / higher secondary school for school based internship programme. The students are required to observe at-least five lessons of B.Ed. students and should maintain a separate observation record. The students are also expected to familiarize themselves with the school practices including school administration, organization of curricular and co-curricular activities.

Part-C:

Each M.Ed. a student is required to take a minimum of 06 classes in B.Ed. college/DIET either in core papers or in optional papers or both taken together under the close mentorship of teacher educators of the institution selected for internship related activities. The students are also expected to familiarize themselves with the college practices including administration, organization of curricular and co-curricular activities. The students are also expected to collectively organize at least one activity.

The suggestive list are as follows:

- Teaching learning material making competition
- Drawing / poster making competition on themes related to education
- Organize an innovative teaching learning material making workshop.
- Debate/ Essay writing/ Slogan competition.
- Nukkad Natak
- Cleanliness Drive
- Workshop on Micro-teaching Skills

Year	I	DISSERTATION-I	Credits	2
Semester	II		Course code	SOE 01 02 12 C0022
Learning Outcomes		**After completion of the course, students will be able to:** ● Understand the process of conducting research and preparing the research proposal. ● Apply the steps of writing review of related literature and identification of research gap.		
Course Content		● Research problem: Concept, identification and specification of the research problem ● Review of related literature: Concept, importance and identification of the research gaps ● Introduction to various referencing styles ● Research proposal: Concept and preparation of research proposal		

(Note: In this part of Dissertation each student is required to undertake the aforesaid activities under the guidance of their respective supervisors)

Departmental Elective Courses

Year	I	GUIDANCE & COUNSELLING	Credits	4
Semester	II		Course code	SOE 01 01 04DCEC 3104
Learning Outcomes	**After completion of the course, students will be able to:** ● Explain the meaning and concept of guidance and counselling in India. ● Exhibit various techniques for guidance and counselling. ● Develop competencies for various approaches of counselling. ● Encourage practices to promote group activities for addressing factors affecting mental health.			
Course Content				
Unit-1	**Introduction to Guidance** ● Guidance: Concept, Principles and Functions ● Types of Guidance: Educational, Vocational, Social, Personal, health and Social Guidance(Online) ● Role of teachers in guidance ● Contemporary Models of Guidance: Mathewson			
Unit-2	**Introduction to Counselling (NEP)** ● Concept, Principles, Techniques & Procedure of Counseling ● Counselor: Characteristics, Functions (Online) ● Ethics of counsellor ● Skills of Counseling: Building Trust, Listening, Observation & Empathy			
Unit-3	**Approaches and theories of counselling** ● Approaches of Counseling: Directive, Non-Directive, Eclectic Counseling ● Cognitive-behavioural approach (CBT): Aaron T. Beck ● Rational emotive behaviour approach (REBT): Albert Ellis (Online) ● Theories of Counseling: Psychoanalytic, Behaviouristic			

Unit-4	**Mental Health and Well Being (NEP)** ● Concept of Well Being(Online) ● Concept of Mental Health ● Factor Affecting Mental Health ● Promoting Positive Mental Health at Work Place
Teaching learning process/Transaction Strategies	Lectures, discussions, use of psychological tests, observation of students, conducting career guidance in the schools, counsel students by identifying their mental health problems such as lack of concentration, anxiety, anger etc.
Practicum	1. Prepare an interview schedule for an effective Counseling 2. Visit a guidance Centre and Write a report about its organization and functions. 3. Write a research report on – Issues and trends in Guidance and Counseling

SEMESTER-III

Year	II	TEACHER EDUCATION	Credits	4
Semester	III		Course code	SOE 01 03 12 C 3104

Learning Outcomes

After the completion of this course the students will be able to:

- Explain the Concept, Need and Importance and development of Teacher Education.
- Understand the structure, Curriculum and Modes of Pre-Service Teacher Education
- Exhibit the various components of Professional Growth of Teachers.
- Reflect on various Agencies of Teacher Education and categorise various Challenges in teaching profession

Course Content

Unit-1

Introduction to Teacher Education

- Meaning, Nature and Scope of Teacher Education; Types of Teacher Education Programs. (ONLINE)
- Committees and Commissions contribution to Teacher Education: Kothari Commission Report (1964-66), NCF (2005) and NCFTE (2009), Justice Verma Commission Report (2012). (Both NEP and Online)

Unit-2

Structure, Curriculum and Modes of Pre-Service Teacher Education

- Pre- Service Teacher Education: Concept, Nature, Objectives at different levels. (online)
- Components of Pre-Service Teacher Education: Foundation Courses, Subject Specialization and Pedagogy, School based Practicum and Internship.
- Reflective Teaching and Strategies for promoting reflective teaching.

Unit-3

Structure and Modes of In-service Teacher Education

- In-service Teacher Education; concept, Need, Objectives and areas of Professional development.
- **Types of In-Service courses for Teachers; Orientation and refresher Courses, workshops, seminars, Internship and Summer Institutes. (online)**
- Modes of In-service teacher education; Induction, Cascade, School based, Face to face, Distance and online mode.

Unit-4	**Teaching as a Profession, Agencies of Teacher Education** • **Agencies of Teacher Education and their functions: DIET, SCERT, NCERT, NCTE.(Both online and NEP)** • Profession and Professionalism, Teaching as a profession, Professional ethics of a teacher. • Challenges of teacher education in the 21st Century.
Teaching learning process/Transaction Strategies	Lecture cum Discussion, Debates, illustrations, presentations, Projects Method, E-learning, assignments on different key areas, panel discussion, brainstorming sessions.
Practicum	**Assignment on any one of the following:** • Prepare a report on the role of various central and state agencies in Teacher Education. • Visit DIET/SCERT/NCERT and prepare a note on its functions. • Attend any program related to in-service teacher education programs and write a report on it.

Year	II	Internship	Credits	4
Semester	III		Course code	SOE 01 03 14 C0044
Learning Outcomes	**After the completion of this course, the students will be able to:** ● Develop nuanced understanding of pedagogical practices and programme structures in institutes and other sites. ● Understanding about children's thinking and learning processes, and their relationships. ● Refine skills of interpersonal interactions with young children. ● Critically reflect upon the field experiences and link them with theoretical constructs.			
Course Content				
Brief description of internship:	Internship have been designed to deepen students' engagement with education as praxis and to develop professionals who understand the interrelationship between the theory and practice in the 'field' which includes development sector, state functionaries, centrally sponsored schemes and initiatives among others. During this field attachment, students will be placed at a field site for three weeks. This prolonged engagement will enable students to gain an "insider-outsider" perspective to the field and critically engage with questions around equity, quality and social justice related to learning and development of young children.			
Assessment Details: **Suggested Internship activities**	**Concerned supervisor will evaluate the internship activities of students. The activities will depend upon the situation of COVID-19. If a normal situation prevails then students will do internships related to teacher training institutes. Otherwise students will do online internship activities.** 1. Collaborative small projects in community 2. Action Research 3. Study of one Moodle/ LMS 4. One course of their interest on swayam 5. preparing small module related to their subjects 6. Observation of B. Ed Plan 7. Interview of teachers working in schools 8. Webinar			

	9. Content review of website 10. Attend live lectures on facebook or any other social media 11. Video analysis of NCERT of content 12. Analysis of website of innovative schools- Doon School, Digenter, Rishi Valley- Compulsory 13. Challenges and Opportunity in COVID-19- interview of 5 people 14. Video presentation – on any relevant topic of teacher education 15. Challenges and Opportunity in COVID-19- for study- interview of 5 students of schools/university

Year	II	Dissertation Part-II	Credits	4
Semester	III		Course code	SOE 01 03 15 C0044
Learning Outcomes	After the completion of this course, the students will be able to: ● Critically read, understand and evaluate the latest literature and research process ● Exhibit skills for selecting appropriate research methods ● Demonstrate a comprehensive understanding of techniques critical to scholarship in the field ● Communicate clearly and effectively to specialist and non-specialist research			

ELECTIVE COURSES

Year	II	INSTITUTIONS, SYSTEMS AND STRUCTURES	Credits	4
Semester	III	(ELEMENTARY LEVEL)	Course code	SOE01 03 08 DCEC 2002
Learning Outcomes	**After completion of the course, students will be able to:** ● Explain the role of various institutions and institutional planning in education at the elementary stage ● Reflection on the recommendations of various commissions and committees.			
Course Content				
Unit-1	**Introduction: Elementary Education** ● Indigenous system of Elementary Education, Objectives of Elementary Education ● Recommendations of various committees and commissions: Secondary Education Commission, Kothari commission, NPE – '1986, POA 92, Rama Murthy Committee, Yashpal, Committee and NCF-2005., NEP 2020: Pedagogical and curricular structuring (online & NEP)			
Unit-2	**Educational Management and Institutional planning at Elementary level** ● National Level , State Level and District Level Ministry of Education (MoE) CABE-NCERT-RIE NIEPA, NCTE, CIET State Level and District Level : Ministry of School Education ii. Directorate of School Education iii. Board of Education iv. SCERT – SSA – SIET – SRC – SIEMAT ,District Education Administration –DEO, Dy. DPO (SSA) . ● Concept, scope and nature of Institution Planning ,Need and importance of Institution Planning Types of Institution Planning (online)			
Teaching learning process/Transaction Strategies	Lecture cum discussion, Use of PPT, Assignments on various topics, Lecture cum demonstration, In depth analysis of various education commissions, debate on elementary Education.			

Practicum	• Conduct a play to illustrate recommendations of various committees on elementary education. • Organize a Seminar on indigenous system of elementary education. • Visit any two schools and find out innovative teachers. Prepare a detailed report on their innovation. • Prepare a yearly plan for school after reviewing all the activities of the school. • Design an instructional plan of a unit in a subject at elementary level.

Year	II	INSTITUTIONS, SYSTEMS AND STRUCTURES (SECONDARY LEVEL)	Credits	4
Semester	III		Course code	SOE01 03 09 DCEC 2002
Learning Outcomes		**After completion of the course, students will be able to:** ● Understand the system of secondary and senior secondary education in India. ● Critically evaluate the role of teacher in institutional planning and execution		
Course Content				
Unit-1		**System and Structure of Secondary Education in India** ● Meaning, aims ,objective of Secondary education ● Structure of secondary education in India in the overall structure of education ● System of Secondary Education in India – Pre and Post independence • Macaulay's Minute of 1835 • The Dispatch of 1854 • Sargent Report 1944 ● Nai Talim **(online)** ● Secondary Education Commission (1952-53) **(online)** • Kothari commission (1964-66) ● Secondary Education and National Policy on education(1986) **(online)**		
Unit-2		**Conceptual Understanding of Institution Planning** ● Meaning, nature and scope of Institution Planning ● Purposes of Institution Planning ● Need and importance of Institution Planning ● Steps for preparing an effective Institution Plan ● Role of a teacher in Institution Planning		

Teaching learning process/Transaction Strategies	Lecture cum discussion, Use of PPT, Assignments on various topics, Lecture cum demonstration,
Practicum	**Tasks and Assignment: any two of the following:** In depth analysis of various education commissions, debate on Secondary Education and National Policy on education, Ask pupils to prepare an effective Institution Plan for secondary school by the student teachers and presentations will be encouraged. • **In addition, school and community based activities may be 105rganized**

Generic Elective Course (GEC)

Year	II	ART OF TEACHING	Credits	4
Semester	III		Course code	SOE010304GEC3014
Learning Outcomes	**After completion of the course, students will be able to:** ● Understand the concept, principles, maxims of teaching and factors influence the teaching- learning process. ● Acquainted with the concept of communication process and its elements, types and barriers ● Gain knowledge of various teaching aids and also their significance in transaction of the relevant content. ● Comprehend the characteristics of an effective teacher and realize teaching as a profession.			
Course Content				
Unit-1	**Understanding of Teaching - Learning Process** ● Teaching: Concept, principles, types, and maxims of teaching ● Learning: Concept, and prerequisite relationship of Teaching-Learning and Characteristics of Teaching ● Characteristics of Learning and Factors influencing Teaching & Learning ● Phases of Teaching			
Unit-2	**Communication** ● Communication: Meaning and Concept ● Elements of Communication ● Process of Communication ● Types of Communication: Verbal Communication & Non-verbal Communication, Interpersonal, Intra-personal communication, Group and Mass, etc. ● General barriers to Communication ● Ways and means of developing communication			

Unit-3	**Techniques and Practices of Teaching** ● Motivation: Concept and its need and Importance and Types ● Ways and Techniques of Enhancing Learner's Motivation ● Role of Motivation in Teaching – Learning Process ● Micro Teaching: Concept, Objectives, and its need and Importance ● Preparation of lesson plan, and Practices of Skills (Skill of Questioning, and Explanation). ● Need and importance of Aids and its types ● Preparation and use of Teaching aids, Traditional: Black Board, Charts, Models, etc. ● Modern Teaching Aids: ICT, web and video conferences, Power Point Presentation, Presentation Tube, etc. ● Preparation and Presentation of Teaching aids (Practical)
Unit-4	**Teaching as a Profession** ● Teaching as a Profession; Characteristics of an effective teacher () ● Role, Accountabilities and Ethics of a teacher towards teaching Profession ● Approaches of Teaching: Learner centered and teacher centered, various methods and techniques employed in teaching (Group discussion; Brain storming, Collaborative and cooperative teaching, etc.) ● Classroom Management: Teacher as Facilitator (Heterogeneous classroom, Styles of learning, etc.)
Teaching learning process/Transaction Strategies	The content of the course would be transacted through lectures, group discussion, self-study, and seminar/presentations by students.
Practicum	**Each student has to undertake the following activities:** ● Preparation of Teaching aids ● Preparing a lesson plan on any topic and also presented in the class ● Preparation and Presentation of Micro lessons under certain skills ● Group Discussion and seminars presentation through collaboratively

SEMESTER IV

Year	II	RECENT TRENDS IN TEACHER EDUCATION	Credits	4
Semester	IV		Course Code	SOE01 04 16 C 3104
Learning Outcomes	**After the completion of the course, the students will be able to:** ● Explain the Historical Development of Teacher Education in India. ● Categorize the Initiatives for Professional Development of Teachers ● Develop the Ethics, Competency and Accountability among teachers ● Construct ideas to tackle the emerging issues in teacher education and demonstrate the uses of various Digital initiatives			
Course Content				
Unit-I	**Historical overview of Teacher Education** ● Development of Teacher Education Pre-Independence: Hunter Commission (1882), Sadlar Commission (1917-19) and Sargent Report (1944). ● Development of Teacher Education Post-Independence: Kothari Commission (1964-66), NCFTE (2009), NCTE Regulations (2014) and New Education Policy (2020)- (both online and NEP)			
Unit -2	**Initiatives for Professional Development of Teachers** ● Policies and Programmes:SSA, RMSA, and SAMAGRA ● Digital Initiatives:-MOOCs, SWAYAM, SWAYAM Prabha-e-Pathshala, e-PG Pathshala, (both online and NEP) • Faculty Development through online programmes			
Unit-3	**Teacher Ethics, Teacher Competency and Accountability** ● Teaching as a profession and Teacher as a reflective practitioner ● Professional ethics for teacher educators (online) ● Competency based teacher education and Core competencies of teacher educators(NEP) • Roles and accountability of teacher educators and characteristics of effective teacher educators (ONLINE)			

Unit-4	**Emerging Issues in Teacher Education** • Personal and contextual factors affecting the teacher development • Innovative practices/approaches in teacher education: Constructivist, ICT based approach, Integrated approach– School cantered teacher education and Teacher cantered approach to community development. (ONLINE) • Quality concerns in teacher education, Research priorities in teacher education (NEP)
Teaching learning process/Transaction Strategies	Lecture cum Discussion, Debates, illustrations, presentations, Projects Method, E-learning, assignments on different key areas , panel discussion, brainstorming sessions, hands on practice.
Practicum	**Assignment on any one of the following:** • Write on Historical development of Teacher Education . • Prepare a report on Digital Initiatives by Govt. of India in Education. • Attend any in-service teacher education program and write a report on it. • Critically evaluate New Education Policy (2020)

Year	II	EDUCATIONAL STUDIES	Credits	4
Semester	IV		Course Code	SOE01 04 17 C 3104

Learning Outcomes	**After the completion of the course, the students will be able to:** ● Acquainted concepts involved in education as a discipline ● Establish relationship of education with other disciplines ● Application of education in society ● Analyse thoughts of great scholars, thinkers and educators on education
Course Content	
Unit-I	**Theoretical Perspective of Education as a Discipline** ● Education as a socially contrived system influenced by social, cultural, political, economic, and technological factors. ● Aims of Indian Education in the context of a democratic, secular, egalitarian and a humane society. ● Procedure of bridging gap in the process of knowledge construction between: • Content knowledge and Pedagogy knowledge, • School knowledge and out of the school knowledge, • Experiential knowledge and empirical knowledge, • Knowledge on action and reflection on outcome of action, • Theoretical knowledge and practical knowledge, • Universal knowledge and contextual knowledge. ● Transformation of national aspirations into educational goals/aims of education, its linkage with curricular decision, teaching-learning process and pedagogy for different stages of education. ● Analysis and synthesis of thoughts of great educators: Acharya Vinoda Bhave, Tagore, Shri Aurobindo, Maria Montessori.
Unit -2	**Education as Interdisciplinary Knowledge** ● Interdisciplinary nature of education; relationships with philosophy, psychology, sociology, management, economics, anthropology etc. ● Contribution of science and technology in education and challenges ahead. ● Axiological issues in education: role of peace and other values, aesthetics in education. ● Dynamic relationship of education with the political process. .

	• Interrelation between education and development.
Unit-3	**Socio-cultural Context of Education** • Social purpose of education. • Understanding Indian society-with reference to multilingual and multicultural and other diversity, approaches for teaching young children in the context of diversity. • Process of socialization and acculturation of the child: role of school, parents, peer group and the community. • Equality in educational opportunity-critical analysis of the ways in which schooling, teaching-learning and curriculum contribute to social inequality. • Education of socio-economically deprived groups based on gender, local (rural/urban), income differential and different disabilities as reflected in society.
Unit-4	**School Context** • Multiple schools contexts-rural/urban, tribal etc. • School management: Role of teachers, headmasters, and administrators. • Nurturing learner friendly school environment. • School as site of curricular engagement. • Teacher's autonomy and professional independence. • Participation of different stakeholders in school education-role of media, use of technology, NGOs, Civil society groups, Teacher organizations, family and local community. • Monitoring and evaluation of schools.
Teaching learning process/Transaction Strategies	Lectures, discussions, reflections on biographies, case studies of various types of schools
Practicum	**Assignment on any one of the following:** • Readings of original texts of Rabindranath Tagore/M.K. Gandhi/Sri Aurobindo etc. and presentation on linkage of various theoretical concepts with pedagogy and practices. • Assignment based on policy perspectives and status of education of socio-economically disadvantaged children of India/of a particular State, vision of school education in India. • Visit to a school, observation of activities and preparation of a reflective report. • Any other task/assignment given by the institution.
Suggested Readings: • Banrs, J.A. (1996). *Cultural diversity and education: Foundations curriculum and teaching* (4)Boston: Alynand, Becon. • Beyer, L.E. (Ed.) Year	II	EDUCATIONAL TECHNOLOGY	Credits	4
Semester	IV		Course Code	SOE01 04 19 C 3104

Learning Outcomes

After the completion of the course, the students will be able to:

- Explain the concept, nature, forms and historical development of educational technology.
- Elaborate the steps of instructional designing on the basis of models of Instructional design
- Analyse the implications of digital initiatives by the Government of India for promoting learning
- Explore the integration of ICT in education.

Course Content

Unit-I

Educational Technology: An Overview

- Educational Technology: Concept, nature, components (hardware & software) and scope (Online mode)
- Historical development of Educational Technology (Online mode)
- Application of educational technology in Formal, Non-formal (open and distance learning) and Informal Education systems

Systems approach to education: concept, characteristics and application in education

Unit -2

Instructional Design

- Overview of Behaviourist, Cognitive, and Constructivist theories and their implications to instructional design
- Instructional design: Concept, significance, process and stages of development of Instructional Design. (Online mode)
- Overview of models of instructional design: ADDIE, ASSURE, DICK and CAREY Model. (Online mode) Gagne's Nine events of instruction and 5 E's instructional model based on constructivist instructional design (Online mode)

Unit-3

Emerging Trends in e-learning (NEP)

- Concept of e- learning and approaches to e-learning (Offline, Online, Synchronous, Asynchronous, Blended Learning, Flipped learning). (Online mode)
- National initiative for Digital education- DIKSHA, SWAYAM PRABHA, SWAYAM, On Air, E content for inclusive education,Open Educational Resources (OERs), National digital Library and other significant

	initiatives. (Online mode) • Approaches for development of learner centric MOOC: LCM approach, Four quadrant approach (Online mode) • Learning Management Systems (Online mode)
Unit-4	**ICT in Education (NEP)** • ICT in Education: Concept, significance and applications of ICT tools • Social learning- Concept, use of web 2.0 tools for learning, social networking sites, blogs, chats, video conferencing, discussion forum. • E-portfolios and Online Assessment- concept and development. (Online mode) • E- inclusion- Concept, Assistive technology in e-learning and disruptive technologies.
Teaching learning process/Transaction Strategies	Lecture-cum- demonstration and hands on experiences on the production of audio-visual material; observation of various modes of training programmes by the different organizations / institutions and analyzing the different instructional design.
Practicum	Writing of a term paper on the given course contents. Planning and Development of instructional design for online modules using appropriate approach. Development of e portfolios and online assessment Critical review of online education initiatives(any two) Interface with the educational technology industry (through excursion).

Year	II	ENVIRONMENTAL EDUCATION	Credits	4
Semester	IV		Course Code	SOE01 04 20 C 3104
Learning Outcomes	**After the completion of the course, the students will be able to:** ● Develop competencies to examine the intrinsic relationship between biological sciences and Environmental Education vis-à-vis the possibilities and challenges within. ● Explain the role of professionals and ethics in environmental management..			
Course Content				
Unit-I	**Environmental Education:** ● Environmental Education: Concept, guiding principles, significance (Online) ● Environmental hazards: pollution, global warming and human health (Online) ● Sustainable development goals: Guiding principles and strategies (Online) ● Place of Environmental Education in National Curricular Framework (2000) given by NCERT and Environmental Education Curriculum Framework For Teachers and Teacher Educators (2005) given by NCTE.			
Unit -2	**Environmental Management** ● Characteristics and Functions of Environment management ● Teaching – Learning Strategies For Environmental Education: Field visits, Demonstration, Observation, Group- Discussion and Dramatization. ● Strategies for evaluating environmental education-Use of Observation, Self-reporting techniques (attitude scale, interview and questionnaire) in Environmental Education (Online) ● Relationship between Men and Environment: Ecological and Psychological Perspective			
Teaching learning process/Transaction Strategies	**Lectures, Debates, Assignments, Projects, PowerPoint Presentations, Demonstration**			

Practicum	Tasks and Assignments : Any two of the following
	• Project on Any Environmental Issue • Field Experience in a polluted Environmental area. • Celebrations/observation of different environmentally important days. • Preparation and Use of a strategy for teaching Environmental Education at school level / college level

Suggested Readings:

Year	II	DISSERTATION	Credits	4
Semester	IV		Course Code	SOE 01 04 21 C0044
Learning Outcomes	After the completion of the course, the students will be able to: ● Demonstrate comprehensive knowledge of the data analysis techniques ● Critically evaluate the process of report writing. ● Communicate clearly and effectively to specialist and non-specialist research ● Contribute new knowledge and skills for welfare of society and academia.			

Year	II	PRACTICE RELATING TO CURRICULUM, PEDAGOGY AND ASSESSMENT (ELEMENTARY LEVEL)	Credits	2
Semester	IV		Course Code	SOE01 01 12 DCEC 2002
Learning Outcomes	**After the completion of the course, the students will be able to:** ● Understanding about development of curriculum in teaching and learning, and assessment practices at elementary level. ● Analyse and reflect on the new developments in the area of curriculum development in elementary level			
Course Content				
Unit-I	**Curriculum development in elementary level:** ● Meaning, principles of curriculum development and need of curriculum development ● Selection of content and learning experiences and their organization ● Pedagogy, Pedagogical Analysis-Concept and Stages; Organising teaching: Memory level (Herbatian model), Understanding level (Morrison teaching model), Reflective level (Bigge and Hunt teaching model) Online			
Unit -2	**Assessment and evaluation in elementary school level** ● Assessment-Meaning, nature, perspective (Assessment for learning, Assessment of learning and assessment learning);Relation between Objectives and outcomes ● Types of Assessment (Placement, Formative, Diagnostic, Summative); Assessment of cognitive (Anderson and Krathwohl)			

	Affective (Krathwohl) and Psychomotor domains (R.H. Dave) of learning (Online) ● New trends in evaluation-grading, internal assessment, semester system, CCE, On demand examination system, online examination Critical appraisal of the present evaluation system at secondary school level in context to the alignment between the curriculum and forms of assessment with special reference to Learning Outcomes Based Curriculum(LOCF)
Teaching learning process/Transaction Strategies	Lectures, Brainstorming, Group Discussion and Self-study Projects
Practicum	1. Seminar on one of the topic Assigned 2. Critical Analysis of any Existing Curricula in Constructive Alignment view point. 3. Adapting Kirkpatrick's model of evaluation to your Teaching-Learning situation and submit report of your work. 4. Apply any Alignment model to.

Suggested Readings:

Year	II	EDUCATIONAL POLICY, ECONOMICS AND PLANNING AT (ELEMENTARY LEVEL)	Credits	4
Semester	IV		Course Code	SOE01 01 14 DCEC2002

Learning Outcomes	**After the completion of the course, the students will be able to:** ● Understand the financing of education in India. ● Understand the concept and nature of educational planning. ● Define education as an investment ● Critically analyze some governmental plans and policies of education
Course Content	
Unit-I	**Educational Policy at Elementary Level (NEP)** ● Concept, Need and Importance ● Types of Educational Policy- State level Institutional ,Short –term, Long- term at Elementary Level ● Linkage between national Educational Policy and State Development Policy at Elementary Level ● Government Initiatives and constitutional provisions: NPE (1986); POA (1992); DPEP (1994); SSA; RTE Act
Unit -2	**Economics of Education** ● Meaning, Significance and Scope of economics of education ● Education and Economic Development, Financing of Education in India: Center- State relationship, mobilization of resources ● Financial Contribution of community to school. ● Models of development based on free market economies
Unit -3	**Educational Planning at Elementary Level** ● Concept, needs and goals of Educational Planning ● Principles of Educational Planning.

	● Approaches of Educational Planning ● Educational Planning in India since independence at elementary stage
Unit- 4	**Inspection, Supervision and Monitoring** ● Monitoring and Supervision at Elementary Level ● Research and Evaluation of specific schemes like Mid-Day Meals, establishments of Village Education Committee and different incentive schemes and achievement levels ● Quality concern at elementary Education and assessment of quality ● Factors affecting quality and literacy achievement
Teaching learning process/Transaction Strategies	Discussions, debates, analysis of plans and policies, suggestions for improvement
Practicum :	● Preparation of research design on a theme, discipline and RTE act. 2009 ● Visit a school for reporting on access, and enrolment/ retentions of girl students and give suggestions for improvement. ● Critical Analysis of Research Studies on programs and policies related to elementary education (Survey a Govt. school nearby and Prepare of report on critically analyze the SSA and Mid May Meal programme) ● Any other assignment/ project given by the Institute. ● Annual Status of Education Report (ASER); Achievement surveys; PROBE; Pratichi Report on Education; Global Monitoring; Report of UNESCO

Blended learning

The National Education Policy has given a rare glimpse of what can be achieved through the transformation of education. The new NEP clearly states that it is time to take on a policy that is undoubtedly student centric, or what can be safely put down as Education 4.0! The time has indeed come to recognize the fact that the student is the main stakeholder and that efforts must be taken to make the system respond to their dreams and aspirations. In this line of thinking the new policy gives the acceptability of many modes of learning including that of face to face learning, online learning and distance or virtual mode. It also promotes use of vocational courses, multi-disciplinary courses and multi-modal approaches there by focussing on Blended teaching-learning. This pedagogical approach will lead to educational transformation as it will change the whole scenario of education system.

The important features of Blended Learning pedagogy are:

- **Increased student engagement in learning.**
- **Enhanced teacher and student interaction.**
- **Responsibility for learning.**
- **Time management and flexibility**
- **Improved student learning outcomes**

- **Enhanced institutional reputation.**
- **More flexible teaching and learning environment**
- **More amenable for self and continuous learning**
- **Better opportunities for experiential learning**

Assessment and Evaluation

- **Continuous Comprehensive Evaluation at regular internal for assessing course outcomes.**
- **Formative Assessment for understanding skills and lacuna of students regularly to provide remedial solutions.**
- **Oral Examinations to test presentation and communication skills**
- **Open Book Examination for enhancing analysis and application domain among students.**
- **Seminar/ Research Colloquium Presentations**
- **Research based projects**
- **Collaborative Assignments for inculcating life skills and teamwork among students.**

Department of Physical Education and Sports

हरियाणा केन्द्रीय विश्वविद्यालय, महेन्द्रगढ़

Central University of Haryana, Mahendergarh

(संसद के अधिनियम संख्या 25 (2009) के तहत स्थापित, नैक से 'ए' ग्रेड प्राप्त)

(Established vide Act No. 25 (2009) of Parliament, Accredited 'A' Grade by NAAC)

CUH/2021/PHY.EDU/

Minutes of Meeting of B.O.S.

A meeting of the Board of Studies (B.O.S.) Department of Physical Education & Sports, constituted vide notification no. CUH/2020/A&C/334 dated 12.06.2020, was held on 26th August, 2021 at 11.00A.M. through both Online and Offline mode. The organizational structure of the Meeting of BOS, Dept. of Physical Education & Sports is as under:

1. Prof. Ravinder Pal Ahlawat — Chairperson
   Head, Dept. of Physical Education & Sports, CUH
2. Dr. Anil Kalkal — External Member
   Director, Delhi University Sports Council, University Sports Complex, University of Delhi.
3. Prof. Nishan Singh Deol — External Member
   Professor & Head, Dept. of Physical Education, Punjabi University, Patiala (Punjab)
4. Dr. Jai Prakash Bhukar — Internal Member
   Associate Professor, Dept. of Physical Education & Sports, CUH
5. Dr. Sandeep Dhull — Internal Member
   Assistant Professor, Dept. of Physical Education & Sports, CUH

The meeting resolved the following agenda-items:

A. Considered and approved the minutes of Departmental Research Committee meeting held on 16.07.21.

B. Considered and approved the topics of Ph.D research scholars enrolled in session (2020-21) (Annexure-I)

C. Considered and approved the panel of External Examiners for M.P.E.S. (Annexure-II)

D. Considered and approved the panel of External Examiners for M.P.Ed. (Annexure-III)

E. Considered and approved the recommendations of the Staff Council regarding implementation of LOCF as per New Education Policy-2020 in M.P.E.S & M.P.Ed programme in the Dept. of Physical Education & Sports, CUH.

F. Considered and approved the revised Scheme and Syllabus of M.P.E.S. programme (2-year) as per New Education Policy-2020. (Annexure-IV)

G. Considered and approved the Scheme and Syllabus of M.P.Ed programme (2-year) as per New Education Policy-2020. (Annexure-V)

H. Considered the recommendations of Staff Council regarding introducing B.P.Ed (4-Year Integrated Course) as per the recommendations of New Education Policy 2020 in the Dept. of Physical Education & Sports, CUH and to forward the application for Course recognition to N.C.T.E.

I. Considered and approved the Scheme and Syllabus of B.P.Ed (4-Year Integrated Course) as per New Education Policy-2020. (Annexure-VI)

The Meeting ended with a vote of thanks to all the members.

26/8/21

Dr. Sandeep Dhull
(Internal Member)

26/8/21

Dr. Jai Prakash Bhukar
(Internal Member)

(Attended Online)

Prof. Nishan Singh Deol
(External Member)

Dr. Anil Kalkal
(External Member)

26/08/21

Prof. Ravinder Pal Ahlawat
(Convener)

A copy of the Minutes of the meeting of the Board of Studies of the Department of Physical Education & Sports is forwarded to the following for information and necessary action.

1. Dr. Anil Kalkal, Director, Delhi University Sports Council, University Sports Complex, University of Delhi.
2. Prof. Nishan Singh Deol, Professor & Head, Dept. of Physical Education, Punjabi University, Patiala (Punjab).
3. A.R., Academic Branch, CUH.

1. Background

The implementation of the curricular reforms envisioned in National Education Policy-2020 on consequent decisions taken in the Academic Council of the University to annually review and reform the curriculum of all the Under Graduate and Post Graduate programmes in alignment with the NEP-2020 and UGC quality mandate for Higher Education Institutions 2021, the curriculum of Master of Physical Education and Sports (M.P.E.S) is revised accordingly.

The process of revamping the curriculum was initiated with the series of webinars and discussions conducted by the University to orient the teachers about the key features of the Policy, enabling them to revise the curriculum in sync with the Policy. Orientation of the faculty about the vision and provisions of NEP-2020 made it easier for them to appreciate and incorporate the vital aspects of the Policy in the revised curriculum focused on 'creating holistic, thoughtful, creative and well-rounded individuals equipped with the key 21st century skills' for the 'development of an enlightened, socially conscious, knowledgeable, and skilled nation'.

The Department of Physical Education and Sports is committed towards preparing Physical Education Teachers by ensuring quality and excellence in its programme. The present curriculum Framework is based on NCTE Regulation-2014, UGC-LOCF and NEP-2020. Physical education and sports are an integral part of life, from school to higher education and community participation. It is the education which focuses on wholesome development of personality through physical, cognitive and functional development. Master of physical education provide opportunity to students at post graduate level toward specialized knowledge in physical education, seeking a broad based spectrum of study that crosses discrete portions of physical, biological, psychological and social science in an integrated, orderly and logical sequence. The curriculum focuses on horizontal integration of multi-facet discipline aiming at physical education specialist who can develop and promote physical education at schools, colleges and universities across the nation. The programme structure consists of formal courses and related experiences which focus on human involvement in physical education and related aspects.

Programme Name: Master of Physical Education and Sports (M.P.E.S),

Department of Physical Education and Sports,

School of Education.

Vision and Mission of Central University of Haryana

UNIVERSITY VISION

To develop enlightened citizenship of a knowledge society for peace and prosperity of individuals, nation and the world, through promotion of innovation, creative endeavors, and scholarly inquiry.

UNIVERSITY MISSION

To serve as a beacon of change, through multi-disciplinary learning, for creation of knowledge community, by building a strong character and nurturing a value-based transparent work ethics, promoting creative and critical thinking for holistic development and self-sustenance for the people of India. The University seeks to achieve this objective by cultivating an environment of excellence in teaching, research and innovation in pure and applied areas of learning.

OBJECTIVES OF DEPARTMENT OF PHYSICAL EDUCATION AND SPORTS, SCHOOL OF EDUCATION

1. To prepare outstanding Physical Education Teachers for a global platform
2. To prepare physical education professionals, who can lead to transformation of the lives of individuals and lead to the national development.
3. To develop positive attitude towards physical education and sports.
4. To train teachers in making teaching-learning healthful and joyful.
5. To prepare physical education teachers/ trainers/ educators who have a sound knowledge base, essential professional skills and humanitarian values and ethics.
6. To train teachers in Information & Communication Technology for physical education and sports.
7. To develop research and innovation aptitude in pupil teachers.
8. To build an environment for all round development of the individual.

Mapping of University Vision and Mission to Department Vision and Mission

Acclaimed as modal Centre of Learning and Research by

University Vision and Mission	**Objectives of School**
High quality knowledge society creation for peace and prosperity of individuals, nation and the world, through and scholarly inquiry	**Yes**
Promotion of innovation, creative endeavors, research and development	**Yes**
Students excellence through multi-disciplinary learning, value-based transparent work ethics, creative and critical thinking	**Yes**
Environment of excellence in teaching, research and innovation in pure and applied areas of learning	**Yes**

1. PROGRAMME OUTCOMES (POs), SCHOOL OF EDUCATION

After successful completion of the programme:

PO1 Learners will be able to comprehend the acquired knowledge during the Programme of study.

PO2 Learners will be able to reflect on the problems relating to health, discipline and society with ethical guidelines.

PO3 Learners will be able to exhibit the professional skills and competencies acquired during the Programme of study.

PO4 Learners will be able to show scientific & research capabilities in their academic, professional and general life pursuits.

PO5 Learners will be able to apply the knowledge and skills acquired in academic management and resource management according to predetermined objectives/outcomes.

PO6 Learners will be able to work as a member or a leader in various teams and multidisciplinary & diverse settings.

1. PROGRAMME SPECIFIC OUTCOMES (PSOs), M.P.E.S. Programme

The M.P.E.S. Two-Year Teacher Education Programme aims at:

PSO-1. Acquiring conceptual understanding of sports exercise physiology, kinesiology, psychology and other physical educational aspects with experiential learning.

PSO-2. Developing competencies in motor skills and movement analysis needed to perform variety of physical activities and reducing the risk of chronic disease and injuries.

PSO-3. To enable the students for acquiring relevant skills for entrepreneurship in contemporary fitness industry, self-defence, community development and physical literacy.

PSO-4. Providing exposure to student-teachers for digital literacy, integrated pedagogy, and training for various awareness programmes related to gender, environment, health and contemporary issues.

PSO-5. Enabling the students to develop a high level of understanding of physical education practice and policy providing with a basis for life-long learning and successful career development in physical education.

PSO-6. Developing research competencies with statistical techniques, effective way of teaching and curriculum design in physical education.

Semester-I

Year	I	RESEARCH METHODOLOGY IN PHYSICAL EDUCATION	Credits	3
Semester	I		Course Code	SOE PES 010101 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning, nature and scope of research in physical education. • Classify and formulate the different methods of research. • Choose the right techniques for data collection. • Prepare the research proposal and summarize the thesis writing.			
Course Content				
Unit -1	**Introduction of Research** • Meaning and Definition of Research – Need, Nature and Scope of research in Physical Education, Scientific and Unscientific method of Problem Solving. (Online) • Review of Related Literature. (Online) • Identification of Research Problem and Criteria for selecting research problem. • Characteristics of a good research and good researcher. (Online)			
Unit -2	**Classification of Research** • Formulation and Classification of Research Hypothesis. (Online) • Limitations and Delimitations. (Online) • Classification of Research. • Analytical Research, Descriptive Research and Case Study.			
Unit -3	**Sampling and Population** • Meaning and Definition of Sample and Population. (Online) • Types of Sampling Techniques: a) Probability Sampling Techniques. b) Non-Probability Sampling Techniques. • Construction and Development of Questionnaire. • Data Collection Tools & Techniques.			

Unit -4	**Development of Research Proposal** • The Proposal Process and Research Process. (Online) • Preparation and uses of tables and figures and Guidelines for Writing Research Report. • Writing Formats: a) Traditional Format. b) Journal Format. • Format of writing abstracts, Oral and poster presentation.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings	• Ahlawat, R. P. (2016). Research Process in Physical Education& Sports Sciences. Friends Publication. • Flick, U. (2017). Introducing Research Methodology. Sage Publications. • Flick, U. (2019). An Introduction to Qualitative Research. Sage Publications. • Kahn, J. V. (2016). Research in Education (Vol. 10). Pearson Education Inc. • Kamlesh, D. M. (2019). Methodology of Research in Physical Education and Sports. Sports Publication. • Kothari, C. (2019). Research Methodology: Methods and Techniques. New Age International Publishers. • Mishra, P. D. (2018). Research and Statistics in Physical Education. Sports Publication. • Thomas, J. R. (2016). Research Method in Physical Activity. US: Human Kinetics.

Year	I	PHYSIOLOGY OF EXERCISE	Credits	3
Semester	I		Course Code	SOE PES 010102 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning of Exercise Physiology in Physical Education and Sports. • Classify the different energy systems of body. • Illustrate the effect of exercise on various systems of body. • Explain the effect of Ergogenic aids and Doping in Sports.			
Course Content				
Unit -1	**Introduction to Exercise Physiology**			
	• Meaning and Definition of Exercise & exercise physiology. (Online) • Role & Importance of Exercise Physiology in the field of Physical Education & Sports. (Online) • Impact of Exercise on work at cellular level. • Muscle- its types, characteristics and functions. Microscopic structure of muscle fiber. Sliding filament theory of muscular contraction. Types of muscle fibers and sports performance. Muscular adaptations to exercise.			
Unit -2	**Energy System and Recovery Process**			
	• The basic energy systems (carbohydrate metabolism). • Bio-chemical aspects of exercise a) Metabolism of food products. b) Direct and indirect methods of measuring energy cost of exercise. • Recovery process – Physiological aspects of fatigue and Restoration of energy stores. (Online) • Electrolyte balance & Water balance.			

Unit -3	**Effect of Exercise on Various System**
	• Work capacity under different environmental conditions a) Hot, Humid and Cold. b) High Altitude. • Immediate effect of exercise/work on various systems of body. (Online) • Cardio-respiratory, muscular and thermo-regulatory systems, Alveolar ventilation & second wind. • Physiological Factors influencing Sports Performance. (Online)
Unit -4	**Ergogenic Aids in Sports**
	• Ergogenic aids and Doping in Sports. (Online) • Effect of drugs & doping on athletic performances. (Online) • Diet before, during & after the athletic performance. • Exercise and training in females and older people, physiological aspects of development of strength, endurance, speed, agility & coordination.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Practicum	• Measurement of heart rate and Estimation of Target Heart Rate. • Body composition analysis with various methods. • Measurement of VO2 Max (Field and Laboratory Method). • Blood Pressure measurement (Sphygmomanometer). • Anthropometric equipment's. • Measurement of various lung volumes through spirometer, peak flow meter.
Suggested Readings	• Brown, R. G.(2015). *Fundamentals of Exercise Physiology.* Friends Publication. • Chandi, C. C. (2018). *Human Physiology* (Vol. 12). CBS Publishers. • Fox Stuart Ira (2016). *Human Physiology* (15th Edition). McGraw-Hill Education. • Porcari, J., Bryant, C., & Comana, F. (2015). *Exercise Physiology*. FA Davis. • Varshney & Mona Bedi (2018). *Ghai's Textbook of Practical Physiology*. Jaypee Brothers Medical Publishers. • William D. McArdle (2014). *Exercise Physiology: Nutrition, Energy, And Human Performance* (8th Edition). Lippincott Williams and Wilkins.

Year	I	TESTS, MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION	Credits	3
Semester	I		Course Code	SOE PES 010103 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the meaning and principles of Test, Measurement and Evaluation. • Construct knowledge and specific fitness test. • Illustrate various physical fitness and motor fitness test. • Explain the difference Anthropometric Measurements.		
Course Content				
Unit -1		**Concept of Test and Measurement and Evaluation in Physical Education.** • Meaning of Test, Measurement and Evaluation. (Online) • Principles of Measurement and Evaluation. (Online) • Domains of Human Performance - cognitive, affective and psychomotor. (Online) • Meaning and establishing Validity, Reliability and Objectivity, Norm referenced and Criterion referenced standards.		
Unit -2		**Guidelines for construction of test.** • Criteria of test selection. (Online) • Factors Affecting Scientific Authenticity. (Online) • Procedure to Establish Scientific Authenticity. (Online) • Guidelines for constructing knowledge test and steps for construction of skill test / specific fitness test.		
Unit -3		**Assessment through Various Skill Tests** • Concepts and Assessment of Physical Fitness: a) AAHPERD Health Related Fitness Test and Tuttle Pulse ratio test, b) Roger's PFI. • Test for fitness components- strength, endurance, speed, flexibility and coordinative abilities. • Motor Fitness Test, Motor Ability Test and Motor Educability Test. • Skill Test of various Games/ Sports.		

Unit -4	**Individual Assessment Methods** • Basic Concept of Psychological Traits. (Online) • Basic concept of Anthropometric Measurements. • Assessment of Body Composition. • Self-Assessment.
Teaching learning process/Transactional Strategies	Lecture cum discussion, Power Point presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Practicum	The conducted practical's should be written in a Practical Note-Book and must be signed by the Supervisor. For practical's there will be a Practical Test and Viva-Voce Examination. • Assessment of endurance through-twelve minute run/walk test; six hundred yards run walk test; Harvard step test. • Assessment of resting physiological parameters- Heart rate, Respiratory rate. • Anthropometric measurement. • Somatotyping, somato charts & indices. • Various Sports / Games (Basketball, Volleyball, Hockey, Football, Badminton, Tennis).
Suggested Readings	• Alan C. Lacy & Skip M. Williams (2018). *Measurement and Evaluation in Physical Education and Exercise Science* (Ed. 8). Routledge. • American College of Sports Medicine (2013). *ACSM's Health-Related Physical Fitness Assessment Manual*. Lippincott Williams & Wilkins. • American College of Sports Medicine (2017). *ACSM's Health-Related Physical Fitness Assessment Manual*. Lippincott Williams & Wilkins. • Karad, P.L. (2017). *Test, Measurement and Evaluation in Physical Education.* Khel Sahitya Kendra. • Lacy, A. C., & Williams, S. M. (2018). *Measurement and Evaluation in Physical Education and Exercise Science*. Routledge. • Miller, D. (2019). *Measurement by the Physical Educator Why and How* (8th Edition). McGraw-Hill Higher Education. • Yobu, A. (2010). *Test, Measurement and Evaluation in Physical Education in Physical Education and Sports*. Friends Publications.

<tr><td>Semester</td><td>I</td><td>Course Code</td><td>SOE PES 010104 C0143</td></tr>
<tr><td colspan="2">Learning Outcomes</td><td colspan="3">At the end of the course, the students will be able to:
Describe the fundamentals of short, medium and long distance race events.
Design the make-up of standard athletic track.
Demonstrate the starting and finishing positions of different race events.</td></tr>
<tr><td colspan="2" rowspan="2">Course Content</td><td colspan="3">General out-line of the contents of Teaching of Athletic (Track Events)</td></tr>
<tr><td colspan="3">Introduction of the game/sport and historical development with special reference to India, Orientation of the students to the play area and equipment used in the game/sport, Important tournaments held at National and International levels, Distinguished sports awards and personalities related to the Game/sport. Warming-up- General free hand exercises, specific work out using equipment. Fundamental skills, Lead up activities, General rules and their interpretations, Duties of officials, officiating in class competencies and Intramurals, Marking of the play area. Fundamentals of the events, rules and regulations, measurements of fields.

Each student teacher is expected to take at least five lessons on track events during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively.</td></tr>
</table>

<table>
<tr><td>Year</td><td>I</td><td rowspan="2">TEACHING OF GAMES AND INTRAMURAL-I</td><td>Credits</td><td>3</td></tr>
<tr><td>Semester</td><td>I</td><td>Course Code</td><td>SOE PES 010105 C0143</td></tr>
<tr><td colspan="2">Learning Outcomes</td><td colspan="3">At the end of the course, the students will be able to:
• Explain the fundamentals of any two games opted by the student.
• Sketch the ground markings of specific games.
• Demonstrate and describe the rules and regulations of specific games.</td></tr>
<tr><td colspan="2" rowspan="2">Course Content</td><td colspan="3">General out-line of the contents of teaching of theory of Games and Sports</td></tr>
<tr><td colspan="3">Introduction of the game/sport and historical development with special reference to India, Orientation of the students to the play area and equipment used in the game/sport, Important tournaments held at National and International levels, Distinguished sports awards and personalities related to the Game/sport. Warming-up- General free hand exercises, specific work out using equipment. Fundamental skills, Lead up activities, General rules and their interpretations, Duties of officials, officiating in class competitions and Intramurals, Marking of the play area.

Each student teacher is expected to take at least five lessons from any two games opted from (Basketball, Volleyball, Kabaddi, Kho-Kho, Football, and Table Tennis) during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively.

Note: students have to select any two games from the above mentioned games</td></tr>
</table>

<table>
<tr><td>Year</td><td>I</td><td rowspan="2">SPORTS SPECIALIZATION-I</td><td>Credits</td><td>3</td></tr>
<tr><td>Semester</td><td>I</td><td>Course Code</td><td>SOE PES 010106 C0143</td></tr>
<tr><td colspan="2">Learning Outcomes</td><td colspan="3">At the end of the course, the students will be able to:
• Explain the fundamentals of the game/event opted by the student.
• Sketch the ground markings of specific game/event.
• Demonstrate the specific skills and techniques of the selected game/event.</td></tr>
<tr><td colspan="2" rowspan="2">Course Content</td><td colspan="3">General out-line of the contents of sports specialization</td></tr>
<tr><td colspan="3">Introduction of the game/sport and historical development with special reference to India, Orientation of the students to the play area and equipment used in the game/sport, Important tournaments held at National and International levels, Distinguished sports awards and personalities related to the Game/sport. Warming-up- General free hand exercises, specific work out using equipment. Fundamental skills, Lead up activities, General rules and their interpretations, Duties of officials, officiating in class competencies and Intramurals, Marking of the play area.

Each student teacher is expected to take at least five lessons during the course of the semester. Each students is expected to opt for a particular game/event. The student teacher should develop proficiency towards theory part of the particular game/events in this semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively.

Course contents in the game of specialization should be chalked out internally considering advance level of students and suitable to their age and gender. The students shall be encouraged to opt for a particular game/event on the availability of specialized faculty.</td></tr>
</table>

Year	I	CLASSROOM TEACHING AND PRACTICAL OF THE CORE THEORY SUBJECTS-I	Credits	1
Semester	I		Course Code	SOE PES 010107 C0021
Learning Outcomes		At the end of the course, the students will be able to: • Practice of various teaching skills in real classroom situations and develop professional competencies for profession.		
Course Content		**General out-line of the contents of classroom teaching and practical of the core subjects**		
		Each student teacher is expected to take at least five lessons during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively. **The Students shall demonstrate teaching ability using various teaching methods. These Lessons should include practical teaching of the core subjects of the semester.**		
Teaching learning process/Transactional Strategies		Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming		

Elective Courses (DCEC)

Year	I	SPORTS MANAGEMENT AND CURRICULUM DESIGN IN PHYSICAL EDUCATION	Credits	3
Semester	I		Course Code	SOE PES 010101 DCEC3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the scope, principles and functions of sports management and identity the roles of manager. • Describe the role of financial and class management. • Describe different types of tournaments. • Formulate curriculum development and define the role of a teacher in curriculum development.		
Course Content				
Unit -1		**Introduction of Sports Management** • Sports Management: Meaning, Definition, Scope and Principles. (Online) • Functions of management. Planning, Organizing, Staffing, Directing, Coordinating, Reporting, and Budgeting (POSDCORB). (Online) • Roles of manager: Interpersonal roles, Informational roles, Decisional roles. (Online) • Qualities of a manager and Decision Making Process: Individual Decision Making, Rational Decision Making, Decision making Styles, Creativity in Decision Making, Participative Decision Making, Group decision making.		
Unit -2		**Planning and Management** • Programme Planning, Steps in programme planning, Principles of programme planning, Evaluation of physical education programme. (Online) • Public Relations: Meaning, Definitions, Principles, Planning and organizing public relations programme. (Online) • Financial management: Need for financial management, Principles of financial Management, preparation of budget, Sources of funds, Expenditure. • Class management: Meaning, Principle, Steps in class management: Strength of class, Place and time, Uniform, Class formation, Safety measures and Discipline.		

Unit -3	**Tournament and Competitions**
	• Facilities and Equipment management: Types of facility/infrastructure-indoor, outdoor, Purchase, Care and Maintenance. • Tournament organization: Types of tournament-Knock out or Elimination, League or Round Robin, Combination, Consolation, Challenge Tournaments. • Intramural Competitions: Meaning and Importance of Intramural, Objectives of Intramural, Conduct of Intramural. (Online) • Process of organizing sports events, Notifications, Invitations, Selection of officials, Monitoring, Writing reports, maintaining records.
Unit -4	**Framework of Curriculum Development**
	• Meaning and importance of Curriculum Development. • Principles of Curriculum Construction: Students centered, Activity centered, Community centered, Forward looking principle, Principles of integration. • The Role of the teacher in curriculum development. (Online) • Approaches to Curriculum; Subject centered, Learner centered and Community centered, Curriculum Framework and Evaluation of Curriculum.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings:	• Dhull, D. S. & Goel, M. (2015). *Handbook of Sports Management and Administration*. Friends Publications. • Lisa P. M. (2018). *Principles and Practice of Sport Management* (6th Edition). Jones & Bartlett Learning. • NCERT (2018). *National Curriculum Framework for School Education.* NCERT. • Pargaonkar, G. V. (2016). *Sports Management.* Friends Publications. • Sahil K. (2017). *Organization and Administration in Physical Education.* Sports Publication. • Singh, D. (2015). *Sports Management and Curriculum Designs in Phy Edu.* Friends Publications. • Vandana Meshram (2017). *Sports Management and Curriculum Designs in Physical Education.* Khel Sahitya Kendra.

Year	I	ADAPTED PHYSICAL EDUCATION	Credits	3
Semester	I		Course Code	SOE PES 010102 DCEC3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the various aspects of Adapted Physical Education and develop understanding on different types of disability. • Articulate special adapted programs for various categories of physical disability. • Explain the use of various aquatic activity programme for disabled. • Classify different rehabilitation programs.		
Course Content				
Unit -1		**Role of Adapted Physical Education** • Meaning & definitions, Aims and objectives, Need and Importance of Adapted Physical Education. (Online) • Role of physical education in adapted physical education. (Online) • Specific learning disabilities: Common types of learning disabilities their causes, treatment and intervention. • Recreational Sports Opportunities, Competition Opportunities - Special Olympics, Paralympics and Deaf Olympics. Inclusive Education: Meaning, Definition, Aim and Objectives.		
Unit -2		**Understanding and Managing the Disability** • Physical education programme for disabled of: - Elementary School, Middle School and High School. (Online) • Class organization strategies: identifying the cause, embrace special needs, setting high expectations and goals. (Online) • Managing individual programmes and Special adapted programme for various types and categories of physical disability. • Classification of Disability: Visual, auditory, Neuro-Muscular, Mental and Emotional Specific Guidelines for: Visual Impairment, Hearing Impairment, Intellectually challenged, Orthopedically Handicapped – Parent Teacher Association – Parents Advisory Committee, Unified Sports.		

Unit -3	**Value of Disability Events**
	• History of Paralympics, Special Olympics and their events. • Aquatic activity programme for disabled. • Importance of Young Athletic Programme (YAP). (Online) • Orientation of Types of Equipment- Minimum equipment, Additional Equipment, Evaluation of Equipment.
Unit -4	**Concept of Rehabilitation and Adapted Games.**
	• Meaning, Aims & objectives and Functions of rehabilitation. (Online) • Classification of rehabilitation- Occupational rehabilitation, Psychological rehabilitation. • Provisions of special rights and privilege for disabled through legislations. (Online) • Various Adapted Games for different disabilities.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings:	• Auxter, H. (2001). *Adapted Physical Education and Reactions.* Morbey- St: Louis Mirrauri. • Auxter, D., & Pyfer, J. (1989). *Principles and Methods of Adapted Physical Education and Recreation.* Times Mirror Magazine. • Clarke, H. H., & Clarke, D. H. (1978). *Developmental and Adapted Physical Education.* • Kasser, Susan (2013). *Inclusive Physical Activity* (2nd Edition). Knowledge Warehouse Khel. • Kumar, P., Singh, R. M., & Ratnakar, A. (2018). "Role of physical education research activities and their impact in modern day life". *Asian Journal of Multidimensional Research*, 7(2), 420-425. • Sahitya Kendra (2017). *A Text Book of Adapted Physical Education & Sports.* • Sharma, S.R (2019). *Adapted Physical Education*, Friends Publication. • Thind, M. N. (2010), *Special Olympics Bharat Trainer Manuel*. Special Olympics Bharat. • Winnick, J., & Porretta, D. L. (2016). *Adapted Physical Education and Sport* (Ed. 15). Human Kinetics.

Generic Elective Course (GEC)

Year	I	WELLNESS THROUGH GAMES AND SPORTS	Credits	4
Semester	I		Course Code	SOE PES 010101 GEC4004
Learning Outcomes		At the end of the course, the students will be able to: • Explain the concept of Wellness, Recreation and develop understanding of various games organized at global platforms. • Define the facilities of different games and design the make-up of track and field events. • Classify warming-up and cooling down, distinguish aerobic and anaerobic exercises. • Define ergogenic aids and summarize the effects of doping and its types.		
Course Content				
Unit -1		**Introduction to Wellness and Olympic Games** • Meaning, definition and dimension of Health and Wellness. (Online) • Meaning, definition, Need and Importance of Physical Education and Recreation. (Online) • Meaning of the Physical Culture, Physical Training, Drill, Gymnastics, Athletics, and Aquatics. • Introduction of Olympic Games, Asian Games, Commonwealth games.		
Unit -2		**Facilities and Measurement of Sports and Games** • Introduction to track and field events. (Online) • Facilities and measurement of Track and fields. • Introduction to Sports and Games. (Online) • Facilities and measurement of play field: hockey, football, Volleyball, Basketball and badminton.		

Unit -3	**Concept of Aerobic and Anaerobic Training**
	• Meaning and methods of Warming-up and cooling down. • Aerobic and Anaerobic training. • Different methods of Aerobic and Anaerobic training. • Facilities required for Aerobic and Anaerobic training.
Unit -4	**Doping and Ergogenic aids**
	• Introduction of Ergogenic aids, Doping and its types. • Physiological and Psychological Effects of Doping. • Advantage and disadvantage of narcotics and drugs. (Online) • Role of doping agencies to control the use of drugs in sports. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings:	• Brymer, E. (2009). "The role of extreme sports in lifestyle enhancement and wellness". *In Proceedings of the 26th Achper International Conference: Creating Active Futures* (pp. 285-299). Australia: School of Human Movement Studies, Queensland University of Technology, Brisbane, QLD 4059. • Campbell, B. (2013). *Sports Nutrition: Enhancing Athletic Performance*. CRC Press. • Katz, L., Parker, J., Tyreman, H., Kopp, G., Levy, R., & Chang, E. (2006). "Virtual Reality in Sport and Wellness: Promise and Reality". *International Journal of Computer Science in Sport*, 4(1), 4-16. • Reaburn, P. R. (2014). *Nutrition and Performance in Masters Athletes*. CRC Press. • Sharma, O.P. (2010). *Handbook of Health Education & Sports*. Khel Sahitya Kendra.

Semester-II

Year	I	APPLIED STATISTICS IN PHYSICAL EDUCATION	Credits	3
Semester	II		Course Code	SOE PES 010208 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the importance of statistics in the field of physical education and illustrate the graphical representation of data. • Compute Mean, Median and Mode for grouped and ungrouped data, compute parametric statistical techniques to solve various problems. • Computation of correlation matrix and regression. • Calculation of the One Way ANOVA with equal & unequal sample sizes and define type-I and Type-II errors.		
Course Content				
Unit -1		**Importance of Statistics and types of data** • Meaning of Statistics and Importance of Statistics in Physical Education. (Online) • Type of statistical process – descriptive, inferential, comparative, relationship and predictive. (Online) • Parametric and Non parametric statistics, Four Levels of Data – Nominal, Ordinal, Interval & Ratio. (Online) • Meaning of raw data, single score, grouped data and Discrete & continuous Variables. Graphical representation of Data: Line Diagram, Pie Diagram and Bar Diagram, Frequency Polygon, Frequency Curve, Histogram and Ogives.		
Unit -2		**Data distribution and Construction of norms** • Construction of frequency table – Range of score, Number of intervals, intervals size, tabulation of frequency table. (Online) • Application of Measures of Central tendency- Mean, Median and Mode and Application of Measures of Variability- Range, Quartile deviation, Mean deviation, Standard deviation and absolute & relative variability. • Meaning and Properties of Normal Curve and relationship of normal curve to binomial distribution and divergence from normality – Skewness and Kurtosis. • Developing norms in the form of grading, Percentile Scale, T- Scale, Scales based on difficulty ratings		

Unit -3	**Introduction of Correlation & Regression**
	• Concept of correlation & regression: Scatter diagram, linear correlation, rank correlation. (Online) • Partial correlation coefficients of first and second order. (Online) • Multiple correlation coefficients involving three variables. • Sampling Distribution of Means, Standard Error of Mean, Interval estimates and Point estimates; Coefficients interval for mean.
Unit -4	**Application of different statistical tools**
	• Testing of Hypothesis : Region of Acceptance & Region of Rejection null & alternative Hypotheses: Level of Significance, type I & Type II errors, one tailed & two tailed Tests, degrees of freedom, procedure in testing of hypothesis. (Online) • Large Sample test (z-test) for means for one sample and two samples; Small sample test (t-test) for means for one sample and two samples – dependent and independent samples**,** F-test and interpretation of results. • Chi- Square Test for goodness of fit and testing independence of attributes with interpretation of results. • One way Analysis of Variance (ANOVA), One Way Analysis of Co-variance (ANCOVA) Post- hoc Tests – LSD & Scheffe with interpretation of results using SPSS.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming

Practicum	• To prepare the class intervals & write the frequencies by using the tally counts. • Computation of Correlation matrix. • Calculation of partial correlation and multiple correlation. • Calculation of t- ratio for related and unrelated groups. • Calculation of Z- ratio for testing the hypothesis. • Preparing the Percentile Scale. • Calculation of Chi-Square. • Calculation of the One Way ANOVA with equal & unequal sample sizes. • Calculation of the One Way ANCOVA.
Suggested Readings:	• Bhunia, A. (2013). "Statistical methods for practice and research (A guide to data analysis using SPSS)". *South Asian Journal of Management*, 20(1), 154. • Cooke, D., & Clarke, G. M. (1989). *A Basic Course in Statistics*. Arnold. • De Muth, J. E. (2014). *Basic Statistics and Pharmaceutical Statistical Applications.* CRC Press. • Dhinu, M.R. (2017). *Applied Statistics in Physical Education & Sports*. Friends Publications. • Gaur Ajai S & Sanjaya S (2009). *Statistical Methods for Practice and Research: A Guide to Data Analysis Using SPSS.* SAGE Publications Pv.t Ltd. • Gupta, B. C., & Walker, H. F. (2005). *Applied Statistics for the Six Sigma Green Belt.* ASQ Press. • Kaur, S. (2017). *Research & Statistics in Physical Education*. Friends Publications. • Rajalakshmi, D. (2018). *Advanced Statistics for Physical Education*. Friends Publications. • Verma, J.P. (2011). *Statistical Methods for Sports and Physical Education*. Tata McGraw Hill Education.

Year	I	SPORTS MEDICINE, ATHLETIC CARE AND REHABILITATION	Credits	3
Semester	II		Course Code	SOE PES 010209 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the concept, meaning and significance of sports medicine and rehabilitation. • Develop the concept and usage of various therapeutic modalities. • List out different massage techniques and their effects on Sports performance. • Explain the management of sports injuries and demonstrate various therapeutic exercises.		
Course Content				
Unit -1		**Introduction to Sports Medicine and Rehabilitation** • Definition, Need & importance and Concept of Sports Medicine. (Online) • Role of Sports Physician and Athletic Trainer in Sports Medicine. (Online) • Categories of Athletic Injuries: Traumatic and Overuse and Signs and Symptoms of Inflammation and Stages of Healing. • Introduction to Athletic Rehabilitation, Role of Therapeutic Exercises in Rehabilitation of musculo-skeletal athletic injuries. (Online)		
Unit -2		**Concept of Therapeutic Modalities** • Meaning and Concept of Therapeutic Modalities. (Online) • Therapeutic effects, uses, and contraindications of following therapeutic modalities- Cryotherapy (Ice Therapy) and Short wave Diathermy. • Ultra sound Therapy, Transcutaneous Nerve Stimulation (TNS), and LASER Therapy. • Contrast Bath and Paraffin. (Online)		

Unit -3	**Massage and its Importance**
	• Meaning, Definition and the role of massage in treatment and rehabilitation of sports injuries. (Online) • Massage and Prevention of sports injuries. • Massage and Sports Performance, Pre-Competition, during and Post-Competition phase. • Psychological Aspect of Sports Massage. (Online)
Unit -4	**Tools for Rehabilitation**
	• Importance of rehabilitation equipment (Traction units, sliding sheet, shoulder wheel, quadriceps table, wrist rotators, leg curl, wall pulley, finger board). • Bandage –Types of Bandages –strapping/tapping - Application of strapping/tapping and bandage for major joints and body parts. • Low back pain, Common causes, General Care, Stretching and strengthening exercises for low back pain. • Classification of Therapeutic exercise- Active and passive exercise and Balance training, gait training, gym bell exercise.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Visit to Physiotherapy center and Orientation of most commonly used Therapeutic Modalities (Ultrasound, Short wave Diathermy, TNS, and LASER Therapy). • Orientation of most commonly used Massage Techniques in the treatment of sports injuries.

Suggested Readings	• American College of Sports Medicine (2019). ACSM's Body Composition Assessment with Web Resource. Knowledge Warehouse. • Bindal, V.D. (2016). *Therapeutic and Sports Massage*. Agra: Associated Publishing House. • Johnson, J. C. (2011). *Postural Assessment.* Human Kinetics. • Kumar, P. (2019). "Management of Obesity Induced Forward Head Posture Deformities Through Sports". *International Journal of Physical Education, Sports and Health* 6(3): 106-107. • Madden, C. & Netter, F. (2010). *Netter's Sports Medicine*. PA: Philadelphia. Saunders/Elsevier. • Norris, C. M. (2018). *Sports and Soft Tissue Injuries: A Guide for Students and Therapists*. Routledge. • Singh, A. (2014). *Complete Guide to Sports Injuries*. Friends Publications. • Singh, A. (2016). *Athletic Care and Rehabilitation*. Friends Publications. • Uppal, A. K. (2015). *Posture, Athletic Care and First Aid.* Friends Publications.

Year	I	INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) IN PHYSICAL EDUCATION	Credits	3
Semester	II		Course Code	SOE PES 010210 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Acquire knowledge of functionalities of computers in terms of its hardware and software. • Appraise the importance of information & teaching learning process. • Explain the usage of MS-Word, MS-Excel and MS- PowerPoint. • Formulate E-Learning and web-based learning programs.		
Course Content				
Unit -1		**Communication through ICT** • Concept, Elements, Process & Types of Communication and its Barriers & Facilitators. (Online) • Communicative skills of English-Listening, Speaking, Reading & Writing. (Online) • Scope, Concept, Need & Importance of ICT in Physical Education. (Online) • Administration Challenges in Integrating ICT in Physical Education. (Online)		
Unit -2		**Computer Networks and its applications** • Introduction to various Generation of Computers. • Applications of Computers Software & hardware, Input, Output & Storage Devices of Computer: • Computer Memory: Concept & Types Viruses & its Management. • Types and Functions of Computer Networks, Applications of Web Browsers, Search Engines, Legal & Ethical Issues.		

Unit -3	**Introduction of MS Office and Windows Accessories**
	• MS Word, MS Excel Power Point: Main Features & it's Uses in Physical Education. • MS Access: Creating a Database, Creating a Table, Queries, Forms & Reports on Tables and its Uses in Physical Education. • MS Publisher: Newsletter & Brochure. • Windows Accessories: Notepad, Word pad, Paint and Calculator. (Online)
Unit -4	**Web Based Learning & E-Facilities**
	• E-Learning & Web Based Learning (LMS , MOOC ,SWYAM and E-Library) • Video-communication service-Online Class Room (Google Meet, Zoom, WebEx, Microsoft Teams) • Google Applications (Google Doc, Google Sheet, Google Slides, Google Form, Jam Board, Google Drive and Google Earth). (Online) • Using grammar, Plagiarism, spell check utilities and printing a document. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings:	• Ambekar, A. (2019). Advanced Computing & ICT in Physical Education. Friends Publication. • Gupta, R. (2019). Education Technology in Physical Education. Friends Publication. • Gupta, R. (2019). Information & Communication Technology (ICT) in Physical Education. Friends Publication. • Singh, D. (2019). Educational Technologies and Methods of Teaching in Physical Education. Friends Publication. • Singh, T. N. (2019). Computer Application in Physical Education. Friends Publication.

Year	I	TEACHING OF ATHLETICS-FIELD EVENTS	Credits	3
Semester	II		Course Code	SOE PES 010211 C0143
Learning Outcomes		At the end of the course, the students will be able to: • Describe the fundamentals of field and throwing events in Athletics. • Prepare the sketch of various field events. • Demonstrate the holding and releasing stances in various throwing events, and takeoff and landing position in various jumping events of Athletics.		
Course Content				
		Introduction of the game/sport and historical development with special reference to India, Orientation of the students to the play area and equipment used in the game/sport, Important tournaments held at National and International levels, Distinguished sports awards and personalities related to the Game/sport. Warming-up- General free hand exercises, specific work out using equipment. Fundamental skills, Lead up activities, General rules and their interpretations, Duties of officials, officiating in class competencies and Intramurals, Marking of the play area. Fundamentals of the events, rules and regulations, measurements of fields. Each student teacher is expected to take at least five lessons on athletic field events during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively.

Elective Courses (DCEC)

Year	I	VALUE AND ENVIRONMENTAL EDUCATION IN PHYSICAL EDUCATION	Credits	3
Semester	II		Course Code	SOE PES 010203 DCEC3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the meaning, objectives and importance of value education. • Define personal and communal value system and explain the concept of commitment to values. • Restate the background of environmental education and sustainable development in schools. • Classify and appraise the rural and urban health problems.		
Course Content				
Unit -1		**Introduction of Value Education** • Meaning and Definition, Need, Importance and Objectives of Value Education. (Online) • Need and Theories of Moral Values. (Online) • Human Value foundation. • Classification of Values: Basic Values of Religions.		
Unit -2		**Value System** • Meaning and Definition of Value System. (Online) • Personal Values - Consistency, Internally consistent, internally in consistent, Judging Value System. • Communal Values - Consistency, Internally consistent, internally in consistent, Judging Value System. • Commitment and commitment to values. (Online)		
Unit -3		**Environmental Education** • Historical background, Meaning, Definition, Scope and Importance of Environmental Education. (Online) • Celebration of various days in relation with environment. • Plastic recycling & prohibition of plastic bag/cover. • Role of school in environmental conservation and sustainable development, Pollution free eco- system. (Online)		

Unit -4	**Concept of Rural and Urban areas** • Rural and Urban Health Problems and improvement of Rural Sanitation. (Online) • Education Activity and Services of Urban and Rural Area. • Fairs & Festivals of Rural and Urban Area. • Meaning, Causes and Prevention of various pollutions.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Suggested Readings:	• Athman, J., & Monroe, M. (2004). The Effects of Environment-Based Education on Students' Achievement Motivation. *Journal of Interpretation Research*. 9(1), 9-25. • Jadhav, H., & Bhosale, V. M. (1995). *Environmental Protection and Laws*. Himalaya Pub. House. • Jitendra Kumar Thakur (2019). *Value and Environmental Education.* Sports Publication. • Mohit Chakrabarti (2008). *Value Education: Changing Perspective.* Kanishka Publication. • Singh, B. (2018). *Value and Environmental Education.* Friends Publications. • Vandana MeshramIngle (2017). *Value and Environmental Education.* Educational Publishers and Distributors.

Year	I	SPORTS ENGINEERING	Credits	1
Semester	II		Course Code	SOE PES 010204 DCEC3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain sports engineering, equipment and facility designing of sports related instruments in Physical Education. • Define the mechanical principles in general body movements. • Define Kinematics and Kinetics of particles and develop understanding of theoretical analysis of various components of cost and taxation. • Formulate the design and development, requirements, building process, and maintenance policy of the sports infrastructure.		
Course Content				
Unit -1		**Introduction to Sports Engineering and Technology:** • Meaning of sports engineering. (Online) • Human motion detection and recording. (Online) • Human performance, assessment, equipment and facility designing. (Online) • Sports related instrumentation and measurement. (Online)		
Unit -2		**Mechanics of Engineering:** • Concept of internal force, axial force, shear force, bending movement, torsion. • Energy method to find displacement of structure and strain energy. • Biomechanics of daily and common activities – Gait, Posture, Body levers and Ergonomics. • Mechanical principles in movements such as lifting, walking, running, throwing, jumping, pulling, pushing etc.		
Unit -3		**Sports Dynamics and Facility life cycle costing:** • Introduction to Statics, Dynamics and Kinematics motion. • Introduction to particles – rectilinear and plane curvilinear motion coordinate system. • Kinetics of particles – Newton's laws of Motion, Work, Energy, Impulse and momentum. • Basics of theoretical analysis of cost, total life cost concepts, maintenance costs, energy cost, capital cost and taxation.		

Unit -4	**Building and Maintenance:** • Sports Infrastructure- Gymnasium, Pavilion, Swimming Pool, Indoor Stadium, Out-door Stadium, Play Park, Academic Block, Administrative Block, Research Block, Library, Sports Hostels, etc. (Online) • Requirements: Air ventilation, Day light, Lighting arrangement, Galleries, Store rooms, Office, Toilet Blocks (M/F), Drinking Water, Sewage and Waste Water disposal system, Changing Rooms (M/F), Sound System (echo-free), Emergency provisions of lighting, fire and exits, Eco-friendly outer surrounding. (Online) • Building process: - design phase (including brief documentation), construction phase functional (occupational) life, Re-evaluation, refurnish, demolish. (Online) • Maintenance staff, financial consideration, Maintenance policy, preventive maintenance, corrective maintenance, record and register for maintenance.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Suggested Readings:	• Charles J.A. Crane, F.A.A. and Furness, J.A.G. (1987). *Selection of Engineering Materials*. Butterworth Heiremann. • Eric C. (2010). *Sports Facility Operations Management* . Routledge. • Finn, R.A. and Trojan P.K. (1999). *Engineering Materials and Their Applications*. Jaico Publisher. • Franz K. F (2007). *The Impact of Technology on Sports II*. Springer Science & Business Media. • Franz K. F(2013). *Routledge Handbook of Sports Technology and Engineering.* Routledge. • Jenkins M.,(2003). *Materials in Sports Equipment* (Vol. I). Elsevier. • Steve Hake, (1996). *The Engineering of Sport*. CRC Press. • Verma, A.(2015). *Sports Engineering*. Friends Publications. • White, C. (2010). *Projectile Dynamics in Sport: Principles and Applications*. Routledge.

Semester-III

Year	II	SCIENCE OF SPORTS TRAINING	Credits	3
Semester	III		Course Code	SOE PES 010315 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Define the concept of sports training and explain the causes, symptoms and remedial measures of overload. • Recall the characteristics, types, determining factors and development of various physical fitness components. • Distinguish technique and skill and classify tactical and technical training. • Define the concept of periodization, types of competition and talent identification at early stage.		
Course Content				
Unit -1		**Introduction of Sports Training** • Sports training- its characteristics and principles. (Online) • Training load, its features, principles and adaptation process. (Online) • Means and methods of executing training load. • Overload its Causes, symptoms and remedial measures. (Online)		
Unit -2		**Training Components** • Strength- its characteristics, types of strength, factors determining strength and strength development. • Endurance- its characteristics, types of endurance, factors determining endurance and endurance development. • Speed- its characteristics, types of Speed, factors determining Speed and speed development. • Flexibility and Coordinative abilities- its characteristics, types, factors determining and development.		
Unit -3		**Technique , Skill and Planning** • Technique and skill- its characteristics and importance. • Different stages of technique development and technique training. (Online) • Tactics and strategy. • Planning principles and importance. (Online)		

Unit -4	**Periodization and Competition** • Periodization- its importance, types and different phases (Preparatory, Competition and Transitional). • Competition and types of competition. (Online) • Talent identification- process and procedure. • Preparation of training schedule. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Suggested Readings:	• Bompa, T. O., & Buzzichelli, C. (2018). *Periodization-: Theory and Methodology of Training*. Human kinetics. • Bompa, T., Bompa, T. O., & Carrera, M. (2005). *Periodization Training for Sports*(Ed. 2). Human Kinetics. • Jesudoss,S. J. (2015). *Principles of Sports Training.* Friends Publications. • Kurz, T. (2001). *Science of Sports Training: How to Plan and Control Training for Peak Performance*. Stadion. • Loehr, J. E. (1995). *PDF The New Toughness Training for Sports: Mental Emotional Physical Conditioning From One of the Worlds Premier Sports Psychologists Online Book.* • OBE, F. W. D. (2014). *Sports Training Principles: An Introduction to Sports Science*. Bloomsbury Publishing. • Singh, H. (1984). *Sports Training: General Theory & Methods*. Netaji Subhas. Nat. Inst. of Sports. • Viru, A. (2017). *Adaptation in Sports Training*. Routledge.

</table>

Unit -3	**Kriyas, Bandhas and Mudras**
	• *Shat Kriyas*- Meaning, Techniques and Benefits of *Neti – Dhati – Kapalapathi- Trataka –Nauli – Basti.* • *Bandhas:* Meaning, Techniques and Benefits of *Jalendra Bandha, Jihva Bandha, Uddiyana Bandha, Mula Bandha.*Meaning, Techniques and Benefits of *Hasta.* • *Mudras, Asamyuktahastam, Samyuktahastam , Mana Mudra, Kaya Mudra, Banda Mudra, Adhara Mudra.* • Meditation: Meaning, Techniques and Benefits of Meditation – Passive and active, *Saguna* Meditation and *Nirguna* Meditation.
Unit -4	**Application of Yoga Exercise**
	• Yoga Supplemental Exercise – Yoga Compensation Exercise – Yoga Regeneration Exercise. (Online) • Role of Yoga in Psychological Preparation of athlete. (Online) • Effect of Yoga on Physiological System. (Online) • Role of Yoga in holistic and spiritual life. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	**Note:** Laboratory Practicals be designed and arranged internally.

Suggested Readings	• Anatharaman, T.N., (1996). *Ancient Yoga and Modern Science.Project of History of Indian Sciences Philosophy & Culture*. • Arya, K. (2011). *Yogic Science*. Friends Publication. • Arya, K. (2013). *Yogic Education*. Friends Publication. • Debnath, K. K. (2010). *Yogic Sciences*. Friends Publication. • Horovitz, E. G., & Elgelid, S. (2015). *Yoga Therapy: Theory and Practice*. Routledge. • Kotecha, Vaidya Rajesh. (2016). *A Beginner's Guide to Ayurveda.* Chakrapani Publications. • Kumar, Dr. Kamakhya, (2008). *Super Science of Yoga.* Standard Publications. Leslie Kamin off & Amy Matthews (2011). *Yoga Anatomy*. Human Kinetics. • Nathial, M. S. (2013). *Yogic Education*. Friends Publication. • Niranjanananda Saraswati, Swami (2012). *Gherenda Samhita*. • Pramod Kumar Sethi (2017). *Yoga and Skin Diseases*. Sports Publication. • Saini, N. (2011). *Yogic and Stress Management.* Friends Publication. • Swami Vivekananda, (2019). *The Complete Book of Yoga : Karma Yoga, Bhakti Yoga, Raja Yoga, Jnana Yoga*. Fingerprint! Publishing. • Tarak Nath Pramanik (2018). *Yoga Education*. Sports Publication.

Year	II	SPORTS BIOMECHANICS AND KINESIOLOGY	Credits	3
Semester	III		Course Code	SOE PES 010317 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the meaning, scope and importance of applied kinesiology and sports biomechanics. • Categorize and explain the action of muscles and forces. • Classify lever according to its types and define guiding principles of stability. • Explain the methods for the analysis of human movements.		
Course Content				
Unit -1		**Introduction of Kinesiology and Sports Biomechanics** • Meaning, nature, role and scope of applied kinesiology and Sports Biomechanics. (Online) • Meaning of Axis, Planes, Plane of the body and axis of motion. (Online) • Static, Dynamics, Kinematics, Kinetics, Centre of gravity & Line of gravity. (Online) • Meaning and definition of Motion and its types (Linear motion, angular motion, circular motion, uniform motion). (Online)		
Unit -2		**Muscle Action and force** • Origin, Insertion and action of upper and lower extremities muscles. (Online) • Meaning and definition of force and its type. (Online) • Muscle size, shape and its force production. • Force applied at an angle Pressure -Friction -Buoyancy, Spin.		
Unit -3		**Projectile and Lever** • Freely falling bodies and projectiles -equation of projectiles stability. • Factors influencing equilibrium - Guiding principles for stability -static and dynamic stability. (Online) • Meaning of work, power, energy, kinetic energy and potential energy. • Leverage -classes of lever - practical application and water resistance, air resistance & aerodynamics.		

Unit -4	**Methods of Analysis of Human Movements** • Analysis of static positions of the body -Sitting, Standing. • Analysis of static positions of the body –Lying. • Analysis of Locomotion- Walking, Running. • Analysis of Locomotion - Jumping, Throwing.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Determination of center of Gravity, Centre of gravity, line of gravity. • Anatomical standing position and fundamental standing position. • Handling of various equipment and software related to Sports Biomechanics. • Mechanical analysis of techniques skills of major sports/games. • Action of muscles of upper and lower extremities by palpations method. • Stick diagram (basic techniques; anatomical posture, walking, push up, sit ups etc). • Goniometry – measurement of joint ROM / Elgon.

Suggested Readings	• Ackland, T. R., Elliott, B., & Bloomfield, J. (2009). *Applied Anatomy and Biomechanics in Sport*. Human Kinetics. • Bartlett, R. (2014). *Introduction to Sports Biomechanics: Analysing Human Movement Patterns*. Routledge. • Chapman, A. E. (2008). *Biomechanical Analysis of Fundamental Human Movements*. Human Kinetics. Knowledge Warehouse. • Kumar, P. (2019). "Biomechanical Analysis of Forward Head Posture among Pondicherry University Research Scholars Based On the Laptop Working Hours: An Analytical Study". *International Journal Of Emerging Technologies And Innovative Research*, 6 (6), 463-466. • Kumar, P., & Singh, R. R. M. (2019). "Biomechanical analysis of anisomelia among the young children's in Puducherry". *Discrepancy (LLD)*, 330, 19. • Singh, R. R. M. (2019). "Biomechanical Analysis of Footprint Measurement among School Boys: A Positive Approach to Posture". *Journal of the Gujarat Research Society*, 21(1), 167-169. • Uppal, A. K. (2018). *Kinesiology and Biomechanics*. Friends Publications.

Year	II	COACHING AND OFFICIATING OF ATHLETICS-TRACK EVENTS	Credits	3
Semester	III		Course Code	SOE PES 010318 C0143
Learning Outcomes		At the end of the course, the students will be able to: • Demonstrate advance skills and techniques of track events. • Mentor, officiate and perform various duties of track events in Athletics. • Prepare the advance coaching lesson plans for track events.		
Course Content		**General out-line of the contents of Coaching and Officiating of Athletic**		
		The students of M.P.E.S. – III Semester need to develop sports theory and skill proficiency in taking officiating lesson on selected above discipline. In view of this, the students shall be provided with advance mechanism of officiating in selected discipline. The duration of the lesson to be conducted by these students shall be in the range of 30 to 40 minutes depending on the class time they are going to handle at school and college level. Each student teacher is expected to take at least five lessons during the course of the fourth semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these officiating lessons, the duration should slowly increase and all the parts of the lesson covered progressively.		
Teaching learning process/Transactional Strategies		Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming		

Year	II	TEACHING OF GAMES AND INTRAMURAL-II	Credits	3
Semester	III		Course Code	SOE PES 010319 C0143
Learning Outcomes		At the end of the course, the students will be able to: • Explain the fundamentals of any two games opted by the student. • Sketch the ground markings of specific games. • Demonstrate and describe the rules and regulations of specific games.		
Course Content		**General out-line of the contents of teaching of theory of Games and Sports**		
		Introduction of the game/sport and historical development with special reference to India, Orientation of the students to the play area and equipment used in the game/sport, Important tournaments held at National and International levels, Distinguished sports awards and personalities related to the Game/sport. Warming-up- General free hand exercises, specific work out using equipment. Fundamental skills, Lead up activities, General rules and their interpretations, Duties of officials, officiating in class competitions and Intramurals, Marking of the play area. Each student teacher is expected to take at least five lessons of any two games opted from (handball, wrestling, gym training, badminton, hockey, and cricket) during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively. **Note: students have to select any two games from the above mentioned games**

Year	II	CLASS ROOM TEACHING AND PRACTICAL OF THE CORE THEORY SUBJECTS-III	Credits	1
Semester	III		Course Code	SOE PES 010321 C0021
Learning Outcomes		At the end of the course, the students will be able to: • Demonstrate the class room teaching ability using various teaching methods.		
Course Content		**General out-line of the contents of classroom teaching and practical of the core subjects** Each student teacher is expected to take at least five lessons during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively. **The Students shall demonstrate teaching ability using various teaching methods. These Lessons should include practical teaching of the core subjects of the semester.**		
Teaching learning process/Transactional Strategies		Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming		

Elective Courses (DCEC)

Year	II	RESEARCH PROPOSAL AND PREPARATION OF SYNOPSIS	Credits	3
Semester	III		Course Code	SOE PES 010305 DCEC3003
Learning Outcomes		At the end of the course, the students will be able to: • Critically think, reflect and analyze and identify an appropriate methodology for a research problem. • Understand the importance of limitation and delimitation for the research. • Formulation and classification of research hypothesis. • Utilize various library resources for review and research proposal and prepare a research proposal.		
Course Content		**Outline of Syllabus** • Identifying an appropriate methodology for a research problem. (Online) • Effective use of library resources for research. • Developing a conceptual model relevant to research. • Construction of tools for different types of research. (Online) • Formulation and classification of research hypothesis. (Online) • Developing a research proposal. • Different writing format in preparing the research proposal. (Online) • Identifying and reducing/eliminating barriers which may interfere with the development of a high quality thesis/dissertation. • Developing and following an appropriate timeline for completion of the thesis/dissertation. • Format for writing abstract. • Oral and poster presentation. • Academic dishonesty. (Online)		

Suggested Readings	• Kamlesh, D. M. (2019). Methodology of Research in Physical Education and Sports. Sports Publication. • Klopper, H. (2008). The Qualitative Research Proposal. Curationis, 31(4), 62-72. • Kothari, C. (2019). Research Methodology: Methods and Techniques. New Age International Publishers. • Mishra, P. D. (2018). Research and Statistics in Physical Education. Sports Publication. • Vivar, C. G., McQueen, A., Whyte, D. A., & Armayor, N. C. (2007). Getting Started With Qualitative Research: Developing a Research Proposal. Nurse researcher, 14(3).

Year	II	SPORTS JOURNALISM AND MASS MEDIA	Credits	3
Semester	III		Course Code	SOE PES 010306 DCEC3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning, definition, mode and news agencies of sports journalism. • Critically analyse the importance of media in sports. • Construct reviews and articles for Sports Journals, and articulate commenting and interviewing of Sports personalities. • Explain the role of advertisement in Sports Journalism.			
Course Content				
Unit -1	**Introduction of Sports Journalism**			
	• Sports Journalism: Meaning, Definition and Historical Background. (Online) • National and International Sports News Agencies. (Online) • Mode of Sport Journalism: Print, Electronic and Informal Media. • Canons and Ethics of Journalism. (Online)			
Unit -2	**Event Organization and Coverage**			
	• News: Definition, basic news elements, organization of sports news desk, Pitfalls in use of language, Proof Reading. (Online) • Qualities and responsibilities of sports news reporters. (Online) • Organization of Pre & Post Sports Event Press Meet. • Coverage: Covering Local / National/ International sports competitions and writing of press release.			

Unit -3	**Art of Review Writing, Commentating and Interviewing**
	• Review Writing: Brief review of Olympic Games, Asian Games, Common Wealth Games, World Cup, National Games and Indian Traditional Games. (Online) • Writing Sports Features: Types of sports features, sports personalities and their thumb nail sketches, Writing Sports Editorials, Blogs & Column. • Art of Commentating: Commentating sports for radio and television channels. • Art of interviewing: Interview with and elite Players and Coaches.
Unit -4	**Role and Career in Sports Journalism**
	• Amateurism v/s professionalism: Invasion of private life, emphasis on winning, sports for charity. • Role of Advertisement in Sports Journalism. (Online) • Career in Sports Photography: Equipment's, Editing and Publishing. • Structure of Sports Bulletin and its types.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Suggested Readings	• Dhananjay Joshi (2010). *Value Education in Global Perspective*. Lotus Press. • Kathryn T. Stofer, James R. Schaffer (2019). *Sports Journalism: An Introduction to Reporting And Writing*. Rowman & Littlefield Publishers. • Koak, S & Sharma, R. (2015). *Media and Career in Phy Edu*. Friends Publications. • Phil Andrews (2013). *Sports Journalism* (Ed. 2). SAGE Publications Ltd.

Generic Elective Course (GEC)

Year	II	PHYSICAL FITNESS AND CONDITIONING	Credits	4
Semester	III		Course Code	SOE PES 010302 GEC4004
Learning Outcomes	At the end of the course, the students will be able to: • Define the concept of warming up, cool down and calisthenics exercise. • Give a demonstration of weight training, Swiss ball training, medicine ball, thera-band, and tubing exercises for various body parts. • Classify anthropometric measurements for assessing body composition. • Choose and suggest appropriate exercises for back pain and neck pain, and role of exercise during pregnancy.			
Course Content				
Unit -1	**Concept of Physical Fitness and Conditioning** 1. Introduction of Physical Fitness variables and Conditioning. (Online) 2. Assessment of Health Related Fitness 3. Warming up and cool down exercise for body. (Online) 4. Aerobic and anaerobic exercise and its differences. (Online)			
Unit -2	**Importance of Training** • Variation of sets and repetitions and Intensity for weight training. (Online) • Exercise with Swiss & medicine ball, thera-band and tubing. • Different Types of Exercise for upper body and lower body. • Various Methods, Principles and Types of training.			

Unit -3	**Body types and Assessment**
	• Anthropometric measurement for somatotyping body type. • Assessing body composition, BMI. • Introduction of Posture and its type. (Online) • Posture Deformities and its treatment.
Unit -4	**Importance of Exercise in day today life**
	• Flexibility development Exercises. • Exercise during pregnancy and Exercise for Back and Neck pain Management. • Method for determining 1-RM. (Online) • Concept of designing different fitness training programme for different age group. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming

Suggested Readings	• American Alliance for Health, Physical Education, Recreation and Dance (1999). *Physical Education for Lifelong Fitness, The Physical Best Teacher's Guide.* Human Kinetics, P.O. Box 5076, Champaign, IL 61825-5076 • Emily R. Foster, Karyn Hartiger & Katherine A. Smith.(2002). *Fitness Fun*, Human Kinetics Publishers. • Fahey D. Thomas (2005). *Weight Training Basis, A Complete Guide for Men and Women.* Mcgraw- Hill Companies.Getchell, B. (1979). *Physical Fitness: A Way of Life.* • Lawrence, Debbie. (1999). *Exercise to Music.* A & C Black Publishers Ltd. 37, Sohe Square. • Miller, D. K., & Allen, T. E. (1990). *Fitness: A Lifetime Commitment*. Macmillan Publishing Company. • Robert Malt. (2001). *90-Day Fitness Plan.* D.K. publishing, Inc. 95, Madison Avenue. • The National Association for Sport and Physical Education (1900). *Concepts of Physical Education, What Every Student Needs to Know.* Association Drive Reston, VA 20191-1599 (703) 476-3410.

***Note: -**

1. In Part-B, Minimum strength required of the students selecting any of the game will be 10 Students.

2. The students opting for Research Proposal as Discipline Centric Elective Course will be encouraged to take Dissertation in Discipline Centric Elective Course (DCEC) in the fourth semester.

3. Research Proposal and Dissertation would be evaluated as per the University Ordinance No-XV.

Semester-IV

Year	II	SPORTS PSYCHOLOGY	Credits	3
Semester	IV		Course Code	SOE PES 010422 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the concept, meaning, importance and scope of sports psychology. • Recall various learning theories and describe the types, theories and techniques of motivation. • Illustrate and identify the psychological factors affecting sports performance. • Appraise and measure team cohesion, group dynamics and leadership capabilities.			
Course Content				
Unit -1	**Role of Sports Psychology** • History, Meaning, Definition, Scope and Importance of Sports Psychology. (Online) • Meaning and types of Motivation – Theories and Techniques for Development of motivation. (Online) • Introduction to various psychological variables. (Online) • Goal Setting Interventions, Principles, Program			
Unit -2	**Psychological Learning** • Meaning and Definition of Motor Learning, Activity & Skill. (Online) • Meaning of Learning -Theories of Learning and there implication in teaching Learning Process. (Online) • Stages of Motor Learning and Plateau effect. • Meaning of Psychological Skill Training (PST) its uses and Myths.			
Unit -3	**Importance of Personality** • Meaning and Definition of Personality and Personality Traits. (Online) • Theories and Role of Personality in Sports and Exercise. • Measurement of Personality. • Areas of Individual Difference and its types.			

Unit -4	**Leadership and Cohesion** • Concept of Group Dynamics of Sports Performance and Team Cohesion. (Online) • Meaning of Leadership, Component of Effective Leadership and its Measurement. • Problems and issues working with Individual and Team Sports. • Career Transition in Athletes and Retirement Issues, Developing Life Skills in Athletes.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Assessment of Reaction Time (Hard-Eye). • Assessment of Coordination (Foot-Eye). • Analysis of Personality (Eysenck Personality Questionnaire), Big Five Personality Test. • Assessment of Achievement Motivation. • Assessment of Sport competitive anxiety test. • Inventory for factors influencing sports. • Assessment of Sociometry Questionnaire.
Suggested Readings	• Horn, Thelma (2008). *Advances in Sport Psychology*. Champaign IL : Human Kinetics Publishers, Inc. • Huber, Jeffrey (2012). *Applying Educational Psychology in Coaching Athletes*. Knowledge Warehouse. • Kamlesh, M.L. (2011). *Psychology in Physical Education and Sport* (Ed. 3). Delhi : Metropolitan Book Co. Pvt. Ltd. • Pargonkar, G. V (2015). *Sports Psychology*. Friends Publications. • Taylor, Jim (2017). *Assessment in Applied Sport Psychology*. Knowledge Warehouse. • Weinberg, R.S & Gould, Daniel (2015). *Foundations of Sport and Exercise Psychology* (Ed. 6). Champaign IL: Human Kinetics Publishers, Inc.

Year	II	HEALTH EDUCATION AND SPORTS NUTRITION	Credits	3
Semester	IV		Course Code	SOE PES 010423 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning, aims and objectives of health education and classify communicable disease, their transmission and prevention. • Recall the concept of Non-communicable diseases and list out various programs for controlling diseases. • List out various school health services and define the role of International Organization in the Development of Health. • Plan and prepare a nutritional diet intake for various games and sports.			
Course Content				
Unit -1	**Introduction of Health Education** 1. Concept of Health and Health Education. (Online) 2. Dimension of health and wellness. (Online) 3. Latest trends in Health Education and global strategy in the field of Health. (Online) 4. Role of physical Education Professional on Individual and family in relation to Health and Health Education. (Online)			
Unit -2	**Epidemiology of Diseases** • Epidemiology of Communicable Diseases: Agent factor, Host factor, Environment factors, Mode of Transmission and Prevention of following diseases: • Health Hazards and its types. (Online) • Epidemiology of Non Communicable Diseases : Risk factors and Prevention of following diseases : • Personal Health & Hygiene care system.			

Unit -3	**School Health Services**
	• Meaning & Objective of School Health Service and Health Problem of School Child. (Online) • Role of health education in schools. (Online) • Health record, Healthful school environment, first- aid and emergency care, Mid-day School Programme. • Role of National and International Organization in the Development of Health.
Unit -4	**Nutrition for various games and sports**
	• Nutrition, Training Adaptations and Immune Function in Athletes. • Nutrition for popular team sports (Basketball, Hockey, Football, Volleyball, Kabaddi and Cricket). • Nutrition for Athletics and Endurance Sports (Long distance Swimming, Cycling and Marathon). • Nutrition for Strength and Combat sport (Wrestling, Weightlifting, Judo, Boxing, Taekwondo and Fencing).
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Suggested Readings	• Campbell, B. (2013). *Sports Nutrition: Enhancing Athletic Performance*. CRC Press. • Eberle, S. G. (2013). *Endurance Sports Nutrition* (Ed. 3). Human Kinetics. • Fink, H. H., & Mikesky, A. E. (2017). *Practical Applications in Sports Nutrition*. Jones & Bartlett Learning. • Kumar.P (2020). Year	II	THEORY OF ATHLETICS	Credits	3
Semester	IV		Course Code	SOE PES 010424 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the general rules and regulations of Athletics defined by IAAF. • Draw a sketch of the standard and non-standard track with the markings of the different track and field events. • Explain and demonstrate the rules and regulations of various race events. • Explain and demonstrate the rules and regulations of various field events.			
Course Content				
Unit -1	**Introduction of Track and Fields** • Introduction and history of athletics. (Online) • World Athletics / IAAF General Rules and regulation of Track Events. (Online) • World Athletics / IAAF General Rules and regulation of Field Events. (Online) • World Athletics / IAAF General Rules and regulation of Combined Events. (Online)			
Unit -2	**Standard and non-standard Track Marking procedure** • Total Area. • Stagger. • Diagonal excess. • Relay Zone Marking.			
Unit -3	**Track events marking procedure** • Sprinting, Middle and Long Distance Events. • Cross country races and Race Walking. (Online) • Hurdles (Online) • Steeplechase races marking. (Online)			

Unit -4	**Field events marking procedure** • High jump and Pole vaulting • Long Jump and Triple Jump • Shot-put and Hammer • Discuss throw and Javelin throw.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Track and Field Lay out and marking. • Track and Field Rules and Regulation. • Track and Field Performance.
Suggested Readings	• Schneider, R. C. (2009). *Ethics of Sport and Athletics: Theory, Issues, and Application*. Wolters Kluwer Health/Lippincott Williams & Wilkins, xxi, 392 p.: ill.; 24 cm. • Zeigler, E. F., & Spaeth, M. J. Elective Courses (DCEC)

Year	II	*DISSERTATION	Credits	3
Semester	IV		Course Code	SOE PES 010407 DCEC0303
Learning Outcomes	At the end of the course, the students will be able to: **Develop competency in the process of conducting research** • A candidate shall have dissertation for M.P.E.S. – IV Semester and must submit his/her Synopsis in department and get it approved by the D.R.C. (Departmental Research Committee). • A candidate selecting dissertation must submit his/her dissertation not less than one week before the beginning of the IVth Semester Examination. • The candidate has to face the Viva-Voce conducted by D.R.C. (Departmental Research Committee) with external examiner.			

Year	II	PHYSICAL FITNESS AND WELLNESS	Credits	3
Semester	IV		Course Code	SOE PES 010408 DCEC3003
Learning Outcomes	At the end of the course, the students will be able to: • Define the concept of physical fitness and wellness, and identify the components, techniques and principles of physical fitness. • Recall the importance of nutrition and calories requirements, and explain the influence of food on social cultural values. • Illustrate stress assessment and management techniques, and the concept of designing a fitness training programme. • Explain the Establishment and Management of Fitness Centre and describe the Qualification and qualities for a fitness trainer.			
Course Content				
Unit -1	**Introduction of Physical Fitness and Wellness** • Meaning & Definition, Principles and Components of Physical Fitness and Wellness. (Online) • Leisure time physical activity for community development. • Current trends in fitness and conditioning. (Online) • Relationship between physical activity and lifelong wellness.			
Unit -2	**Importance of Nutrition** • Meaning and Definition of Nutrition. (Online) • Food Guide Pyramid and Daily calories intake & burning. • Influences of food on social cultural values. (Online) • Exercise and metabolism & burning.			

Unit -3	**Stress Management**
	• Stress assessment & its management, prominent health problem associated with inactivity. • Safety techniques (Spotting, proper body alignment, lifting techniques, spatial, awareness. and proper breathing techniques). (Online) • Concept of free weight vs. machine, variation of sets and repetitions, Exercise with Swiss & Medicine Ball, Thera-band and Tubing. • Concepts of designing fitness training programme and Measurement of Body Composition.
Unit -4	**Fitness Management**
	• Establishment and Management of Fitness Centre. • Principles of starting a fitness center environment, location, policy, offer of programmes, record keeping, and public relation. • Fitness center membership and its types. (Online) • Safety aspects in a fitness center and Qualification and qualities for a fitness trainer. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Orientation and management of fitness center, various equipment's and wet zone. • Different methods of measuring Body Composition (BMI, Waist Hip Ratio, Skinfold Caliper). • Different Fitness Test (Cardio-respiratory Endurance, Strength, Strength Endurance, Flexibility, Body Composition, Anthropometric Measurements and Grip Dynamometer).

Suggested Readings	• Agrawal, M.(2016). *Aerobics Fitness & Style.* Friends Publications. • Corbin, C. (2011). *Concepts of Physical Fitness*. McGraw-Hill Higher Education. • Fahey D. 1. Background

The implementation of the curricular reforms envisioned in National Education Policy-2020 on consequent decisions taken in the Academic Council of the University to annually review and reform the curriculum of all the Under Graduate and Post Graduate programmes in alignment with the NCTE, NEP-2020 and UGC quality mandate for Higher Education Institutions 2021, the curriculum of Master of Physical Education (M.P.Ed.) is revised accordingly.

The process of revamping the curriculum was initiated with the series of webinars and discussions conducted by the University to orient the teachers about the key features of the Policy, enabling them to revise the curriculum in sync with the Policy. Orientation of the faculty about the vision and provisions of NEP-2020 made it easier for them to appreciate and incorporate the vital aspects of the Policy in the revised curriculum focused on 'creating holistic, thoughtful, creative and well-rounded individuals equipped with the key 21st century skills' for the 'development of an enlightened, socially conscious, knowledgeable, and skilled nation'.

The Department of Physical Education and Sports is committed towards preparing Physical Education Teachers by ensuring quality and excellence in its programme. The present curriculum Framework is based on NCTE Regulation-2014, UGC-LOCF and NEP-2020. Physical education and sports are an integral part of life, from school to higher education and community participation. It is the education which focuses on wholesome development of personality through physical, cognitive and functional development. Master of physical education provide opportunity to students at post graduate level toward specialized knowledge in physical education, seeking a broad based spectrum of study that crosses discrete portions of physical, biological, psychological and social science in an integrated, orderly and logical sequence. The curriculum focuses on horizontal integration of multi-facet discipline aiming at physical education specialist who can develop and promote physical education at schools, colleges and universities across the nation. The programme structure consists of formal courses and related experiences which focus on human involvement in physical education and related aspects.

Programme Name: Master of Physical Education (M.P.Ed),

Department of Physical Education and Sports,

School of Education.

Vision and Mission of Central University of Haryana

UNIVERSITY VISION

To develop enlightened citizenship of a knowledge society for peace and prosperity of individuals, nation and the world, through promotion of innovation, creative endeavors, and scholarly inquiry.

UNIVERSITY MISSION

To serve as a beacon of change, through multi-disciplinary learning, for creation of knowledge community, by building a strong character and nurturing a value-based transparent work ethics, promoting creative and critical thinking for holistic development and self-sustenance for the people of India. The University seeks to achieve this objective by cultivating an environment of excellence in teaching, research and innovation in pure and applied areas of learning.

OBJECTIVES OF DEPARTMENT OF PHYSICAL EDUCATION AND SPORTS, SCHOOL OF EDUCATION

1. To prepare outstanding Physical Education Teachers for a global platform
2. To prepare physical education professionals, who can lead to transformation of the lives of individuals and lead to the national development.
3. To develop positive attitude towards physical education and sports.
4. To train teachers in making teaching-learning healthful and joyful.
5. To prepare physical education teachers/ trainers/ educators who have a sound knowledge base, essential professional skills and humanitarian values and ethics.
6. To train teachers in Information & Communication Technology for physical education and sports.
7. To develop research and innovation aptitude in pupil teachers.
8. To build an environment for all round development of the individual.

Mapping of University Vision and Mission to Department Vision and Mission

Acclaimed as modal Centre of Learning and Research by

University Vision and Mission	**Objectives of School**
High quality knowledge society creation for peace and prosperity of individuals, nation and the world, through and scholarly inquiry	**Yes**
Promotion of innovation, creative endeavors, research and development	**Yes**
Students excellence through multi-disciplinary learning, value-based transparent work ethics, creative and critical thinking	**Yes**
Environment of excellence in teaching, research and innovation in pure and applied areas of learning	**Yes**

1. PROGRAMME OUTCOMES (POs), SCHOOL OF EDUCATION

After successful completion of the programme:

PO1 Learners will be able to comprehend the acquired knowledge during the Programme of study.

PO2 Learners will be able to reflect on the problems relating to health, discipline and society with ethical guidelines.

PO3 Learners will be able to exhibit the professional skills and competencies acquired during the Programme of study.

PO4 Learners will be able to show scientific & research capabilities in their academic, professional and general life pursuits.

PO5 Learners will be able to apply the knowledge and skills acquired in academic management and resource management according to predetermined objectives/outcomes.

PO6 Learners will be able to work as a member or a leader in various teams and multidisciplinary & diverse settings.

1. PROGRAMME SPECIFIC OUTCOMES (PSOs), M.P.Ed Programme

The M.P.Ed Two-Year Teacher Education Programme aims at:

PSO-1. Acquiring conceptual understanding of sports exercise physiology, kinesiology, psychology and other physical educational aspects with experiential learning.

PSO-2. Developing competencies in motor skills and movement analysis needed to perform variety of physical activities and reducing the risk of chronic disease and injuries.

PSO-3. To enable the students for acquiring relevant skills for entrepreneurship in contemporary fitness industry, self-defence, community development and physical literacy.

PSO-4. Providing exposure to student-teachers for digital literacy, integrated pedagogy, and training for various awareness programmes related to gender, environment, health and contemporary issues.

PSO-5. Enabling the students to develop a high level of understanding of physical education practice and policy providing with a basis for life-long learning and successful career development in physical education.

PSO-6. Developing research competencies with statistical techniques, effective way of teaching and curriculum design in physical education.

Scheme and Syllabus

M.P.Ed
(Master of Physical Education)

School of Education

Academic Session 2021-22

M.P.Ed Semester- I

S. No.	Course Credit	Course Code	Course Title	Credits (Theory)	Credits (Tutorial/ Practicum)	Credits (Practical)	Class Teaching / Field Based Activity Hours per week

Semester-I

Year	I	RESEARCH METHODOLOGY IN PHYSICAL EDUCATION	Credits	3
Semester	I		Course Code	SOE PES 030101 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning, nature and scope of research in physical education. • Classify and formulate the different methods of research. • Choose the right techniques for data collection. • Prepare the research proposal and summarize the thesis writing.			
Course Content				
Unit -1	**Introduction of Research** • Meaning and Definition of Research – Need, Nature and Scope of research in Physical Education, Scientific and Unscientific method of Problem Solving. (Online) • Review of Related Literature. (Online) • Identification of Research Problem and Criteria for selecting research problem. • Characteristics of a good research and good researcher. (Online)			
Unit -2	**Classification of Research** • Formulation and Classification of Research Hypothesis. (Online) • Limitations and Delimitations. (Online) • Classification of Research. • Analytical Research, Descriptive Research and Case Study.			
Unit -3	**Sampling and Population** • Meaning and Definition of Sample and Population. (Online) • Types of Sampling Techniques: a) Probability Sampling Techniques. b) Non-Probability Sampling Techniques. • Construction and Development of Questionnaire. • Data Collection Tools & Techniques.			

Unit -4	**Development of Research Proposal** • The Proposal Process and Research Process. (Online) • Preparation and uses of tables and figures and Guidelines for Writing Research Report. • Writing Formats: a) Traditional Format. b) Journal Format. • Format of writing abstracts, Oral and poster presentation.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings	• Ahlawat, R. P. (2016). Research Process in Physical Education& Sports Sciences. Friends Publication. • Flick, U. (2017). Introducing Research Methodology. Sage Publications. • Flick, U. (2019). An Introduction to Qualitative Research. Sage Publications. • Kahn, J. V. (2016). Research in Education (Vol. 10). Pearson Education Inc. • Kamlesh, D. M. (2019). Methodology of Research in Physical Education and Sports. Sports Publication. • Kothari, C. (2019). Research Methodology: Methods and Techniques. New Age International Publishers. • Mishra, P. D. (2018). Research and Statistics in Physical Education. Sports Publication. • Thomas, J. R. (2016). Research Method in Physical Activity. US: Human Kinetics.

Year	I	THEORY OF ATHLETICS	Credits	3
Semester	I		Course Code	SOE PES 030102 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the general rules and regulations of Athletics defined by IAAF. • Draw a sketch of the standard and non-standard track with the markings of the different track and field events. • Explain and demonstrate the rules and regulations of various race events. • Explain and demonstrate the rules and regulations of various field events.			
Course Content				
Unit -1	**Introduction of Track and Fields** • Introduction and history of athletics. (Online) • World Athletics / IAAF General Rules and regulation of Track Events. (Online) • World Athletics / IAAF General Rules and regulation of Field Events. (Online) • World Athletics / IAAF General Rules and regulation of Combined Events. (Online)			
Unit -2	**Standard and non-standard Track Marking procedure** • Total Area. • Stagger. • Diagonal excess. • Relay Zone Marking.			
Unit -3	**Track events marking procedure** • Sprinting, Middle and Long Distance Events. • Cross country races and Race Walking. (Online) • Hurdles (Online) • Steeplechase races marking. (Online)			

Unit -4	**Field events marking procedure** • High jump and Pole vaulting • Long Jump and Triple Jump • Shot-put and Hammer • Discuss throw and Javelin throw
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Track and Field Lay out and marking. • Track and Field Rules and Regulation. • Track and Field Performance.
Suggested Readings	• Schneider, R. C. (2009). *Ethics of Sport and Athletics: Theory, Issues, and Application*. Wolters Kluwer Health/Lippincott Williams & Wilkins, xxi, 392 p.: ill.; 24 cm. • Zeigler, E. F., & Spaeth, M. J. (1975). *Administrative Theory and Practice in Physical Education and Athletics*. **Website** • https://www.worldathletics.org/about-iaaf/documents/book-of-rules • https://sportsauthorityofindia.nic.in/showimg.asp?ID=580

Year	I	TEST, MEASUREMENT AND EVALUATION IN PHYSICAL EDUCATION	Credits	3
Semester	I		Course Code	SOE PES 030103 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning and principles of Test, Measurement and Evaluation. • Construct knowledge and specific fitness test. • Illustrate various physical fitness and motor fitness test. • Explain the difference Anthropometric Measurements.			
Course Content				
Unit -1	**Concept of Test and Measurement and Evaluation in Physical Education**			
	• Meaning of Test, Measurement and Evaluation. (Online) • Principles of Measurement and Evaluation. (Online) • Domains of Human Performance - cognitive, affective and psychomotor. (Online) • Meaning and establishing Validity, Reliability and Objectivity, Norm referenced and Criterion referenced standards.			
Unit -2	**Guidelines for construction of test**			
	• Criteria of test selection. (Online) • Factors Affecting Scientific Authenticity. (Online) • Procedure to Establish Scientific Authenticity. (Online) • Guidelines for constructing knowledge test and steps for construction of skill test / specific fitness test.			

Unit -3	**Assessment through Various Skill Tests**
	• Concepts and Assessment of Physical Fitness: a) AAHPERD Health Related Fitness Test and Tuttle Pulse ratio test, b) Roger's PFI. • Test for fitness components- strength, endurance, speed, flexibility and coordinative abilities. • Motor Fitness Test, Motor Ability Test and Motor Educability Test. • Skill Test of various Games/ Sports.
Unit -4	**Individual Assessment Methods**
	• Basic Concept of Psychological Traits. (Online) • Basic concept of Anthropometric Measurements. • Assessment of Body Composition. • Self-Assessment.
Teaching learning process/Transactional Strategies	Lecture cum discussion, Power Point presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Practicum	The conducted practical's should be written in a Practical Note-Book and must be signed by the Supervisor. For practical's there will be a Practical Test and Viva-Voce Examination. • Assessment of endurance through-twelve minute run/walk test; six hundred yards run walk test; Harvard step test. • Assessment of resting physiological parameters- Heart rate, Respiratory rate. • Anthropometric measurement. • Somatotyping, somato charts & indices. • Various Sports / Games (Basketball, Volleyball, Hockey, Football, Badminton, Tennis).

Suggested Readings	• Alan C. Lacy & Skip M. Williams (2018). *Measurement and Evaluation in Physical Education and Exercise Science* (Ed. 8). Routledge. • American College of Sports Medicine (2013). *ACSM's Health-Related Physical Fitness Assessment Manual*. Lippincott Williams & Wilkins. • American College of Sports Medicine (2017). *ACSM's Health-Related Physical Fitness Assessment Manual*. Lippincott Williams & Wilkins. • Karad, P.L. (2017). *Test, Measurement and Evaluation in Physical Education.* Khel Sahitya Kendra. • Lacy, A. C., & Williams, S. M. (2018). *Measurement and Evaluation in Physical Education and Exercise Science*. Routledge. • Miller, D. (2019). *Measurement by the Physical Educator Why and How* (8th Edition). McGraw-Hill Higher Education. • Yobu, A. (2010). *Test, Measurement and Evaluation in Physical Education in Physical Education and Sports*. Friends Publications.

Year	**I**	**CLASSROOM TEACHING AND PRACTICAL OF THE CORE THEORY SUBJECTS-I**	**Credits**	**1**
Semester	**I**		**Course Code**	**SOE PES 030107 C0021**
Learning Outcomes		At the end of the course, the students will be able to: • Practice of various teaching skills in real classroom situations and develop professional competencies for profession.		
Course Content		**General out-line of the contents of classroom teaching and practical of the core subjects**		
		Each student teacher is expected to take at least five lessons during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively. **The Students shall demonstrate teaching ability using various teaching methods. These Lessons should include practical teaching of the core subjects of the semester.**		
Teaching learning process/Transactional Strategies		Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming		

Elective Courses (DCEC)

Year	I	YOGIC SCIENCE	Credits	3
Semester	I		Course Code	SOE PES 030101 DCEC3003
Learning Outcomes	At the end of the course, the students will be able to: • State and exemplify the concept of ashtang yogic practices and relaxation techniques. • Demonstrate different types of asana and *Pranayama Techniques*. • Classify and exhibit various *Kriyas* and *Mudras*. • Utilize yoga for psychological and physiological preparation of an athlete.			
Course Content				
Unit -1	**Introduction to Sports Medicine and Rehabilitation** • History, Meaning, Definition, Need and Importance of Yoga. (Online) • Various types of Yoga. (Online) • Limbs of Yoga -*Yama, Niyama, Aasna, Pranayama, Prathyahara, Dharana, Dhyana, Samadhi*. • Concept of Yogic Practices; Principles of Breathing– Awareness – Relaxation, Sequence – Counter pose – Time – Place – Clothes – Bathing – Emptying the bowels – Stomach – Diet – No Straining – Age – Contra- Indication – Inverted asana – Sunbathing.			
Unit -2	**Asanas and Pranayama** • Loosening exercise: Techniques and benefits. (Online) • *Asanas*: Types- Techniques and Benefits, *Surya Namaskar*: Methods and benefits. • *Pranayama:* Types- Methods and benefits. • *Nadis and Chakaras Meaning, methods and benefits.*			

Unit -3	**Kriyas, Bandhas and Mudras**
	• *Shat Kriyas*- Meaning, Techniques and Benefits of *Neti – Dhati – Kapalapathi- Trataka –Nauli – Basti.* • *Bandhas:* Meaning, Techniques and Benefits of *Jalendra Bandha, Jihva Bandha, Uddiyana Bandha, Mula Bandha.*Meaning, Techniques and Benefits of *Hasta.* • *Mudras, Asamyuktahastam, Samyuktahastam , Mana Mudra, Kaya Mudra, Banda Mudra, Adhara Mudra.* • Meditation: Meaning, Techniques and Benefits of Meditation – Passive and active, *Saguna* Meditation and *Nirguna* Meditation.
Unit -4	**Application of Yoga Exercise**
	• Yoga Supplemental Exercise – Yoga Compensation Exercise – Yoga Regeneration Exercise. (Online) • Role of Yoga in Psychological Preparation of athlete. (Online) • Effect of Yoga on Physiological System. (Online) • Role of Yoga in holistic and spiritual life. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	**Note:** Laboratory Practical be designed and arranged internally.

Suggested Readings	• Anatharaman, T.N., (1996). *Ancient Yoga and Modern Science.Project of History of Indian Sciences Philosophy & Culture*. • Arya, K. (2011). *Yogic Science*. Friends Publication. • Arya, K. (2013). *Yogic Education*. Friends Publication. • Debnath, K. K. (2010). *Yogic Sciences*. Friends Publication. • Horovitz, E. G., & Elgelid, S. (2015). *Yoga Therapy: Theory and Practice*. Routledge. • Kotecha, Vaidya Rajesh. (2016). *A Beginner's Guide to Ayurveda.* Chakrapani Publications. • Kumar, Dr. Kamakhya, (2008). *Super Science of Yoga.* Standard Publications. Leslie Kamin off & Amy Matthews (2011). *Yoga Anatomy*. Human Kinetics. • Nathial, M. S. (2013). *Yogic Education*. Friends Publication. • Niranjanananda Saraswati, Swami (2012). *Gherenda Samhita*. • Pramod Kumar Sethi (2017). *Yoga and Skin Diseases*. Sports Publication. • Saini, N. (2011). *Yogic and Stress Management.* Friends Publication. • Swami Vivekananda, (2019). *The Complete Book of Yoga : Karma Yoga, Bhakti Yoga, Raja Yoga, Jnana Yoga*. Fingerprint! Publishing. • Tarak Nath Pramanik (2018). *Yoga Education*. Sports Publication.

Year	I	ADAPTED PHYSICAL EDUCATION	Credits	3
Semester	I		Course Code	SOE PES 030102 DCEC3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the various aspects of Adapted Physical Education and develop understanding on different types of disability. • Articulate special adapted programs for various categories of physical disability. • Explain the use of various aquatic activity programme for disabled. • Classify different rehabilitation programs.		
Course Content				
Unit -1		**Role of Adapted Physical Education** • Meaning & definitions, Aims and objectives, Need and Importance of Adapted Physical Education. (Online) • Role of physical education in adapted physical education. (Online) • Specific learning disabilities: Common types of learning disabilities their causes, treatment and intervention. • Recreational Sports Opportunities, Competition Opportunities - Special Olympics, Paralympics and Deaf Olympics. Inclusive Education: Meaning, Definition, Aim and Objectives.		
Unit -2		**Understanding and Managing the Disability** • Physical education programme for disabled of: - Elementary School, Middle School and High School. (Online) • Class organization strategies: identifying the cause, embrace special needs, setting high expectations and goals. (Online) • Managing individual programmes and Special adapted programme for various types and categories of physical disability. • Classification of Disability: Visual, auditory, Neuro Muscular, Mental and Emotional Specific Guidelines for: Visual Impairment, Hearing Impairment, Intellectually challenged, Orthopedically Handicapped – Parent Teacher Association – Parents Advisory Committee, Unified Sports.		

Unit -3	**Value of Disability Events**
	• History of Paralympics, Special Olympics and their events. • Aquatic activity programme for disabled. • Importance of Young Athletic Programme (YAP). (Online) • Orientation of Types of Equipment- Minimum equipment, Additional Equipment, Evaluation of Equipment.
Unit -4	**Concept of Rehabilitation and Adapted Games**
	• Meaning, Aims & objectives and Functions of rehabilitation. (Online) • Classification of rehabilitation- Occupational rehabilitation, Psychological rehabilitation. • Provisions of special rights and privilege for disabled through legislations. (Online) • Various Adapted Games for different disabilities.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings	• Auxter, H. (2001). *Adapted Physical Education and Reactions.* Morbey- St: Louis Mirrauri. • Auxter, D., & Pyfer, J. (1989). *Principles and Methods of Adapted Physical Education and Recreation.* Times Mirror Magazine. • Clarke, H. H., & Clarke, D. H. (1978). *Developmental and Adapted Physical Education.* • Kasser, Susan (2013). *Inclusive Physical Activity* (2nd Edition). Knowledge Warehouse Khel. • Kumar, P., Singh, R. M., & Ratnakar, A. (2018). "Role of physical education research activities and their impact in modern day life". *Asian Journal of Multidimensional Research*, 7(2), 420-425. • Sahitya Kendra (2017). *A Text Book of Adapted Physical Education & Sports.* • Sharma, S.R (2019). *Adapted Physical Education*, Friends Publication. • Thind, M. N. (2010), *Special Olympics Bharat Trainer Manuel*. Special Olympics Bharat. • Winnick, J., & Porretta, D. L. (2016). *Adapted Physical Education and Sport* (Ed. 15). Human Kinetics.

Generic Elective Course (GEC)

Year	I	WELLNESS THROUGH GAMES AND SPORTS	Credits	4
Semester	I		Course Code	SOE PES 030101 GEC4004
Learning Outcomes		At the end of the course, the students will be able to: • Explain the concept of Wellness, Recreation and develop understanding of various games organized at global platforms. • Define the facilities of different games and design the make-up of track and field events. • Classify warming-up and cooling down, distinguish aerobic and anaerobic exercises. • Define ergogenic aids and summarize the effects of doping and its types.		
Course Content				
Unit -1		**Introduction to Wellness and Olympic Games** • Meaning, definition and dimension of Health and Wellness. (Online) • Meaning, definition, Need and Importance of Physical Education and Recreation. (Online) • Meaning of the Physical Culture, Physical Training, Drill, Gymnastics, Athletics, and Aquatics. • Introduction of Olympic Games, Asian Games, Commonwealth games.		
Unit -2		**Facilities and Measurement of Sports and Games** • Introduction to track and field events. (Online) • Facilities and measurement of Track and fields. • Introduction to Sports and Games. (Online) • Facilities and measurement of play field: hockey, football, Volleyball, Basketball and badminton.		

Unit -3	**Concept of Aerobic and Anaerobic Training** • Meaning and methods of Warming-up and cooling down. • Aerobic and Anaerobic training. • Different methods of Aerobic and Anaerobic training. • Facilities required for Aerobic and Anaerobic training.
Unit -4	**Doping and Ergogenic aids** • Introduction of Ergogenic aids, Doping and its types. • Physiological and Psychological Effects of Doping. • Advantage and disadvantage of narcotics and drugs. (Online) • Role of doping agencies to control the use of drugs in sports. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings	• Brymer, E. (2009). "The role of extreme sports in lifestyle enhancement and wellness". *In Proceedings of the 26th Achper International Conference: Creating Active Futures* (pp. 285-299). Australia: School of Human Movement Studies, Queensland University of Technology, Brisbane, QLD 4059. • Campbell, B. (2013). *Sports Nutrition: Enhancing Athletic Performance*. CRC Press. • Katz, L., Parker, J., Tyreman, H., Kopp, G., Levy, R., & Chang, E. (2006). "Virtual Reality in Sport and Wellness: Promise and Reality". *International Journal of Computer Science in Sport*, 4(1), 4-16. • Reaburn, P. R. (2014). *Nutrition and Performance in Masters Athletes*. CRC Press. • Sharma, O.P. (2010). *Handbook of Health Education & Sports*. Khel Sahitya Kendra.

Semester-II

Year	I	APPLIED STATISTICS IN PHYSICAL EDUCATION	Credits	3
Semester	II		Course Code	SOE PES 030208 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the importance of statistics in the field of physical education and illustrate the graphical representation of data. • Compute Mean, Median and Mode for grouped and ungrouped data, compute parametric statistical techniques to solve various problems. • Computation of correlation matrix and regression. • Calculation of the One Way ANOVA with equal & unequal sample sizes and define type-I and Type-II errors.		
Course Content				
Unit -1		**Importance of Statistics and types of data**		
		• Meaning of Statistics and Importance of Statistics in Physical Education. (Online) • Type of statistical process – descriptive, inferential, comparative, relationship and predictive. (Online) • Parametric and Non parametric statistics, Four Levels of Data – Nominal, Ordinal, Interval & Ratio. (Online) • Meaning of raw data, single score, grouped data and Discrete & continuous Variables. Graphical representation of Data: Line Diagram, Pie Diagram and Bar Diagram, Frequency Polygon, Frequency Curve, Histogram and Ogives.		
Unit -2		**Data distribution and Construction of norms**		
		• Construction of frequency table – Range of score, Number of intervals, intervals size, tabulation of frequency table. (Online) • Application of Measures of Central tendency- Mean, Median and Mode and Application of Measures of Variability- Range, Quartile deviation, Mean deviation, Standard deviation and absolute & relative variability. • Meaning and Properties of Normal Curve and relationship of normal curve to binomial distribution and divergence from normality – Skewness and Kurtosis. • Developing norms in the form of grading, Percentile Scale, T- Scale, Scales based on difficulty ratings		

Unit -3	**Introduction of Correlation and Regression**
	• Concept of correlation & regression: Scatter diagram, linear correlation, rank correlation. (Online) • Partial correlation coefficients of first and second order. (Online) • Multiple correlation coefficients involving three variables. • Sampling Distribution of Means, Standard Error of Mean, Interval estimates and Point estimates; Coefficients interval for mean.
Unit -4	**Application of different statistical tools**
	• Testing of Hypothesis : Region of Acceptance & Region of Rejection null & alternative Hypotheses: Level of Significance, type I & Type II errors, one tailed & two tailed Tests, degrees of freedom, procedure in testing of hypothesis. (Online) • Large Sample test (z-test) for means for one sample and two samples; Small sample test (t-test) for means for one sample and two samples – dependent and independent samples**,** F-test and interpretation of results. • Chi- Square Test for goodness of fit and testing independence of attributes with interpretation of results. • One way Analysis of Variance (ANOVA), One Way Analysis of Co-variance (ANCOVA) Post- hoc Tests – LSD & Scheffe with interpretation of results using SPSS.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming

Practicum	• To prepare the class intervals & write the frequencies by using the tally counts. • Computation of Correlation matrix. • Calculation of partial correlation and multiple correlation. • Calculation of t- ratio for related and unrelated groups. • Calculation of Z- ratio for testing the hypothesis. • Preparing the Percentile Scale. • Calculation of Chi-Square. • Calculation of the One Way ANOVA with equal & unequal sample sizes. • Calculation of the One Way ANCOVA.
Suggested Readings	• Bhunia, A. (2013). "Statistical methods for practice and research (A guide to data analysis using SPSS)". *South Asian Journal of Management*, 20(1), 154. • Cooke, D., & Clarke, G. M. (1989). *A Basic Course in Statistics*. Arnold. • De Muth, J. E. (2014). *Basic Statistics and Pharmaceutical Statistical Applications.* CRC Press. • Dhinu, M.R. (2017). *Applied Statistics in Physical Education & Sports*. Friends Publications. • Gaur Ajai S & Sanjaya S (2009). *Statistical Methods for Practice and Research: A Guide to Data Analysis Using SPSS.* SAGE Publications Pv.t Ltd. • Gupta, B. C., & Walker, H. F. (2005). *Applied Statistics for the Six Sigma Green Belt.* ASQ Press. • Kaur, S. (2017). *Research & Statistics in Physical Education*. Friends Publications. • Rajalakshmi, D. (2018). *Advanced Statistics for Physical Education*. Friends Publications. • Verma, J.P. (2011). *Statistical Methods for Sports and Physical Education*. Tata McGraw Hill Education.

Year	I	SPORTS MEDICINE, ATHLETIC CARE AND REHABILITATION	Credits	3
Semester	II		Course Code	SOE PES 030209 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the concept, meaning and significance of sports medicine and rehabilitation. • Develop the concept and usage of various therapeutic modalities. • List out different massage techniques and their effects on Sports performance. • Explain the management of sports injuries and demonstrate various therapeutic exercises.		
Course Content				
Unit -1		**Introduction to Sports Medicine and Rehabilitation** • Definition, Need & importance and Concept of Sports Medicine. (Online) • Role of Sports Physician and Athletic Trainer in Sports Medicine. (Online) • Categories of Athletic Injuries: Traumatic and Overuse and Signs and Symptoms of Inflammation and Stages of Healing. • Introduction to Athletic Rehabilitation, Role of Therapeutic Exercises in Rehabilitation of musculo-skeletal athletic injuries. (Online)		
Unit -2		**Concept of Therapeutic Modalities** • Meaning and Concept of Therapeutic Modalities. (Online) • Therapeutic effects, uses, and contraindications of following therapeutic modalities- Cryotherapy (Ice Therapy) and Short wave Diathermy. • Ultra sound Therapy, Transcutaneous Nerve Stimulation (TNS), and LASER Therapy. • Contrast Bath and Paraffin. (Online)		

Unit -3	**Massage and its Importance**
	• Meaning, Definition and the role of massage in treatment and rehabilitation of sports injuries. (Online) • Massage and Prevention of sports injuries. • Massage and Sports Performance, Pre-Competition, during and Post-Competition phase. • Psychological Aspect of Sports Massage. (Online)
Unit -4	**Tools for Rehabilitation**
	• Importance of rehabilitation equipment (Traction units, sliding sheet, shoulder wheel, quadriceps table, wrist rotators, leg curl, wall pulley, finger board). • Bandage –Types of Bandages –strapping/tapping - Application of strapping/tapping and bandage for major joints and body parts. • Low back pain, Common causes, General Care, Stretching and strengthening exercises for low back pain. • Classification of Therapeutic exercise- Active and passive exercise and Balance training, gait training, gym bell exercise.
Teaching learning process/Transactional Strategies	Lecture cum discussion, Power Point presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Practicum	• Visit to Physiotherapy Centre and Orientation of most commonly used Therapeutic Modalities (Ultrasound, Short wave Diathermy, TNS, and LASER Therapy). • Orientation of most commonly used Massage Techniques in the treatment of sports injuries.

Suggested Readings	• American College of Sports Medicine (2019). ACSM's Body Composition Assessment with Web Resource. Knowledge Warehouse. • Bindal, V.D. (2016). *Therapeutic and Sports Massage*. Agra: Associated Publishing House. • Johnson, J. C. (2011). *Postural Assessment.* Human Kinetics. • Kumar, P. (2019). "Management of Obesity Induced Forward Head Posture Deformities Through Sports". *International Journal of Physical Education, Sports and Health* 6(3): 106-107. • Madden, C. & Netter, F. (2010). *Netter's Sports Medicine*. PA: Philadelphia. Saunders/Elsevier. • Norris, C. M. (2018). *Sports and Soft Tissue Injuries: A Guide for Students and Therapists*. Routledge. • Singh, A. (2014). *Complete Guide to Sports Injuries*. Friends Publications. • Singh, A. (2016). *Athletic Care and Rehabilitation*. Friends Publications. • Uppal, A. K. (2015). *Posture, Athletic Care and First Aid.* Friends Publications.

Year	I	INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) IN PHYSICAL EDUCATION	Credits	3
Semester	II		Course Code	SOE PES 030210 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Acquire knowledge of functionalities of computers in terms of its hardware and software. • Appraise the importance of information & teaching learning process. • Explain the usage of MS-Word, MS-Excel and MS- PowerPoint. • Formulate E-Learning and web-based learning programs.		
Course Content				
Unit -1		**Communication through ICT** • Concept, Elements, Process & Types of Communication and its Barriers & Facilitators. (Online) • Communicative skills of English-Listening, Speaking, Reading & Writing. (Online) • Scope, Concept, Need & Importance of ICT in Physical Education. (Online) • Administration Challenges in Integrating ICT in Physical Education. (Online)		
Unit -2		**Computer Networks and its applications** • Introduction to various Generation of Computers. • Applications of Computers Software & hardware, Input, Output & Storage Devices of Computer: • Computer Memory: Concept & Types Viruses & its Management. • Types and Functions of Computer Networks, Applications of Web Browsers, Search Engines, Legal & Ethical Issues.		

Unit -3	**Introduction of MS Office and Windows Accessories**
	• MS Word, MS Excel Power Point: Main Features & it's Uses in Physical Education. • MS Access: Creating a Database, Creating a Table, Queries, Forms & Reports on Tables and its Uses in Physical Education. • MS Publisher: Newsletter & Brochure. • Windows Accessories: Notepad, Word pad, Paint and Calculator. (Online)
Unit -4	**Web Based Learning & E-Facilities**
	• E-Learning & Web Based Learning (LMS , MOOC ,SWYAM and E-Library) • Video-communication service-Online Class Room (Google Meet, Zoom, WebEx, Microsoft Teams) • Google Applications (Google Doc, Google Sheet, Google Slides, Google Form, Jam Board, Google Drive and Google Earth). (Online) • Using grammar, Plagiarism, spell check utilities and printing a document. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings	• Ambekar, A. (2019). Advanced Computing & ICT in Physical Education. Friends Publication. • Gupta, R. (2019). Education Technology in Phy Edu, Friends Publication. Friends Publication. • Gupta, R. (2019). Information & Communication Technology (ICT) in Physical Education. Friends Publication. • Singh, D. (2019). Educational Technologies and Methods of Teaching in Physical Education. Friends Publication. • Singh, T. N. (2019). Computer Application in Physical Education. Friends Publication.

<table>
<tr><td>Year</td><td>I</td><td rowspan="2">TEACHING OF ATHLETICS-FIELD EVENTS</td><td>Credits</td><td>3</td></tr>
<tr><td>Semester</td><td>II</td><td>Course Code</td><td>SOE PES 030211 C0143</td></tr>
<tr><td colspan="2">Learning Outcomes</td><td colspan="3">At the end of the course, the students will be able to:
• Describe the fundamentals of field and throwing events in Athletics.
• Prepare the sketch of various field events.
• Demonstrate the holding and releasing stances in various throwing events, and takeoff and landing position in various jumping events of Athletics.</td></tr>
<tr><td colspan="2" rowspan="2">Course Content</td><td colspan="3">General out-line of the contents of Teaching of Athletic (Field Events)</td></tr>
<tr><td colspan="3">Introduction of the game/sport and historical development with special reference to India, Orientation of the students to the play area and equipment used in the game/sport, Important tournaments held at National and International levels, Distinguished sports awards and personalities related to the Game/sport. Warming-up- General free hand exercises, specific work out using equipment. Fundamental skills, Lead up activities, General rules and their interpretations, Duties of officials, officiating in class competencies and Intramurals, Marking of the play area. Fundamentals of the events, rules and regulations, measurements of fields.

Each student teacher is expected to take at least five lessons on athletic field events during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively.</td></tr>
</table>

<table>
<tr><td>Year</td><td>I</td><td rowspan="2">ADVANCE TEACHING, COACHING AND OFFICIATING OF THE GAMES-I</td><td>Credits</td><td>3</td></tr>
<tr><td>Semester</td><td>II</td><td>Course Code</td><td>SOE PES 030212 C0143</td></tr>
<tr><td colspan="2">Learning Outcomes</td><td colspan="3">At the end of the course, the students will be able to:
Illustrate and interpret the rules and regulations of the two games.
Mentor, officiate and perform other duties for the two games.
Prepare the coaching lesson plan and design the coaching schedule.</td></tr>
<tr><td colspan="2" rowspan="2">Course Content</td><td colspan="3">General out-line of the contents of Advance Teaching, Coaching and Officiating of the Games and Sports</td></tr>
<tr><td colspan="3">The students of M.P.Ed II Semester need to develop sports theory and skill proficiency in taking officiating lesson on selected above discipline. In view of this, the students shall be provided with advance mechanism of officiating in selected discipline. The duration of the lesson to be conducted by these students shall be in the range of 30 to 40 minutes depending on the class time they are going to handle at school and college level.

Each student teacher is expected to take at least five lessons of Advance Teaching, Officiating and Coaching during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively.

Note: The Students shall be encouraged to opt for the same games as opted in the First Semester.</td></tr>
</table>

<table>
<tr><td>Year</td><td>I</td><td rowspan="2">SPORTS SPECIALIZATION-II</td><td>Credits</td><td>3</td></tr>
<tr><td>Semester</td><td>II</td><td>Course Code</td><td>SOE PES 030213 C0143</td></tr>
<tr><td colspan="2">Learning Outcomes</td><td colspan="3">At the end of the course, the students will be able to:
• Demonstrate advance skills and techniques of the selected game/event.
• Prepare the coaching lesson plan and design the coaching schedule.
• Exhibit performance of the particular game/event.</td></tr>
<tr><td colspan="2" rowspan="2">Course Content</td><td colspan="3">General out-line of the contents of sports specialization</td></tr>
<tr><td colspan="3">Introduction of the game/sport and historical development with special reference to India, Orientation of the students to the play area and equipment used in the game/sport, Important tournaments held at National and International levels, Distinguished sports awards and personalities related to the Game/sport. Warming-up- General free hand exercises, specific work out using equipment. Fundamental skills, Lead up activities, General rules and their interpretations, Duties of officials, officiating in class competencies and Intramurals, Marking of the play area.

Each student teacher is expected to take at least five lessons during the course of the semester. Each students is expected to opt for a particular game/event. The student teacher should develop proficiency towards practical part of the particular game/events in this semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively.

Course contents in the game of specialization should be chalked out internally considering advance level of students and suitable to their age and gender. The students shall be encouraged to opt for a particular game/event on the availability of specialized faculty.</td></tr>
</table>

Year	I	CLASSROOM TEACHING AND PRACTICAL OF THE CORE THEORY SUBJECTS-II	Credits	1
Semester	II		Course Code	SOE PES 030214 C0021
Learning Outcomes		At the end of the course, the students will be able to: • Demonstrate the class room teaching ability to teach different topics of the core subjects using various teaching methods.		
Course Content		**General out-line of the contents of classroom teaching and practical of the core subjects** Each student teacher is expected to take at least five lessons during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively. **The Students shall demonstrate teaching ability using various teaching methods. These Lessons should include practical teaching of the core subjects of the semester.**		
Teaching learning process/Transactional Strategies		Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming		

Elective Courses (DCEC)

Year	I	VALUE AND ENVIRONMENTAL EDUCATION IN PHYSICAL EDUCATION	Credits	3
Semester	II		Course Code	SOE PES 030203 DCEC3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the meaning, objectives and importance of value education. • Define personal and communal value system and explain the concept of commitment to values. • Restate the background of environmental education and sustainable development in schools. • Classify and appraise the rural and urban health problems.		
Course Content				
Unit -1		**Introduction of Value Education** • Meaning and Definition, Need, Importance and Objectives of Value Education. (Online) • Need and Theories of Moral Values. (Online) • Human Value foundation. • Classification of Values: Basic Values of Religions.		
Unit -2		**Value System** • Meaning and Definition of Value System. (Online) • Personal Values - Consistency, Internally consistent, internally in consistent, Judging Value System. • Communal Values - Consistency, Internally consistent, internally in consistent, Judging Value System. • Commitment and commitment to values. (Online)		

Unit -3	**Environmental Education**
	• Historical background, Meaning, Definition, Scope and Importance of Environmental Education. (Online) • Celebration of various days in relation with environment. • Plastic recycling & prohibition of plastic bag/cover. • Role of school in environmental conservation and sustainable development, Pollution free eco- system. (Online)
Unit -4	**Concept of Rural and Urban areas**
	• Rural and Urban Health Problems and improvement of Rural Sanitation. (Online) • Education Activity and Services of Urban and Rural Area. • Fairs & Festivals of Rural and Urban Area. • Meaning, Causes and Prevention of various pollutions.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Suggested Readings	• Athman, J., & Monroe, M. (2004). The Effects of Environment-Based Education on Students' Achievement Motivation. *Journal of Interpretation Research*. 9(1), 9-25. • Jadhav, H., & Bhosale, V. M. (1995). *Environmental Protection and Laws*. Himalaya Pub. House. • Jitendra Kumar Thakur (2019). *Value and Environmental Education.* Sports Publication. • Mohit Chakrabarti (2008). *Value Education: Changing Perspective.*Kanishka Publication. • Singh, B. (2018). *Value and Environmental Education.* Friends Publications. • Vandana MeshramIngle (2017). *Value and Environmental Education.* Educational Publishers and Distributors.

Year	I	SPORTS ENGINEERING	Credits	3
Semester	II		Course Code	SOE PES 030204 DCEC3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain sports engineering, equipment and facility designing of sports related instruments in Physical Education. • Define the mechanical principles in general body movements. • Define Kinematics and Kinetics of particles and develop understanding of theoretical analysis of various components of cost and taxation. • Formulate the design and development, requirements, building process, and maintenance policy of the sports infrastructure.		
Course Content				
Unit -1		**Introduction to Sports Engineering and Technology** • Meaning of sports engineering. (Online) • Human motion detection and recording. (Online) • Human performance, assessment, equipment and facility designing. (Online) • Sports related instrumentation and measurement. (Online)		
Unit -2		**Mechanics of Engineering** • Concept of internal force, axial force, shear force, bending movement, torsion. • Energy method to find displacement of structure and strain energy. • Biomechanics of daily and common activities – Gait, Posture, Body levers and Ergonomics. • Mechanical principles in movements such as lifting, walking, running, throwing, jumping, pulling, pushing etc.		

Unit -3	**Sports Dynamics and Facility life cycle costing**
	• Introduction to Statics, Dynamics and Kinematics motion. • Introduction to particles – rectilinear and plane curvilinear motion coordinate system. • Kinetics of particles – Newton's laws of Motion, Work, Energy, Impulse and momentum. • Basics of theoretical analysis of cost, total life cost concepts, maintenance costs, energy cost, capital cost and taxation.
Unit -4	**Building and Maintenance:**
	• Sports Infrastructure- Gymnasium, Pavilion, Swimming Pool, Indoor Stadium, Out-door Stadium, Play Park, Academic Block, Administrative Block, Research Block, Library, Sports Hostels, etc. (Online) • Requirements: Air ventilation, Day light, Lighting arrangement, Galleries, Store rooms, Office, Toilet Blocks (M/F), Drinking Water, Sewage and Waste Water disposal system, Changing Rooms (M/F), Sound System (echo-free), Emergency provisions of lighting, fire and exits, Eco-friendly outer surrounding. (Online) • Building process: - design phase (including brief documentation), construction phase functional (occupational) life, Re-evaluation, refurnish, demolish. (Online) • Maintenance staff, financial consideration, Maintenance policy, preventive maintenance, corrective maintenance, record and register for maintenance.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming

Suggested Readings	• Charles J.A. Crane, F.A.A. and Furness, J.A.G. (1987). *Selection of Engineering Materials*. Butterworth Heiremann. • Eric C. (2010). *Sports Facility Operations Management* . Routledge. • Finn, R.A. and Trojan P.K. (1999). *Engineering Materials and Their Applications*. Jaico Publisher. • Franz K. F (2007). *The Impact of Technology on Sports II*. Springer Science & Business Media. • Franz K. F(2013). *Routledge Handbook of Sports Technology and Engineering.* Routledge. • Jenkins M.,(2003). *Materials in Sports Equipment* (Vol. I). Elsevier. • Steve Hake, (1996). *The Engineering of Sport*. CRC Press. • Verma, A.(2015). *Sports Engineering*. Friends Publications. • White, C. (2010). *Projectile Dynamics in Sport: Principles and Applications*. Routledge.

Semester-III

Year	II	SCIENCE OF SPORTS TRAINING	Credits	3
Semester	III		Course Code	SOE PES 030315 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Define the concept of sports training and explain the causes, symptoms and remedial measures of overload. • Recall the characteristics, types, determining factors and development of various physical fitness components. • Distinguish technique and skill and classify tactical and technical training. • Define the concept of periodization, types of competition and talent identification at early stage.			
Course Content				
Unit -1	**Introduction of Sports Training** • Sports training- its characteristics and principles. (Online) • Training load, its features, principles and adaptation process. (Online) • Means and methods of executing training load. • Overload its Causes, symptoms and remedial measures. (Online)			
Unit -2	**Training Components** • Strength- its characteristics, types of strength, factors determining strength and strength development. • Endurance- its characteristics, types of endurance, factors determining endurance and endurance development. • Speed- its characteristics, types of Speed, factors determining Speed and speed development. • Flexibility and Coordinative abilities- its characteristics, types, factors determining and development.			

Unit -3	**Technique , Skill and Planning**
	• Technique and skill- its characteristics and importance. • Different stages of technique development and technique training. (Online) • Tactics and strategy. • Planning principles and importance. (Online)
Unit -4	**Periodization and Competition**
	• Periodization- its importance, types and different phases (Preparatory, Competition and Transitional). • Competition and types of competition. (Online) • Talent identification- process and procedure. • Preparation of training schedule. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Suggested Readings	• Bompa, T. O., & Buzzichelli, C. (2018). *Periodization-: Theory and Methodology of Training*. Human kinetics. • Bompa, T., Bompa, T. O., & Carrera, M. (2005). *Periodization Training for Sports*(Ed. 2). Human Kinetics. • Jesudoss,S. J. (2015). *Principles of Sports Training.* Friends Publications. • Kurz, T. (2001). *Science of Sports Training: How to Plan and Control Training for Peak Performance*. Stadion. • Loehr, J. E. (1995). *PDF The New Toughness Training for Sports: Mental Emotional Physical Conditioning From One of the Worlds Premier Sports Psychologists Online Book.* • OBE, F. W. D. (2014). *Sports Training Principles: An Introduction to Sports Science*. Bloomsbury Publishing. • Singh, H. (1984). *Sports Training: General Theory & Methods*. Netaji Subhas. Nat. Inst. of Sports. • Viru, A. (2017). *Adaptation in Sports Training*. Routledge.

Year	II	SPORTS MANAGEMENT AND CURRICULUM DESIGN IN PHYSICAL EDUCATION	Credits	3
Semester	III		Course Code	SOE PES 030316 C3003
Learning Outcomes		At the end of the course, the students will be able to: • Explain the scope, principles and functions of sports management and identity the roles of manager. • Describe the role of financial and class management. • Describe different types of tournaments. • Formulate curriculum development and define the role of a teacher in curriculum development.		
Course Content				
Unit -1		**Introduction of Sports Management** • Sports Management: Meaning, Definition, Scope and Principles. (Online) • Functions of management. Planning, Organizing, Staffing, Directing, Coordinating, Reporting, and Budgeting (POSDCORB). (Online) • Roles of manager: Interpersonal roles, Informational roles, Decisional roles. (Online) • Qualities of a manager and Decision Making Process: Individual Decision Making, Rational Decision Making, Decision making Styles, Creativity in Decision Making, Participative Decision Making, Group decision making.		
Unit -2		**Planning and Management** • Programme Planning, Steps in programme planning, Principles of programme planning, Evaluation of physical education programme. (Online) • Public Relations: Meaning, Definitions, Principles, Planning and organizing public relations programme. (Online) • Financial management: Need for financial management, Principles of financial Management, preparation of budget, Sources of funds, Expenditure. • Class management: Meaning, Principle, Steps in class management: Strength of class, Place and time, Uniform, Class formation, Safety measures and Discipline.		

Unit -3	**Tournament and Competitions**
	• Facilities and Equipment management: Types of facility/infrastructure-indoor, outdoor, Purchase, Care and Maintenance. • Tournament organization: Types of tournament-Knock out or Elimination, League or Round Robin, Combination, Consolation, Challenge Tournaments. • Intramural Competitions: Meaning and Importance of Intramural, Objectives of Intramural, Conduct of Intramural. (Online) • Process of organizing sports events, Notifications, Invitations, Selection of officials, Monitoring, Writing reports, maintaining records.
Unit -4	**Framework of Curriculum Development**
	• Meaning and importance of Curriculum Development. • Principles of Curriculum Construction: Students centered, Activity centered, Community centered, Forward looking principle, Principles of integration. • The Role of the teacher in curriculum development. (Online) • Approaches to Curriculum; Subject centered, Learner centered and Community centered, Curriculum Framework and Evaluation of Curriculum.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Suggested Readings	• Dhull, D. S. & Goel, M. (2015). *Handbook of Sports Management and Administration*. Friends Publications. • Lisa P. M. (2018). *Principles and Practice of Sport Management* (6th Edition). Jones & Bartlett Learning. • NCERT (2018). *National Curriculum Framework for School Education.* NCERT. • Pargaonkar, G. V. (2016). *Sports Management.* Friends Publications. • Sahil K. (2017). *Organization and Administration in Physical Education.* Sports Publication. • Singh, D. (2015). *Sports Management and Curriculum Designs in Phy Edu.* Friends Publications. • Vandana Meshram (2017). *Sports Management and Curriculum Designs in Physical Education.* Khel Sahitya Kendra.

Year	II	SPORTS BIOMECHANICS AND KINESIOLOGY	Credits	3
Semester	III		Course Code	SOE PES 030317 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning, scope and importance of applied kinesiology and sports biomechanics. • Categorize and explain the action of muscles and forces. • Classify lever according to its types and define guiding principles of stability. • Explain the methods for the analysis of human movements.			
Course Content				
Unit -1	**Introduction of Kinesiology and Sports Biomechanics** • Meaning, nature, role and scope of applied kinesiology and Sports Biomechanics. (Online) • Meaning of Axis, Planes, Plane of the body and axis of motion. (Online) • Static, Dynamics, Kinematics, Kinetics, Centre of gravity & Line of gravity. (Online) • Meaning and definition of Motion and its types (Linear motion, angular motion, circular motion, uniform motion). (Online)			
Unit -2	**Muscle Action and force** • Origin, Insertion and action of upper and lower extremities muscles. (Online) • Meaning and definition of force and its type. (Online) • Muscle size, shape and its force production. • Force applied at an angle Pressure -Friction -Buoyancy, Spin.			
Unit -3	**Projectile and Lever** • Freely falling bodies and projectiles -equation of projectiles stability. • Factors influencing equilibrium - Guiding principles for stability -static and dynamic stability. (Online) • Meaning of work, power, energy, kinetic energy and potential energy. • Leverage -classes of lever - practical application and water resistance, air resistance & aerodynamics.			

Unit -4	**Methods of Analysis of Human Movements** • Analysis of static positions of the body -Sitting, Standing. • Analysis of static positions of the body –Lying. • Analysis of Locomotion- Walking, Running. • Analysis of Locomotion - Jumping, Throwing.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Determination of center of Gravity, Centre of gravity, line of gravity. • Anatomical standing position and fundamental standing position. • Handling of various equipment and software related to Sports Biomechanics. • Mechanical analysis of techniques skills of major sports/games. • Action of muscles of upper and lower extremities by palpations method. • Stick diagram (basic techniques; anatomical posture, walking, push up, sit ups etc). • Goniometry – measurement of joint ROM / Elgon.

Suggested Readings	• Ackland, T. R., Elliott, B., & Bloomfield, J. (2009). *Applied Anatomy and Biomechanics in Sport*. Human Kinetics. • Bartlett, R. (2014). *Introduction to Sports Biomechanics: Analysing Human Movement Patterns*. Routledge. • Chapman, A. E. (2008). *Biomechanical Analysis of Fundamental Human Movements*. Human Kinetics. Knowledge Warehouse. • Kumar, P. (2019). "Biomechanical Analysis of Forward Head Posture among Pondicherry University Research Scholars Based On the Laptop Working Hours: An Analytical Study". *International Journal Of Emerging Technologies And Innovative Research*, 6 (6), 463-466. • Kumar, P., & Singh, R. R. M. (2019). "Biomechanical analysis of anisomelia among the young children's in Puducherry". *Discrepancy (LLD)*, 330, 19. • Singh, R. R. M. (2019). "Biomechanical Analysis of Footprint Measurement among School Boys: A Positive Approach to Posture". *Journal of the Gujarat Research Society*, 21(1), 167-169. • Uppal, A. K. (2018). *Kinesiology and Biomechanics*. Friends Publications.

Year	II	COACHING AND OFFICIATING OF ATHLETICS-TRACK EVENTS	Credits	3
Semester	III		Course Code	SOE PES 030318 C0143
Learning Outcomes		At the end of the course, the students will be able to: • Demonstrate advance skills and techniques of track events. • Mentor, officiate and perform various duties of track events in Athletics. • Prepare the advance coaching lesson plans for track events.		
Course Content		**General out-line of the contents of Coaching and Officiating of Athletic**		
		The students of M.P.Ed III Semester need to develop skill proficiency in taking officiating lesson on selected above discipline. In view of this, the students shall be provided with advance mechanism of officiating in selected discipline. The duration of the lesson to be conducted by these students shall be in the range of 30 to 40 minutes depending on the class time they are going to handle at school and college level. Each student teacher is expected to take at least five lessons during the course of the fourth semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these officiating lessons, the duration should slowly increase and all the parts of the lesson covered progressively.		
Teaching learning process/Transactional Strategies		Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming		

Year	II	TEACHING OF GAMES AND INTRAMURAL-II	Credits	3
Semester	III		Course Code	SOE PES 030319 C0143
Learning Outcomes		At the end of the course, the students will be able to: • Explain the fundamentals of any two games opted by the student. • Sketch the ground markings of specific games. • Demonstrate and describe the rules and regulations of specific games.		
Course Content		**General out-line of the contents of teaching of theory of Games and Sports**		
		Introduction of the game/sport and historical development with special reference to India, Orientation of the students to the play area and equipment used in the game/sport, Important tournaments held at National and International levels, Distinguished sports awards and personalities related to the Game/sport. Warming-up- General free hand exercises, specific work out using equipment. Fundamental skills, Lead up activities, General rules and their interpretations, Duties of officials, officiating in class competitions and Intramurals, Marking of the play area. Each student teacher is expected to take at least five lessons of any two games opted from **(Handball, Wrestling, Gym Training, Badminton, Hockey, and Cricket)** during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively. **Note: students have to select any two games from the above mentioned games**		

<table>
<tr><td>Year</td><td>II</td><td rowspan="2">SPORTS SPECIALIZATION-III</td><td>Credits</td><td>3</td></tr>
<tr><td>Semester</td><td>III</td><td>Course Code</td><td>SOE PES 030320 C0143</td></tr>
<tr><td colspan="2">Learning Outcomes</td><td colspan="3">At the end of the course, the students will be able to:
Demonstrate advance skills and techniques of the selected game/event.
Prepare the coaching lesson plan and design the coaching schedule.
Exhibit performance of the particular game/event.</td></tr>
<tr><td colspan="2" rowspan="2">Course Content</td><td colspan="3">General out-line of the contents of sports specialization</td></tr>
<tr><td colspan="3">Introduction of the game/sport and historical development with special reference to India, Orientation of the students to the play area and equipment used in the game/sport, Important tournaments held at National and International levels, Distinguished sports awards and personalities related to the Game/sport. Warming-up- General free hand exercises, specific work out using equipment. Fundamental skills, Lead up activities, General rules and their interpretations, Duties of officials, officiating in class competencies, Marking of the play area.

Each student teacher is expected to take at least five lessons during the course of the semester. Each students is expected to opt for a particular game/event. The student teacher should develop proficiency towards officiating of the particular game/events in this semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively.

Course contents in the game of specialization should be chalked out internally considering advance level of students and suitable to their age and gender. The students shall be encouraged to opt for a particular game/event on the availability of specialized faculty.</td></tr>
</table>

Year	II	CLASSROOM TEACHING AND PRACTICAL OF THE CORE THEORY SUBJECTS-III	Credit	1
Semester	III		Course Code	SOE PES 030321 C0021
Learning Outcomes		At the end of the course, the students will be able to: • Demonstrate the class room teaching ability using various teaching methods.		
Course Content		**General out-line of the contents of classroom teaching and practical of the core subjects** Each student teacher is expected to take at least five lessons during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively. **The Students shall demonstrate teaching ability using various teaching methods. These Lessons should include practical teaching of the core subjects of the semester.**		
Teaching learning process/Transactional Strategies		Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming		

Elective Courses (DCEC)

Year	II	RESEARCH PROPOSAL AND PREPARATION OF SYNOPSIS	Credits	3
Semester	III		Course Code	SOE PES 030305 DCEC3003
Learning Outcomes		At the end of the course, the students will be able to: • Critically think, reflect and analyze and identify an appropriate methodology for a research problem. • Understand the importance of limitation and delimitation for the research. • Formulation and classification of research hypothesis. • Utilize various library resources for review and research proposal and prepare a research proposal.		
Course Content		**Outline of Syllabus** • Identifying an appropriate methodology for a research problem. (Online) • Effective use of library resources for research. • Developing a conceptual model relevant to research. • Construction of tools for different types of research. (Online) • Formulation and classification of research hypothesis. (Online) • Developing a research proposal. • Different writing format in preparing the research proposal. (Online) • Identifying and reducing/eliminating barriers which may interfere with the development of a high quality thesis/dissertation. • Developing and following an appropriate timeline for completion of the thesis/dissertation. • Format for writing abstract. • Oral and poster presentation. • Academic dishonesty. (Online)		

Suggested Readings	• Kamlesh, D. M. (2019). Methodology of Research in Physical Education and Sports. Sports Publication. • Klopper, H. (2008). The Qualitative Research Proposal. Curationis, 31(4), 62-72. • Kothari, C. (2019). Research Methodology: Methods and Techniques. New Age International Publishers. • Mishra, P. D. (2018). Research and Statistics in Physical Education. Sports Publication. • Vivar, C. G., McQueen, A., Whyte, D. A., &Armayor, N. C. (2007). Getting Started With Qualitative Research: Developing a Research Proposal. Nurse researcher, 14(3).

Year	II	SPORTS JOURNALISM AND MASS MEDIA	Credits	3
Semester	III		Course Code	SOE PES 030306 DCEC3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning, definition, mode and news agencies of sports journalism. • Critically analyse the importance of media in sports. • Construct reviews and articles for Sports Journals, and articulate commenting and interviewing of Sports personalities. • Explain the role of advertisement in Sports Journalism.			
Course Content				
Unit -1	**Introduction of Sports Journalism** • Sports Journalism: Meaning, Definition and Historical Background. (Online) • National and International Sports News Agencies. (Online) • Mode of Sport Journalism: Print, Electronic and Informal Media. • Canons and Ethics of Journalism. (Online)			
Unit -2	**Event Organization and Coverage** • News: Definition, basic news elements, organization of sports news desk, Pitfalls in use of language, Proof Reading. (Online) • Qualities and responsibilities of sports news reporters. (Online) • Organization of Pre & Post Sports Event Press Meet. • Coverage: Covering Local / National/ International sports competitions and writing of press release.			

Unit -3	**Art of Review Writing, Commentating and Interviewing**
	• Review Writing: Brief review of Olympic Games, Asian Games, Common Wealth Games, World Cup, National Games and Indian Traditional Games. (Online) • Writing Sports Features: Types of sports features, sports personalities and their thumb nail sketches, Writing Sports Editorials, Blogs & Column. • Art of Commentating: Commentating sports for radio and television channels. • Art of interviewing: Interview with and elite Players and Coaches.
Unit -4	**Role and Career in Sports Journalism**
	• Amateurism v/s professionalism: Invasion of private life, emphasis on winning, sports for charity. • Role of Advertisement in Sports Journalism. (Online) • Career in Sports Photography: Equipment's, Editing and Publishing. • Structure of Sports Bulletin and its types.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Suggested Readings	• Dhananjay Joshi (2010). *Value Education in Global Perspective*. Lotus Press. • Kathryn T. Stofer, James R. Schaffer (2019). *Sports Journalism: An Introduction to Reporting And Writing*. Rowman & Littlefield Publishers. • Koak, S & Sharma, R. (2015). *Media and Career in Phy Edu*. Friends Publications. • Lal, R. (2013). *Sports Journalism*. Friends Publications. • Malik, (2010). *Sports Journalism and Mass Media*. Friends Publications. • Phil Andrews (2013). *Sports Journalism* (Ed. 2). SAGE Publications Ltd.

Generic Elective Course (GEC)

Year	II	PHYSICAL FITNESS AND CONDITIONING	Credits	4
Semester	III		Course Code	SOE PES 030302 GEC4004

Learning Outcomes	At the end of the course, the students will be able to: • Define the concept of warming up, cool down and calisthenics exercise. • Give a demonstration of weight training, Swiss ball training, medicine ball, thera-band and tubing exercises for various body parts. • Classify anthropometric measurements for assessing body composition. • Choose and suggest appropriate exercises for back pain and neck pain, and role of exercise during pregnancy.
Course Content	
Unit -1	**Concept of Physical Fitness and Conditioning** • Introduction of Physical Fitness variables and Conditioning. (Online) • Assessment of Health Related Fitness • Warming up and cool down exercise for body. (Online) • Aerobic and anaerobic exercise and its differences. (Online)
Unit -2	**Importance of Training** • Variation of sets and repetitions and Intensity for weight training. (Online) • Exercise with Swiss & medicine ball, thera-band and tubing. • Different Types of Exercise for upper body and lower body. • Various Methods, Principles and Types of training.

Unit -3	**Body types and Assessment**
	• Anthropometric measurement for somatotyping body type. • Assessing body composition, BMI. • Introduction of Posture and its type. (Online) • Posture Deformities and its treatment.
Unit -4	**Importance of Exercise in day today life**
	• Flexibility development Exercises. • Exercise during pregnancy and Exercise for Back and Neck pain Management. • Method for determining 1-RM. (Online) • Concept of designing different fitness training programme for different age group. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming

Suggested Readings	• American Alliance for Health, Physical Education, Recreation and Dance (1999). *Physical Education for Lifelong Fitness, The Physical Best Teacher's Guide.* Human Kinetics, P.O. Box 5076, Champaign, IL 61825-5076 • Emily R. Foster, Karyn Hartiger & Katherine A. Smith.(2002). *Fitness Fun*, Human Kinetics Publishers. • Fahey D. Thomas (2005). *Weight Training Basis, A Complete Guide for Men and Women.* Mcgraw- Hill Companies.Getchell, B. (1979). *Physical Fitness: A Way of Life.* • Lawrence, Debbie. (1999). *Exercise to Music.* A & C Black Publishers Ltd. 37, Sohe Square. • Miller, D. K., & Allen, T. E. (1990). *Fitness: A Lifetime Commitment*. Macmillan Publishing Company. • Robert Malt. (2001). *90-Day Fitness Plan.* D.K. publishing, Inc. 95, Madison Avenue. • The National Association for Sport and Physical Education (1900). *Concepts of Physical Education, What Every Student Needs to Know.* Association Drive Reston, VA 20191-1599 (703) 476-3410.

***Note: -**

1. In Part-B, Minimum strength required of the students selecting any of the game will be 10 Students.

2. The students opting for Research Proposal as Discipline Centric Elective Course will be encouraged to take Dissertation in Discipline Centric Elective Course (DCEC) in the fourth semester.

3. Research Proposal and Dissertation would be evaluated as per the University Ordinance No-XV.

Semester-IV

Year	II	SPORTS PSYCHOLOGY	Credits	3
Semester	IV		Course Code	SOE PES 030422 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the concept, meaning, importance and scope of sports psychology. • Recall various learning theories and describe the types, theories and techniques of motivation. • Illustrate and identify the psychological factors affecting sports performance. • Appraise and measure team cohesion, group dynamics and leadership capabilities.			
Course Content				
Unit -1	**Role of Sports Psychology** • History, Meaning, Definition, Scope and Importance of Sports Psychology. (Online) • Meaning and types of Motivation – Theories and Techniques for Development of motivation. (Online) • Introduction to various psychological variables. (Online) • Goal Setting Interventions, Principles, Program			
Unit -2	**Psychological Learning** • Meaning and Definition of Motor Learning, Activity & Skill. (Online) • Meaning of Learning -Theories of Learning and there implication in teaching Learning Process. (Online) • Stages of Motor Learning and Plateau effect. • Meaning of Psychological Skill Training (PST) its uses and Myths.			
Unit -3	**Importance of Personality** • Meaning and Definition of Personality and Personality Traits. (Online) • Theories and Role of Personality in Sports and Exercise. • Measurement of Personality. • Areas of Individual Difference and its types.			

Unit -4	**Leadership and Cohesion** • Concept of Group Dynamics of Sports Performance and Team Cohesion. (Online) • Meaning of Leadership, Component of Effective Leadership and its Measurement. • Problems and issues working with Individual and Team Sports. • Career Transition in Athletes and Retirement Issues, Developing Life Skills in Athletes.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Assessment of Reaction Time (Hard-Eye). • Assessment of Coordination (Foot-Eye). • Analysis of Personality (Eysenck Personality Questionnaire), Big Five Personality Test. • Assessment of Achievement Motivation. • Assessment of Sport competitive anxiety test. • Inventory for factors influencing sports. • Assessment of Sociometry Questionnaire.
Suggested Readings	• Horn, Thelma (2008). *Advances in Sport Psychology*. Champaign IL : Human Kinetics Publishers, Inc. • Huber, Jeffrey (2012). *Applying Educational Psychology in Coaching Athletes*. Knowledge Warehouse. • Kamlesh, M.L. (2011). *Psychology in Physical Education and Sport* (Ed. 3). Delhi : Metropolitan Book Co. Pvt. Ltd. • Pargonkar, G. V (2015). *Sports Psychology*. Friends Publications. • Taylor, Jim (2017). *Assessment in Applied Sport Psychology*. Knowledge Warehouse. • Weinberg, R.S & Gould, Daniel (2015). *Foundations of Sport and Exercise Psychology* (Ed. 6). Champaign IL: Human Kinetics Publishers, Inc.

Year	II	HEALTH EDUCATION AND SPORTS NUTRITION	Credits	3
Semester	IV		Course Code	SOE PES 030423 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning, aims and objectives of health education and classify communicable disease, their transmission and prevention. • Recall the concept of Non-communicable diseases and list out various programs for controlling diseases. • List out various school health services and define the role of International Organization in the Development of Health. • Plan and prepare a nutritional diet intake for various games and sports.			
Course Content				
Unit -1	**Introduction of Health Education** • Concept of Health and Health Education.(Online) • Dimension of health and wellness. (Online) • Latest trends in Health Education and global strategy in the field of Health. (Online) • Role of physical Education Professional on Individual and family in relation to Health and Health Education.(Online)			
Unit -2	**Epidemiology of Diseases** • Epidemiology of Communicable Diseases: Agent factor, Host factor, Environment factors, Mode of Transmission and Prevention of following diseases: • Health Hazards and its types. (Online) • Epidemiology of Non Communicable Diseases : Risk factors and Prevention of following diseases : • Personal Health & Hygiene care system.			

Unit -3	**School Health Services**
	• Meaning & Objective of School Health Service and Health Problem of School Child. (Online) • Role of health education in schools. (Online) • Health record, Healthful school environment, first- aid and emergency care, Mid-day School Programme. • Role of National and International Organization in the Development of Health.
Unit -4	**Nutrition for various games and sports**
	• Nutrition, Training Adaptations and Immune Function in Athletes. • Nutrition for popular team sports (Basketball, Hockey, Football, Volleyball, Kabaddi and Cricket). • Nutrition for Athletics and Endurance Sports (Long distance Swimming, Cycling and Marathon). • Nutrition for Strength and Combat sport (Wrestling, Weightlifting, Judo, Boxing, Taekwondo and Fencing).
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Suggested Readings	• Campbell, B. (2013). *Sports Nutrition: Enhancing Athletic Performance*. CRC Press. • Eberle, S. G. (2013). *Endurance Sports Nutrition* (Ed. 3). Human Kinetics. • Fink, H. H., & Mikesky, A. E. (2017). *Practical Applications in Sports Nutrition*. Jones & Bartlett Learning. • Kumar.P (2020). "Changing The Lifestyle of Present Health Care: A Much Required Step for A Secured Future The Transmission or Reminder of Ancestor's Way of Life once again".*AlochanaChakra Journal*. Vol. IX. Issue-V. Pg-2789-2793. doi:10.01011.ACJ.2020.V9I5.00068749.01683. • Maughan, R. J., & Shirreffs, S. M. (Eds.). (2013). *Food, Nutrition and Sports Performance Iii*. Routledge. • Reaburn, P. R. (Ed.). (2014). *Nutrition and Performance In Masters Athletes*. CRC Press. • Ryan, M. (2012). *Sports Nutrition for Endurance Athletes*. Velo Press. • Sharma, O.P., (2010). *Handbook of Health Education & Sports*. Khel Sahitya Kendra . • Zinner, C., & Sperlich, B. (Eds.). (2016). *Marathon Running: Physiology, Psychology, Nutrition and Training Aspects* (pp. 1-171). Springer.

Year	II	PHYSIOLOGY OF EXERCISE	Credits	3
Semester	IV		Course Code	SOE PES 030424 C3003
Learning Outcomes	At the end of the course, the students will be able to: • Explain the meaning of Exercise Physiology in Physical Education and Sports. • Classify the different energy systems of body. • Illustrate the effect of exercise on various systems of body. • Explain the effect of Ergogenic aids and Doping in Sports.			
Course Content				
Unit -1	**Introduction to Exercise Physiology**			
	• Meaning and Definition of Exercise & exercise physiology. (Online) • Role & Importance of Exercise Physiology in the field of Physical Education & Sports. (Online) • Impact of Exercise on work at cellular level. • Muscle- its types, characteristics and functions. Microscopic structure of muscle fiber. Sliding filament theory of muscular contraction. Types of muscle fibers and sports performance. Muscular adaptations to exercise.			
Unit -2	**Energy System and Recovery Process**			
	• The basic energy systems (carbohydrate metabolism). • Bio-chemical aspects of exercise a) Metabolism of food products. b) Direct and indirect methods of measuring energy cost of exercise. • Recovery process – Physiological aspects of fatigue and Restoration of energy stores. (Online) • Electrolyte balance & Water balance.			

Unit -3	**Effect of Exercise on Various System** • Work capacity under different environmental conditions a) Hot, Humid and Cold. b) High Altitude. • Immediate effect of exercise/work on various systems of body. (Online) • Cardio-respiratory, muscular and thermo-regulatory systems, Alveolar ventilation & second wind. • Physiological Factors influencing Sports Performance. (Online)
Unit -4	**Ergogenic Aids in Sports** • Ergogenic aids and Doping in Sports. (Online) • Effect of drugs & doping on athletic performances. (Online) • Diet before, during & after the athletic performance. • Exercise and training in females and older people, physiological aspects of development of strength, endurance, speed, agility & coordination.
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming.
Practicum	• Measurement of heart rate and Estimation of Target Heart Rate. • Body composition analysis with various methods. • Measurement of VO2 Max (Field and Laboratory Method). • Blood Pressure measurement (Sphygmomanometer). • Anthropometric equipment's. • Measurement of various lung volumes through spirometer, peak flow meter.

Suggested Readings	• Brown, R. G.(2015). *Fundamentals of Exercise Physiology.* Friends Publication. • Chandi, C. C. (2018). *Human Physiology* (Vol. 12). CBS Publishers. • Fox Stuart Ira (2016). *Human Physiology* (15th Edition). McGraw-Hill Education. • Porcari, J., Bryant, C., & Comana, F. (2015). *Exercise Physiology*. FA Davis. • Varshney & Mona Bedi (2018). *Ghai's Textbook of Practical Physiology*. Jaypee Brothers Medical Publishers. • William D. McArdle (2014). *Exercise Physiology: Nutrition, Energy, And Human Performance* (8th Edition). Lippincott Williams and Wilkins.

Year	II	COACHING AND OFFICIATING OF ATHLETICS-FIELD EVENTS	Credits	3
Semester	IV		Course Code	SOE PES 030425 C0143
Learning Outcomes		At the end of the course, the students will be able to: • Demonstrate advance skills and techniques of field events. • Mentor, officiate and perform various duties of field events in Athletics. • Prepare the advance coaching lesson plans for field events.		
Course Content		**General out-line of the contents of Coaching and Officiating of Athletics- Field Events** The students of M.P.Ed. – IV Semester need to develop sports theory and skill proficiency in taking officiating lesson on selected above discipline. In view of this, the students shall be provided with advance mechanism of officiating in selected discipline. The duration of the lesson to be conducted by these students shall be in the range of 30 to 40 minutes depending on the class time they are going to handle at school and college level. Each student teacher is expected to take at least five lessons during the course of the fourth semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these officiating lessons, the duration should slowly increase and all the parts of the lesson covered progressively.		

Year	II	ADVANCE TEACHING, COACHING AND OFFICIATING OF THE GAMES-II	Credits	3
Semester	IV		Course Code	SOE PES 030426 C0143
Learning Outcomes		At the end of the course, the students will be able to: • Illustrate and interpret the rules and regulations of the two games. • Mentor, officiate and perform other duties for the two games. • Prepare the coaching lesson plan and design the coaching schedule.		
Course Content		**General out-line of the contents of Advance Teaching, Coaching and Officiating of the Games and Sports** The students of M.P.Ed. – IV Semester need to develop sports theory and skill proficiency in taking officiating lesson on selected above discipline. In view of this, the students shall be provided with advance mechanism of officiating in selected discipline. The duration of the lesson to be conducted by these students shall be in the range of 30 to 40 minutes depending on the class time they are going to handle at school and college level. Each student teacher is expected to take at least five lessons during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively. **Note: The Students shall be encouraged to opt for the same games as opted in the third semester.**

Year	II	CLASSROOM TEACHING AND PRACTICAL OF THE CORE THEORY SUBJECTS-IV	Credit	1
Semester	IV		Course Code	SOE PES 030428 C0021
Learning Outcomes		At the end of the course, the students will be able to: • Demonstrate the class room teaching ability to teach different topics of the core subjects using various teaching methods.		
Course Content		**General out-line of the contents of classroom teaching and practical of the core subjects** Each student teacher is expected to take at least five lessons during the course of the semester. The lessons will be supervised by the faculty members and experts who would discuss the merits and demerits of the concerned lesson and guide them for the future. In these lessons, the duration should slowly increase and all the parts of the lesson covered progressively. **The Students shall demonstrate teaching ability using various teaching methods. These Lessons should include practical teaching of the core subjects of the semester.**		

Elective Courses (DCEC)

Year	II	DISSERTATION	Credits	3
Semester	IV		Course Code	SOE PES 030407 DCEC0303
Learning Outcomes	At the end of the course, the students will be able to: **Develop competency in the process of conducting research** • A candidate shall have dissertation for M.P.Ed– IV Semester and must submit his/her Synopsis in department and get it approved by the D.R.C. (Departmental Research Committee). • A candidate selecting dissertation must submit his/her dissertation not less than one week before the beginning of the IVth Semester Examination. • The candidate has to face the Viva-Voce conducted by D.R.C. (Departmental Research Committee) with external examiner.			

Year	II	PHYSICAL FITNESS AND WELLNESS	Credits	3
Semester	IV		Course Code	SOE PES 030408 DCEC3003
Learning Outcomes	At the end of the course, the students will be able to: • Define the concept of physical fitness and wellness, and identify the components, techniques and principles of physical fitness. • Recall the importance of nutrition and calories requirements, and explain the influence of food on social cultural values. • Illustrate stress assessment and management techniques, and the concept of designing a fitness training programme. • Explain the Establishment and Management of Fitness Centre and describe the Qualification and qualities for a fitness trainer.			
Course Content				
Unit -1	**Introduction of Physical Fitness and Wellness** • Meaning & Definition, Principles and Components of Physical Fitness and Wellness. (Online) • Leisure time physical activity for community development. • Current trends in fitness and conditioning. (Online) • Relationship between physical activity and lifelong wellness.			
Unit -2	**Importance of Nutrition** • Meaning and Definition of Nutrition. (Online) • Food Guide Pyramid and Daily calories intake & burning. • Influences of food on social cultural values. (Online) • Exercise and metabolism & burning.			

Unit -3	**Stress Management** • Stress assessment & its management, prominent health problem associated with inactivity. • Safety techniques (Spotting, proper body alignment, lifting techniques, spatial, awareness. and proper breathing techniques). (Online) • Concept of free weight vs. machine, variation of sets and repetitions, Exercise with Swiss & Medicine Ball, Thera-band and Tubing. • Concepts of designing fitness training programme and Measurement of Body Composition.
Unit -4	**Fitness Management** • Establishment and Management of Fitness Centre. • Principles of starting a fitness center-environment, location, policy, offer of programmes, record keeping, and public relation. • Fitness center membership and its types. (Online) • Safety aspects in a fitness center and Qualification and qualities for a fitness trainer. (Online)
Teaching learning process/Transactional Strategies	Lecture cum discussion, PowerPoint presentations, assignments, school observation and report, case study, and problem solving, brainstorming
Practicum	• Orientation and management of fitness center, various equipment's and wet zone. • Different methods of measuring Body Composition (BMI, Waist Hip Ratio, Skinfold Caliper). • Different Fitness Test (Cardio-respiratory Endurance, Strength, Strength Endurance, Flexibility, Body Composition, Anthropometric Measurements and Grip Dynamometer).

CENTRAL UNIVERSIY OF HARYANA

School of Humanities and Social Sciences

Minutes of the Online/Offline Meeting of the School Board

(Sept. 9, 2021)

An online/offline meeting of the School Board of the School of Humanities and Social Sciences was held at 11:00 AM on Sept. 9, 2021. Following members/special invitees joined the meeting online/offline:

1. Prof. C.R. Darolia	: External Member
2. Prof. Vikram Kaushik	: External Member
3. Prof. Rajbir Dalal	: Member
4. Dr. Vishwanand Yadav	: Member
5. Dr. Payal Kanwar Chandel	: Member
6. Dr. Rinu	: Member
7. Dr. Arvind Singh Tejawat	: Member
8. Dr. Narender Singh	: Member
9. Dr. Rajeev Kumar Singh	: Member
10. Dr. Pradeep Kumar	: Member
11. Dr. Surender	: Member
12. Prof. Ranvir Singh	: Special Invitee
13. Dr. Amit Kumar	: Special Invitee
14. Dr. Tanvi Bhati	: Special Invitee
15. Mr Alekha Sachidananda Nayak	: Special Invitee
16. Dr. Abhiranjan Kumar	: Member
17. Dr. Sanjiv Kumar	: Chairperson

At the outset, the Chairperson welcomed all the members and special invitees, and briefed about the agenda points. After thorough deliberations, the School Board of the School of Humanities and Social Sciences considered and approved as under:

- Minutes of the Board of Studies of various departments and revised curriculum of the academic programmes of the following departments **(as attached):**

i. Department of English and Foreign Languages
ii. Department of Hindi
iii. Department of History and Archaeology
iv. Department of Journalism and Mass Communication
v. Department of Political Science
vi. Department of Psychology
vii. Department of Sanskrit
viii. Department of Sociology

The copy of the approved minutes and the revised curriculum is attached herewith.

- The School Board also recommended that the respective department may make grammatical/structural corrections, wherever required, before submission to the Academic Council.

The meeting ended with the vote of thanks by the Chairperson.

(SANJIV KUMAR)
Dean, School of Humanities and Social Sciences

CENTRAL UNIVERSITY OF HARYANA
Department of English and Foreign Languages

Minutes of the Online Board of Studies (English and Foreign Languages)
August 21, 2021

Following members were present:

1. Prof. Anup Beniwal, **External Expert**
2. Prof. Anil Aneja, **External Expert**
3. Dr. Sanjiv Kumar, Head of the Department
4. Dr. Rinu, Member
5. Dr. Snehsata, Special Invitee
6. Dr. Sudeep Kumar, Special Invitee
7. Dr. Manoj Kumar Vidyalankar, Special Invitee
8. Dr. Pinki Arora, Special Invitee

The Board of Studies of the department discussed and resolved as under:

i. Confirmation of admissions to the various academic programmes for the session 2020-21:

The department reported to the Board of Studies the list of students admitted in the academic session 2020-21 to Ph.D, M.Phil and M.A. English programmes as per the seat-matrix notified by the University, for confirmation, as under:

M.A. (English)

ii. To consider and approve the minutes of the meeting of the Departmental Research Committee held on 26.07.2021:

The committee considered and approved the Minutes of the meeting of the Departmental Research Committee held on July 26, 2021 in its entirety. **(Minutes of the DRC Meeting attached)**

However, the Board of Studies suggested minor rephrasing of the topics of M.Phil and Ph.D research as highlighted below:

Sr.	Name and Roll No.	Supervisor	Topic Recommended by DRC	Topic Approved by BoS
M.Phil:				
1	Ashi Thakran Roll No: 200878	Dr. Rinu	Revisionist Mythmaking and Dialogism in Madeline Miller's *Circe* and *The Song of Achilles*	Revisionist Mythmaking in Madeline Miller's *Circe* and *The Song of Achilles*: A Study
2	Surender Roll No: 200883	Dr. Pinki Arora	Love in Shakespeare: A Study of Selected Women Characters	Love and Gender in Shakespeare: A Study of Select Women Characters
3	Geeta Rani Roll No : 200880	Dr. Sudeep Kumar	Rewriting of History and Feminism in India: A Study of *Dus Dware Ka Peenjara* by Anamika	Rewriting History and Feminism in India: A Study of *Dus Dware Ka Peenjara*
4	Firdous Nazir Roll No: 200879	Dr. Snehsata	Arundhati Roy's *The Ministry of Utmost Happiness*: An Allegory of Modern India	*The Ministry of Utmost Happiness* as an Allegory of Modern India: A Study
5	Priyanka Bisht Roll No: 200882	Dr. Manoj Kumar	Postcolonial Analysis of Oral Narratives: A Study of Kumaoni Holi and Ramlila	Postcolonial Analysis of Oral Narratives: A Study of Kumaoni Holi and Ramlila
Ph.D.				
1	Devika Roll No: 200890	Dr. Manoj Kumar	Ecocritical Exploration of the Select works of Temsula Ao and Jeannette Armstrong	Ecocritical Study of the Selected Works of Temsula Ao and Jeannette Armstrong
2	Diksha Mor Roll No: 200891	Dr. Pinki Arora[#]	Recommended for the fresh research proposal to be submitted in the	Recommended for the fresh research proposal to be submitted in the

			forthcoming meeting of DRC.	forthcoming meeting of DRC.
3	Josephine Sebastian Roll No: 200892	Dr. Pinki Arora	Performance of Violence in 'Uchabali' (A Ritual Art of North Kerala): A Cultural Analysis *The student has requested for cancellation of admission. Ref. email of the student dated July 29, 2021.*	Admission Withdrawn
4	Laksheyata Yadav Roll No.: 200894	Dr. Sanjiv Kumar	Writing Resistance: A Study of Selected Contemporary Dalit Narratives	Dalit Aesthetics and its Contexts: A Study of Selected Contemporary Dalit Narratives
5	Kanika Godara Roll No.: 200893	Dr. Sudeep Kumar	Theorizing Anthropocene and Climate-Fiction: A Study of Selected Literary Works	Theorizing Anthropocene and Climate-Fiction: A Study of Selected Literary Works
6	Alka Nanda Amethia Roll No: 200887	Dr. Manoj Kumar	Thread and Circuses: Performing in the Spaces of City and Nation in the Fiction of Rohinton Mistry	Thread and Circuses: Performing in the Spaces of City and Nation in the Fiction of Rohinton Mistry
7	Chitra Pegu Roll No: 200888	Dr. Snehsata	A Critical Study of Poile Sengupta's Art And Thought	Poile Sengupta's Art and Thought: A Critical Study
8	Deepak Roll No: 200889	Dr. Sanjiv Kumar	Existential Crisis in Pandemic Literature: A Study of Select Literary Narratives	Pandemic Literature— Past and Present: A Study of Select Literary Narratives

After thorough discussion and deliberations, it was resolved that the amended topics may be communicated to the DRC, students and the concerned branches. The students may be advised to make necessary corrections in the research proposals in consultation with their supervisors under intimation to the department.

iii. To consider and approve the revised structure and syllabus of M.A. (English) to be effective from the academic session 2021-22.

After detailed deliberations on the revised scheme, structure and the syllabus of M.A. English prepared by the department in consultation with scholars and outside experts, the

Board of Studies approved the draft as enclosed. **(The revised NEP and Outcome-based Curriculum of M.A. English enclosed)**

Resolution: Confirmed

iv. To consider and approve the panel of experts for the Departmental Research Committee, paper-setting, evaluation, moderation and dissertation viva voce.

In view of the requirements of the University Ordinance to empanel the external experts for the Departmental Research Committee, the Board of Studies approved the panel in its meeting held on 16.09.2021. The two-year term of the panel shall expire on 15.09.2021. Therefore, the Board of Studies discussed and approved the following panel of experts for DRC:

1. Prof. Rajkumar, Head, Department of English, University of Delhi.
2. Prof. Jaibir Hooda, Maharshi Dayanand University, Rohtak
3. Prof. Rekha, Deenbandhu Chhotu Ram University of Science and Technology, Murthal
4. Prof. Shrawan K. Sharma, Gurukul Kangri University, Hardwar
5. Prof. Simi Malhotra, Jamia Millia Islamia University, New Delhi
6. Prof. P.C. Pattnaik, University of Delhi
7. Prof. Satish Harit, Jai Narain Vyas University, Jodhpur
8. Prof. Devender Kumar, Banaras Hindu University, Varanasi

Regarding the panel of experts for paper-setting, evaluation, moderation, and M.A. dissertation viva voce, the Board of Studies approved the panel as enclosed herewith. **(The Relevant Enclosed)**

The Board of Studies authorised the department to form the panel of examiners, paper-setters and other experts for the First and Second Semesters after approval of the revised syllabus by the Academic Council. The same may be reported in the forthcoming meeting of the Board of Studies.

v. To consider and approve the minutes of the previous meetings and 'approvals through Circulation':

The committee considered and confirmed the Minutes of the meeting held on Sept. 16, 2019 and approvals 'through email circulation' of DRC Minutes (meeting dated 17.09.2020), panel of paper setters and panel of examiners for Masters and Research Programmes. The approval of the recommendations of the DRC/ the department (through circulation) in response to email dated Oct. 9, 2020, March 18, 2021 and June 18, 2021 was also reported for confirmation. **(Relevant files attached)**

vi. As there was no other item for consideration, the meeting ended with the Vote of Thanks by the Chairperson.

Note: Approval of BoS members received through email.

(Anup Beniwal)	**(Anil Aneja)**	**(Rinu)**
(Snehsata)	**(Manoj Kumar)**	**(Sudeep Kumar)**
(Pinki Arora)	**(Sanjiv Kumar)**

Background

Considering the curricular reforms as instrumental for desired learning outcomes, all the academic departments of Central University of Haryana made a rigorous attempt to revise the curriculum of undergraduate and postgraduate programmes in alignment with National Education Policy-2020 and UGC Quality Mandate for Higher Education Institutions-2021. The process of revising the curriculum could be prompted with the adoption of "Comprehensive Roadmap for Implementation of NEP-2020" in 32nd meeting of the Academic Council of the University held on April 23, 2021. The Roadmap identified the key features of the Policy and elucidated the Action Plan with well-defined responsibilities and indicative timeline for major academic reforms.

The process of revamping the curriculum started with the series of webinars and discussions conducted by the University to orient the teachers about the key features of the Policy, enabling them to revise the curriculum in sync with the Policy. Proper orientation of the faculty about the vision and provisions of NEP-2020 made it easier for them to appreciate and incorporate the vital aspects of the Policy in the revised curriculum focused on 'creating holistic, thoughtful, creative and well-rounded individuals equipped with the key 21st century skills' for the 'development of an enlightened, socially conscious, knowledgeable, and skilled nation'.

With NEP-2020 in background, the revised curricula articulate the spirit of the policy by emphasising upon— integrated approach to learning; innovative pedagogies and assessment strategies; multidisciplinary and cross-disciplinary education; creative and critical thinking; ethical and Constitutional values through value-based courses; 21st century capabilities across the range of disciplines through life skills, entrepreneurial and professional skills; community and constructive public engagement; social, moral and environmental awareness; Organic Living and Global Citizenship Education (GCED); holistic, inquiry-based, discovery-based, discussion-based, and analysis-based learning; exposure to Indian knowledge system, cultural traditions and classical literature through relevant courses offering 'Knowledge of India'; fine blend of modern pedagogies with indigenous and traditional ways of learning; flexibility in course choices; student-centric participatory learning; imaginative and flexible curricular structures to enable creative combination of disciplines for study; offering multiple entry and exit points initially in undergraduate programmes; alignment of Vocational courses with the International Standard Classification of Occupations maintained by the International Labour Organization; breaking the silos of disciplines; integration of extra-curricular and curricular

aspects; exploring internships with local industry, businesses, artists and crafts persons; closer collaborations between industry and higher education institutions for technical , vocational and science programmes; and formative assessment tools to be aligned with the learning outcomes, capabilities, and dispositions as specified for each course. In case of UG programmes in Engineering and Vocational Studies, it was decided that the departments shall incorporate pertinent NEP recommendations while complying with AICTE, NBA, NSQF, International Standard Classification of Occupations, Sector Skill Council and other relevant agencies/sources. The University has also developed consensus on adoption of Blended Learning with 40% component of online teaching and 60% face to face classes for each programme.

The revised curricula of various programmes could be devised with concerted efforts of the faculty, Heads of the Departments and Deans of Schools of Study. The draft prepared by each department was discussed in series of discussion sessions conducted at Department, School and the University level. The leadership of the University has been a driving force behind the entire exercise of developing the uniform template and structure for the revised curriculum. The Vice Chancellor of the University conducted series of meetings with Heads and Deans to deliberate upon the vital parameters of the revised curriculum to formulate a uniform template featuring Background, Programme Outcomes, Programme Specific Outcomes, Postgraduate Attributes, Structure of Masters Course, Learning Outcome Index, Semester-wise Courses and Credit Distribution, Course-level Learning Outcomes, Teaching-Learning Process, Blended Learning, Assessment and Evaluation, Keywords, References and Appendices. The experts of various Boards of Studies and School Boards contributed to a large extent in giving the final shape to the revised curriculum of each programme.

To ensure the implementation of curricular reforms envisioned in NEP-2020, the University has decided to implement various provisions in a phased manner. Therefore, the curriculum may be reviewed annually by the department so as to gradually include all relevant provisions of NEP-2020. The Department shall review the curriculum periodically to assess the relevance and feasibility of Discipline Specific/Generic Electives, and the courses may be added or dropped, accordingly. The decision taken by the department to add or drop the electives shall be reported to the BoS/School Board.

Programme Outcomes

On completing M. A. Programme, the students shall be able to realise following programme outcomes:

PO	Description
PO-1	Demonstrate holistic understanding of life in varied manifestations.
PO-2	Discuss and apply various social, political and literary trends in real life situations.
PO-3	Understand and discuss contemporary socio-political, cultural and literary context through multidisciplinary approach.
PO-4	Demonstrate an ability to use relevant theoretical concepts in real-life situations.
PO-5	Ability to integrate the traditional knowledge with latest advances in social sciences and humanities.
PO-6	Formulate valid propositions on the basis of multidisciplinary and cross-disciplinary understanding of disciplines.
PO-7	Appreciate and analyse regional, national and international scenario.
PO-8	Demonstrate the ability to interpret and analyse realities of life from social perspective.
PO-9	Propose solutions to the existing human problems as a well-informed and competent individual.

Programme Specific Outcomes

On completing M. A. in English Programme, the students shall be able to realise following outcomes:

PSO	Description
PSO-1	Demonstrate critical understanding of English Literature in its varied forms.
PSO-2	Discuss various literary genres, terms and movements with clarity.
PSO-3	Develop creative and critical insights, aesthetic sensibility, and analytical skills.
PSO-4	Demonstrate an ability to use English language proficiently and correctly, both in speech and writing.
PSO-5	Compare the literary trends in literature produced in different contexts and age.
PSO-6	Locate and analyse the literary texts with appropriate theoretical framework.
PSO-7	Appreciate regional and world literatures in the light of different literary and cultural traditions.
PSO-8	Demonstrate the ability to interpret realities of life from literary perspective.
PSO-9	Exhibit skill and competency for conducting research in literature.

Postgraduate Attributes

- Disciplinary Knowledge
- Creative and Critical Thinking
- Reflective Thinking
- Problem Solving
- Analytical Reasoning
- Communication Skills
- Research Skills
- Life Skills
- Multicultural Competence
- Moral and Ethical Values
- Life-long Learning
- Global Competency

Syllabus

SEMESTER-I

Course Title: Literary Criticism-I

Course Code: SHSS ENG 01 01 C 01 3104

Course Objective: To provide a critical understanding of the developments in literary criticism from Greek era to beginnings of 20th century. Moreover, some selected texts/critics are prescribed for detailed study whose contribution to this area constitutes a significant benchmark in each era.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed as follows:

1. Develop a historical understating of how literary criticism has evolved over the years.
2. Detail study of some of the canonical texts written by established names in the field of literary criticism.
3. Explain the meaning, nature and definition of important critical traditions of the period.
4. Trace the evolution of Classical, Neo-Classical, Romantic and Modern Literary Criticism along with their socio-historical and political background.
5. Provide a conceptual framework for developing an understanding of the function and practice of traditional modes of literary criticism.

Course Content:

Unit - I

Aristotle: *Poetics* (Chapters i-xvi, xxvi), translation by S.H. Butcher

Unit - II

Philip Sidney: *The Defence of Poesy*

Unit -III

William Wordsworth: *Preface to Lyrical Ballads* (1802 edition)

Unit - IV

Matthew Arnold: “The Function of Criticism at the Present Time”

T. S. Eliot: “Tradition and the Individual Talent”

Suggested Readings:

Abrams, M.H. and Geoffrey Galt Harpham. *A Glossary of Literary Terms* (11th Edition). Cengage Learning, 2015.

Arnold, Matthew. *Essays in Criticism*. New York: MacMillan and company, 1865.

Blamire, Harry. *A History of Literary Criticism.* Macmillan, 2001.

Daiches, David. *Critical Approaches to Literature*, 2nd ed. Orient Longman, 1970.

Lodge, David ed. *20th Century Literary Criticism: A Reader*. Longman, 1989.

---. *Criticism and Theory: A Reader*. Pearson Education, Ist Indian Rpt., 2003.

Habib, M. A. R. *A History of Literary Criticism: From Plato to the Present.* Blackwell, 2005.

Lucas, F. L. *Tragedy in Relation to Aristotle's Poetics.* Allied Publishers, 1970.

Seager, Nicholas. *The Rise of Novel*. Macmillan, 2012.

Course Title: British Drama -I
Course Code: SHSS ENG 01 01 C 05 3104

Course Statement: Drama combines the literary arts of storytelling and poetry with the world of live performance. As a form of ritual as well as entertainment, it has served to unite communities and challenge social norms by vitalizing its audiences. In order to understand this rich art form more fully, a sampling of plays, which exemplify different kinds of dramatic structure, will be examined. Students will be encouraged to read widely for enrichment and enjoyment.

Objective(s): This course aims to—

- Introduce students to the tradition of British Drama from fourteenth to nineteenth century;
- Explore the key writers and texts within their historical and intellectual contexts;
- Offer a perspective on the history of British Drama.

Course Level Learning Outcomes

Some of the learning outcomes that the students of this course are expected to demonstrate, are listed as follows:

1. Understand the tradition of British Drama from 14th to 19th centuries.
2. Develop a clear understanding of the texts suggested
3. Engage with the major genres and forms of drama and develop fundamental skills required for close reading and critical thinking of the texts and concepts
4. Appreciate and analyze the plays in the larger socio-political and religious contexts of the time.

Course Content:

Unit-I

Christopher Marlowe: *Doctor Faustus*

Unit-II

William Shakespeare: *Othello*

Unit-III

R.B. Sheridan: *The School for Scandal*

Unit-IV

William Congreve: *The Way of the World*

Suggested Readings:

Abrams, M.H. and Geoffrey Galt Harpham. *A Glossary of Literary Terms* (11th Edition). Cengage Learning, 2015.

Anderson, Michael. *Anger and Detachment: A Study of Arden, Osborne and Pinter*. London: Pitman, 1976.

Innes, Christopher, ed. *Cambridge Companion to George Bernard Shaw*. Cambridge: Cambridge University Press, 2006.

Loftis, J. *Comedy and Society from Congreve to Fielding*. Stanford: Calif, 1959.

Loomba, Ania. *Post-colonial Shakespeare*. London: Routledge, 1998.

Course Title: Communication Skills in English
Course Code: SHSS ENG 01 01 E 01 3104

Course Statement:
The aim of this course is to help students become familiar with nuances of grammar and build confidence in them that grammar is 'learnable'. The course also helps the learners become aware of language, its dependence on grammar and the variety it exhibits.

Objective(s): This course aims to

- Develop the basic understanding of grammar and communication skills among the students;
- Enhance the listening, speaking, reading and writing skills of the students.

Course Level Learning Outcomes: Some of the learning outcomes that the students of this course are expected to demonstrate are listed as follows:

1. Identify deviant use of English both in written and spoken forms;
2. Recognize the errors of usage and correct them;
3. Understand and appreciate English spoken by people from different regions;
4. Use language for speaking with confidence in an intelligible and acceptable manner;
5. Understand the importance of basic communication skills for life.

Course Content:

Unit-I: Phonetics
The Organs of Speech
Phonetic Symbols
Speech Sounds – Vowels and Consonants

Unit-II: **Functional Grammar**
Articles, Parts of Speech, Question Tags, Tenses, Preposition, Common Errors and Usage

Unit-III: Conversational English
Language and Society, Styles and Registers
Situational Communication

Unit-IV: Presentation Skills
Presentation Skills, Interviews, Public Speaking, Preparing the Speech, Organising the Speech, Special Occasion Speeches.

Suggested Readings:

Adair, John. *Effective Communication*. London: Pan Macmillan Ltd., 2003.

Ajmani, J. C. *Good English: Getting it Right*. New Delhi: Rupa Publications, 2012.

Course Title: English Language Teaching

Course Code: SHSS ENG 01 01 E 04 3104

Objective: The primary objective of the course is to provide the students with relevant knowledge of and training in methods and skills of English language teaching.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate, are listed here:

1. Knowledge of various approaches and techniques of language teaching.
2. Skills of listening, reading, speaking, and writing language.
3. Skills in developing lesson plans.
4. Understanding of various ways of language testing and evaluation.

Course Content:

Unit-I Language Teaching Methodology

a) English Language Teaching—Present Scenario
b) Traditional and Modern Approaches to ELT
c) Methods and Techniques
d) Innovative Strategies for Enhanced Outcomes
e) Teaching Language through Literature

Unit-II Teaching Language Systems

a) Teaching Pronunciation
b) Teaching Vocabulary
c) Teaching Grammar
d) Teaching Usage

Unit-III Teaching Language Skills: Receptive Skills and Productive Skills

a) Listening Skills
b) Speaking Skills
c) Reading Skills
d) Writing Skills

Unit-IV Planning Lessons, Testing and Evaluation

a) Principles of Lesson Planning
b) Summative and Formative Assessment
c) Qualities of a Good Test
d) Types of Tests and Test-Items
e) Writing and Marking Test

Suggested Readings:

SEMESTER-II

Course Title: Literary Theory and Criticism –I
Course Code: SHSS ENG 01 02 C 06 3104

Objective: The course intends to provide a textual, historical and critical study of the developments in literary criticism from the beginning of 20th century to the present times. The course undertakes to offer a survey of all the major developments in literary criticism from the beginning of 20th century up to the present times.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed below.

1. Historical understating of how literary criticism and theory has evolved over these years.
2. Knowledge of some of the canonical texts written by established theorists in the field of literary theory and criticism.
3. Ability to explain the meaning, nature and definition of important critical traditions of the period.
4. Ability to trace and establish relationship between the evolution of critical theory and its socio-historical and political background.
5. Skill in using literary criticism and theory in practice to analyse and interpret literature and culture.

Course Content:

Unit-I Russian Formalism and New Criticism

a) Viktor Shklovsky – "Art as Technique"
b) Cleanth Brooks – "Irony as a Principle of Structure"

Unit-II Psychoanalytical Criticism

a) Sigmund Freud – "Creative Writers and Day-dreaming"
b) Jacques Lacan – "The Symbolic Order"

Unit-III Feminist Criticism

a) Simone de Beauvoir – "Myth and Reality"
b) Elaine Showalter – "Feminist Literary Criticism in the Wilderness"

Unit-IV Sociological/Marxist Criticism

a. Raymond Williams – "Base and Superstructure in Marxist Cultural Theory"
b. Louis Althusser – "Ideology and Ideological State Apparatuses"

Suggested Readings

Barry, Peter. Beginning Theory: An Introduction to Literary & Cultural Theories, 2nd ed., Manchester University Press, 2004.

Bertens, Hans. Literary Theory: The Basics. Routledge, 2003.

Blamires, Harry. A History of Literary Criticism. Macmillan, 2001.

Course Title: Major Trends and Movements in English Literature-II

Course Code: SHSS ENG 01 02 C 07 3104

Objective(s):

To study important socio-political, cultural and literary developments to develop a chronological understanding of the major trends and movements of English Literature from Romantic Age to Twentieth Century.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed below.

1. Historical understating of English literature from Romantic Age to Twentieth Century.
2. Knowledge of the development of literary writings, their contexts, genres and prominent themes during the period under study.
3. Ability to explain the meaning, nature and definition of popular literary trends of the period.
4. Skill in analyzing and appreciating the important literary texts of the period.

Course Content:

Unit-I: Romantic Period

a) Romanticism— Origin and Development of the Literary Movement
b) Socio-political and Cultural Context
c) Poets and Poetry of the Period
d) Novelists and Novels of the Period
e) Important Literary Trends and Texts

Unit-II: Victorian Age

a) Socio-Political and Cultural Background
b) Victorian Compromise
c) Major Victorian Poets—Early and Later Victorian Poets
d) Major Victorian Novelists
e) Important Literary Trends and Texts

Unit-III: Modern English Literature

a) Socio-Political, Aesthetic and Cultural Background
b) Major Modern Poets
c) Playwrights and Novelists
d) Modernist Criticism
e) Important Literary Trends and Texts

Unit-IV: Postcolonial Literature

a) Postcolonialism— Socio-Political, Cultural and Literary Background
b) Major Postcolonial writers and Theorists
c) Important Postcolonial Literatures
d) Key Concepts on Postcolonialism
e) Literary Trends and Texts

Suggested Readings:

Abrams, M.H. and Geoffrey Galt Harpham. *A Glossary of Literary Terms* (9th Edition). Cengage Learning, 2008.

Ashcroft, Bill et al. *Post-Colonial Studies: The Key Concepts*. Routledge, 2013.

Richetti, John. Ed. *The Cambridge History of English Literature*. Cambridge University Press, 2005.

Course Title: British Poetry-II

Course Code: SHSS ENG 01 02 C 08 3104

Objective: This course intends to generate in the students an understanding of poetry as a genre and introduce them to the major English poets and poetry from Romantic Age to Modern Age (19^{th} to 20^{th} Century).

Course Level Learning Outcomes: Some of the learning outcomes that the students of this course are expected to demonstrate are listed below.

1. Understanding of the socio-political, religious and historical background of 19^{th} and 20^{th} century English poetry.
2. Knowledge of the major trends and features of romantic and modern poetry.
3. Ability to critically analyse and appreciate poetry.

Course Content:

Unit-I

a) William Wordsworth – "Ode: Intimations of Immortality from Recollections of Early Childhood" and "Tintern Abbey"
b) John Keats – "Ode to Nightingale" and "Ode on a Grecian Urn"

Unit-II

a) Lord Alfred Tennyson – "Ulysses"
b) Matthew Arnold – "Dover Beach"
c) Robert Browning – "The Last Ride Together", "My Last Duchess"
d) Elizabeth Barrett Browning: "How do I love thee?"(Sonnet 43)

Unit-III

a) W.B. Yeats – "The Second Coming" and "Sailing to Byzantium"
b) T. S. Eliot – "The Love Song of J. Alfred Prufrock" and "The Hollow Men"

Unit-IV

a) Philip Larkin – "Toads Revisited"
b) Seamus Heaney – "Digging"
c) Dylan Thomas – "Do not Go Gently into the Goodnight"
d) Ted Hughes: "The Jaguar" and "Hawk Roosting"

Suggested Readings

Abrams, M.H., and Geoffrey Galt Harpham. *A Glossary of Literary Terms*. 10th ed., Cengage, 2012.

Course Title: British Novel-II

Course Code: SHSS ENG 01 02 C 09 3104

Objective: The primary objective of the course is to introduce the students with major 20th century British novelists and their works.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed here:

1. Understanding of the socio-historical environment of the 20th century and its impact on the development of novel.
2. Exhibition of knowledge of various trends and characteristics of modern British novel.
3. Ability to compare and contrast the thematic and technical experiments carried out by modern novelists.
4. Skill in textual analysis of the texts.
5. Appreciation of novel as a vehicle for social and cultural change.

Course Content:

Unit-I

D. H. Lawrence – *Sons and Lovers*

Unit-II

Virginia Woolf – *Mrs Dalloway*

Unit-III

Anthony Burgess – *A Clockwork Orange*

Unit–IV

John Fowles – *The French Lieutenant's Woman*

Suggested Readings:

Acheson, James. *John Fowles*. Macmillan, 1998.

Biswell, Andrew. *The Real Life of Anthony Burgess*. Picador, 2005.

Bradbury, Malcolm. *The Modern British Novel*. Penguin, 1993.

Clarke, Jim. *The Aesthetics of Anthony Burgess*. Palgrave Macmillan, 2017.

Course Title: Introduction to Translation: Theory and Practice
Course Code: SHSS ENG 01 02 E 05 3104

Course Objectives: The course intends to introduce the students with Translation Studies as an emerging discipline. They will get an opportunity to be familiar with the main issues involved in the process of translation. The focus shall be on literary translation and the way it is different from other translations. The course coordinator shall demonstrate how the translation process is highly cultural specific. The course is designed as a blend of theory and practice of translation. The students will have an assignment where they have to translate a piece of prose to English.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed as follows:

1. Appreciate the process of translation
2. Begin translation from one language to another
3. Learn skills of translation that may help them become translators later on
4. Appreciate diverse writings and cultures which will enable them to connect with these cultures in a diverse country like India and become socially aware citizens

Unit-I: Introduction to Translation

Language and Culture

History of Translation

Types of Translation

Essential Components of Translation

Unit-II: Translation Studies

Emergence of the Discipline

Theories of Translation

Cultural Issues in Translation

Future of Translation

Unit-III: Literary Translation

Literature and Translation

Translating Poetry

Translating Prose

Translating Dramatic Texts

Untranslatability and Problem of Equivalence

Unit-IV: Translation and Indian Context

Krishnamurthy, Ramesh. “Translation: The Indian Tradition.” Routledge Encyclopedia of Translation Studies. ed. Mona Baker. London and New York: Routledge, 1998.

Premchand, Munshi. "Kafan" (Three different translations)

Practice Assignments on Various Types of Translation

Suggested Readings

Course Title: Indian Classical Literature

Course Code: SHSS ENG 01 02 E 06 3104

Objective: To introduce the students to the rich and diverse classical literature of India and also to Indian poetics and aesthetics.

Course Learning Outcomes: Some of the learning outcomes the students are expected to demonstrate are listed here.

- Understanding of Indian aesthetics and Classical literature.
- Ability to understand and interpret relevant theory and Indian classical texts.
- Ability to appreciate and analyze the stories, epic(s) and plays in relation to their cultural and historical contexts.
- Literary and research interest in Indian classical literature and poetics.
- Ability to appreciate Indian art and culture.

Course Content:

Unit-I Essence of Indian Poetics

On syntax and poetic meaning, structure of poetic meaning, figures of Speech & thought, epic poetry, *Nātya* and *Rasa* from Bharatamuni's *Nātyasāstra,* Bhāmaha's *kāvyālaṁkāra,* Kuntaka's *Vakroktijīvitam,* Anandavardhana's *Dhvanyāloka*

Unit-II: Selections from *The Mahabharata*

a) 'The Dicing' and 'Sequel to Dicing', Book 2, Sabha Parva Section XLVI-LXXII

b) 'The Temptation of Karna', Book 5, Udyog Parva, Section CXL-CXLVI

c) 'Dhritrashtra and Gandhari's Wrath', Book 11, Section XI-XV

Unit –III:

Ilango Adigal, *The Cilappatikaram*, Cantos 1, 2, 7, 18, 19, 20, 21, 22, 24, 26, 30, trans. R. Parthasarathy (Columbia University Press, 1993; Penguin India, 2004)

Unit-IV:

Sudraka's *Mrichchhakatika*

Suggested Readings:

Bharata. *Nāṭyaśāstra*. Ed. Manomohan Ghosh. The Royal Asiatic Society of Bengal, 1950.

Bhāmaha. *Kāvyālaṁkāra.* Ed. P.V. Nāganātha Sāstrī. Delhi: Motilal Banarsidasa, 1991.

Bhartṛhari.*Vākyapdi.* Delhi: Motilal Banarsidass, 1971.

Kalidasa, *Abhijnanasakuntalam*, trans. Chandra Rajan, in *Kalidasa: The Loom of Time*, Penguin Classics, 1989.

--- . *Ānandavardhana's Dhvanyāloka.* Poona Oriental Series, 1952.

--- . Kuntaka. *Vakroktijīvitam.* Ed. K. Krishnamoorthy. Karnataka University, 1977.

Sudraka. *The Mrichchhakatika of Sudraka*, trans. M. R. Kale. Motilal Banarsidas Publishers, 1924, reprint 2013.

Vyas. *The Mahabharata of Krishna-Dwaipayana Vyasa*, trans. K. M. Ganguli. Munshiram Manoharlal Publishers, 2012.

Warder, A.K. *Indian Kavya Literature: Literary Criticism.*Vol.1. Motilal Banarsidas Publishers, 2009.

Course Title: Dalit Literature and Aesthetics

Course Code: SHSS ENG 01 02 E 07 3104

Course Objective: The course intends to make the students familiar with the intent and contents of Dalit literature and aesthetics. The prescribed texts represent different genres to provide comprehensive understanding of Dalit context and the paradigms of Dalit literature.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed as follows:

1. Develop a historical understating of how Dalit literature and aesthetics has evolved over the years.
2. Detail study of some of the canonical texts written by established names in the field of Dalit literature and aesthetics.
3. Explain the meaning, nature and definition of important critical terms.
4. Discuss the socio-historical and political background of Dalit literature and aesthetics.
5. Provide a conceptual framework for developing an understanding of the function and practice of alternative aesthetics.

Course Content:

Unit-I: Autobiography

Om Prakash Valmiki's *Joothan: An Untouchable's Life*

Unit-II: Novel

G. Kalyana Rao's *Untouchable Spring*

Unit-III: Poetry

Namdeo Dhasal's "Hunger"

Challapali SwarupaRani's "Wild Flower"

Bama's "The Scent of Mother"

M.R. Renu Kumar's "The Poisoned Fruit"

Unit-IV: Short Stories

Bandhumadhav's "The Poisoned Bread"

Shyamal Kumar Pramanik's "Survival"

Suggested Readings:

Ahmad, Imtiaz and Upadhyay. *Dalit Assertion in Society Literature and History*. Orient Blackswan, 2010.

Course Title: Canadian Literature
Course Code: SHSS ENG 01 02 E 08 3104

Objective: This course aims to provide a broad historical survey of Canadian writing and introduce students to some of the major authors of Canadian literature.

Course Level Learning Outcomes
Some of the learning outcomes that the students of this course are expected to demonstrate are listed here.

1. Historical understating of Canadian literature

2. Understanding of some of the canonical texts written by established Canadian authors.

3. Ability to discuss the social, historical, political, and cultural background of Canadian literature.

Course Content:

Unit–I

a) F.R. Scott: "The Canadian Authors Meet"
"Lakeshore"
"Laurentian Shield"

b) Margaret Atwood: "This is a Photograph of Me"
"The Circle Game"
"The Animals in that Country"
"The Explorer"
"The Settler"

Unit-II
Yann Martel: *Life of Pi*

Unit-III
Morris Panych: *7 Stories*

Unit-IV
Northrop Frye: "Conclusion to A Literary History of Canada"

Suggested Readings:

Atwood, Margret. *Survival: A Thematic Guide to Canadian Literature*. Anansi, 1984.

Brown, E. K. *On Canadian Poetry*. Tecumesh Press, 1973.

SEMESTER-III

Course Title: Literary Theory and Criticism –II
Course Code: SHSS ENG 01 03 C 11 3104

Objective(s): The course proposes to study literary theory as an intellectual and critical activity in the 20th Century. The purpose of the course is the analysis of some of the major essays that are central to the understanding of these literary and critical theories. The course takes up major strands of modern literary theory and provides a conceptual context for an understanding of the function and practice of modern literary and cultural criticism.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed as follows:

1. Develop a historical understating of how literary criticism and theory has evolved over these years.
2. Detail study of some of the canonical texts written by established theorists in the field of literary theory and criticism.
3. Explain the meaning, nature and definition of important critical traditions of the period.
4. Trace the evolution of Critical Theory with its socio-historical and political background.
5. Provide a conceptual framework for developing an incisive understanding of the function and practice of different literary methodologies available to a student.

Course Content:

Unit- I: Structuralism

Ferdinand de Saussure: “The Nature of Linguistic Sign” in David Lodge (ed.) *Modern Criticism and Theory: A Reader*. Longman, 1988: 10-14.

Claude Levi Strauss: "Structural Analysis in Linguistics and in Anthropology" in *Structural Anthropology*. Trans by Claire Jacobson. Basic Books Inc., 1963. 31-54.

Unit- II: Poststructuralism and Deconstruction

Roland Barthes: “The Death of the Author” from Roland Barthes, *Image, Music, Text*. Flamingo, 1977: 142-48.

Jacques Derrida: "Structure, Sign & Play in the Discourse of Human Sciences" in J. Derrida. *Writing and Difference*. Translated by Alan Bass, University of Chicago Press, 1978: 278-93.

Unit-III: Postmodernism

Jean Francois Lyotard: "Answering the Question: What is Postmodemism?" translated by Regis Durand in *The Postmodern Condition*. Manchester University Press, 1984.

Jean Baudrillard: "The Spirit of Terrorism," Translated by Chris Turner in *The Spirit of Terrorism and Other Essays*. Verso, 2003.

Unit- IV: New Historicism and Cultural Materialism

Stephen Greenblatt: "Introduction" in *Renaissance Self –Fashioning.* University of Chicago Press, 1980. 1-9.

Alan Sinfield and Jonathan Dollimore: "Foreword" and "Introduction" in *Political Shakespeare: New Essays in Cultural Materialism.* Cornell, 1985. vii-viii & 2-17.

Suggested Readings:

Bertens, Hans. *Literary Theory: The Basics*. Routledge, 2017.

Bishop, Ryan (ed.). *Baudrillard Now: Current Perspectives in Baudrillard Studies*. Polity, 2009.

Connor, Steven. *The Cambridge Companion to Postmodernism*. Cambridge University Press, 2004.

Course Title: Postcolonial Theory and Literature

Course Code: SHSS ENG 01 03 C 12 3104

Objective(s): To introduce the students with the Postcolonial theory and literature so as to help them develop appreciation for literatures from different regional and national contexts.

Course Level Learning Outcomes:

Some of the learning outcomes, that the students of this course are expected to demonstrate, are listed as follows:

1. Develop understanding of the key concepts of Postcolonial Literature and theory.
2. Elaborate, analyse and appreciate the important Postcolonial approaches, texts and the writers from diverse contexts.
3. Discuss the concept of Postcolonial Literature vis-à-vis regional/national literatures.
4. Elaborate the relevance of Postcolonial Literature and theory vis-à-vis regional literatures.

Course Content:

Unit-I: Postcolonial Theory and Literature—Definition and Key Concepts

Postcolonial Theory and Literature

Key Concepts in Postcolonial Literature

Edward Said: "Introduction" to *Orientalism*

Major Postcolonial Writers and Works

Unit-II:

Doris Pilkington

Rabbit Proof Fence

Unit-III:

Jean Rhys

Wide Sargasso Sea

Unit-IV:

Chinua Achebe

Things Fall Apart

Suggested Readings:

Bill Ashcroft, Gareth Griffiths and Helen Tiffin, eds. *The Post-Colonial Studies Reader*. Routledge, 2006.

---. *Key Concepts in Post-Colonial Studies*. Routledge, 1998.

Course Title: Indian Writings in English
Course Code: SHSS ENG 01 03 C 13 3104

Course Objectives: To introduce literary texts from a range of cultural, social, political and regional locations within India and inculcate an in-depth understanding of some of the major issues shaping this literary production.

Course Level Learning Outcomes: Some of the learning outcomes of this course are listed as follows:

1. Students will develop the understanding of Indian English Literature and its oeuvre through selected literary texts across genres.
2. They will appreciate and analyze the texts in relation to the colonialism, nationalism and globalization.
3. They will be able to approach and demonstrate the textual understanding from the perspectives of multiple Indian subjectivities.
4. Students will be in position to extend the knowledge of life in literature and lived situations.

Course Content:

Unit-I: Poetry

(i) A.K. Ramanujan -"The Striders" and "Love Poem for a Wife, I"

(ii) Nissim Ezekiel – "Night of the Scorpion" and "Poet, Lover and Birdwatcher"

(iii) Jayanta Mahapatra – "Hunger" and "A Rain of Rites"

Unit-II: Novel

Raja Rao's *Kanthapura*

Unit-III: Drama

Mahesh Dattani's *Tara*

Unit-IV: Short Stories

(i) R.K. Narayan's "An Astrologer's Day" from *Malgudi Days*

(ii) Mulk Raj Anand's "The Lost Child" from *The Lost Child and Two Lyrical Stories*

(iii) Shashi Deshpande's "The Intrusion" from *The Intrusion and Other Stories*

(iv) Temsula Ao's "Soaba" from *These Hills Called Home: Stories from a War Zone.*

Suggested Readings:

Course Title: Introduction to Linguistics

Course Code: SHSS ENG 01 03 C 14 3104

Objective: The primary objective of the course is to familiarize the students with the basic concepts of language and linguistics and provide them a theoretical as well as practical knowledge of modern English structure.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed here.

1. Understanding of language and linguistics and various branches of linguistics.
2. Knowledge of speech sounds, the process of their production, and their classification.
3. Understanding and application of English grammar to use language correctly.

Course Content:

Unit-I Introduction

a) Definitions of Language

b) Origin of Language

c) Properties of Human Language

d) Branches of Linguistics

Unit-II Phonetics and Phonology

a) Articulatory, Auditory, Acoustic Phonetics

b) Consonants and Vowels

1) Consonants: Voiced and Voiceless; Place and Manner of Articulation

2) Vowels: Monophthongs and Diphthongs

c) Phonemes, Phones, and Allophones

d) Syllables

e) Co-articulation Effects: Assimilation, Nasalization and Elision

Unit-III Grammar: Morphology and Syntax

a) Morphemes

1) Free and Bound

2) Lexical and Functional

3) Derivational and Inflectional

b) Morphs and Allomorphs

c) Word-Formation: Coinage, Borrowing, Compounding, Back-Formation, Clipping etc.

d) Structural and Constituent Analysis of Sentences

e) Surface and Deep Structure, and Tree-diagrams

Unit-IV Semantics and Pragmatics

a) Semantic Features and Semantic Roles

b) Lexical Relations: Synonymy Antonymy, Hyponymy, Homonymy, Polysemy, Metonymy

c) Context, Reference and Presupposition: Deixis, Inference, Anaphora, Cataphora

d) Speech-Acts: Direct and Indirect

Suggested Readings:

Aitchison, Jean. *The Articulate Mammal*. Routledge, 2011.

Cowie, A. P. *Semantics*. OUP, 2009.

Hurford, James. *The Origins of Language*. OUP, 2014.

Robins, R. H. *General Linguistics*. 4th ed., Routledge, 1989.

Tallerman, Mageie. *Understanding Syntax*. 4th ed., Routledge, 2014.

Yule, George. *Pragmatics*. Oxford UP, 1996.

---. *The Study of Language*. 7th ed., Cambridge UP, 2020.

Course Title: Creative Writing
Course Code: SHSS ENG 01 03 E 09 3104

Objective(s): This course aims to—

- Apply critical and theoretical approaches to the reading and analysis of literary texts in multiple genres;
- Identify, analyze, interpret and describe critical ideas, themes, values that consist of literary texts and perceive the ways to evaluate how ideas, themes and values create an impact on societies, both in the past and present;
- Become capable of producing poems or literary non-fictional pieces that are original and engaging;
- Articulate an awareness of the relationship between the individual works and conventional literary work;
- Become capable of passing judgment whether a journal or a press is better venue for publishing literary work.

Course Level Learning Outcomes
Some of the course learning outcomes that students of this course are required to demonstrate are:

1. Develop creativity in writing and discern the difference between academic/non creative and creative writing;
2. Develop a thorough knowledge of different aspects of language such as figures of speech, language codes and language registers so that they can both, identify as well as use these; in other words, they must learn that creative writing is as much a craft as an art
3. Develop a comprehensive understanding of some specific genres such as fiction, poetry, drama and newspaper writing
4. Distinguish between the sub divisions within each genre(such as in poetry, different forms like sonnets, ballads, haiku, *ghazal*, etc)

Course Content:

Unit-I

What is Creative Writing?

The Art and Craft of Writing

Unit-II

Modes of creative Writing

Poetry

Fiction

Drama

Unit-III

Writing for the Media

Print Media

Broadcast Media

New Media

Advertising

Unit-IV

Preparing for Publication

Suggested Readings:

Dev, Anjana Neira. *Creative Writing: A Beginner's Manual*. Pearson, Delhi, 2009.

Morley, David. *The Cambridge Introduction to Creative Writing*. Cambridge, New York, 2007.

Course Title: Contemporary South Asian Fiction in English

Course Code: SHSS ENG 01 03 E 10 3104

Objective(s): To introduce the students with major trends in South Asian Literature and writers so as to help them develop appreciation for literatures from different South Asian countries.

Course Level Learning Outcomes:

Some of the learning outcomes, that the students of this course are expected to demonstrate, are listed as follows:

1. Develop critical understanding of the socio-historical and cultural ethos reflected in South Asian literature.
2. Elaborate, analyse and appreciate the important South Asian texts and the writers from diverse contexts.
3. Discuss the concept of South Asian Literature vis-à-vis regional/national literatures.
4. Elaborate the relevance of South Asian Literature vis-à-vis popular British Literature.

Course Content:

Unit-I:

Monica Ali: *The Brick Lane*

Unit-II:

Khaled Hosseini: *The Kite Runner*

Unit-III:

Michael Ondaatje: *Anil's Ghost*

Unit-IV:

Kamila Shamsie: *Home Fire*

Suggested Readings:

Brians, Paul. *Modern South Asian Literature in English*. Greenwood Press, 2003.

Ghosh, Amitav. *Jungle Nama: A Story of the Sundarban*. HarperCollins India, 2021.

Hosseini, Khaled. *The Kite Runner*. Bloomsbury, 2013.

Shamsie, Kamila. *Home Fire*. Bloomsbury, 2017.

Course Title: Literature of Protest

Course Code: SHSS ENG 01 03 E 11 3104

Objective(s): The purpose here is to introduce our students with the revolutionary potential of literature. The way literature can work as a progressive force in the society and assumes the role of a vehicle of protest against hegemonic elements will be really interesting. This course assures a sound imagination to the students along with enjoyment and learning.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate, are listed as follows:

1. Develop a historical understating of how literature has contributed to the progressive changes in the human society over these years.
2. Trace the evolution of Protest Writings with its socio-historical and political background in South Asia.
3. Provide a conceptual framework for developing an understanding of the function and practice of Protest Writings as a counter discourse to hegemonic tendencies within a society.
4. Detail study of some of the texts written by established writers and thinkers in the relevant areas.

Course Content:

Unit-I

Faiz Ahmad Faiz: "We Shall See"
Agha Shahid Ali: "Postcard from Kashmir"
Namdeo Dhasal: "Kamatipura"
Arun Kolatkar: "The Shit Sermon"
Kamala Das: "The Looking Glass"
Meena Kandasamy: "Backstreet Girls"

Unit-II

Ismat Chughtai : "The Quilt"

Saadat Hasan Manto: "Nowhere Land"

Unit-III

U.R. Ananthamurthy: *Samskara: A Rite for a Dead Man*

Unit- V

Dakxinkumar Bajrange: *Bhudhan: A Play by Denotified Chharas* (translated by Sonal Baxi)

Suggested Readings:

Ali, Agha Shahid. *The Country without a Post Office*. Penguin, 2013.

Ananthamurthy, U R. *Samskara: A Rite for a Dead Man*. OUP, 1997.

Schwartz, Henry. *Constructing the Criminal Tribe in Colonial India: Acting Like a Thief*. Wiley Pub. 2010.

Course Title: Gender and Literature

Course Code: SHSS ENG 01 03 E 12 3104

Objective: The primary objective of this course is to introduce the students with the concept of gender and its relationship with literature at multiple levels like representation, production, evaluation etc., and acquaint them with various debates and theories related to gender issues.

Course Level Learning Outcomes:

After studying the course, students are expected to—

1. Demonstrate an understanding of themes and issues related to gender and their representation in literature.
2. Analyse, discuss, and evaluate texts critically.
3. Connect issues of race and third gender with literary themes.
4. Construct and synthesize ideas and produce them as coherent arguments.

Course Content:

Unit-I

Mahasweta Devi – *Breast Stories*

Unit-II

Alice Walker – *The Color Purple*

Unit-III

A. Revathi – *The Truth about Me: A Hijra Life Story*

Unit-IV

Ursula K. Le Guin – *The Left Hand of Darkness*

Suggested Readings:

Butler, Judith. *Gender Trouble: Feminism and the Subversion of Identity*. Routledge, 2010.

Cummins, Elizabeth. *Understanding Ursula K. Le Guin*. University of South Carolina, 1993.

Donnelly, Mary. *Alice Walker: The Color Purple and Other Works*. Marshall Cavendish Benchmark, 2010.

Course Title: Disability Studies and Literature

Course Code: SHSS ENG 01 03 E 13 3104

Course Objectives:

1. To promote sensitivity and understanding regarding disability amongst the students and researchers in various disciplines by engaging them with a relatively fresh interdisciplinary domain of Disability Studies in relation to literature.
2. To familiarize students with historical outlooks, disability theories and issues in relation to socio-cultural context and disability representations in literature.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed as follows:

1. Understanding of issues and concerns of persons with disabilities who are fast being included in the mainstream higher education system, both in terms of numbers, as resources and also as voices in the academic curriculum.
2. Ability to explore Disability Studies as a relatively fresh area of study and research.
3. Sensitivity towards issues concerning differently-abled population.
4. Creative interpretation of disability from literary perspective.

Course Content:

Unit I: Basics of Disability Studies

Michael Oliver: *Understanding Disability: From Theory to Practice*

Unit II: Autobiography

Helen Keller: *The Story of My Life*

Unit III:

Munshi Premchand: *Rangbhoomi*

Unit IV: Short Stories and Poems

Raymond Carver: "Cathedral"

Rabindranath Tagore: "Subha"

Wilfred Owen: "Disabled"

Sylvia Plath: "Lady Lazarus"

Suggested Readings:

Addlakha, Renu. *Disability Studies in India: Global Discourses, Local Realities*. Taylor & Francis, 2013.

Barnes, Colin, Geoffrey Mercer and Tom Shakespeare. *Exploring Disability: A Sociological Introduction*. Cambridge; Malden, MA: Polity Press. 1999.

SEMESTER-IV

Course Title: Literary Criticism in India

Course Code: SHSS ENG 01 04 C 15 3104

Objective(s): The purpose of this course is to introduce our students with indigenous criticism and critical theories. Here the selection of texts is carried out keeping in mind two vital Objective(s): first, antiquity and contemporary are brought together; second, various schools of criticism provide contestation grounds for each other. It will also provide the students an opportunity to study criticism available in translation from other Indian languages.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed as follows:

1. Develop a historical understating of how literary criticism and theory has evolved in India.
2. Detail study of some of the canonical texts written by established theorists in the field of literary theory and criticism.
3. Explain the meaning, nature, and definition of important critical traditions of the period.
4. Trace the evolution of Literary Criticism and Theory in India with its socio-historical and political background.
5. Provide a conceptual framework for developing an incisive understanding of the function and practice of different literary methodologies available to a student in Indian classroom.

Course Content:

Unit - I Sanskrit Aesthetics

Introduction to various schools of Sanskrit Criticism: Rasa, Dhvani, Alamkara, Riti, Vakrokti and Auchitya.

Bharata: *Natyashastra,* tr. Manomohan Ghosh (chapter 6: 'Sentiments) revd. 2nd ed. (Calcutta: Granthalaya, 1967), vol. I, pp 100-18.

Unit - II Nativism

G.N. Devy: "Tradition and Amnesia" in *After Amnesia*.

Bhalchander Nemade: "*Sahityateel Desiyata"* (Nativism in Literature) in *Nativism: Essays in Criticism*. Sahitya Akademi, 1997. 233-254.

Unit - III Postcolonial Theory in India

Namwar Singh: "Decolonising the Indian Mind" translated by Harish Trivedi and published in *Indian Literature*. Vol. 35, No. 5, 1992. 145-157.

Ania Loomba: "Challenging Colonialism" in *Colonialism / Postcolonialism.* Routledge, 1998. 154 – 212. (Selected excerpts)

Unit - IV Marxism in India

Munshi Premchand: "The Aim of Literature", Presidential Speech given at the First Progressive Writers' Conference, Lucknow, 9 April 1936, tr. Francesca Orsini, in *The Oxford India Premchand*. OUP, 2004.

Aijaz Ahmad: "Literary Theory and 'Third World Literature': Some Contexts" in *In Theory: Classes, Nations, Literatures*. OUP, 1992. Print. (Selected excerpts)

Suggested Readings:

Bharata. *Natyashastra,* tr. Manomohan Ghosh. Calcutta: Granthalaya, 1967, vol. I, pp 100-18.

Chari, V.K. *Sanskrit Criticism*. Motilal Banarsidass Pvt. Ltd., 1993.

Chaitananya, Krishna. *New History of Sanskrit Literature*. 2nd. ed. Manohar, 1977.

Devy, Ganesh N. *After Amnesia*. Orient Longman, 1992.

---. "Swa and Para". *Of Many Heroes*. Orient Longman, 1998.

Kane, P. V. *History of Sanskrit Poetics*. 3rd. ed. Motilal Banararsidas, 2002.

Kapoor, Kapil and Nalini M. Ratnam. *Literary Theory: Indian Conceptual Framework*. Affiliated East-West Press, 1998.

Loomba, Ania. *Colonialism/ Postcolonialism*. 2nd ed. London and New York: Routledge, 2005. Print.

Ahmad, Aijaz. *In Theory: Classes, Nations, Literatures*. OUP, 1992.

Nemade, Bhalchander. "Nativism in Literature." Trans. and ed. by Arvind Dixit and Makarand Paranjape. *Nativism: Essays in Criticism*. Sahitya Akademi, 1997. 233-254.

Rayan, Krishna. *Sahitya, A Theory: For Indian Critical Practice*. Sterling Publishers, 1987.

Sharma, Shrawan K. *Indian Poetics: Theory and Practice*. Creative Books, 2019.

Shastri, Gaurinath. *A Concise History of Classical Sanskrit Literature*. Motilal Banarsidass, 1998.

Course Title: Research Methodology

Course Code: SHSS ENG 01 04 C 16 3104

Objective: The primary objective of this course is to provide the students an understanding of literary research and various methods used in it. The course also aims at introducing basic composition and writing skills for academic purposes.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate, are listed here:

1. An Understanding of the basics of research and academic writing
2. An ability to conduct research and use various research methods appropriately
3. Skills in essay composition and research writing
4. Knowledge and application of MLA style in research writing

Course Content:

Unit I. Introduction to Research

a. Purpose and Uses of Literary Research
b. Identifying Research Interest and Selection of Topic
c. Incorporating Review of Literature and Formulating the Objective(s)/Hypothesis
d. Citing the print and online sources, Bibliography and End-notes
e. Plagiarism and Ethics of Research

Unit II: Structuring the thought and Developing the Draft

a. Organizing the thought
b. Quoting, Paraphrasing, & Summarizing
c. Introduction, Discussion, & Conclusion
d. Developing the art of argument building
e. Incorporating Theoretical, Critical and Interpretive Issues

Unit III: Research Methods, Techniques and Approaches

a) Methods and Techniques of Literary Research

b) Discourse Analysis

c) Textual/Intertextual Analysis: Verbal & Visual

d) Multidisciplinary/Interdisciplinary Approach

e) Creative Writing as Research Method

Unit IV: MLA Handbook and MLA Style

a) Formatting Research Project

b) Mechanics of Prose

c) Drafting and Documenting

d) Grammar and Punctuation

e) Proof-reading and Editing

Suggested Readings:

Altick, Richard D. and John J. Fenstermaker. *The Art of Literary Research*. 4th ed., W. W. Norton & Company, 1992.

Course: Dissertation

Course Code: SHSS ENG 01 04 C 17 012012

Objective(s): To familiarize the students with the art of academic writing and exposing them to the practical understanding of research, research methodology, referencing, different types of citations and other important aspects of MLA Handbook. It will also help the students to develop their area of interest and perform a mini research on the same.

Course Level Learning Outcomes:

Some of the learning outcomes, that the students of this course are expected to demonstrate, are listed as follows:

1. Identify the area of interest and select the topic for minor research.
2. Elaborate, analyse and appreciate the important concepts relating to the topic of dissertation.
3. Discuss and analyse the texts and authors under study.
4. Demonstrate the skill to apply appropriate research methodology and Style Manual.

Length of the Dissertation: 40 to 50 pages in 8000-10000 words.

Supervisors: Students will be assigned Supervisors from amongst the faculty of the department depending upon the specialization to guide them to write the dissertation.

Evaluation and Viva-Voce: The dissertation will be evaluated by the examiner(s) and Viva-Voce shall be conducted on having the satisfactory report from the examiner(s).

Duration: Students will have to submit the dissertation before the commencement of end-semester examinations of the fourth semester.

Course Title: Modern Indian Literature in English Translation

Course Code: SHSS ENG 01 04 E 14 3104

Objective: The different language clusters in India are distinctive but share a common heritage and core identity. Nurturing its plural and diverse traditions, emergent India is engaged in an act ofconstant and ongoing cultural translation and interpretation. This course introduces students to a wide range of Indian Writings in English Translation.

Course Level Learning Outcomes: Some of the learning outcomes of this course are listed as follows:

1. Develop the ability to read and interpret literary texts in terms of genre and contexts.
2. Understand and write cogently on issues specific to Indian context and culture.
3. Appreciate and analyze the use of translation for the understanding of Indian texts.

Course Content:

Unit-I:

Bhism Sahni's *Tamas*

Unit-II:

Vijay Tendulkar's *Silence! The Court is in Session*

Unit-III:

(i) Rabindranath Tagore: "Where the Mind is without Fear" "Brink of Eternity" "A Moment's Indulgence"

(ii) Suryakant Tripathi 'Nirala': "Breaking Stones", "Remembering Saroj"

Unit-IV:

(i) Vaikom Muhammad Basheer: "The Rightful Inheritors of the Earth", "The Invaluable Moment" and "The World Renowned Nose"

(ii) C.S. Lakshmi 'Ambai': "A Kitchen in the Corner of the House" from A Purple Sea, "Parasakti and Others in a Plastic Box" and "A Rose-coloured Sari Woven with Birds and Swans" from *In a Forest, a Deer*

Suggested Readings:

Alien, Richard and Harish Trivedi. Eds. *Literature and Nation: Britain and India, 1800-1990*. Routledge, 2000.

Ambai. *A Purple Sea*. Trans. Lakshmi Holmstrom. East -West Press, 1992.

Basheer, Vaikom Muhammad. *Basheer Fictions*: *Short Stories.* Ed. Vanajam Ravindran. Katha, 1996.

Das, S. K. *History of Indian Literature*. Sahitya Akademi, 1991.

Course Title: Modern World Literature

Course Code: SHSS ENG 01 04 E 15 3104

Objective(s): To introduce the students with the concept of World Literature and select literary texts by the celebrated authors so as to help them develop appreciation for literatures from different regional and national contexts.

Course Level Learning Outcomes:

Some of the learning outcomes, that the students of this course are expected to demonstrate, are listed as follows:

1. Develop understanding of the concept of World Literature from the perspective of Goethe and Tagore.
2. Elaborate, analyse and appreciate the important literary texts and the writers from diverse contexts.
3. Discuss the concept of World Literature vis-à-vis regional/national literatures.
4. Elaborate the inherent link between World Literature and Translation.

Course Content:

Unit-I: Concept of World Literature

Goethe's Concept of *Weltliteratur*

Rabindranath Tagore's Concept of *Visva Sahitya*

World Literature vis-à-vis Comparative Literature

World Literature and Translation

Unit-II:

Gabriel Garcia Marquez: *Love in the Time of Cholera*

Unit-III:

Mo Yan: *The Garlic Ballads*

Unit-IV:

Kalidasa: *Abhijnana Shakuntalam*

Suggested Readings:

Apter, Emily. *Against World Literature: On the Politics of Untranslatability*: *On the Politics of Untranslatability*. Penguin, 2013.

David, Damrosch. *What Is World Literature?* Princeton U. P., 2003.

D'haen, Theo. *The Routledge Concise History of World Literature*. London: Routledge, 2011.

Kalidas. *Abhijnanashakuntalam: The Recognition of Shakuntala*. Penguin India, 2016.

King, Bruce, ed. *The New National and Postcolonial Literatures: An Introduction,* Oxford: Clarendon, 1996.

Tagore, Rabindranath. "Visva Sahitya". *Rabindranath Tagore in the 21st Century*. Ed. D. Banerji. Springer India, 2015.

Course Title: Existentialism and Literature

Course Code: SHSS ENG 01 04 E 16 3104

Objective: The primary objective of this course is to introduce the students with the major existentialist philosophers and their literary and philosophical works. Concerned with the human condition itself, existentialism is a philosophy raising serious ethical questions, and one of the main objectives of this course is to bring the students face to face with those questions and provide an interactive atmosphere to discuss and answer them.

Course Level Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to demonstrate are listed here.

1. Understanding of existentialist philosophy and its relevance to life.
2. Ability to trace the socio-historical reasons for the origin and development of existentialism.
3. Knowledge of the relationship between philosophy and literature.
4. Specialized research interest in studying and analyzing existentialist literature.
5. Understanding of existentialist ethics and ability to explain with reference to other important ethical traditions.

Background Concepts: "The Single Individual"; Facticity and Transcendence; Alienation; Authenticity; Anxiety; Nothingness; The Absurd; Nihilism; "Existence precedes Essence"; Choice and Freedom; Responsibility; Ideality of Values; Decisionism; etc.

Course Content:

Unit-I

a) Soren Kierkegaard**:** "Preface", "Exordium" and Eulogy on Abraham" from *Fear and Trembling*

b) Fyodor Dostoevsky: *Crime and Punishment*

Unit-II

a) Iris Murdoch: "The Sovereignty of Good Over Other Concepts" from *The Sovereignty of Good*

b) Jean Paul Sartre – *Nausea*

Unit-III

a) Albert Camus – "An Absurd Reasoning" and "The Myth of Sisyphus" from *The Myth of Sisyphus*

b) Franz Kafka – *The Trial*

Unit-IV

1. Friedrich Nietzsche – "Preface" and "'Good and Evil', 'Good and Bad'" from *On the Genealogy of Morals*

2. Andre Gide – *The Immoralist*

Suggested Readings:

Bakewell, Sarah. *At the Existentialist Café: Freedom, Being, and Apricot Cocktails.* Random House, 2017.

Barrett, William. *Irrational Man: A Study in Existential Philosophy*. Anchor Books/Doubleday, 2011.

Teaching Learning Process

- LOCF
- NEP-2020
- Blended Learning
- Face to face (F to F) Learning
- Programme Outcomes
- Programme Specific Outcomes
- Course-level Learning Outcomes
- Postgraduate Attributes
- Learning Outcome Index
- Formative Assessment and Evaluation
- Comprehensive and Continuous Evaluation
- Multidisciplinary Approach

Blended Learning

Concept: Blended Learning is a pedagogical approach that combines face to-face classroom methods with computer-mediated activities in the process of teaching and learning. It implies nice blend of face-to-face and online activities to make the learning processes more interesting and engaging. It focuses on integration of traditional classroom activities and innovative ICT-enabled strategies. It emphasises student-centric learning environment where the teacher is the facilitator for productive and measurable learning outcomes. It optimises and compliments the face to face learning, giving ample freedom and flexibility to the students and teachers to access and explore the wide range of open-access sources such as video lectures, podcasts, recordings and articles through digital platforms. It gives freedom and autonomy to the teachers in selection of appropriate digital platforms, resources and time-slots to complement and supplement face to face learning. The Blended Learning doesn't undermine the role of the teacher, rather it gives him/her an opportunity to explore the unexplored in accordance with the requirements of the curriculum.

Key Features of Blended Learning:

- Student-Centric Pedagogical Approach focusing on flexibility in timing, quality content, needs and interests of students and freedom to study through the mode of his/her choice;
- Freedom to Select variety of mediums and techniques;
- Increased student engagement in learning;
- Enhanced teacher and student interaction;
- Improved student learning outcomes;
- More flexible teaching and learning environment;
- More responsive for self and continuous learning;
- Better opportunities for experiential learning;
- Increased learning skills;
- Greater access to information, improved satisfaction and learning outcomes.

Assessment and Evaluation

- Continuous Comprehensive Evaluation to assess each Course-level learning outcome
- Formative Assessment instead of one-time summative assessment
- Oral Examinations to test presentation and communication skills
- Moving towards Open Book Examination for better understanding and application of the knowledge acquired
- Assessment tools aligned with specific learning outcomes for each course
- Collaborative Assignments and Group Examinations on Problem solving
- Seminar Presentations
- Review of Literature

Key Features of Revised Curriculum

- Wide Range of Core and Elective Courses
- Properly Spelled Out Measurable Outcomes for Each Course
- Integration of Indian culture, heritage and literature with domain knowledge;
- One Course on Indian Literature in Each Semester
    - Indian Classical Literature
    - Bhakti Poetry
    - Indian Writings in English
    - Modern Indian Literature in English Translation
    - Literary Criticism in India
    - Contemporary South Asian Fiction in English
    - Dalit Literature and Aesthetics
- Multidisciplinary Courses
    - Gender and Literature
    - Literature of Protest
    - Dalit Literature and Aesthetics
    - Existentialism and Literature
    - Literature and Human Rights
    - Disability Studies and Literature
- Skill-oriented curriculum and pedagogy
    - Communication Skills
    - Creative Writing
    - Introduction to Translation: Theory and Practice
    - Introduction to Linguistics
    - English Language Teaching
- Compatibility between Programme Outcomes, Programme-specific Outcomes and Course-Level Learning Outcomes
- Wider flexibility in selection of courses

Appendix

Curricular Reforms— Extracts from National Education Policy-2020

I. National Education Policy: Vision of Higher Education:

- Enabling the development of an enlightened, socially conscious, knowledgeable, and skilled nation
- The basis for knowledge creation and innovation thereby contributing to a growing national economy.
- The key to more vibrant, socially engaged, cooperative communities and a happier, cohesive, cultured, productive, innovative, progressive, and prosperous nation.
- Contributing towards sustainable livelihoods and economic development of the nation
- Creating holistic, thoughtful, creative and well-rounded individuals equipped with the key 21st century skills.

II. NEP: Emphasis on Integrated Approach:

- An integrated higher education system, including professional and vocational education;
- Enabling and encouraging high-quality multidisciplinary and cross-disciplinary education;
- 21st century capacities in fields across the arts, humanities, languages, sciences, social sciences, and professional, technical, and vocational fields;
- Even engineering institutions, such as IITs, to move towards more holistic and multidisciplinary education with more arts and humanities.
- Students of arts and humanities will aim to learn more science
- Efforts to incorporate more vocational subjects and soft skills in general education
- Integration of the humanities and arts with STEM for positive learning outcomes.

III. NEP: Recommendation on Curricular Aspects:

- Revamping curriculum, pedagogy, assessment, and student support for enhanced student experiences;
- Developing real understanding and learning how to learn - away from the culture of rote learning.
- Developing character, ethical and Constitutional values, intellectual curiosity, scientific temper, creativity, spirit of service
- Prepare the students for more meaningful and satisfying lives and work roles
- Identifying specific sets of skills and values across domains, while enabling the students to become economically independent.

IV. NEP: Recommended Skills

- 21st century capabilities across the range of disciplines;
- Personal accomplishment and enlightenment;
- Constructive public engagement;
- Productive contribution to the society;
- Scientific temper and evidence-based thinking;
- Creativity and innovativeness;
- Critical thinking and higher-order thinking capacities,
- Communication skills,
- Current affairs and knowledge of critical issues facing local communities, States, country and the world.
- In-depth learning and mastery of curricula across fields
- Social and moral awareness,

- Sense of aesthetics and art;
- Oral and written communication;
- Health and nutrition;
- Physical education, fitness, wellness, and sports;
- Collaboration and teamwork;
- Problem solving and logical reasoning;
- Environmental awareness, water/resource conservation, sanitation and hygiene
- In-depth learning and mastery of curricula across fields
- Social and moral awareness,
- Sense of aesthetics and art;
- Oral and written communication;
- Health and nutrition;
- Physical education, fitness, wellness, and sports;
- Collaboration and teamwork;
- Problem solving and logical reasoning;
- Environmental awareness, water/resource conservation, sanitation and hygiene

V. NEP: Recommended Reforms

- Introduction of contemporary subjects such as Artificial Intelligence, Design Thinking, Holistic Health, Organic Living, Environmental Education, Global Citizenship Education (GCED), etc. to develop various important skills among students.
- Skills and values to be imbibed through engaging processes of teaching and learning
- Curriculum content to be reduced to make space for critical thinking and more holistic, inquiry-based, discovery-based, discussion-based, and analysis-based learning
- Content will focus on key concepts, ideas, applications, and problem solving
- Experiential learning including hands-on learning, arts-integrated and sports-integrated education,
- Story-telling-based pedagogy in each subject.
- Various aspects and forms of art and culture as the basis for learning of concepts across subjects
- Imbibing the Indian ethos through integration of Indian art and culture in teaching and learning process
- Curriculum and pedagogy to be strongly rooted in the Indian and local context and ethos in terms of culture, traditions, heritage, customs, language, philosophy, geography, ancient and contemporary knowledge, societal and scientific needs, indigenous and traditional ways of learning etc.
- Empowering the students through flexibility in course choices
- Imaginative and flexible curricular structures to enable creative combinations of disciplines for study
- Offering multiple entry and exit points by removing currently prevalent rigid boundaries and creating new possibilities for life-long learning.
- Indian standards will be aligned with the International Standard Classification of Occupations maintained by the International Labour Organization.
- No hard separation among ‘curricular’, ‘extracurricular ’, or ‘co-curricular’, among ‘arts’, ‘humanities’, and ‘sciences’, or between ‘vocational’ or ‘academic’ streams.
- Exposure to Indian knowledge system, cultural traditions and classical literature through promotion of multilingualism and reverence for Indian classical languages
- Weaving the cultural aspects of the languages - such as films, theatre, storytelling, poetry, and music with various relevant subjects and real-life experiences
- “Knowledge of India” to educate the students about knowledge from ancient India and its contributions to modern India

- Basic ethical reasoning, traditional Indian values and human and Constitutional values to be developed in all students.
- Credit-based courses and projects in the areas of community engagement and service, environmental education, and value-based education.
- Opportunities for internships with local industry, businesses, artists, crafts persons, etc. so that students engage with the practical side of their learning to improve their employability.
- Focus areas for vocational education will be chosen based on skills gap analysis and mapping of local opportunities.
- Focus on research and innovation through start-up incubation centres; technology development centres; and greater industry-academic linkages;
- Technical Education requires closer collaborations between industry and higher education institutions to drive innovation in curricular planning for desired outcomes.
- Technical education should have a renewed focus on opportunities to engage deeply with other disciplines for enhancing the employability of the youth.
- Continuous formative assessment to further the goals of each programme.
- Moving away from high-stakes examinations towards more continuous and comprehensive evaluation.
- Assessing the student achievement based on the learning goals for each programme, making the system fairer and outcomes more comparable.
- All programmes, courses, curricula, and pedagogy across subjects, including those in-class, online, and in ODL modes to achieve global standards of quality.
- Faculty be given the freedom to design their own curricular and pedagogical approaches within the approved framework, including textbook and reading material selections, assignments, and assessments.
- Empowering the faculty to conduct innovative teaching, research, and service as they see best.
- Classroom transactions to shift towards competency-based learning and education
- The assessment tools to be aligned with the learning outcomes, capabilities, and dispositions as specified for each subject

हरियाणा केंद्रीय विश्वविद्यालय

(संसद अधिनियम संख्या 25 (2009) के तहत स्थापित)
राष्ट्रीय मूल्यांकन एवं प्रत्यायन परिषद से 'ए' ग्रेड प्राप्त विश्वविद्यालय
महेंद्रगढ़-123031 (हरि.)

कार्यवृत्त

हिंदी विभाग के अध्ययन मंडल की ऑनलाइन बैठक दिनांक 02.09.2021, दिन-वीरवार, पूर्वाह्न 11:00 बजे आयोजित हुई। इसमें निम्नलिखित सदस्य उपस्थित हुए-

1. प्रो. एम.पी. शर्मा, पूर्व आचार्य, हिंदी विभाग, जामिया मिल्लिया इस्लामिया, नई दिल्ली
2. प्रो. माया मलिक, अध्यक्ष, हिंदी विभाग, महर्षि दयानंद विश्वविद्यालय, रोहतक
3. डॉ. अमित कुमार, सहायक प्रोफ़ेसर एवं प्रभारी, हिंदी विभाग, हकेवि.
4. डॉ. अरविन्द सिंह तेजावत, सहायक प्रोफ़ेसर, हिंदी विभाग, हकेवि.

समिति के सदस्यों के स्वागतोपरांत कार्यसूची के निम्नलिखित बिंदु पर विचार किया और निर्णय लिए गए :

1. **एम.ए. एवं पीएच.डी. (कोर्स वर्क) के पाठ्यक्रमों का अनुमोदन। (अनुलग्नक-'क' तथा 'ख')।**
संस्तुति : अध्ययन मंडल ने एम.ए. एवं पीएच.डी. (कोर्स वर्क) के पाठ्यक्रमों को विस्तारपूर्वक चर्चा के उपरांत अनुमोदित एवं पारित किया। साथ ही, किसी भी अपेक्षित संशोधन हेतु प्रभारी/अध्यक्ष, हिंदी विभाग को अधिकृत किया।

विचारार्थ अन्य कोई विषय न होने की स्थिति में धन्यवाद ज्ञापन के साथ बैठक संपन्न हुई।

(प्रो. एम.पी. शर्मा) (प्रो. माया मलिक)

(डॉ. अमित कुमार) (डॉ. अरविंद सिंह तेजावत)

1. पीएच.डी. (कोर्स वर्क) का पाठ्यक्रम अनुमोदित।

2. एम.ए. (हिंदी) का पाठ्यक्रम मेरे द्वारा दिनाँक 02 सितंबर 2021 को अधिष्ठाता (मानविकी एवं सामाजिक विज्ञान) को प्रेषित ईमेल के आलोक में अनुमोदित। (ईमेल अध्ययन मंडल से सभी सदस्यों के साथ साझा की जा चुकी है)

सुझाव: 1. एम.ए. (हिंदी) के पाठ्यक्रम में अपेक्षित सुधार जल्द हो।
2. अध्ययन मंडल में पाठ्यक्रम प्रस्तुति से पूर्व आवश्यक प्रक्रियाओं का पालन किया जाए तथा पाठ्यक्रम से संबंधित विभागीय एवं पाठ्यक्रम निर्माण समिति के सदस्यों की लिखित सहमति प्राप्त कर ली जाए।

पृष्ठभूमि

हरियाणा केंद्रीय विश्वविद्यालय के सभी शैक्षणिक विभागों ने नयी शिक्षा नीति-2020 एवं उच्च शिक्षण संस्थान हेतु विश्वविद्यालय अनुदान आयोग गुणवत्ता जनादेश-2021 की तारतम्यता में, वांछित अधिगम परिणामों हेतु पाठ्यक्रम सुधार को आवश्यक मानते हुए, स्नातक और स्नातकोत्तर के समस्त पाठ्यक्रमों को अथक प्रयास के द्वारा संशोधित किया है। पाठ्यक्रम संशोधन की प्रक्रिया 23 अप्रैल, 2021 को विश्वविद्यालय की शैक्षणिक परिषद् की 32वीं बैठक में ग्रहित 'नयी शिक्षा नीति-2020 के क्रियान्वयन हेतु व्यापक दिशा-निर्देश' से अनुप्रेरित है। इस दिशा-निर्देश ने नीति की प्रमुख विशेषताओं की पहचान की और प्रमुख शैक्षणिक सुधारों के लिए अच्छी तरह से परिभाषित जिम्मेदारियों एवं सांकेतिक समय-रेखा के साथ कार्य-योजना को स्पष्ट किया। इस नीति की प्रमुख विशेषताओं के बारे में शिक्षकों को उन्मुख करने के लिए विश्वविद्यालय द्वारा आयोजित वेबिनार और चर्चाओं की शृंखला के साथ पाठ्यक्रम में सुधार की प्रक्रिया शुरू हुई, जिससे वे नीति के साथ पाठ्यक्रम को संशोधित करने में सक्षम हो सकें। नयी शिक्षा नीति-2020 की दूरदर्शिता और प्रावधानों के बारे में शिक्षकों के उचित उन्मुखीकरण ने उनके लिए नीति के महत्वपूर्ण पहलुओं की महत्ता को समझने व उन्हें संशोधित पाठ्यक्रम में शामिल करना आसान बना दिया है, जो कि 'एक प्रबुद्ध, सामाजिक रूप से जागरूक, ज्ञानवान और कौशल-संपन्न राष्ट्र के विकास' के लिए '21वीं सदी के कौशलों की कुंजी के साथ सम्पूर्ण, विचारशील, रचनात्मक और अच्छी तरह से सुसज्जित व्यक्तियों के निर्माण' पर केंद्रित है।

नयी शिक्षा नीति-2020 के परिप्रेक्ष्य में संशोधित पाठ्यक्रम अग्रलिखित बिन्दुओं पर बल दते हुए इस नीति की आत्मा को प्रस्तुत करता है- अधिगम का समेकित दृष्टिकोण; नवीन शिक्षण प्रविधि और आकलन-पद्धति; बहु-विषयी और अंतर-अनुशासनिक शिक्षा; रचनात्मक और आलोचनात्मक चिंतन; मूल्य-आधारित पाठ्यक्रम के माध्यम से नैतिक एवं संवैधानिक मूल्य; पेशेवर कौशल, उद्यमिता और जीवन कौशल के माध्यम से अनुशासनों से निर्बंध 21वीं सदी की क्षमताएँ; सामुदायिक और रचनात्मक जनसहयोग; सामाजिक, नैतिक और पर्यावरणीय जागरूकता; जैविक रहवास और वैश्विक नागरिकबोध की शिक्षा; परिपूर्ण, जिज्ञासामूलक, अन्वेषणमूलक, विमर्शमूलक और विश्लेषणमूलक अधिगम; 'भारत-ज्ञान' संबंधी प्रासंगिक कार्यक्रम के माध्यम से भारतीय ज्ञान-पद्धति, सांस्कृतिक परम्पराओं और शास्त्रीय साहित्य की पड़ताल; अधिगम के भारतीय एवं परम्परागत विधियों के साथ आधुनिक शिक्षण पद्धति का समुचित मिश्रण; पाठ्यक्रम चयन की स्वतंत्रता; विद्यार्थी केंद्रित भागीदारीमूलक अधिगम; अध्ययन हेतु अनुशासनों के रचनात्मक संयोजन को प्रभावी करने के लिए कल्पनाशील और लचीली पाठ्यचर्या संरचना; प्रथमत: स्नातक कार्यक्रमों में बहुविकल्पीय प्रवेश एवं निकास का प्रस्ताव; अंतरराष्ट्रीय श्रम संगठन द्वारा बनाए गए व्यवसायों के अंतरराष्ट्रीय मानक वर्गीकरण के साथ व्यावसायिक पाठ्यक्रमों का सरेखण; अनुशासनों को निर्बंध करना; पाठ्यचर्या और पाठ्येतर पहलुओं का समवाय; स्थानीय उद्योग, व्यवसायों, कलाकारों और शिल्पकारों के साथ प्रशिक्षण के अवसर; तकनीकी, व्यावसायिक और विज्ञान कार्यक्रमों के लिए उद्योग और उच्च शिक्षा संस्थानों के बीच घनिष्ठ सहयोग और प्रत्येक पाठ्यक्रम के लिए निर्दिष्ट सीखने के परिणामों, क्षमताओं व स्वभाव के साथ गठबंधन करने के लिए रचनात्मक मूल्यांकन उपकरण, अभियांत्रिकी और व्यावसायिक अध्ययन में स्नातक कार्यक्रमों के मामले में, यह निर्णय लिया गया था कि विभाग एआईसीटीई, एनबीए, एनएसक्यूएफ, व्यवसायों के अंतरराष्ट्रीय मानक वर्गीकरण, सेक्टर कौशल परिषद और अन्य संबंधित एजेंसियों/स्रोतों का अनुपालन करते हुए प्रासंगिक नयी शिक्षा नीति की संस्तुतियों को शामिल करेंगे। विश्वविद्यालय ने प्रत्येक कार्यक्रम हेतु पाठ्य-

सामग्री का 40% ऑनलाइन एवं 60% प्रत्यक्ष शिक्षण द्वारा संचालित करने पर सहमति बनायी। विभिन्न कार्यक्रमों के संशोधित पाठ्यक्रम को शिक्षकों, विभागाध्यक्षों और पीठ के अधिष्ठाता के सामूहिक प्रयास से तैयार किया गया है। प्रत्येक विभाग द्वारा विभाग, पीठ एवं विश्वविद्यालय स्तर पर आयोजित शृंखलाबद्ध विचार-सत्रों में गहन विचार-विमर्श से पाठ्यक्रम-प्रारूप निर्मित किया गया है। संशोधित पाठ्यक्रम के लिए एक समान रूप और संरचना विकसित करने की पूरी कवायद के पीछे विश्वविद्यालय का नेतृत्व एक प्रेरक शक्ति रहा है।

विश्वविद्यालय के कुलपति ने पाठ्यक्रम के विविध आयामों एवं दृष्टिकोणों के अनुरूप एकीकृत ढाँचे हेतु पृष्ठभूमि, कार्यक्रम निष्कर्ष, कार्यक्रम विशेष के निष्कर्ष, स्नातकोत्तर की महत्ता, निष्णात पाठ्यक्रम की संरचना, अधिगम निष्कर्ष सूचकांक, सेमेस्टरवार पाठ्यक्रम और क्रेडिट वितरण, पाठ्यक्रम आधारित अधिगम निष्कर्ष, शिक्षण-अधिगम प्रक्रिया, मिश्रित अधिगम, आकलन एवं मूल्यांकन, प्रमुख बिंदु, संदर्भ एवं अनुलग्नक जैसे बिंदुओं पर विभागाध्यक्षों और अधिष्ठाताओं के साथ शृंखलाबद्ध बैठकें की। विभिन्न अध्ययन मंडल एवं पीठ मंडल के विशेषज्ञों ने प्रत्येक कार्यक्रम के पाठ्यक्रम को अंतिम रूप प्रदन करने में अपनी महती भूमिका अदा की।

नयी शिक्षा नीति-2020 में परिकल्पित पाठ्यचर्या सुधारों के क्रियान्वयन को सुनिश्चित करने के लिए, विश्वविद्यालय ने विभिन्न प्रावधानों को चरणबद्ध तरीके से लागू करने का निर्णय लिया है। अत: पाठ्यक्रम की वार्षिक समीक्षा की जा सकेगी।

कार्यक्रम के परिणाम

एम.ए. हिंदी कार्यक्रम की पूर्णता के उपरांत विद्यार्थी निम्नलिखित परिणामों से लाभान्वित होगा :

PO-1.	जीवन के नानाविध स्तरों की समझ का पूर्णता में निदर्शन।
PO-2.	जीवन की यथार्थ स्थितियों में विभिन्न सामाजिक, राजनीतिक एवं साहित्यिक धाराओं का अनुप्रयोग तथा विमर्श।
PO-3.	बहुविषयी दृष्टिकोण के द्वारा समसामयिक सामाजिक, राजनीतिक, सांस्कृतिक और साहित्यिक संदर्भों का विमर्श एवं समझ।
PO-4.	जीवन की वस्तुगत स्थितियों में प्रासंगिक, सैद्धांतिक अवधारणाओं के अनुप्रयोग का निदर्शन।
PO-5.	मानविकी एवं समाज विज्ञान में उच्चानुशीलित-अत्याधुनिक ज्ञान में परंपरागत ज्ञान के समावेशन की दक्षता।
PO-6.	ज्ञान के अंत:विषयी और अंतरविषयी समझ के आधार पर उपयुक्त प्रस्तावों का सूत्रीकरण।
PO-7.	स्थानीय, राष्ट्रीय और अंतरराष्ट्रीय परिदृश्य की समझ एवं विश्लेषण।
PO-8.	सामाजिक परिप्रेक्ष्य में जीवन की वस्तुस्थितियों का विश्लेषण एवं विवेचन की दक्षता का निदर्शन।
PO-9.	मनुष्य के समक्ष उपस्थित समस्याओं के बहुश्रुत एवं दक्ष व्यक्तित्व के रूप में समाधान प्रस्तुत करना।

कार्यक्रम के विशेष परिणाम

एम.ए. हिंदी कार्यक्रम की पूर्णता के उपरांत विद्यार्थी निम्नलिखित परिणामों से लाभान्वित होगा :

PSO-1.	हिंदी साहित्य के विभिन्न रूपों में आलोचनात्मक समझ का प्रदर्शन।
PSO-2.	विभिन्न साहित्यिक विधाओं, शब्दों और आंदोलनों की स्पष्टता के साथ चर्चा।
PSO-3.	रचनात्मक और आलोचनात्मक अंतर्दृष्टि, सौंदर्यबोध और विश्लेषणात्मक कौशल विकास।
PSO-4.	वाचन एवं लेखन में हिंदी भाषा में दक्षता एवं सुसंगतता का प्रदर्शन।
PSO-5.	विभिन्न संदर्भों और युगों में निर्मित साहित्य में साहित्यिक प्रवृत्तियों की तुलना।
PSO-6.	उपयुक्त सैद्धांतिक स्वरूप के साथ साहित्यिक ग्रंथों की जानकारी एवं उनके विश्लेषण का ज्ञान।
PSO-7.	विभिन्न साहित्यिक एवं सांस्कृतिक परंपराओं के आलोक में क्षेत्रीय और विश्व साहित्य का बोध।
PSO-8.	साहित्यिक दृष्टिकोण से जीवन की वास्तविकताओं की व्याख्या करने की क्षमता का निदर्शन।
PSO-9.	साहित्य में शोध हेतु दक्षता और कौशल का उन्नयन।

स्नातकोत्तर की महत्ता/विशेषता

- अंत:अनुशासनिक और अंतर-अनुशासनिक ज्ञान
- रचनात्मक एवं आलोचनात्मक कौशल का विकास
- बहुआयामी चिंतन
- समस्या निवारण
- तर्क पद्धति का विकास
- संप्रेषण कौशल
- अनुसंधान कौशल
- जीवन एवं नैतिक मूल्य
- भारतीय एवं वैश्विक ज्ञान एवं संस्कृतिबोध
- व्यावसायिक कौशल
- सतत अधिगम के उपक्रम

- हिंदी साहित्य का अतीत (दो खंड); विश्वनाथ प्रसाद मिश्र; वाणी प्रकाशन, दिल्ली; 2012.
- पृथ्वीराज रासो; संपा. कविराव मोहन सिंह; राजस्थानी ग्रंथागार, उदयपुर; 2013.
- विद्यापति पदावली; संपा. रामवृक्ष बेनीपुरी; साहित्य सरोवर, पटना; 2018.
- ढोला मारू रा दूहा; संपा. नरोत्तम स्वामी, सूर्यकरण पारीक एवं राम सिंह; राजस्थानी ग्रंथागार, उदयपुर; 2014.
- अमीर खुसरों का हिंदवी काव्य; गोपी चंद नारंग; वाणी प्रकाशन, दिल्ली; 2012.
- हिंदी रीति साहित्य; भगीरथ मिश्र; राजकमल प्रकाशन,दिल्ली; 1999.
- केशवदास; संपा. विजयपाल सिंह, लोकभारती प्रकाशन, इलाहाबाद; 2015.
- बिहारी का नया मूल्यांकन; बच्चन सिंह; लोकभारती प्रकाशन, इलाहाबाद; 2014.
- घनानंद का शृंगार काव्य; रामदेव शुक्ल; अनन्य प्रकाशन, दिल्ली; 2017.

पाठ्यक्रम : पुस्तक एवं फिल्म समीक्षा (अनिवार्य)
पाठ्यक्रम कोड : SHHSS HND 1 2 01 DCEC 0202

पाठ्यक्रम का उद्देश्य :

- पुस्तक एवं फिल्म समीक्षा के माध्यम से आलोचनात्मक दृष्टि का विकास।

पाठ्यक्रम के अपेक्षित परिणाम :

- पुस्तक एवं फिल्म की जानकारी की प्राप्ति।
- पुस्तक एवं फिल्म के भाव, भाषा और शिल्प का ज्ञान।

नोट : यह पाठ्यक्रम चयनित फिल्मों एवं पुस्तकों की समीक्षा पर आधारित होगा. फिल्मों एवं पुस्तकों का चयन संबंधित शिक्षक द्वारा किया जाएगा.

पाठ्यक्रम : हिंदी पत्रकारिता और जनसंचार
पाठ्यक्रम कोड : SHSS HND 12O2 DCEC 3104

पाठ्यक्रम का उद्देश्य :

- हिंदी पत्रकारिता की भाषा, स्वरूप का बोध प्राप्त करना।

पाठ्यक्रम के अपेक्षित परिणाम :

- जनसंचार माध्यमों की उपयोगिता का मूल्यांकन।
- मीडिया लेखन की विभिन्न तकनीकों के बोध की प्राप्ति।
- समाचार की संरचना और उसकी भाषा का ज्ञान।
- हिंदी पत्रकारिता के इतिहास क्रम की जानकारी।

इकाई	पाठ्यक्रम
1	पत्रकारिता की परिभाषा एवं स्वरूप; हिंदी पत्रकारिता का इतिहास; हिंदी की प्रमुख पत्र-पत्रिकाएँ; हिंदी पत्रकारिता एवं सामयिक मुद्दे; पत्रकरिता और विश्वसनीयता; पीत पत्रकारिता
2	जनसंचार का अर्थ एवं अवधारणा; जनसंचार माध्यमों की संरचना; संचार माध्यमों का स्वरूप एवं भाषा; संचार माध्यमों का सामाजिक प्रभाव; सोशल मीडिया और उसकी आवश्यकता
3	मीडिया लेखन : प्रिंट मीडिया; समाचार पत्र की संरचना; समाचार का अर्थ और प्रकृति; फीचर लेखन; संवाददाता के गुण; समाचार के स्रोत; संपादक और संपादन
4	इलेक्ट्रॉनिक मीडिया: रेडियो लेखन; रेडियो समाचार के गुण; रेडियो और विज्ञापन; टी.वी लेखन : समाचार लेखन; समाचारों की प्रस्तुति एवं भाषा

अनुशंसित पुस्तकें :

- हिंदी पत्रकारिता का वृहद् इतिहास; अर्जुन तिवारी; वाणी प्रकाशन, दिल्ली; 1997.
- अखबारनामा : साम्राज्यवादी पत्रकारिता; आलोक श्रीवास्तव; संवाद प्रकाशन, मेरठ; 2020.
- पत्रकारिता के उत्तर-आधुनिक चरण; कृपाशंकर चौबे; वाणी प्रकाशन, दिल्ली; 2003.
- बोलना ही है; रवीश कुमार; राजकमल प्रकाशन, दिल्ली; 2019.
- साहित्यिक पत्रकारिता; ज्योतिष जोशी; वाणी प्रकाशन, दिल्ली; 2018.
- संचार माध्यम लेखन; गौरीशंकर रैणा; वाणी प्रकाशन, दिल्ली; 2009.
- पत्रकारिता : इतिहास और प्रश्न; कृष्ण बिहारी मिश्र; वाणी प्रकाशन, दिल्ली; 2012.
- समकालीन वैश्विक पत्रकारिता में अखबार; प्रांजल धर; वाणी प्रकाशन, दिल्ली; 2013.
- आधुनिक विज्ञापन; प्रेमचंद पातंजलि; वाणी प्रकाशन, दिल्ली; 2008.
- विज्ञापन डॉट कॉम; रेखा सेठी; वाणी प्रकाशन, दिल्ली; 2012.
- कंप्यूटर और हिंदी; हरिमोहन; तक्षशिला प्रकाशन, दिल्ली; 2015.
- रेडियो और दूरदर्शन पत्रकारिता; हरिमोहन; तक्षशिला प्रकाशन, दिल्ली; 2017.
- मीडिया, जनतंत्र और आतंकवाद; सुधीश पचौरी; राधाकृष्ण प्रकाशन, दिल्ली; 2005.
- समाचार, फीचर लेखन तथा संपादन कला ; डॉ. हरिमोहन; तक्षशिला प्रकाशन, दिल्ली; 1999.

- मीडिया की बदलती भाषा; डॉ. अजय कुमार सिंह; लोकभारती प्रकाशन, इलाहाबाद; 2012.
- हिंदी पत्रकारिता; आश्वस्ति और आशंका; कृष्ण बिहारी मिश्र; प्रभात प्रकाशन, दिल्ली; 2019.

पाठ्यक्रम : आधुनिक भारतीय साहित्य
पाठ्यक्रम कोड : SHSS HND 1 2 03 DCEC 3104

पाठ्यक्रम का उद्देश्य :

- आधुनिक भारतीय साहित्य की अवधारणा एवं स्वरूप की जानकारी।

पाठ्यक्रम के अपेक्षित परिणाम :

- भारतीय साहित्य की अवधारणा की समझ का विकास।
- आधुनिक भारतीय साहित्य में अभिव्यक्त मूल्यों का ज्ञान ।
- आधुनिक भारतीय साहित्य के सरोकारों से परिचय।
- हिंदी एवं अन्य भारतीय भाषाओं के साहित्य की तुलनात्मक जानकारी

इकाई	पाठ्यक्रम
1	भारत और भारतीयता की अवधारणा; भारतीय चिंतन परंपरा; भारत में बहुभाषिकता और बहुसांस्कृतिकता; आधुनिक भारतीय साहित्य का स्वरूप
2	**उपन्यास :** तकषी शिवशंकर पिल्लै : मछुआरे (मलयालम) **नाटक :** गिरीश कर्नाड : तुगलक (कन्नड़)
3	**चिंतन :** ज्योतिबा फुले : गुलामगिरी (मराठी) **कहानी :** करतार सिंह दुग्गल : इंसानियत (पंजाबी) सच्चिदानंद राउतराय : जंगल (उड़िया)
4	**कविताएँ : रवींद्रनाथ टैगोर :** अभिसार, प्राण, मुक्ति त्राण, भारत तीर्थ, बंदी, अपमानित (अनुवाद एवं संपादन : हजारी प्रसाद द्विवेदी) (बांग्ला) **: ग़ालिब :** कोई उम्मीद बार नहीं आती, हजारों ख्वाहिशें ऐसी कि हर ख्वाहिश पे दम निकले, बाज़ीचा-ए-अत्फ़ाल है दुनिया मेरे आगे (उर्दू)

अनुशंसित पुस्तकें :

- भारतीय साहित्य की भूमिका; रामविलास शर्मा; राजकमल प्रकाशन, दिल्ली; 2017.

- बीतती सदी में; नोबेल विजेता कवयित्री विस्साव शिम्बोर्स्का की कविताएँ; रूपांतर-विजय आहलूवालिया; संवाद प्रकाशन, मुंबई/मेरठ; 2004.

- दो नोबेल पुरस्कार विजेता कवि : चेस्साव मिविश, विस्वावा शिम्बोर्स्का; अनु. विष्णु खरे; वाणी प्रकाशन, दिल्ली; 2001.
- माँ; मैक्सिम गोर्की; विदेशी भाषा प्रकाशन, मास्को; 2008.
- जब मैं जड़ों के बीच रहता हूँ; पाब्लो नेरुदा; अनु. रामकृष्ण पाण्डेय; परिकल्पना प्रकाशन, लखनऊ; 2014.

पाठ्यक्रम : कथेतर गद्य साहित्य
पाठ्यक्रम कोड : SHSS HND 1 2 07 DCEC 3104

पाठ्यक्रम का उद्देश्य :

- हिंदी कथेतर गद्य साहित्य की जानकारी प्रदान करना।

पाठ्यक्रम के अपेक्षित परिणाम :

- भारतेंदु पूर्व हिंदी गद्य की निर्माण भूमि के बारे जानकारी मिलेगी।
- हिंदी निबंध, रेखाचित्र, संस्मरण, आत्मकथाओं आदि की लेखन परंपरा का ज्ञान होगा।
- महत्त्वपूर्ण हिंदी निबंधों एवं अन्य विधाओं की आलोचनात्मक समझ विकसित होगी।

इकाई	पाठ्यक्रम
1.	हिंदी गद्य की निर्माण भूमि : फोर्ट विलियम कॉलेज; भारतेंदु पूर्व हिंदी गद्य; गिलक्राइस्ट, सदल मिश्र, इंशाअल्ला खां, सदासुख लाल, शिव प्रसाद सितारेहिन्द, राजा लक्ष्मण सिंह का परिचयात्मक अध्ययन
2.	भारतेंदु युग : आधुनिकता और गद्य का अंतर्संबंध; हिंदी गद्य के विकास में द्विवेदी युग का महत्त्व; हिंदी निबंध, रेखाचित्र, संस्मरण, यात्रा-वृत्तांत, रिपोर्ताज, आत्मकथा, व्यंग्य, डायरी एवं लघुकथा लेखन की परंपरा
3.	**निबंध :** साहित्य जन समूह के हृदय का विकास है (बालकृष्ण भट्ट); बनाम लार्ड कर्जन (बालमुकुंद गुप्त); मजदूरी और प्रेम (अध्यापक पूर्ण सिंह); कविता क्या है (रामचंद्र शुक्ल); नाखून क्यों बढ़ते हैं (हजारी प्रसाद द्विवेदी); मेरे राम का मुकुट भीग रहा है (विद्यानिवास मिश्र); उत्तराफाल्गुनी के आस-पास (कुबेरनाथ राय)
4.	**यात्रा संस्मरण :** नेपाल की ओर (मेरी तिब्बत यात्रा-राहुल सांकृत्यायन) **रेखाचित्र :** ठकुरी बाबा (महादेवी वर्मा), माटी की मूरतें (रामवृक्ष बेनीपुरी) **आत्मकथा :** अपनी खबर (पाण्डेय बेचन शर्मा 'उग्र'); **रिपोर्ताज :** तूफानों के बीच (रांगेय राघव)

अनुशंसित पुस्तकें :

- मेरी तिब्बत यात्रा; राहुल सांकृत्यायन; छात्रहितकारी पुस्तकमाला, प्रयाग; 1937.
- हिंदी गद्य : इधर की उपलब्धियां; पुष्पपाल सिंह; वाणी प्रकाशन, इलाहाबाद; 2004.
- हिंदी गद्य : विन्यास और विकास; रामस्वरूप चतुर्वेदी; लोकभारती प्रकाशन, इलाहाबाद; 2018.
- हिंदी का गद्य-साहित्य; रामचंद्र तिवारी; विश्वविद्यालय प्रकाशन, वाराणसी; 2014.
- आधुनिक हिंदी गद्य का विकास और विश्लेषण; विजय मोहन सिंह; भारतीय ज्ञानपीठ, दिल्ली; 2014.
- हिंदी कथेतर गद्य : परंपरा और प्रयोग; दयानिधि मिश्र; वाणी प्रकाशन, दिल्ली; 2020.
- बालमुकुंद गुप्त के श्रेष्ठ निबंध; सत्यप्रकाश मिश्र; लोकभारती प्रकाशन, इलाहाबाद; 2005.
- श्रेष्ठ निबंध; आचार्य रामचंद्र शुक्ल; संपा. रामचंद्र तिवारी; राजकमल प्रकाशन, दिल्ली; 2004.
- सरदार पूर्णसिंह अध्यापक के निबंध; संपा. प्रभात शास्त्री; कौशांबी प्रकाशन, इलाहाबाद; संवत 2015.
- हजारीप्रसाद द्विवेदी : संकलित निबंध; संपा. नामवर सिंह; नेशनल बुक ट्रस्ट, दिल्ली; 2020.
- विद्यानिवास मिश्र; चयन एवं संपा. गिरीश्वर मिश्र; साहित्य अकादमी, दिल्ली; 2016.
- कुबेरनाथ राय : रचना संचयन; चयन एवं संपा. हनुमान प्रसाद शुक्ल; साहित्य अकादमी, दिल्ली; 2015.

- स्मृति की रेखाएं; महादेवी वर्मा; लोकभारती प्रकाशन, इलाहाबाद; 2008.
- माटी की मूरतें; रामवृक्ष बेनीपुरी; प्रभात प्रकाशन, दिल्ली; 2019.
- तूफ़ानों के बीच; रांगेय राघव; राधाकृष्ण प्रकाशन, दिल्ली; 2012.
- अपनी ख़बर; पांडेय बेचन शर्मा 'उग्र'; राजकमल प्रकाशन, दिल्ली; 2006.

पाठ्यक्रम : प्रवासी हिंदी साहित्य
पाठ्यक्रम कोड : SHSS HND 1 2 08 DCEC 3104

पाठ्यक्रम का उद्देश्य :

- प्रवासी हिंदी साहित्य से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- प्रवासी हिंदी साहित्य के हिंदी में अवदान की जानकारी।
- प्रवासी हिंदी साहित्य में अभिव्यक्त मूल्यों का ज्ञान ।
- प्रवासी हिंदी साहित्य का आलोचनात्मक मूल्यांकन ।

इकाई	पाठ्यक्रम
1.	प्रवासी जीवन : अवधारणा एवं स्वरूप; प्रवासी हिंदी साहित्य : परिभाषा और प्रवृत्तियां; प्रवासी हिंदी साहित्य का आलोचनात्मक मूल्यांकन; वैश्विक पटल पर प्रवासी साहित्य की भूमिका; साहित्य के संबंध में प्रवासी जीवन और समस्याएं
2.	अमेरिका का प्रवासी हिंदी साहित्य; मॉरीशस का प्रवासी हिंदी साहित्य; सूरीनाम का प्रवासी हिंदी साहित्य; अन्य देशों का प्रवासी हिंदी साहित्य
3.	उपन्यास : **अभिमन्यु अनत :** लाल पसीना **सुषम बेदी :** मैंने नाता तोड़ा
4.	कहानियां : **उषा प्रियंवदा :** कितना बड़ा झूठ **तेजेंद्र शर्मा :** देह की कीमत **उषा राजे सक्सेना :** वह रात

अनुशंसित पुस्तकें :

- कितना बड़ा झूठ; उषा प्रियंवदा; राजकमल प्रकाशन, दिल्ली; 2008.
- लाल पसीना; अभिमन्यु अनत; राजकमल प्रकाशन, दिल्ली; 2010.
- मैंने नाता तोड़ा; सुषम बेदी; भारतीय ज्ञानपीठ, दिल्ली; 2009.
- देह की कीमत; तेजेंद्र शर्मा; वाणी प्रकाशन, दिल्ली; 2014.
- वह रात और अन्य कहानियां; उषा राजे सक्सेना; सामयिक प्रकाशन, दिल्ली; 2007.
- सूरीनाम का सृजनात्मक हिंदी साहित्य; संपा. विमलेश काँटी वर्मा, भावना सक्सेना; राधाकृष्ण प्रकाशन, दिल्ली; 2015.
- हिंदी प्रवासी साहित्य; संपा. डॉ. कमल किशोर गोयनका; यश पब्लिकेशन्स, दिल्ली; 2016.
- प्रवासी लेखन : नयी ज़मीन, नया आसमान; अनिल जोशी; वाणी प्रकाशन, दिल्ली; 2018.
- हम प्रवासी; अभिमन्यु अनत; प्रभात प्रकाशन, दिल्ली; 2004.

तृतीय सेमेस्टर

पाठ्यक्रम : भक्तिकाव्य
पाठ्यक्रम कोड : SHSS HND 1 3 09 C 4105

पाठ्यक्रम का उद्देश्य :

- भक्तिकाव्य से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- भक्तिकाव्य की आलोचनात्मक समझ का विकास।
- भक्तिकाव्य की विभिन्न धाराओं की विशिष्टताओं के बारे में ज्ञान।
- भक्तिकाव्य के काव्य-सरोकार व मूल्यों की जानकारी।
- भक्तिकाव्य के प्रतिनिधि कवियों के काव्य की जानकारी।

इकाई	पाठ्यक्रम
.1	भक्ति आंदोलन और उसके संप्रदाय; भक्ति काव्य की दार्शनिक पृष्ठभूमि; कबीर की भक्ति-भावना एवं रहस्य साधना; कबीर का समाज दर्शन; कबीर के काव्य में विद्रोह के स्वर; कबीर की काव्य-भाषा; कबीर: स. हजारी प्रसाद द्विवेदी (पद संख्या 161 से 175 तक)
.2	हिंदी के प्रमुख सूफी कवि एवं सूफी काव्य की विशेषताएँ; जायसी के काव्य में प्रेम भावना; पद्मावत में प्रकृति-चित्रण; पद्मावत में अभिव्यक्त रूपक एवं लोक तत्व; मालिक मुहम्मद जायसी के पद्मावत का 'नागमती वियोग खंड': सं. रामचंद्र शुक्ल
.3	मध्यकाल में स्त्री स्वर; मीरां का जीवन, युग एवं समाज; मीरां के काव्य में लोक तत्त्व; मीरां के काव्य में गीति तत्त्व; मीरां का काव्य: स. विश्वनाथ त्रिपाठी (आरंभिक दस पद) कृष्ण काव्य धारा एवं अष्टछाप के कवि; सूर काव्य में वाग्विदग्धता एवं लोक तत्त्व; सूरदास का श्रृंगार एवं वात्सल्य वर्णन; सूरदास : भ्रमरगीत सार-सं. रामचंद्र शुक्ल (पद संख्या : 21-30)
. 4	लोकमंगल की अवधारणा एवं तुलसीदास; तुलसी काव्य में निहित सामाजिक-सांस्कृतिक दृष्टि; तुलसी की काव्य कला एवं प्रबंध कल्पना; तुलसीदास द्वारा रचित रामचरितमानस का 'उत्तर काण्ड' (गीता प्रैस) (आरंभिक दस दोहे एवं चौपाइयां)

अनुशंसित पुस्तकें :

- भ्रमरगीत सार; रामचन्द्र शुक्ल; वाणी प्रकाशन, दिल्ली; 2009.
- गोस्वामी तुलसीदास; रामचन्द्र शुक्ल; नागरी प्रचारिणी सभा, वाराणसी; 1935.
- हिंदी साहित्य की भूमिका; हजारी प्रसाद द्विवेदी; राजकमल प्रकाशन, दिल्ली; 2005.
- कबीर; हजारी प्रसाद द्विवेदी; राजकमल प्रकाशन दिल्ली; 2019.

- सूर साहित्य; हजारी प्रसाद द्विवेदी; राजकमल प्रकाशन, दिल्ली; 2017.
- त्रिवेणी; रामचंद्र शुक्ल; वाणी प्रकाशन, दिल्ली; 2016.
- मध्यकालीन बोध और साहित्य; हजारीप्रसाद द्विवेदी; राजकमल प्रकाशन दिल्ली; 2015.
- सूफी मत : साधना और साहित्य; रामपूजन तिवारी; ज्ञानमंडल, वाराणसी; संवत 2013.
- कबीर मीमांसा; रामचंद्र तिवारी; लोकभारती प्रकाशन, इलाहाबाद; 2018.
- कबीरदास : विविध आयाम; संपा. प्रभाकर श्रोत्रिय; लोकभारती प्रकाशन, इलाहाबाद; 2002.
- अकथ कहानी प्रेम की; पुरुषोत्तम अग्रवाल; राजकमल प्रकाशन, दिल्ली; 2019.
- पांच भक्त कवि; मुरली मनोहर प्रसाद सिंह; भारतीय ज्ञानपीठ, दिल्ली; 2017.
- पचरंग चोला पहर सखी री; माधव हाड़ा; वाणी प्रकाशन, दिल्ली; 2015.

- मीरां की भक्ति एवं राजनीति; अरविन्द सिंह तेजावत; वाणी प्रकाशन, दिल्ली; 2015.
- जायसी; विजयदेव नारायण साही; हिन्दुस्तानी अकादमी, इलाहाबाद; 1973.
- भक्ति आन्दोलन और सूरदास का काव्य; मैनेजर पाण्डें; वाणी प्रकाशन, नयी; 2001.
- लोकवादी तुलसीदास; विश्वनाथ त्रिपाठी; राजकमल प्रकाशन, दिल्ली; 1991.
- मलिक मुहम्मद जायसी; रामचंद्र शुक्ल; नागरी प्रचारिणी सभा, वाराणसी; 2012.
- भक्ति और भक्ति आंदोलन; डॉ. सेवा सिंह; आधार प्रकाशन, पंचकूला; 2017.
- मध्यकालीन साहित्य : पुनरवलोकन; नित्यानंद तिवारी; साहित्य भंडार, इलाहाबाद; 2015.

पाठ्यक्रम : भारतीय काव्यशास्त्र
पाठ्यक्रम कोड : SHSS HND 1 3 10 C 4105

पाठ्यक्रम का उद्देश्य :

- साहित्य के विषय में भारतीय चिंतन पद्धति की जानकारी।

पाठ्यक्रम के अपेक्षित परिणाम :

- भारतीय काव्यशास्त्र के स्वरूप एवं ज्ञान परंपराओं का बोध।
- भारतीय काव्य सिद्धांतों की महत्वपूर्ण अवधारणाओं की जानकारी।
- भारतीय काव्यशास्त्र की मूल स्थापनाओं का विश्लेणात्मक बोध|

इकाई	पाठ्यक्रम
1	काव्य : अर्थ एवं परिभाषा; काव्य लक्षण, काव्य हेतु एवं काव्य प्रयोजन काव्य भेद : महाकाव्य, खंडकाव्य, गीतिकाव्य एवं मुक्तक, चम्पू काव्य; काव्य गुण एवं काव्य दोष
2	रस सिद्धांत : रस की परिभाषा एवं रस सूत्र की व्याख्या; रस निष्पत्ति; साधारणीकरण अलंकार सिद्धांत : स्वरूप एवं स्थापनाएं; अलंकारों का सामान्य परिचय (अनुप्रास, उपमा, उत्पेक्षा, रूपक, यमक, श्लेष, अतिश्योक्ति)
3	रीति सिद्धांत : स्वरूप एवं स्थापनाएं वक्रोक्ति सिद्धांत : स्वरूप एवं प्रकार
4	ध्वनि सिद्धांत : स्वरूप एवं स्थापनाएं; शब्द शक्ति औचित्य सिद्धांत : स्वरूप एवं स्थापनाएं

अनुशंसित पुस्तकें :

- काव्यशास्त्र; भगीरथ मिश्र; विश्वविद्यालय प्रकाशन, वाराणसी; 2014.
- भारतीय काव्यशास्त्र की भूमिका; डॉ नगेन्द्र; नेशनल पब्लिशिंग हाउस, दिल्ली; 2007.
- रीतिकाव्य की भूमिका; डॉ नगेन्द्र; नेशनल पब्लिशिंग हाउस, दिल्ली; 2012.
- भारतीय काव्यशास्त्र; सत्यदेव चौधरी; अलंकार प्रकाशन, दिल्ली; 2018.
- काव्य के रूप; गुलाब राय; प्रतिभा प्रकाशन मंदिर, दिल्ली; 2009.
- साहित्यालोचन; श्यामसुंदर दास; इंडियन प्रेस, प्रयाग; 2017.
- रस सिद्धांत; डॉ नगेन्द्र; नेशनल पब्लिशिंग हाउस, दिल्ली; 2007.
- रस मीमांसा; आचार्य रामचंद्र शुक्ल; नागरी प्रचारिणी सभा, काशी; 2000.
- भारतीय एवं पाश्चात्य काव्य सिद्धांत; गणपति चंद्र गुप्त; लोकभारती प्रकाशन, इलाहाबाद; 2009.
- संस्कृत आलोचना; बलदेव उपाध्याय; उत्तर प्रदेश हिंदी संस्थान, लखनऊ; 2006.
- साहित्यालोचन : सिद्धांत और अध्याय; डॉ. सीताराम दीन; विनोद पुस्तक मंदिर, आगरा; संवत 2006.

पाठ्यक्रम : हिंदी नाटक एवं रंगमंच
पाठ्यक्रम कोड : SHSS HND 1 3 11 C 4105

पाठ्यक्रम का उद्देश्य :

- हिंदी नाटक एवं रंगमंच की अवधारणा एवं स्वरूप की जानकारी।

पाठ्यक्रम के अपेक्षित परिणाम :

- नाटक एवं रंगमंच की विभिन्न रंग दृष्टि एवं शैलियों का ज्ञान।
- हिंदी नाटक एवं रंगमंच की परंपराओं का बोध।
- प्रमुख नाटककारों के माध्यम से समकालीन चिन्तन की समझ।

इकाई	पाठ्यक्रम
1	नाटक के प्रमुख प्रकार एवं उनका रचना विधान; हिंदी नाटक एवं रंगमंच का उद्भव एवं विकास; भारतेंदु के नाटकों की रंगमंचीयता; आधुनिक नाटककारों की रंग दृष्टि; रंगमंच की प्रमुख शैलियाँ
2	भारतेंदु और प्रसाद के नाटकों की अभिनेयता; प्रसाद के नाटकों में राष्ट्रीय एवं सांस्कृतिक चेतना नाटक : **भारतेंदु हरिश्चंद्र :** अंधेर नगरी **जयशंकर प्रसाद :** ध्रुवस्वामिनी
3	मोहन राकेश के नाटकों में आधुनिकता बोध एवं प्रयोगधर्मिता नाटक : **मोहन राकेश :** आषाढ़ का एक दिन **धर्मवीर भारती :** अंधा युग
4	हिंदी एकांकी का उद्भव और विकास एकांकी : **भारत भूषण अग्रवाल :** महाभारत की एक साँझ **भुवनेश्वर :** तांबे के कीड़े

अनुशंसित पुस्तकें:

- भारतेंदु हरिश्चंद्र और हिंदी नवजागरण की समस्याएं; रामविलास शर्मा; राजकमल प्रकाशन, दिल्ली; 2019.
- भारतेंदु और हिंदी भाषा की विकास परंपरा; रामविलास शर्मा; राजकमल प्रकाशन, दिल्ली; 2017.
- प्रसाद के नाटकों का शास्त्रीय अध्ययन; जगन्नाथ शर्मा; वाणी प्रकाशन, दिल्ली; 2009.
- मोहन राकेश और उनके नाटक; गिरीश रस्तोगी; लोकभारती प्रकाशन, इलाहाबाद; 2008.
- हिंदी नाटक का आत्मसंघर्ष; गिरीश रस्तोगी; लोकभारती प्रकाशन, इलाहाबाद; 2017.
- हिंदी नाटक; बच्चन सिंह; राधाकृष्ण प्रकाशन, दिल्ली; 2008.
- रंगदर्शन; नेमी चंद्र जैन; राधाकृष्ण प्रकाशन, दिल्ली; 2008.
- संक्षिप्त नाट्यशास्त्रम; राधा वल्लभ त्रिपाठी; वाणी प्रकाशन, दिल्ली; 2008.
- रंगमंच और नाटक की भूमिका; डॉ लक्ष्मी नारायण लाल; नेशनल पब्लिशिंग हाउस, दिल्ली; 2011.
- हिंदी नाटक का उद्भव और विकास; दशरथ ओझा; राजपाल एंड संस, दिल्ली; 2008.

पाठ्यक्रम : शोध प्रविधि एवं प्रक्रिया (अनिवार्य)*
पाठ्यक्रम कोड : SHSS HND 1 3 22 DCEC 2114

पाठ्यक्रम का उद्देश्य :

- शोध प्रविधि एवं प्रक्रिया से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- शोध प्रविधि का सैद्धांतिक एवं व्यावहारिक ज्ञान।
- शोध-पत्र के लेखन एवं प्रस्तुतीकरण संबंधी कौशल विकास।

इकाई	पाठ्यक्रम
1.	शोध की अवधारणा एवं स्वरूप शोध की आवश्यकता एवं महत्त्व शोध और आलोचना शोध और समीक्षा शोध और मूल्य
2.	शोध के प्रकार एवं पद्धति साहित्य में शोध विषय चयन शोध प्रारूप एवं परिकल्पना शोध : संदर्भ एवं उद्धरण संदर्भ ग्रंथ सूची शोध और पुस्तकालय कंप्यूटर का व्यावहारिक ज्ञान

***इसमें दो क्रेडिट की सत्रांत परीक्षा होगी, जिसकी अवधि दो घंटे की होगी तथा शेष दो क्रेडिट हेतु विद्यार्थी द्वारा संगोष्ठी-पत्र का लेखन एवं प्रस्तुतीकरण होगा, जिसका मूल्यांकन विभाग के शिक्षक द्वारा किया जाएगा.**

अनुशंसित पुस्तकें :

- शोध प्रविधि; हरिश्चंद्र वर्मा; हरियाणा साहित्य अकादमी, पंचकूला; 2006.
- शोध का स्वरूप एवं मानक व्यावहारिक कार्यविधि; बैजनाथ सिंहल; वाणी प्रकाशन, दिल्ली; 2015.
- अनुसंधान प्रविधि; एस.एन. गणेशन; सिद्धांत और प्रक्रिया; लोकभारती प्रकाशन, इलाहाबाद; 2021.
- हिंदी अनुसंधान; विजयपाल सिंह; लोकभारती प्रकाशन, इलाहाबाद; 2007.
- शोध प्रविधि; विनय मोहन शर्मा; मयूर बुक्स, दिल्ली; 2018.

पाठ्यक्रम : कबीरदास
पाठ्यक्रम कोड : SHSS HND 1 3 09 DCEC 3104

पाठ्यक्रम का उद्देश्य :

- कबीरदास के जीवन, साहित्य और दर्शन से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- कबीरदास के साहित्यिक अवदान की जानकारी।
- कबीरदास के साहित्यिक सरोकारों व मूल्यों का बोध।
- हिंदी आलोचना में कबीरदास के चिंतन से आलोचनात्मक समझ का विकास।
- पाठ अध्ययन से कबीरदास की काव्य-संवेदना, भाषा और रचना-प्रक्रिया का बोध।

इकाई	पाठ्यक्रम
1.	कबीर के युग का समाज; कबीर का जीवन एवं स्रोत सामग्री; कबीर का राजनीतिक परिवेश एवं समस्याएं हिंदी आलोचना में कबीर का स्थान; परवर्ती काव्य पर कबीर का प्रभाव
2.	निर्गुण काव्य परंपरा और कबीर; कबीर के काव्य में सगुण-निर्गुण का साम्य-वैषम्य; कबीर के राम; कबीर के काव्य में रहस्यात्मकता
3.	कबीर के काव्य में विद्रोह के स्वर; कबीर की भाषायी व्यापकता; कबीर के काव्य में प्रगतिशीलता
4.	कबीर- संपा. हजारी प्रसाद द्विवेदी (चयनित पद संख्या - 176-209)

अनुशंसित पुस्तकें :

- कबीर; हजारी प्रसाद द्विवेदी; राजकमल प्रकाशन, दिल्ली; 2019.
- हिंदी साहित्य का इतिहास; रामचंद्र शुक्ल; नागरी प्रचारिणी सभा, वाराणसी; 2021.
- कबीर ग्रंथावली; श्यामसुंदर दास; लोकभारती प्रकाशन, दिल्ली; 2019.
- सांग्स ऑफ कबीर; इवेलिन अंडरहिल,न्यू यॉर्क, दा मैकमिलान कंपनी (अनुवाद- रवीन्द्रनाथ टैगोर); 2004.

पाठ्यक्रम : सच्चिदानंद हीरानंद वात्स्यायन 'अज्ञेय'
पाठ्यक्रम कोड : SHSS HND 1321 DCEC 3104

पाठ्यक्रम का उद्देश्य :

- सचिदानंद हीरानंद वात्सायन 'अज्ञेय' के जीवन, सृजन एवं साहित्यिक अवदान की जानकारी।

पाठ्यक्रम के अपेक्षित परिणाम :

- सचिदानंद हीरानंद वात्सायन 'अज्ञेय' के साहित्य और दर्शन से परिचय।
- सचिदानंद हीरानंद वात्सायन 'अज्ञेय' के साहित्यिक सरोकारों व मूल्यों का बोध।
- सचिदानंद हीरानंद वात्सायन 'अज्ञेय' की रचनाओं के भावबोध और उनके वैशिष्ट्य का ज्ञान।

इकाई	पाठ्यक्रम
1.	सचिदानंद हीरानंद वात्सायन 'अज्ञेय' का जीवन और सृजन; अज्ञेय का काव्य चिंतन; प्रयोगवाद और अज्ञेय; 'तारसप्तक' की भूमिका का साहित्यिक अवदान; अज्ञेय की कविता में वस्तु और प्रयोग; अज्ञेय का कथा साहित्य; अज्ञेय का कथेतर गद्य साहित्य
2.	**उपन्यास :** अपने-अपने अजनबी
3.	**कहानियां :** गैंग्रीन; शरणार्थी; खितीन बाबू
4.	**कविताएँ :** कितनी नावों में कितनी बार; कांच के पीछे की मछलियाँ; हरी घास पर क्षण भर; भीतर जागा दाता; बावरा अहेरी

अनुशंसित पुस्तकें :

- तारसप्तक; सचिदानंद हीरानंद वात्सायन 'अज्ञेय; भारतीय ज्ञानपीठ, दिल्ली; 1943.
- आत्मनेपद; सचिदानंद हीरानंद वात्सायन 'अज्ञेय'; भारतीय ज्ञानपीठ, दिल्ली; 2003.
- लेखक का दायित्व; अज्ञेय; भारतीय ज्ञानपीठ, दिल्ली; 1959.
- अज्ञेय; भोलाभाई पटेल; वाणी प्रकाशन, दिल्ली; 2014.
- अज्ञेय : प्रतिनिधि कविताएँ एवं जीवन परिचय; विद्यानिवास मिश्र; राजपाल एंड संस, दिल्ली; 2003.
- कवि अज्ञेय; नंदकिशोर नवल; राजकमल प्रकाशन, दिल्ली; 2016.
- आधुनिक साहित्य की प्रवृत्तियां; नामवर सिंह; लोकभारती प्रकाशन, इलाहाबाद; 2016.
- अज्ञेय और आधुनिक रचना की समस्या; रामस्वरूप चतुर्वेदी; भारतीय ज्ञानपीठ, दिल्ली; 2000.
- नयी कविता और अस्तितत्ववाद; रामविलास शर्मा; राजकमल प्रकाशन, दिल्ली; 2012.
- अज्ञेय और उनका कथा साहित्य; गोपाल राय; वाणी प्रकाशन, दिल्ली; 2010.
- आलोचक अज्ञेय की उपस्थिति; कृष्णदत्त पालीवाल; वाणी प्रकाशन, दिल्ली; 2011.
- अज्ञेय की काव्य-तितीर्षा; नंदकिशोर आचार्य; वाग्देवी प्रकाशन, बीकानेर; 2001.
- अज्ञेय का काव्य; प्रणय कृष्ण; लोकभारती प्रकाशन, इलाहाबाद; 2015.

- अज्ञेय : प्रतिनिधि निबंध; संपा. कृष्णदत्त पालीवाल; नेशनल बुक ट्रस्ट, दिल्ली; 2011.
- अरे यायावर रहेगा याद !; अज्ञेय; राजकमल प्रकाशन, इलाहाबाद; 2016.
- अज्ञेय होने का अर्थ; कृष्णदत्त पालीवाल; वाणी प्रकाशन, इलाहाबाद; 2012.
- अपने-अपने अज्ञेय; ओम थानवी; वाणी प्रकाशन, दिल्ली; 2011.
- आदम की डायरी; अज्ञेय; वाग्देवी प्रकाशन, बीकानेर; 2012.

चतुर्थ सेमेस्टर

पाठ्यक्रम : हिंदी आलोचना
पाठ्यक्रम कोड : SHSS HND 1 4 12 C 4105

पाठ्यक्रम का उद्देश्य :

- हिंदी आलोचना के विकास और सिद्धांत-निर्माण से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- हिंदी आलोचना के क्रमबद्ध विकास का ज्ञान।
- साहित्य में आलोचना की प्रक्रिया और महत्ता का बोध।
- आलोचनात्मक प्रतिमानों के निर्माण की जानकारी।
- प्रमुख आलोचकों के आलोचनाकर्म का ज्ञान।

इकाई	पाठ्यक्रम
1.	साहित्य और आलोचना; आधुनिकता और आलोचना; हिंदी आलोचना का उद्भव और विकास; आलोचना की विविध पद्धतियाँ; आलोचना की रचना-प्रक्रिया; हिंदी के प्रमुख आलोचक
2.	मिश्र-बंधु, लाला भगवानदीन, पद्म सिंह शर्मा और महावीर प्रसाद द्विवेदी के आलोचना-कर्म का सामान्य परिचय; रामचन्द्र शुक्ल : लोकमंगल, रस-दृष्टि, इतिहास-दृष्टि
3.	नंददुलारे वाजपेयी : आलोचना के मानदंड, छायावाद संबंधी प्रमुख स्थापनाएँ हजारी प्रसाद द्विवेदी : आलोचना की दूसरी परंपरा, प्रमुख आलोचनात्मक प्रतिमान; नगेंद्र की आलोचना दृष्टि; रामविलास शर्मा और नामवर सिंह की आलोचना-दृष्टि एवं आलोचना-कर्म
4.	प्रेमचंद, प्रसाद, निराला, पंत, मुक्तिबोध और विजयदेव नारायण साही का आलोचना-कर्म; मैनेजर पांडेय का समाजशास्त्रीय चिंतन; समकालीन आलोचना की विविध पद्धतियाँ (स्त्रीवादी, दलितवादी, आदिवासी-चिंतन)

अनुशंसित पुस्तकें :

- हिंदी आलोचना; विश्वनाथ त्रिपाठी; राजकमल प्रकाशन, दिल्ली; 2011.
- आचार्य रामचंद्र शुक्ल और हिंदी आलोचना; रामविलास शर्मा; राजकमल प्रकाशन, दिल्ली; 1987.
- हिंदी साहित्य : बीसवीं शताब्दी; नंददुलारे वाजपेयी; लोकभारती प्रकाशन, दिल्ली; 1970.
- कबीर; हजारी प्रसाद द्विवेदी; राजकमल प्रकाशन, दिल्ली; 2019.
- पंत और पल्लव; सूर्यकांत त्रिपाठी 'निराला'; गंगा-ग्रन्थागार, लखनऊ; 1966.
- काव्य और कला तथा अन्य निबंध; जयशंकर प्रसाद; लोकभारती प्रकाशन, दिल्ली; 2016.
- इतिहास और आलोचना; नामवर सिंह; राजकमल प्रकाशन, दिल्ली; 1978.
- एक साहित्यिक की डायरी; गजानन माधव मुक्तिबोध; राजकमल प्रकाशन, दिल्ली; 1980.
- दूसरी परंपरा की खोज; नामवर सिंह; राजकमल प्रकाशन, दिल्ली; 1980.
- समकालीन हिंदी आलोचना; परमानन्द श्रीवास्तव; साहित्य अकादमी, दिल्ली; संस्करण : अंकित नहीं
- ज्ञान का स्त्रीवादी पाठ; सुधा सिंह; ग्रंथ शिल्पी, दिल्ली; 2008.

- छठवां दशक; विजयदेव नारायण साही; हिन्दुस्तानी एकेडमी, इलाहाबाद; 1987.
- रस सिद्धांत; नगेंद्र; नेशनल पब्लिशिंग हाउस, दिल्ली; 2019.

पाठ्यक्रम : पाश्चत्य काव्यशास्त्र
पाठ्यक्रम कोड : SHSS HND 1413 C 4105

पाठ्यक्रम का उद्देश्य :

- साहित्य के विषय में पाश्चात्य चिंतन पद्धति की जानकारी।

पाठ्यक्रम के अपेक्षित परिणाम :

- पाश्चात्य ज्ञान की परंपराओं का बोध।
- साहित्य की आलोचना और मूल्यांकन की दृष्टि का विकास।
- पाश्चात्य काव्य सिद्धांतों की महत्वपूर्ण अवधारणाओं की जानकारी।

इकाई	पाठ्यक्रम
1	प्लेटो : काव्य सिद्धांत; अनुकरण सिद्धांत अरस्तु : अनुकरण सिद्धांत; विरेचन और त्रासदी की अवधारणा
2	लोंजाइनस : उदात्त की अवधारणा; कॉलरिज : कल्पना सिद्धांत; वर्डसवर्थ : काव्य की अवधारणा; काव्य भाषा का सिद्धांत
3	क्रोचे : अभिव्यंजनावाद; आई.ए.रिचर्डस : मूल्य एवं संप्रेषण सिद्धांत; टी.एस. इलियट : परम्परा और निर्वैक्तिकता का सिद्धांत; मैथ्यू अर्नाल्ड : आलोचना का स्वरूप और प्रकार्य
4	नयी समीक्षा; मार्क्सवाद; मनोविश्लेषणवाद; अभिव्यंजनावाद; बिम्ब, प्रतीक, फैंटेसी, कल्पना

अनुशंसित पुस्तकें :

- पाश्चात्य काव्यशास्त्र; डॉ देवेन्द्रनाथ शर्मा; नेशनल पब्लिशिंग हाउस, दिल्ली; 2018.
- साहित्य सिद्धांत; डॉ रामअवध द्विवेदी; बिहार राष्ट्रभाषा परिषद्, पटना; 1963.
- पाश्चात्य साहित्य चिंतन; प्रो निर्मला जैन तथा डॉ कुसुम बांठिया; राधाकृष्ण प्रकाशन, दिल्ली; 1990.
- पाश्चात्य काव्यशास्त्र की परम्परा; डॉ नगेन्द्र एवं सावित्री सिन्हा; दिल्ली विश्वविद्यालय, दिल्ली; 1972.
- नयी समीक्षा : नये संदर्भ; डॉ नगेन्द्र; नेशनल पब्लिशिंग हाउस, दिल्ली; 1974.
- नयी समीक्षा के प्रतिमान; प्रो निर्मला जैन (संपा); नेशनल पब्लिशिंग हाउस, दिल्ली; 1977.
- आलोचना से आगे; सुधीश पचौरी; राधाकृष्ण प्रकाशन, दिल्ली; 2019.
- पाश्चात्य काव्यशास्त्र; विजय बहादुर सिंह; प्रकाशन संसथान, दिल्ली; 2011.
- विश्व साहित्य शास्त्र; डॉ. नगेंद्र; किताबघर प्रकाशन, दिल्ली; 1996.
- हिंदी आलोचना की पारिभाषिक शब्दावली; अमरनाथ; राजकमल प्रकाशन, दिल्ली; 2009.
- पाश्चात्य समीक्षा दर्शन; जगदीश चंद्र जैन, हिंदी प्रचारक संस्थान, वाराणसी; 1969.
- नयी समीक्षा; अमृत राय; हिंदुस्तानी पब्लिशिंग हाउस, बनारस; 1950.
- हिंदी आलोचना के नए सरोकार; कृष्णदत्त पालीवाल; वाणी प्रकाशन, दिल्ली; 2002.

पाठ्यक्रम : लघु शोध-प्रबंध*
पाठ्यक्रम कोड : SHSS HND 1 4 01 SEEC 014014

*इसमें प्रत्येक विद्यार्थी को निर्धारित निर्देशक से विचार-विनिमय करके एक लघु शोध-प्रबंध लिखना होगा.

सामान्य वैकल्पिक पाठ्यक्रम (GEC)

प्रथम सेमेस्टर में प्रस्तावित

पाठ्यक्रम : हिंदी भाषा एवं व्याकरण

पाठ्यक्रम कोड : SHSS HND 1 1 01 GE 3104

पाठ्यक्रम का उद्देश्य :

- भाषा एवं व्याकरण की मूल प्रकृति की जानकारी।

पाठ्यक्रम के अपेक्षित परिणाम :

- भाषा और व्याकरण के विविध घटकों का परिचय।
- शब्द, पद और वाक्य की रचना का बोध।
- भाषा के विविध रूपों का ज्ञान।

इकाई	पाठ्यक्रम
1	भाषा की परिभाषा एवं विशेषताएं; भाषा के विविध रूप; भाषा की उत्पत्ति; भाषा की संरचना भाषा और व्याकरण; व्याकरण का महत्व; ध्वनि और वर्ण हिंदी की ध्वनियों का वर्गीकरण (स्वर, व्यंजन और मात्राएँ)
2	शब्द की परिभाषा और उसके भेद (रचना और स्रोत के आधार पर) शब्दों की व्याकरणिक कोटियाँ (संज्ञा, सर्वनाम, विशेषण, क्रिया आदि) शब्द निर्माण (उपसर्ग, प्रत्यय, संधि और समास)
3	शब्द और पद में अंतर विकारी शब्दों की रूप-रचना (संज्ञा, सर्वनाम, विशेषण, क्रिया आदि) अविकारी शब्द (अव्यय)
4	वाक्य की परिभाषा और उसके अंग वाक्य के भेद (रचना और अर्थ के आधार पर) वाक्य की संरचना

अनुशंसित पुस्तकें :

- हिंदी : उद्भव, विकास और रूप; डॉ हरदेव बाहरी; किताब महल इलाहाबाद; 1969.
- व्याकरणिक कोटियों का विश्लेणात्मक अध्ययन; डॉ दीप्ति शर्मा, बिहार ग्रन्थ अकादमी; 1975.
- भाषाविज्ञान की भूमिका; डॉ देवेन्द्रनाथ शर्मा; राधाकृष्ण प्रकाशन, दरियागंज दिल्ली; 2015.
- हिंदी भाषा; डॉ भोलानाथ तिवारी; किताब महल, इलाहाबाद; 2004.
- हिंदी भाषा का उद्भव और विकास; उदय नारायण तिवारी; लोकभारती प्रकाशन, इलाहाबाद; 2016.
- हिंदी व्याकरण; कामता प्रसाद गुप्त; नागरी प्रचारिणी सभा, काशी; 1927.
- प्रामाणिक व्याकरण एवं रचना; विजयपाल सिंह; विश्वविद्यालय प्रकाशन, वाराणसी; 2008.
- व्यावहारिक हिंदी व्याकरण तथा रचना; हरदेव बाहरी; लोकभारती प्रकाशन, इलाहाबाद; 1972.
- हिंदी-उर्दू : साझा संस्कृति; संपा. मुरली मनोहर प्रसाद सिंह, चंचल चौहान एवं अन्य; नेशनल बुक ट्रस्ट, दिल्ली; 2011.

पाठ्यक्रम : हरियाणा का साहित्य
पाठ्यक्रम कोड : SHSS HND 1 1 02 GE 3104

पाठ्यक्रम का उद्देश्य :

- हरियाणा में रचित हिंदी साहित्य की जानकारी मिलेगी।

पाठ्यक्रम के अपेक्षित परिणाम :

- हरियाणा के नामकरण, इतिहास एवं प्राचीनता का ज्ञान होगा।
- हरियाणा के साहित्यिक अवदान की जानकारी प्राप्त होगी।
- पाठ बोध के माध्यम से साहित्यिक मूल्यों एवं सरोकारों का बोध होगा।

इकाई	पाठ्यक्रम
1.	हरियाणा का नामकरण एवं इतिहास; हरियाणा की साहित्यिक परंपरा का उद्भव; हरियाणा के सूफी कवि; हरियाणा के संत कवि; हरियाणा का आरंभिक गद्य साहित्य, हरियाणा की पत्र-पत्रिकाएँ; हरियाणा के समकालीन साहित्यकार
2.	हरियाणा की भाषा और बोलियाँ; हरियाणा के लोककवि; हरियाणा के लोकनाट्यकार; हरियाणा के लोकगीत; हरियाणा की रागनी
3.	**सूरदास :** भ्रमरगीत सार: संपा. रामचंद्र शुक्ल (पद संख्या : 23, 42, 64, 95, 114, 138, 210, 316) **गरीबदास :** गरीबदास जी की बानी : चेतावनी का अंग (1, 34, 36, 55, 84) **नितानंद :** सत्य सिद्धांत प्रकाश : विरह का अंग (1, 6, 27, 29, 34, 36, 42, 46, 52, 80, 81, 94, 109, 112, 113, 114, 143, 145, 164, 187) **अल्ताफ़ हुसैन हाली :** चुप की दाद
4.	**स्वांग : पं. लखमीचंद :** शाही लकड़हारा **कहानियां : माधव प्रसाद मिश्र :** विश्वास का फल; **विश्वम्भरनाथ शर्मा 'कौशिक' :** ताई; **स्वदेश दीपक :** किसी अप्रिय घटना का समाचार नहीं **निबंध : बालमुकुंद गुप्त :** श्रीमान का स्वागत; **राजकिशन नैन :** लो आई देखो रितु बसंत

अनुशंसित पुस्तकें :

- निबन्धों की दुनिया : बालमुकुंद गुप्त; संपा. रेखा सेठी; वाणी प्रकाशन, दिल्ली; 2009.
- गरीबदास; संपा. लालचंद गुप्त 'मंगल'; साहित्य अकादमी, दिल्ली; 2014.
- हरियाणा के संतकवि नितानंद; संपा. डॉ. रामकुमार भरद्वाज एवं अनिता भारद्वाज; हरियाणा साहित्य अकादमी, चण्डीगढ़; 1987.
- पं. माधव प्रसाद मिश्र ग्रंथावली; संपा. जयनाथ नलिन; हरियाणा साहित्य अकादमी, पंचकूला; 2009.
- पं. लखमीचंद ग्रंथावली; संपा. पूर्णचंद शर्मा; हरियाणा साहित्य अकादमी, पंचकूला; 2013.
- पं. मांगेराम ग्रंथावली; संपा. पूर्णचंद शर्मा; हरियाणा ग्रन्थ अकादमी, पंचकूला; 2013.
- हरियाणा प्रदेश के लोकगीतों का सामाजिक पक्ष; जगदीश नारायण एवं भोलानाथ शर्मा; हरियाणा साहित्य अकादमी, चंडीगढ़; 1989.

- बालमुकुंद गुप्त रचनावली (भाग-2,3,4); संपा. के.सी. यादव; हरियाणा इतिहास एवं संस्कृति अकादमी, गुडगाँव; 2013.
- बालमुकुंद गुप्त ग्रंथावली; संपा. नत्थन सिंह; हरियाणा साहित्य अकादमी, पंचकूला; 1993.
- लोक में ऋतु; राजकिशन नैन; आधार प्रकाशन, पंचकूला; 2012.
- हरियाणा का संत साहित्य; डॉ. सूरजभान; हरियाणा साहित्य अकादमी, पंचकूला; 1986.
- हरियाणवी लोकधारा : प्रतिनिधि रागनियाँ; संपा. सुभाष चंद्र; आधार प्रकाशन, पंचकूला; 2012.
- हरियाना प्रदेश का लोकसाहित्य; डॉ. शंकर लाल यादव; हिन्दुस्तानी एकेडेमी, इलाहाबाद; 2000.
- हरियाणा के लोकगीत; संपा. साधुराम शारदा; हरियाणा साहित्य अकादमी, पंचकूला; 1970.
- हरियाणा : एक सांस्कृतिक अध्ययन; संपा. साधुराम शारदा; भाषा विभाग, हरियाणा, चंडीगढ़; 1978.
- छापकटैया; राजेंद्र बड़गूजर; हरियाणा ग्रंथ अकादमी, पंचकूला; 2019.
- सत्य सिद्धांत प्रकाश; नितानंद; जटेला धाम, माजरा-दूबलधन, झज्जर (हरि.); 2015.
- लोकगीतों का बुगचा; संपा. निर्मल; वाणी प्रकाशन, दिल्ली; 2014.
- गरीबदास जी की बानी; बेलविडियर प्रिंटिंग वर्क्स, इलाहाबाद; 1969.
- बाबा शेख फरीद रत्नावली; संपा. जसविन्द्र कौर बिंद्रा; ग्रंथ अकादमी, दिल्ली; 2013.
- हरियाणा का हिंदी साहित्य : उद्भव और विकास; शिवप्रसाद गोयल; नटराज पब्लिशिंग हाउस, करनाल (हरि.); 1984.
- हरियाणा की समकालीन हिंदी कहानी; ज्ञानप्रकाश विवेक; हरियाणा ग्रंथ अकादमी, पंचकूला; 2014.

पाठ्यक्रम : अनुवाद : सिद्धांत एवं प्रयोग
पाठ्यक्रम कोड : SHSS HND 1 1 03 GE 3104

पाठ्यक्रम का उद्देश्य :

- अनुवाद की अवधारणा एवं स्वरूप से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- अनुवाद और साहित्य के सिद्धांतों की जानकारी।
- विभिन्न क्षेत्रों में अनुवाद के महत्त्व ज्ञान।
- अनुवाद की प्रक्रिया और उसके प्रयोग का बोध।

इकाई	पाठ्यक्रम
1.	अनुवाद की अवधारणा एवं स्वरूप; अनुवाद की संकल्पना; अनुवाद के प्रकार और क्षेत्र; अनुवाद : प्रविधि और प्रक्रिया
2.	अनुवाद: सिद्धांत और इतिहास; साहित्य और अनुवाद का अंत: संबंध; जनसंचार माध्यम और अनुवाद; अनुवाद का अनुप्रयुक्त पक्ष
3.	तत्काल भाषांतरण और अनुवाद; हिंदी के विविध क्षेत्र और व्यवहारिक अनुवाद; संचार माध्यम और अनुवाद (प्रिंट तथा इलेक्ट्रॉनिक माध्यमों का संदर्भ)
4.	सामाजिक तथा सांस्कृतिक क्षेत्र में अनुवाद; साहित्यिक अनुवाद; वैज्ञानिक अनुवाद; तकनीकि अनुवाद; राजभाषा और अनुवाद

अनुशंसित पुस्तकें :

- हिंदी अनुवाद परंपरा- एक अनुशीलन; कलवार, किशोरीलाल, नवभारत प्रकाशन, दिल्ली; 2009.
- अनुवाद सिद्धांत की रूपरेखा: कुमार सुरेश; वाणी प्रकाशन, दिल्ली; 2011.
- अनुवाद के भाषिक पक्ष; विभा गुप्ता; वाणी प्रकाशन, दिल्ली; 2007.
- हिंदी व्याकरण; कामताप्रसाद गुरु; प्रकाशन संस्थान, दिल्ली; 2009.
- अनुवाद विज्ञान: सिद्धांत एवं प्रविधि; भोलानाथ तिवारी; किताबघर प्रकाशन, दिल्ली; 2011.
- व्यवहारिक अनुवाद कला; रमेश चंद्र; नीलकंठ प्रकाशन, दिल्ली; 1998.
- अनुवाद साधना; पूरनचंद टंडन; अभिव्यक्ति प्रकाशन, दिल्ली; 2007.
- अनुवाद सिद्धांत एवं व्यवहार; जयंती प्रसाद नौटियाल; राधाकृष्ण प्रकाशन, दिल्ली; 2006.
- अनुवाद शिल्प : समकालीन संदर्भ; कुसुम अग्रवाल; साहित्य सलाहकार, दिल्ली; 1999.

पाठ्यक्रम : सृजनात्मक लेखन
पाठ्यक्रम कोड : SHSS HND 1 1 04 GE 3104

पाठ्यक्रम का उद्देश्य :

- सृजनात्मक लेखन के सिद्धांत एवं व्यवहार से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- सृजनात्मक लेखन की बुनियादी अवधारणाओं का ज्ञान।
- सृजनात्मक लेखन के कौशल का विकास।
- सृजनात्मक लेखन के विविध क्षेत्रों का ज्ञान।
- सृजनात्मक भाषा का विकास।

इकाई	पाठ्यक्रम
1.	सृजनात्मक लेखन की अवधारणा और स्वरूप; भाव एवं विचार की रचना में रूपांतरण की प्रक्रिया; विविध अभिव्यक्ति क्षेत्र: साहित्य, सिनेमा, विज्ञापन, पत्रकारिता एवं अन्य गद्य अभिव्यक्तियाँ; जनभाषण और लोकप्रिय संस्कृति; लेखन के विविध रूप
2.	अर्थ निर्मिति के आधार : शब्दार्थ-मीमांसा, शब्द के प्राक्-प्रयोग, नव्य-प्रयोग, शब्द की व्याकरणिक कोटि; भाषा की भंगिमाएँ : औपचारिक-अनौपचारिक, मौखिक-लिखित, मानक; रचना-सौष्ठव : शब्द-शक्ति' प्रतीक, बिंब, अलंकरण, वक्रताएं, मुहावरे और लोकोक्तियाँ
3.	विविध विधाओं का व्यावहारिक अध्ययन; कविता: संवेदना, काव्यरूप, भाषा-सौष्ठव, छंद, लय, गति और तुक; कथा साहित्य: वस्तु, पात्र, परिवेश और विमर्श; नाट्य साहित्य : वस्तु, पात्र, परिवेश और रंग-कर्म; विविध गद्य विधाएँ : निबंध, संस्मरण, व्यंग्य; बाल साहित्य की आधारभूत संरचना
4.	सूचना-तंत्र के लिए लेखन; प्रिंट माध्यम : फीचर- लेखन, यात्रा-वृत्तान्त, साक्षात्कार, पुस्तक-समीक्षा; इलेक्ट्रानिक माध्यम : रेडियो, दूरदर्शन, फिल्म पटकथा लेखन और टेलीविजन पटकथा लेखन

अनुशंसित पुस्तकें :

- रचनात्मक लेखन; (सं.) रमेश गौतम; भारतीय ज्ञानपीठ, दिल्ली; 2008.
- कहानी की रचना प्रक्रिया; परमानंद श्रीवास्तव; लोकभारती प्रकाशन, इलाहाबाद; 2012.
- उपन्यास की संरचना; गोपाल राय; राजकमल प्रकाशन, दिल्ली; 2006.
- कविता-रचना-प्रक्रिया; कुमार विमल; बिहार हिंदी ग्रंथ अकादमी, पटना; 2018.
- पटकथा लेखन : एक परिचय; मनोहर श्याम जोशी; राजकमल प्रकाशन, दिल्ली; 2016.
- मीडिया लेखन के सिद्धांत; एन.सी. पंत; तक्षशिला प्रकाशन, दिल्ली; 2005.
- रेडियो लेखन; मधुकर गंगाधर; बिहार हिंदी ग्रंथ अकादमी, पटना; 2016.
- समाचार, फीचर-लेखन एवं संपादन कला; हरिमोहन, तक्षशिला प्रकाशन, दिल्ली; 1999.
- पत्रकारिता हेतु लेखन; डॉ. निशांत; अर्चना प्रकाशन, दिल्ली; 2007.
- अलंकार धारणा : विकास और विश्लेषण; बिहार हिंदी ग्रंथ अकादमी, पटना; 1964.

- हिंदी साहित्य का छंदोविवेचन; गौरीशंकर मिश्र 'द्विजेन्द्र'; बिहार हिंदी ग्रंथ अकादमी, पटना; 2016.
- सृजन का रसायन; शिवमूर्ति; वाणी प्रकाशन, दिल्ली; 2014.

तृतीय सेमेस्टर में प्रस्तावित

पाठ्यक्रम : सिनेमा अध्ययन
पाठ्यक्रम कोड : SHSS HND 1 3 05 GE 3104

पाठ्यक्रम का उद्देश्य :

- सिनेमा के स्वरूप एवं उसके महत्त्व की जानकारी।

पाठ्यक्रम के अपेक्षित परिणाम :

- सिनेमा एवं कला के अंतर्संबंधों का ज्ञान।
- समाज निर्माण में सिनेमा की भूमिका से परिचय ।
- सिनेमा से संबंधित प्रमुख संस्थाओं एवं निर्माण के केंद्रों की जानकारी ।
- फिल्मों के अध्ययन से आलोचनात्मक समझ का विकास।

इकाई	पाठ्यक्रम
1.	सिनेमा का उद्भव एवं विकास; सिनेमा उद्योग एवं कला का संबंध; सिनेमा के प्रकार; सिनेमा से संबंधित प्रमुख संस्थाएं और निर्माण के केंद्र
2.	सिनेमा और समाज; सिनेमा और साहित्य का संबंध; सांस्कृतिक विमर्श एवं सिनेमा; राष्ट्रीयता और सिनेमा; वृतचित्र एवं सिनेमा का बदलता स्वरूप
3.	आरंभिक हिंदी सिनेमा का स्वरूप; हिंदी सिनेमा का रूमानी दौर; हिंदी सिनेमा का वर्तमान परिदृश्य; हिंदी सिनेमा में नायकत्व की अवधारणा; हिंदी सिनेमा में स्त्री एवं प्रेम;
4.	फिल्म : मुग़ल-ए-आज़म (1960); एक रुका हुआ फैसला (1986); शेरनी (2021)

अनुशंसित पुस्तकें :

- लोकप्रिय सिनेमा और सामाजिक यथार्थ; जवरीमल्ल पारख; अनामिका प्रकाशन, दिल्ली; 2019.
- सिनेमा: कल ,आज ,कल; विनोद भारद्वाज; वाणी प्रकाशन, दिल्ली; 2006.
- सिनेमा और साहित्य; हरीश कुमार; संजय प्रकाशन, दिल्ली; 1998.
- भारतीय सिने सिद्धांत: अनुपम ओझा, राधाकृष्ण प्रकाशन, दिल्ली; 2009.
- सिनेमा के विविध संदर्भ; डॉ. सुरभि विप्लव; अनुज्ञा प्रकाशन, दिल्ली; 2020.
- हिंदी सिनेमा : आदि से अनंत; प्रह्लाद अग्रवाल; साहित्य भंडार, इलाहाबाद; 2014.
- सिनेमा: समकालीन सिनेमा; अजय ब्रह्मात्मज; वाणी प्रकाशन, दिल्ली; 2014.
- भारतीय सिनेमा का संफरनामा; पुनीत बिसारिया-राजनारायण शुक्ल; अटलांटिक प्रकाशन, दिल्ली; 2013.
- वर्ल्ड सिनेमा(हिस्ट्री); सं. ज्योफ्री नोवेल स्मिथ; ऑक्सफ़ोर्ड यूनिवर्सिटी प्रेस; 1997.
- लेखक का सिनेमा; कुंवर नारायण; राजकमल प्रकाशन, दिल्ली; 2017.
- दास्तान-ए-मुग़ल-ए-आज़म; राजकुमार केसवानी; मंजुल पब्लिशिंग हाउस; 2020.
- सिनेमा और सितारों का मायाजाल; जय प्रकाश चौकसे; प्रभात प्रकाशन, दिल्ली; 2018.

- हिंदी सिनेमा की यात्रा; संपा. पंकज शर्मा; अनन्य प्रकाशन, दिल्ली; 2015.
- बाज़ार के बाजीगर; प्रह्लाद अग्रवाल; राजकमल प्रकाशन, दिल्ली; 2007.

पाठ्यक्रम : प्रयोजनमूलक हिंदी
पाठ्यक्रम कोड : HND 13O6 GE 3104

पाठ्यक्रम का उद्देश्य :

- प्रयोजनमूलक हिंदी की अवधारणा और स्वरूप से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- हिंदी के विविध रूपों का व्यवहारिक मूल्यांकन।
- हिंदी भाषा में प्रिंट और इलेक्ट्रॉनिक मीडिया की रचना प्रक्रिया की जानकारी।
- कंप्यूटर की संरचना और उसके घटकों का बोध।
- अनुवाद की प्रविधि और प्रक्रिया का व्यावहारिक ज्ञान।

इकाई	पाठ्यक्रम
1	प्रयोजनमूलक हिंदी : परिभाषा और उसका स्वरूप; हिंदी के विविध रूप : राजभाषा, सम्पर्क भाषा, साहित्यिक भाषा, माध्यम भाषा; राजभाषा हिंदी के प्रमुख रूप : प्रारूपण, पल्लवन, टिप्पण, पत्र लेखन
2	मीडिया का स्वरूप: प्रिंट और इलेक्ट्रॉनिक मीडिया; प्रिंट मीडिया में लेखन : फीचर, समाचार, विज्ञापन और मीडिया की भाषा; इलेक्ट्रॉनिक मीडिया : समाचार निर्माण एवं प्रस्तुतीकरण; विज्ञापन का स्वरूप और संरचना; विज्ञापन की भाषा
3	कंप्यूटर : परिचय और महत्व, कंप्यूटर के विभिन्न घटक; कंप्यूटर की संरचना : हार्डवेयर और सॉफ्टवेर की भूमिका; इन्टरनेट : कार्य प्रणाली एवं सुविधाएँ
4	अनुवाद: प्रविधि और प्रक्रिया; भाषिक अनुवाद; अनुवाद प्रक्रिया के चरण; कार्यालयी हिंदी और अनुवाद; साहित्यिक अनुवाद; वाणिज्य क्षेत्र में अनुवाद; शब्दावली और अनुवाद; विधि शब्दावली का अनुवाद

अनुशंसित पुस्तकें :

- राजभाषा हिंदी; कैलाशचंद्र भाटिया; वाणी प्रकाशन, दिल्ली; 1994.
- प्रयोजनमूलक हिंदी; दंगल झालटे; वाणी प्रकाशन, दिल्ली; 2010.
- आधुनिक विज्ञापन; प्रेमचंद पातंजलि; वाणी प्रकाशन, दिल्ली; 2018.
- विज्ञापन डॉट कॉम; रेखा सेठी; वाणी प्रकाशन, दिल्ली; 2017.
- कंप्यूटर और हिंदी; हरिमोहन; तक्षशिला प्रकाशन, दिल्ली; 2015.
- रेडियो और दूरदर्शन पत्रकारिता; हरिमोहन; तक्षशिला प्रकाशन, दिल्ली; 2017.

पाठ्यक्रम : साहित्य का अंतर-अनुशासनिक अध्ययन
पाठ्यक्रम कोड : SHSS HND 1 3 07 GE 3104

पाठ्यक्रम का उद्देश्य :

- साहित्य का अन्य अनुशासनों से अंतर्संबंध का अध्ययन।

पाठ्यक्रम के अपेक्षित परिणाम :

- साहित्य के बुनियादी सरोकारों का ज्ञान।
- साहित्य का अन्य अनुशासनों के साथ संबंधों की जानकारी।
- जीवन-मूल्य और चिंतन के अनेक उपादानों का ज्ञान।
- विभिन्न अनुशासनों की दार्शनिक पृष्ठभूमि का ज्ञान।

इकाई	पाठ्यक्रम
1.	साहित्य की अंतर-अनुशासनिकता की अवधारणा; साहित्य की परिभाषा; साहित्य का उद्देश्य; साहित्य और जीवन-मूल्य; साहित्य का कला-रूप
2.	साहित्य और कला; साहित्य और संस्कृति; साहित्य और संगीत; साहित्य और मूर्तिकला; साहित्य और चित्रकला; साहित्य और नृत्यकला; साहित्य और सिनेमा
3.	साहित्य और दर्शनशास्त्र; पाश्चात्य दर्शन का साहित्य से संबंध; साहित्य और समाज विज्ञान; साहित्य और समाजशास्त्र का संबंध; साहित्य और राजनीति का संबंध; साहित्य और विधि का संबंध; साहित्य और इतिहास का संबंध; साहित्य और अर्थशास्त्र का संबंध
4.	साहित्य और विज्ञान; मानव-विज्ञान और साहित्य का संबंध; साहित्य और पर्यावरण का संबंध; साहित्य और चिकित्साशास्त्र का संबंध; साहित्य और मनोविज्ञान का संबंध; साहित्य का अन्य विज्ञानपरक अनुशासनों से संबंध

अनुशंसित पुस्तकें :

- भारतीय विज्ञान की कहानी; गुणाकर मुले; राजकमल प्रकाशन, दिल्ली; 2003.
- भारतीय संगीत की कहानी; भगवतशरण उपाध्याय; राजपाल एंड संस, दिल्ली; 2016.
- भारत की मूर्तिकला की कहानी; भगवतशरण उपाध्याय; राजपाल एंड संस, दिल्ली; 2013.
- भारतीय चित्रकला का संक्षिप्त इतिहास, वाचस्पति गैरोला; लोकभारती प्रकाशन; इलाहाबाद; 2009.
- भारत के शास्त्रीय नृत्य; लीला वेंकटरमन (अनु.-प्रयाग शुक्ल); नियोगी बुक्स, दिल्ली; 2019.
- भारतीय संस्कृति और हिंदी प्रदेश; रामविलास शर्मा; किताबघर प्रकाशन; दिल्ली; 1999.
- साहित्य के समाजशास्त्र की भूमिका; मैनेजर पाण्डेय; हरियाणा ग्रंथ अकादमी, पंचकूला; 1989.
- साहित्य और इतिहास-दृष्टि; मैनेजर पाण्डेय; वाणी प्रकाशन, दिल्ली; 2016.
- कथा-पटकथा; मन्नू भंडारी; वाणी प्रकाशन, दिल्ली; 2014.
- धुनों की यात्रा; पंकज राग; राजकमल प्रकाशन, दिल्ली; 2006.
- दर्शन, साहित्य और समाज; शिवकुमार मिश्र; वाणी प्रकाशन, दिल्ली; 2000.
- चित्रकला और समाज; भाऊ समर्थ; सेतु प्रकाशन, नोएडा; 2020.

पाठ्यक्रम : अस्मितामूलक साहित्य
पाठ्यक्रम कोड : SHSS HND 1 3 08 GE 3104

पाठ्यक्रम का उद्देश्य :

- अस्मितामूलक साहित्य की अवधारणा और उसके स्वरूप से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- अस्मितामूलक साहित्य के बुनियादी सरोकारों का ज्ञान।
- अस्मितामूलक साहित्य में मुक्ति के स्वरों की पहचान।
- अस्मितामूलक साहित्य की समझ का विकास।
- पाठ बोध के माध्यम से भाषा, भाव और रचना प्रक्रिया की जानकारी।

इकाई	पाठ्यक्रम
1.	अस्मिता की अवधारणा; स्मृति, इतिहास और अस्मिता; अस्मिता और सत्ता; धर्म और अस्मिता; अस्मिता और राष्ट्र; भूमंडलीकरण और अस्मिता
2.	अस्मितामूलक आंदोलन; मुक्ति की आकांक्षा और स्वर; सहानुभूति बनाम स्वानुभूति; आदिवासी अस्मिता और साहित्य; व्यक्ति अस्मिता और सामूहिक अस्मिता; स्त्री अस्मिता और हिंदी साहित्य
3.	**आत्मकथा : ओमप्रकाश वाल्मीकि** : जूठन **निबंध : महादेवी वर्मा** : युद्ध और नारी, नारीत्व का अभिशाप (शृंखला की कड़ियाँ)
4.	**कविताएँ : मलखान सिंह** : सफ़ेद हाथी; एक पूरी उम्र **: वंदना टेटे** : सबसे सुंदर स्त्री हो जाती है, पत्थलगड़ी की औरतें **: निर्मला पुतुल** : गजरा बेचने वाली स्त्री; आदिवासी स्त्रियाँ; बाहामुनी

अनुशंसित पुस्तकें :

- आधुनिकता के आईने में दलित; अभय कुमार दुबे; वाणी प्रकाशन, दिल्ली; 2002.
- अस्मितामूलक साहित्य का सौंदर्य दर्शन; कर्मानंद आर्य; द मार्जिन्लाइज्ड पब्लिकेशन और बिहार केंद्रीय विश्वविद्यालय; 2018.
- स्त्री उपेक्षिता; सिमोन द बुआ; हिन्द पॉकेट बुक्स, दिल्ली; 1999.
- आदिवासी स्वर और नयी शताब्दी; रमणिका गुप्ता; वाणी प्रकाशन, दिल्ली; 2014.
- दलित कविता का संघर्ष; कंवल भारती; स्वराज प्रकाशन, दिल्ली; 2012.
- दलित दृष्टि; गेल ओमवेट; वाणी प्रकाशन, दिल्ली; 2011.
- पुरुष तन में फंसा मेरा नारी मन; मानोबी बंद्योपाध्याय; राजपाल एंड संस, दिल्ली; 2018.
- बेघर सपने; निर्मला पुतुल; आधार प्रकाशन, पंचकूला; 2014.
- दलित साहित्य का समाजशास्त्र; हरिनारायण ठाकुर; भारतीय ज्ञानपीठ, दिल्ली; 2010.
- हिंदी दलित साहित्य; मोहनदास नैमिशराय; साहित्य अकादमी, दिल्ली; 2014.

- दलित साहित्य का सौंदर्यशास्त्र; ओमप्रकाश वाल्मीकि; राधाकृष्ण प्रकाशन, दिल्ली; 2014.
- शृंखला की कड़ियाँ; महादेवी वर्मा; लोकभारती प्रकाशन, इलाहाबाद; 2004.
- आदिवासी अस्मिता : प्रभुत्व और प्रतिरोध; संपा. अनुज लुगुन; अनन्य प्रकाशन, दिल्ली; 2015.

पाठ्यक्रम : साहित्य का समाजशास्त्र
पाठ्यक्रम कोड : SHSS HND 1 3 09 GE 3104

पाठ्यक्रम का उद्देश्य :

- साहित्य और समाज के अंतर्संबंधों और सरोकारों से परिचय।

पाठ्यक्रम के अपेक्षित परिणाम :

- साहित्य और समाज के संबंधों की मीमांसा।
- साहित्य के समाजशास्त्र की विभिन्न पद्धतियों की प्रविधि का बोध।
- साहित्यिक रचनाओं के समाजशास्त्रीय पाठ की प्रस्तुति का ज्ञान।
- साहित्य का समाजशास्त्रीय दृष्टि से विश्लेषण करने की समझ का विकास।

इकाई	पाठ्यक्रम
1	साहित्य और समाज का अंतर्संबंध; साहित्य के समाजशास्त्र का इतिहास; साहित्य के समाजशास्त्र की रूपरेखा
2	साहित्य के समाजशास्त्र की पद्धतियाँ : मार्क्सवादी पद्धति, समाजशास्त्रीय पद्धति, संरचनावादी पद्धति
3	साहित्यिक रूपों की अवधारणा; वस्तु और रूप का अंतर्संबंध; उपन्यास का समाजशास्त्र; कविता का समाजशास्त्र
4	'आत्महत्या के विरुद्ध' कविता का समाजशास्त्रीय अध्ययन; 'गोदान' उपन्यास का समाजशास्त्रीय अध्ययन 'जूठन' आत्मकथा का समाजशास्त्रीय अध्ययन

अनुशंसित पुस्तकें :

- साहित्य का समाजशास्त्र; डॉ नगेन्द्र; नेशनल पब्लिशिंग हाउस, दिल्ली; 1982.
- साहित्य का परिवेश; अज्ञेय; नेशनल पब्लिशिंग हाउस, दिल्ली; 1985.
- साहित्य : समाजशास्त्रीय संदर्भ; सं. विश्वम्भरदयाल गुप्ता; सीता प्रकाशन, हाथरस; 1987.
- साहित्य, संस्कृति और समाज परिवर्तन की प्रक्रिया; अज्ञेय; संपा. कृष्णदत्त पालीवाल; सस्ता साहित्य मंडल, दिल्ली; 2010.
- साहित्य के समाजशास्त्र की भूमिका; मैनेजर पांडेय; आधार प्रकाशन,पंचकूला; 1989.
- साहित्य और इतिहास दृष्टि; मैनेजर पांडेय; वाणी प्रकाशन, दिल्ली; 2016.

- साहित्य के सिद्धांत; रेने वेलेक, आस्टिन वारेन; बीएस. पालीवाल; लोकभारती प्रकाशन, इलाहाबाद; 2012.

शिक्षण अधिगम प्रक्रिया

- व्याख्यान
- प्रश्नोत्तर
- अभ्यास
- सहभागितामूलक अधिगम
- अनुप्रेरक सत्र
- विचार-सत्र
- संगोष्ठी
- अनुसंधान आधारित पाठचर्या एवं लघु शोध प्रबंध
- तकनीकी आधारित अधिगम

मिश्रित अधिगम

संकल्पना : मिश्रित अधिगम एक शैक्षणिक दृष्टिकोण है जो शिक्षण और अधिगम की प्रक्रिया में कंप्यूटर-आधारित गतिविधियों के साथ अभिमुख कक्षा की पद्धतियों को समेकित करता है। इसका आधार अधिगम-प्रक्रियाओं को अधिक रोचक और आकर्षक बनाने के लिए अभिमुख और ऑनलाइन गतिविधियों का सुन्दर समावेश है। यह परम्परागत शिक्षण पद्धति और आईसीटी केन्द्रित गतिविधियों का समायोजन करता है। यह छात्र-केंद्रित अधिगम के परिवेश पर बल देता है जहां शिक्षक उत्पादक और उल्लेखनीय अधिगम निष्कर्षों का सूत्रधार है। यह डिजिटल प्लेटफॉर्म के माध्यम से वीडियो लेक्चर, पॉडकास्ट, रिकॉर्डिंग और लेखों जैसे ओपन-एक्सेस स्रोतों की विस्तृत श्रृंखला तक पहुंचने और खोजने के लिए छात्रों और शिक्षकों को पर्याप्त स्वतंत्रता और लचीलापन देते हुए, अभिमुख-अधिगम का अनुकूलन और सहयोग करता है। यह शिक्षकों को अभिमुख-अधिगम के उपयुक्त डिजिटल प्लेटफॉर्म, संसाधनों और समयावधि के चयन में स्वतंत्रता और स्वायत्तता देता है। मिश्रित अधिगम शिक्षक की भूमिका को कम नहीं करता है, बल्कि यह उसे पाठ्यक्रम की आवश्यकताओं के अनुसार परम्परा से हटकर खोज करने का अवसर देती है।

मिश्रित अधिगम के मुख्य बिंदु

- छात्र-केंद्रित शैक्षणिक दृष्टिकोण समय, सामग्री की गुणवत्ता, छात्रों की जरूरतों और रुचियों में लचीलेपन और उनकी पसंद के माध्यम से अध्ययन करने की स्वतंत्रता पर ध्यान केंद्रित करता है
- विभिन्न माध्यमों और तकनीकों को चुनने की स्वतंत्रता
- अधिगम में छात्रों की व्यस्तता में वृद्धि
- शिक्षक और छात्र के मध्य संवाद में वृद्धि
- छात्र अधिगम-निष्कर्ष में सुधार
- शिक्षण-अधिगम परिवेश में अत्याधिक लचीलापन
- स्वयं और निरंतर सीखने के लिए अधिक क्रियाशील
- प्रयोगात्मक अधिगम हेतु बेहतर अवसर
- अधिगम कौशल में अभिवृद्धि
- सूचना तक अधिक पहुंच, बेहतर संतुष्टि और अधिगम-निष्कर्ष।

आकलन एवं मूल्यांकन

- प्रत्येक पाठ्यक्रम-स्तरीय अधिगम-निष्कर्ष की उपलब्धि के बाद नियमित रूप से निरंतर व्यापक मूल्यांकन
- एकमुश्त मूल्यांकन के बजाय पूरे कार्यक्रम में शिक्षार्थी की गतिविधियों के आधार पर रचनात्मक मूल्यांकन
- प्रस्तुति और संचार कौशल का परीक्षण करने के लिए मौखिक परीक्षा
- अर्जित ज्ञान की बेहतर समझ और अनुप्रयोग के लिए खुली किताब परीक्षा
- समस्या समाधान अभ्यास पर समूह परीक्षा
- संगोष्ठी प्रस्तुतियाँ
- उपलब्ध सामग्री की समीक्षा
- सहयोगात्मक कार्य

प्रमुख बिंदु

- मुख्य और वैकल्पिक पाठ्यक्रमों का वृहद् समवाय
- प्रत्येक पाठ्यक्रम से सुनिश्चित लक्ष्य की प्राप्ति
- विश्व साहित्य और आधुनिक भारतीय साहित्य का समावेश
- पत्रकारिता, जनसंचार और अनुवाद के कौशल संबंधी प्रश्न पत्र
- अंतर-अनुशासनिक विषय-वस्तु की उपलब्धता
- स्थानीय साहित्य के साथ-साथ हिंदी व्याकरण के अध्ययन की सुविधा
- अनुसंधान और विशेषज्ञता केन्द्रित

प्रमुख शब्द

- LOCF/एलओसीएफ
- NEP-2020/नयी शिक्षा नीति-2020
- Blended Learning/ मिश्रित अधिगम
- Face to face (F to F) Learning/ प्रत्यक्ष अधिगम
- Programme Outcomes/ कार्यक्रम के निष्कर्ष
- Programme Specific Outcomes/ कार्यक्रम के विशेषीकृत निष्कर्ष
- Course-level Learning Outcomes/ पाठ्यक्रम-स्तरीय अधिगम निष्कर्ष
- Postgraduate Attributes/स्नातकोत्तर की महत्ता/ विशेषता
- Learning Outcome Index/अधिगम निष्कर्ष सूचकांक
- Formative Assessment and Evaluation/ एकमुश्त आकलन एवं मूल्यांकन
- Comprehensive and Continuous Evaluation/ सतत आकलन एवं मूल्यांकन

अनुलग्नक

पाठ्यक्रम सुधार- राष्ट्रीय शिक्षा नीति -2020 के मुख्य बिंदु

I. **राष्टीय शिक्षा नीति : उच्च शिक्षा का दृष्टिकोण**

- ❖ एक प्रबुद्ध, सामाजचेता-, ज्ञानवान और कुशल राष्ट्र के विकास को संभव बनाना
- ❖ ज्ञान सृजन और नवाचार का आधार जिससे एक बढ़ती हुई राष्ट्रीय अर्थव्यवस्था में योगदान होता है।
- ❖ अधिक जीवंत, सामाज-सम्बद्ध, सहकारी समुदायों और एक खुशहाल, एकजुट, सुसंस्कृत, उत्पादक, अभिनव, प्रगतिशील और समृद्ध राष्ट्र की कुंजी।
- ❖ सतत आजीविका और राष्ट्र के आर्थिक विकास में योगदान करना
- ❖ 21वीं सदी के प्रमुख कौशलसे युक्त, परिपूर्ण, विचारशील, रचनात्मक और समुचित योग्य व्यक्तियों का निर्माण करना

II. **नयी शिक्षा नीति: एकीकृत दृष्टिकोण पर बल**

- ❖ पेशेवर और व्यावसायिक शिक्षा सहित एक एकीकृत उच्च शिक्षा प्रणाली;
- ❖ उच्च गुणवत्ता वाली बहु विषयक और-अंतर-अनुशासनिक शिक्षा को सक्षम और प्रोत्साहित करना;
- ❖ कला, मानविकी, भाषा, विज्ञान, सामाजिक विज्ञान, और पेशेवर, तकनीकी और व्यावसायिक क्षेत्रों के क्षेत्रों में 21वीं सदी की क्षमता;
- ❖ यहां तक कि इंजीनियरिंग संस्थान, जैसे कि आईआईटी, कला और मानविकी के साथ अत्याधिक समग्र और बहु विषयक शिक्षा की ओर-अग्रसर।
- ❖ कला और मानविकी के छात्र अधिक विज्ञान सीखने का लक्ष्य रखेंगे
- ❖ सामान्य शिक्षा में अधिक व्यावसायिक विषयों और सॉफ्ट स्किल्स को शामिल करने का प्रयास
- ❖ सकारात्मक अधिगम निष्कर्षों के लिए मानविकी और कला का एसटीईएम के साथ एकीकरण।

III. **राष्ट्रीय शिक्षा नीति : पाठ्यचर्या संबंधी संस्तुतियां**

- ❖ छात्रोपयोगिता के बेहतर अनुभव के लिए पाठ्यक्रम, शिक्षण-पद्धति, मूल्यांकन और छात्र सहयोग में सुधार;
- ❖ रटने की संस्कृति से दूर वास्तविक समझ विकसित करना और सीखना सीखना। -
- ❖ चरित्र, नैतिक और संवैधानिक मूल्य, बौद्धिक जिज्ञासा, वैज्ञानिक स्वभाव, रचनात्मकता, सेवा की भावना का विकास करना
- ❖ छात्रों को अधिक सार्थक और संतोषजनक जीवन और कार्ययोजना के लिए तैयार करना
- ❖ छात्रों को आर्थिक रूप से आत्मनिर्भर करते हुए, अपने अनुशासन और इसके बाहर कौशल और मूल्यों के क्षेत्र की विशिष्ट पहचान कराना।

IV. **राष्ट्रीय शिक्षा नीति : कौशल संबंधी संस्तुतियां**

- अनुशासनों की निर्बाधता में 21वीं सदी की योग्यताएं
- व्यक्तिगत उपलब्धि और ज्ञानोदय;
- रचनात्मक सार्वजनिक जुड़ाव
- समाज में उत्पादक योगदान;
- वैज्ञानिक स्वभाव और साक्ष्य आधारित चिंतन;
- रचनात्मकता और नवीनता
- आलोचनात्मक और उर्ध्व चिंतन क्षमता,
- संप्रेषण कौशल,
- समसामयिकी और स्थानीय समुदायों, राज्यों, देश और दुनिया के सामने आने वाले महत्वपूर्ण मुद्दों का ज्ञान।
- गहन शिक्षण और सभी क्षेत्रों में पाठ्यक्रम में महारत हासिल करना
- सामाजिक एवं नैतिक जागरूकता
- कला और सौंदर्य का बोध
- मौखिक और लिखित संप्रेषण
- स्वास्थ्य एवं पोषण
- शारीरिक शिक्षा, फिटनेस, स्वास्थ्य, और खेलकूद
- सहयोग और सामूहिकता
- समस्या समाधान और तर्कशक्ति परीक्षण
- पर्यावरण जागरूकता, जल/संसाधन संरक्षण, स्वच्छता और साफ़-सफाई

V. **राष्ट्रीय शिक्षा नीति : सुधार हेतु संस्तुतियां**

- छात्रों के बीच विभिन्न महत्वपूर्ण कौशल विकसित करने के लिए आर्टिफिशियल इंटेलिजेंस, डिजाइन थिंकिंग, समग्र स्वास्थ्य, जैविक जीवन, पर्यावरण शिक्षा, वैश्विक नागरिकता शिक्षा (जीसीईडी), आदि जैसे समकालीन विषयों का परिचय
- शिक्षण और अधिगम की आकर्षक प्रक्रियाओं के माध्यम से कौशल और मूल्यों को आत्मसात करना
- आलोचनात्मक चिंतन और परिपूर्ण, पूछताछआधारित-, खोजआधारित-, चर्चा-आधारित और विश्लेषण-आधारितअधिगम के लिए जगह बनाने के लिए पाठ्यचर्या सामग्री को कम किया जाना है।
- सामग्री मुख्य संकल्पनाओं, विचारों, अनुप्रयोगों और समस्या समाधान पर विषय-वस्तु केंद्रित रहेगी
- प्रायोगिक अधिगम जिसमें व्यावहारिक अधिगम, कलाएकीकृत-एकीकृत और खेल- अधिगम शामिल है
- प्रत्येक विषय में किस्सागोई आधारित शिक्षण-पद्धति
- सभी अनुशासनों की संकल्पनाओं के अधिगम के आधार के रूप में कला और संस्कृति के विभिन्न आयाम और रूप
- शिक्षण और अधिगम की प्रक्रिया में भारतीय कला और संस्कृति के एकीकरण के माध्यम से भारतीय लोकाचार को आत्मसात करना

- पाठ्यचर्या और शिक्षण-पद्धति को भारतीय और स्थानीय संदर्भ और संस्कृति, परंपरा, विरासत, रीति-रिवाज, भाषा, दर्शन, भूगोल, प्राचीन और समकालीन ज्ञान, सामाजिक और वैज्ञानिक जरूरतों, सीखने के स्वदेशी और पारंपरिक तरीकों आदि के संदर्भ में दृढ़ता से निहित किया जाना चाहिए
- पाठ्यक्रम विकल्प में लचीलापन लाकर छात्रों को सशक्त बनाना
- अध्ययनगत अनुशासनों के रचनात्मक संयोजन को सक्षम करने के लिए कल्पनाशील और लचीली पाठ्यक्रम संरचना
- वर्तमान में प्रचलित कठोर सीमाओं को हटाकर और सतत अधिगम के लिए नई संभावनाएं पैदा करके एकाधिक प्रवेश और निकास बिंदु प्रदान करना
- भारतीय मानकों को अंतरराष्ट्रीय श्रम संगठन द्वारा बनाए गए व्यवसायों के अंतरराष्ट्रीय मानक वर्गीकरण के साथ क्रमबद्ध किया जायेगा
- 'पाठ्यचर्या', 'पाठ्येतर', या 'सह-पाठ्यचर्या', 'कला', 'मानविकी', और 'विज्ञान' के बीच, या 'व्यावसायिक' या 'शैक्षणिक' धाराओं के बीच कोई जटिल अलगाव नहीं है
- भारतीय शास्त्रीय भाषाओं के लिए बहुभाषावाद और लगाव को बढ़ावा देकर भारतीय ज्ञान प्रणाली, सांस्कृतिक परंपराओं और शास्त्रीय साहित्य के लिए अभिवृद्धि
- विभिन्न प्रासंगिक विषयों और वास्तविक जीवन के अनुभवों के साथ भाषाओं के सांस्कृतिक आयामों का रचाव - जैसे कि फिल्में, थिएटर, कहानी, कविता और संगीत
- प्राचीन भारत के ज्ञान और आधुनिक भारत में इसके योगदान के बारे में छात्रों को शिक्षित करने के लिए "भारत का ज्ञान"
- सभी छात्रों में बुनियादी नैतिक तर्क, पारंपरिक भारतीय मूल्य और मानवीय और संवैधानिक मूल्य विकसित किए जाने चाहिए
- सामुदायिक जुड़ाव और सेवा, पर्यावरण शिक्षा और मूल्य-आधारित शिक्षा के क्षेत्रों में क्रेडिट-आधारित पाठ्यक्रम और परियोजनाएं
- स्थानीय उद्योग, व्यवसायों, कलाकारों, शिल्पकारों आदि के साथ इंटर्नशिप के अवसर ताकि छात्र अपनी रोजगार क्षमता में सुधार के लिए अपने अधिगम के व्यावहारिक पक्ष से जुड़ सकें
- कौशल अंतराल विश्लेषण और स्थानीय अवसरों की पहचान के आधार पर व्यावसायिक शिक्षा के लिए लक्षित क्षेत्रों का चयन किया जाएगा
- स्टार्ट-अप इन्क्यूबेशन केंद्र; प्रौद्योगिकी विकास केंद्र; और व्यापक उद्योग-अकादमिक संबंध के माध्यम से अनुसंधान और नवाचार पर ध्यान देना
- तकनीकी शिक्षा के लिए वांछित निष्कर्षों हेतु पाठ्यचर्या योजना में नवाचार को बढ़ावा देने के लिए उद्योग और उच्च शिक्षा संस्थानों के बीच घनिष्ठ सहयोग की आवश्यकता
- तकनीकी शिक्षा में युवाओं की रोजगार क्षमता बढ़ाने के लिए अन्य विषयों के साथ गहराई से जुड़ने के अवसरों पर नए सिरे से ध्यान केंद्रित किया जाना चाहिए।
- प्रत्येक कार्यक्रम के लक्ष्यों को आगे बढ़ाने के लिए सतत रचनात्मक मूल्यांकन
- उच्चस्तरीय परीक्षाओं से हटकर अधिक सतत और व्यापक मूल्यांकन की ओर बढ़ना
- प्रत्येक कार्यक्रम के लिए अधिगम लक्ष्यों के आधार पर छात्र की उपलब्धि का आकलन करना, प्रणाली को निष्पक्ष बनाना और निष्कर्षों को अधिक तुलनीय बनाना

- ❖ इन-क्लास, ऑनलाइन और ओडीएल मोड सहित गुणवत्ता के वैश्विक मानकों को प्राप्त करने के लिए सभी विषयों में सभी कार्यक्रम, पाठ्यक्रम, पाठ्यचर्या और शिक्षण-पद्धति।
- ❖ शिक्षक को पाठ्यपुस्तक और पठन सामग्री चयन, असाइनमेंट और मूल्यांकन सहित अनुमोदित ढांचे के भीतर अपने स्वयं के पाठ्यचर्या और शैक्षणिक दृष्टिकोण को निर्मित करने की स्वतंत्रता दी जानी चाहिए।
- ❖ नए शिक्षण, अनुसंधान और सेवा के संचालन के लिए संकाय को सशक्त बनाना, जिसे वे सर्वाधिक उपयुक्त देखते हैं
- ❖ कक्षा अंतरण को योग्यता-आधारित शिक्षा और अधिगम की ओर स्थानांतरित करना
- ❖ मूल्यांकन उपकरण प्रत्येक विषय के लिए निर्दिष्ट अधिगम निष्कर्षों, क्षमताओं और स्वभाव के साथ संरेखित किये जाने चाहिए

पाठ्यक्रम : तुलनात्मक साहित्य
पाठ्यक्रम कोड : SHSS HND 01 E 102

क्रेडिट-6

(इस पाठ्यक्रम में विभिन्न भारतीय भाषाओं एवं विदेशी भाषाओं के साहित्य के तुलनात्मक अध्ययन के साथ-साथ तुलनात्मक साहित्य की अवधारणा, समस्याओं एवं उसके विभिन्न परिप्रेक्ष्यों का अध्ययन अपेक्षित होगा.)

इकाई	पाठ्यक्रम
1	तुलनात्मक साहित्य की अवधारणा और स्वरूप; तुलनात्मक साहित्य के वैचारिक आधार; तुलनात्मक साहित्य के अध्ययन का इतिहास एवं वर्तमान परिदृश्य; तुलनात्मक साहित्य के मूल्य एवं मंतव्य
2	तुलनात्मक साहित्य के अध्ययन की प्रविधि एवं परिप्रेक्ष्य; तुलनात्मक साहित्य के राष्ट्रीय एवं अंतर्राष्ट्रीय संदर्भ; तुलनात्मक साहित्य का भारतीय संदर्भ
3	भारतीय साहित्य की अवधारणा और अध्ययन की समस्याएँ; मध्यकालीन धर्म, दर्शन और कविता; भारतीय साहित्य में आधुनिकता का उदय; अनुवाद अध्ययन और तुलनात्मक साहित्य
4	तुलनात्मक साहित्यं एवं पाठ : कालिदास और शेक्सपीयर; प्रेमचंद और गोर्की; निराला और रवींद्रनाथ टैगोर

अनुशंसित पुस्तकें :

- तुलनात्मक अध्ययन एवं स्वरूप; संपा. भ.ह. राजूरकर एवं राजकमल बोरा; वाणी प्रकाशन, दिल्ली; 1978.
- तुलनात्मक अध्ययन : स्वरूप और समस्याएँ; राजकमल बोरा; वाणी प्रकाशन, दिल्ली; 2007.
- तुलनात्मक अध्ययन : भारतीय परिप्रेक्ष्य; इंद्रनाथ चौधरी; वाणी प्रकाशन, दिल्ली; 2007.

DEPARTMENT OF HISTORY & ARCHAEOLOGY

CENTRAL UNIVERSITY OF HARYANA

Minutes of the Board of Studies Meeting

A meeting of the Board of Studies was held on 8th Sep 2021 at 4 PM in virtual mode.

Following members were present in the meeting:

1. Prof. S. K. Chahal, External Member, BOS, Dept. of History, Kurukshetra University
2. Dr. Abhiranjan Kumar, Member, BOS, Dept. of History & Archaeology, CUH

One faculty member from the department of History & Archaeology joined this meeting as guest member:

1. Dr. Iswar Parida, Guest Member, Dept. of History & Archaeology, CUH

Proposed Agenda:

Item no. 1. To consider and approve changes in the selected courses of the existing syllabus of PG and M.Phil.

Item no. 2: To consider and approve new courses for GEC and DCEC at PG level.

Item no. 3: To approve the online-offline distribution of course in a 40-60 ratio.

Item no. 4. Other, if any, with permission of the chair.

Resolutions:

Srl no.	Proposed Agenda	Resolutions
Item no. 1	To consider and approve changes in the selected courses of the existing syllabus of PG and M.Phil.	Approved as proposed.

Abhiranjan

Item no. 2	To consider and approve new courses for GEC and DCEC at PG level.	Approved as proposed.
Item no. 3	To approve the online-offline distribution of course in a 40-60 ratio.	Approved as proposed.
Item no. 4	Other, if any, with permission of the chair. a) It was observed that paper four, a seminar paper (a research article writing paper), of semester third is restricted to one theme and to one concerned teacher only, making it inconvenient for a single teacher to do justice.	a) It was agreed that the seminar paper of semester third (Paper 4 both in Archaeology and Modern India) will be made open to any theme related to the specialization area (Archaeology or Modern India). Also that any teacher from these areas can supervise. Therefore, these courses in each specialization will now be shifted to the DCEC course with new course code. This new course code will be as follows: 1. SAHS HA 010311 MOD DCEC 4004: Constitutional History of India:1773 Regulating Act to 1947 Act 2. SAHS HA 010309 ARCH DCEC4004: Indian Epigraphy Up to 1200 AD

Suggestion:

1. Prof. S K Chahal, the external member, suggested the introduction of two new courses at the DCEC level, if the department thinks it deem suitable:

a) Business history of India
b) Depressed classes in Indian History

The suggestion was appreciated and it was hold that the department would take up this suggestion in its next departmental meeting.

The HOD (Dept. of History & Archaeology) endorsed the resolutions telephonically.

The meeting concluded at 4:45 PM with a vote of thanks by Dr. Abhiranjan Kumar.

(Prof. S K Chahal) 8-9-21

(Dr. Abhiranjan Kumar)

(Dr. Ishwar Parida)

Annexure-1 A

Suggested changes for the revision in existing syllabus in the courses taken by Dr. Abhiranjan Kumar

	Course & Semester: Course (Core): Introduction to History & its Research Methods; Sem.-I	
Srl no	**Existing portion**	**Suggested changes**
1	**Unit 1: Understanding History**	
	i. B. Aspects: Social, political, economic, religious, cultural, ecological	a. In sub unit B: Merge the two (Sub para B and C) and remove the details b. Aspects of history; Types of history
	ii. C. Types of history: Universal, national, regional, local, oral, archival, textual-official and private, traditional, memory based	a. Emerging trends: New history, Sub history, Big history
	iii. D. Relation of history with other subjects: Social Sciences, Environmental Science, Literature, Mythology, Natural Sciences	a. Relation of History with other subjects
	Unit 3: Methods in History	
	i. A. Research methods: Qualitative and quantitative; Hypothesis	a. Research methods; Hypothesis
	ii. Historical criticism; Text criticism-Old and new-Deconstruction	a. Historical criticism
	iii. Sources of information: types	a. Historical sources
	Unit 4: Elements and Techniques of Historical Research	
	i. C. Presenting research work/argument	a. Presenting research work
	ii. D. Use of computer: MS word, PPT, Basic Excel, Formatting, Using internet, Reliability of internet information, Basic SPSS	a. Use of computer: MS word, PPT, Basic Excel, Using internet and reliability of internet information
	Course (Core): Historiography from ancient to contemporary world Sem.-II	
2	**UNIT 2: Historiography in the Medieval World**	
	i. A. Arab Historiography	a. Medieval Islamic historiography
	ii. D. Changing Contours of Historiography during Renaissance and Reformation	a. Historiography during Renaissance and Reformation

Abhiranjan Kumar

	UNIT 3: Historiography in Modern Age	
	i. A. Historiography during Enlightenment ii. B. Romanticism and Idealism in History – Hegel, Herder and French Historians	a. Merge the two sub para A and B and change it to: *Historiography during Enlightenment and Romanticism*
	i. C. Nationalist and Literary Expression: British and German Historiography	a. This will be changed to: *19th century Europe and history writing* and be repositioned to sub para B
	i. D. Berlin Revolution: Niebuhr and Ranke; Materialists and Positivists' Assertions-Marx and Comte	a. This will be broken into two separate themes in two different sub paras. Sub para C: Berlin revolution: Niebuhr and Ranke
	i. D. Materialists and Positivists' Assertions-Marx and Comte	a. This will be situated in a new sub para D
	UNIT 4: Ideological Shift in 20th Century Historiography	
	i. D. Literary theory and historiography: Post-structuralism, Deconstruction and Post modernism	a. Critical literary theory and historiography
	ii. B. Annals School of History-Contribution and Impact	a. Annals school of history
3	**Course (DCEC): History of World Cinema Semester II**	
	UNIT 1: World Cinema	
	i. The beginning-History and Films in early days. ii. Film Theory and Criticism; Films in perspectives-Sociological, Political, Cultural, Economic. iii. Film as setting History- German Expressionism, Italian Neorealism, French New Wave, Bollywood Parallel Cinema. iv. History of Major Film Industries-Hollywood and Bollywood	a. History of the beginning: the 19th century b. Films in early years: 1895-1915 c. Film Theory and Criticism d. Representative cinematic movement: German Expressionism, Italian Neorealism, French New Wave, Bollywood Parallel Cinema, Third cinema
	UNIT 2: Broader Forms of Cinema	
	i. A. Evolution of Cinema as Language; Images and Signs in Cinema. ii. B. Cinema as History-Memory, Re-reading and Consciousness iii. C. Cinema and New Technology	a. Short films b. Documentary

Abhiranjan Kumar

	iv. D. Cults Cinema and the Limits of Cinema	c. Animated films d. Cult films
	UNIT 3: Cinema and Subjects	
	i. A. Psychoanalysis, Aesthetic and Gender ii. B. Globalization, Documentary and Third Cinema iii. C. Social Responsibility iv. D. Objectification and Dehumanization- Deconstructing Cinema	a. Freedom of Expression and Cinema. b. Globalization and the world of cinema c. Social Responsibility and cinema d. Objectification and Dehumanization in Cinema
	UNIT 4: World of Cinema at a Glance	
	i. A. History of Cinema Awards-Oscar. ii. B. Freedom of Expression and Cinema.	a. History of Cinema Awards: Oscar b. History of film studios
4	**Course (Core): MODERN INDIA (1757 AD - 1947 AD)** **SEM: III**	
	Historiography in Modern India	
	UNIT 1: Beginning	
	i. A. Introduction to Indian Historiography; British and the beginning of modern history writing in India; Dutch, French and Portugese Works and Indian Historiography	a. Introduction to modern Indian Historiography
	ii. B. Administrator Historians and Orientalists- Charles Wilkins, William Jones, Cunningham, Elliphinston, James Princep; Construction of the Image of India.	a. Foreign traveller's account on India in medieval and early modern period
	iii. C. Government Policies and history Writing	a. European missionaries in India and their writings
	iv. D. New Ideas and the Growth in Technology and the Growth of Indian Historiography- Archaeology, Numismatics and Inscriptions	a. Indian history and British writings in 18th century
	UNIT 2: Imperialist Historiography:	**UNIT 2: 18TH-19TH century and history writing**
	i. Imperial Historians-Meaning, Features, Criticisms	a. Oriental studies in India; Major orientalists

Abhiranjan Kumar

	ii. Utilitarianism-Meaning, Features, Criticisms; Evangelicals-Meaning, Features, Criticisms	b. Imperialist writings on India: Utilitarian and Evangelicals
	iii. Asiatic Mode of Production, Oriental Despotism, Static Society and Hydraulic State	c. Major Imperialist historians
	iv. Major Historians- James Mill, Elliot and Dawson, V A Smith	d. Marx's Asiatic mode of production

	ii. B. Population; Migration; Labour	b. Shift this to Sub Para A. and bring Sub Para C viz., Transportation and Communication-

Abhiranjan Kumar

		Railways, Postal & Telegraph, Shipping
	iii. C. Transportation and Communication- Railways, Postal and Telegraph, Shipping; Impact	c. Growth of Indian Capitalist Class
	iv. D. Growth of Indian Economy and Indian Nationalism; Perception on Indian economy: Gandhi, Indian National Congress, Indian Communists, Ambedkar	d. Indian National Congress and Economic issues

Note: After the changes, the courses will appear as follows:

Abhiranjan Kumar

SEMESTER: I

PAPER: 1: INTRODUCTION TO HISTORY AND ITS RESEARCH METHODS

Number of credits: **5**

Nature of course: **Core**

Aim of the course: The broad aim is to acquaint students with the basic understanding of the subject history, its philosophy, the research method and other basic ideas.

Objectives of the course:

i. To understand the idea of history;

ii. To develop a critical reading of the subject;

iii. To know the philosophy of the subject; and

iv. To know the methods employed in history.

UNIT 1: Understanding History:

A. Meaning, Rationality, Nature and Scope

B. Aspects of history; Types of history

C. Emerging trends: New history, Sub histories, Big history

D. Relation of history with other subjects

UNIT 2: Philosophy of History:

A. Historical facts; Objectivity and bias in history

B. Causation; Idea of progress in history

C. Generalization; Explanation and interpretation; Value judgment in history

D. Post- modernist skepticism and history

UNIT 3: Methods and Sources in History:

A. Research methods; Hypothesis

B. Data collection and selection

C. Historical criticism

D. Historical Sources

UNIT 4: Elements and Techniques of Historical Research:

A. Research Process in history

B. Formalization of research work: foot notes, charts, tables, arrangement of references, indexing, appendices, bibliography

C. Presenting research work: Report, Research paper, Project, Dissertation and Thesis.

D. Use of computer: MS word, PPT, Basic Excel, Using internet and reliability of internet information

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

SEMESTER: II

PAPER: 1: HISTORIOGRAPHY FROM ANCIENT TO CONTEMPORARY WORLD

Number of credits: **5**

Nature of course: **CORE**

Aim of the course: The broad aim is to make students aware about the development of history writing in different historical phases continuing till present days.

Objectives of the course:

i. To know the beginning of history writing.

ii. To know the progress of history writing in different ages.

iii. To understand the growth of numerous philosophical, intellectual and ideological constructs in all these phases.

iv. To understand the growth of historiography in the given historical milieu.

UNIT 1: Historiography in Ancient World:

A. Introduction and the beginning;

B. Greek-Roman Historiography;

C. Chinese Historiography;

D. Ancient Indian Historiography

UNIT 2: Historiography in the Medieval World:

A. Medieval Islamic Historiography;

B. Historiography in Medieval Europe;

C. Historiography in Medieval India;

D. Historiography during Renaissance and Reformation

UNIT 3: Historiography in Modern Age:

A. Historiography during Enlightenment and Romanticism

B. Nationalist and Literary Expression: British and German Historiography

C. Berlin Revolution: Niebuhr and Ranke

D. Materialists' and Positivists' Assertions-Marx and Comte

UNIT 4: Ideological Shift in 20th Century Historiography:

A. Modern Historiography: Continuation and Changes

B. Annals School of History

C. Post-Colonial Historiography—Subaltern historiography

D. Critical Literary theory and historiography

Classroom strategy:

It will be a blend of formal theoretical teaching and audio-visual teaching. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures will also be organized.

SEMESTER: II

PAPER: 7: HISTORY OF WORLD CINEMA

Number of credits: **4**

Nature of course: **DCEC**

Aim of the course: The broad aim is to make pupil understand the history of the inauguration of cinema on the world horizon with its growing intent, influence, glamour and potential as well as harbinger of change.

Objectives of the course:

i. To understand the gradual evolution of the technique of cinema with its far reaching consequences.
ii. To understand the growth, hold and glamour of the most popular visual medium of expression, called cinema.
iii. To understand the unpredictable journey of aesthetic, fantasy, magic, imagination treading along the path of reality.

UNIT 1: World Cinema:

A. History of the beginning: the 19th century

B. Films in early years: 1895-1915

C. Film Theory and Criticism

D. Representative cinematic movement: German Expressionism, Italian Neorealism, French New Wave, Bollywood Parallel Cinema, Third cinema

UNIT 2: Broader Forms of Cinema:

A. Short films

B. Documentary

C. Animated films

D. Cult films

UNIT 3: Cinema and Subjects:

A. Freedom of Expression and Cinema

B. Globalization and the world of cinema

C. Social Responsibility and cinema

D. Objectification and Dehumanization in Cinema.

Abhiranjan Kumar

UNIT 4: World of Cinema at a Glance:

A. History of Cinema Awards: Oscar

B. History of film studios

C. Understanding Major Cinema makers- Any Two Film Makers

D. Understanding Cinema-Any Two Films

Classroom strategy:

It will be a blend of formal theoretical teaching and discussions. Movie watching, audio-visual display, presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized.

Annexure 1 B

Suggested changes for the revision in existing syllabus in the courses taken by Dr. Iswar Parida:

OPTION III: HISTORIOGRAPHY OF MODERN INDIA (Ph. D. Course Work)

Number of Credits: 06

Nature of Course: Elective

Aim of the Course: The broader aim is to introduce and impart the basic concepts concerning historiography of modern India which is vital for higher studies in the concerned subject.

Objectives:

- To carry out research, writing, and organizational skills in the field of Asian history through an independent study project and completion of a long written assignment based on primary sources
- To investigate in-depth knowledge and understanding of approaches, methods and theories in the Historical Sciences and the region and topic of specialization
- To undertake further postgraduate study
- To prepare the candidate for M.Phil. and PhD Research by providing one-to-one training related to research design and the use of sources in a specific region.

Unit – 1: Making of 'History' as a Discipline and Nature of Historical Sources

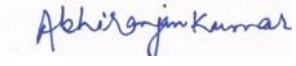
A. Genesis of the discipline "history"
B. Sources and History-Writing
C. Abode of Historical Sources
D. Expanding the Categories of Historical sources

Unit - 2: **Colonialism, Nationalism and Communalism**

A. Colonialism in India
B. Colonial Economy
C. Nationalism in India
D. Communalism in India

Unit – 3: Caste, Gender, and Family

A. Understanding Modern Caste
B. Invention of Colonial Categories
C. Gendered Identities
D. Colonizing Family



Abhiranjan Kumar

Unit – 4: Law, Medicine, and Environment

A. Law in Colonial India

B. Medicine and Public Health
C. Medicine and Advertisement
D. Ecological Resources

Classroom strategy:
It will be a blend of formal theoretical teaching and discussions. Audio-visual display, presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized. **The 30 percent of this paper will be taught online and rest of it will be offline.**

MEDIEVAL EUROPE

Number of credits: 5
Nature of course: CORE
Aim of the course: The broader aim is to make pupil understand the different historical phases during the medieval Europe.
Objective of the course:
i. To know the civilizational development in medieval Europe
ii. To critically examine the various facets of historical development

UNIT 1: The Carolingian Empire
A. Downfall of Roman Empire
B. Causes of Coronations of Charlemagne
C. Administration of Charles the Great
D. Carolingian Renaissance

UNIT 2: Imperial Age
A. Otto the Great
B. Frederic Barbossa
C. Frederic-II
D. Philip Augustus

UNIT 3: Feudalism
A. Rise
B. Features
C. Culture
D. Decline

UNIT 4: Rise of Papacy
A. Investiture Controversy
B. Pope Gregory VII
C. Pope Innocent III
D. Crusades: Causes and Effects

Classroom strategy:
The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. **The 30 percent of this paper will be taught online and rest of it will be offline.**

SEMESTER-IV

SOCIAL CHANGE IN MODERN INDIA: 1769-1947

Number of credits: 5

Nature of course: CORE

Aim of the course: The broad aim is to make students aware about the numerous changes and continuity in colonial Indian society.

Objective of the course:

i. To understand the theories in social history.

ii. To examine the social-history writing

iii. To understand the complex interrelationship that existed between various institutions of Indian society.

UNIT – 1: Colonial Knowledge Production and English Officials in India

A. Colonial Official and Indian Languages (Persian, Sanskrit and Hindoostani)
B. Indigenous Law and Colonial Administration: William Jones, Nathaniel Halhed, Thomas Colebrooke
C. Gazetteers and Census: Social engineering of Indian Society; Cartography in India
D. Self and Other; Colonial Narrative of Indian Society

UNIT – 2: Caste and Colonial Modernity

A. Caste and *Jati*: Perception and Practice of Caste in pre-colonial Indian society
B. Textualization of Caste: Census and politics of social hierarchy
C. Modernization of Caste: Caste Associations and Effort for Social Mobility
D. Dalit Movement: Jotiba Phule, Periyar, Narayan Guru and Dr. B.R. Ambedkar

UNIT – 3: Colonial Education and Making of Educated middle Class

A. System of Education in Pre-Colonial Indian Society
B. Anglo-Oriental Debate on Education
C. Macaulay Minute, Woods Despatch, Hunter Commission on Indian education
D. Emergence of Educated Middle Class

UNIT – 4: Family and Childhood

A. Family in pre-colonial Indian Society
B. Women and Social Reform Movements

C. Modernization of Family: Changing Role of Women and Children
D. Making of Colonial Childhood: Family and School

Classroom strategy:
It will be a blend of formal theoretical teaching and discussions. Audio-visual display, presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized. **The 30 percent of this paper will be taught online and rest of it will be offline.**

SEMESTER: II
RISE OF MODERN WEST

Number of credits: 5

Nature of course: CORE

Aim of the course: The broad aim is to make students aware about the numerous changes and continuity in Europe prior to the rise of modernism.

Objective of the course:

i. To understand the growing complex interrelationship that existed between the political, economic and socio-cultural elements.

ii. To understand the causes of the numerous changes and its repercussions.

iii. To understand its impact on the world.

UNIT 1: Age of Renaissance and Reformation:

A. Renaissance: Humanism, Rationalism, Individualism.

B. Renaissance in Art, Architecture and Painting

C. Reformation: Religion, God, Holy Book

D. Reformation in various parts of Europe and Counter-reformation

UNIT 2: Age of Geographical Discovery and Commercial Revolution:

A. Cartography, Cosmology and Navigation

B. Discovering new land: Africa, America, Asia

C. Commercial Revolution

D. Mercantilism in Theory and Practice

UNIT 3: Industrial Revolution:

A. Invention of Machines

B. Structural change in industrial production

C. Emergence of Capitalism

D. Industrialization in England and other parts of Europe

UNIT 4: The Intellectual Revolutions of 17th and 18th Centuries:

E. The Philosophical Foundations of Scientific Revolution

F. Impact of Scientific Revolution

G. The Enlightenment

H. Modernism

Classroom strategy:
It will be a blend of formal theoretical teaching and discussions. Audio-visual display, presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized. **The 30 percent of this paper will be taught online and rest of it will be offline.**

SEMESTER: III
MODERN INDIA: 1757 AD-1947 AD
NATIONALIST MOVEMENT: 1858-1947

Number of credits: 5

Nature of course: CORE

Aim of the course: The broad aim is to provide students a historical understanding of the factors, events, acts, policies, maneuvers and real politic that led to the emergence of a powerful force of nationalism in India and also to study the deep fissures within such force and how finally India received a divided independence.

Objective of the course:

i. To understand the historical factors for Indian nationalism.

ii. To know the local, national, international and British factors which were at work in the making of a nationalist movement in India.

iii. To understand the larger perspectives behind partition.

UNIT 1: Emergence of Indian Nationalism:

A. Historiography; Sources.
B. Formation of Associations in India: 1837-1885- Factors, Regions
C. Factors Responsible for the Emergence of Nationalism in India.
D. Indian National Congress from 1885-1916.

UNIT 2: India from 1905-1918:

A. Swadeshi Movement-The First Real Mass Movement.
B. Rise of Revolutionary Activities.
C. Home Rule Movement and its Impact.
D. First World War and the spread of Nationalism

UNIT 3: Gandhian Phase:

A. 1914-1917-From Mute Observer to Activist.
B. 1919-1922-Khilafat and Non-Cooperation Movement
C. 1922-1947: Civil Disobedience Movement, Quit India Movement.
D. Role of Gandhi in Freedom movement

UNIT 4: Alternative Ideologies and Movements:

A. The Swarajists.

Abhiranjan Kumar

B. The Revolutionary Nationalists

C. The Leftists

D. The INA Saga

Classroom strategy:
The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. **The 30 percent of this paper will be taught online and rest of it will be offline.**

Annexure 1 C

Suggested changes for the revision in existing syllabus in the courses taken by Dr. Narendra Parmar:

PAPER: 2: INTRODUCTION TO ARCHAEOLOGY

Number of credits: 5

Nature of course: Core

Aim of the course:

The broad aim is to acquaint students with the basic understanding of the subject matter of archaeology as an autonomous and important part of history, its technical dimensions and uncovering it layer by layer.

Objectives of the course:

i. To explore the term archaeology and to know its scientific beginning;

ii. To develop a critical reading of the subject;

iii. To know the philosophy of the subject;

iv. To explore the technical aspects of it;

v. To understand the subject with the aid of other natural and social sciences.

UNIT 1: Introduction to Archaeology

1. Archaeology: definition, scope, relevance

2. Relation with history and science

3. Terms in archaeology: culture assemblages

UNIT 2: History of Archaeology

1. History of archaeology in colonial India: from 18th century to 1902

2. History of archaeology in colonial India: from 1902 to 1947

3. Archaeology in Independent India: contribution of institutions and individuals

UNIT 3: Methods of Data Retrieval

1. Field discoveries: aims and methods of Explorations

2. Unearthing the sites: planning excavations, layout, techniques of Excavations–Vertical; Horizontal, tools and equipments.

3. Methods of recording the contexts of excavated remains: preparation of sections and plans, three-dimensional recording, site formation processes, floatation technique,

Abhiranjan Kumar

UNIT 4: Chronology and Dating Methods

1. Stratigraphy: Principles of stratification, Identification and recording of strata, Reconstruction of cultural sequence

2. Other methods of Relative chronology: Typology, Cross-dating, Palynology

3. Absolute methods of dating: Radiocarbon, Potassium-argon, Thermoluminescence, Pollen analysis, Dendrochronology

Method:

The major emphasis will be both on theory as well as practical aspects. Besides the formal lectures, the field survey and practical training will be duly focused upon. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

ANNEXURE 1 D (Ph. D. Course Work Syllabus)

OPTION III: HISTORIOGRAPHY OF MODERN INDIA

Number of Credits: 06

Nature of Course: Elective

Aim of the Course: The broader aim is to introduce and impart the basic concepts concerning historiography of modern India which is vital for higher studies in the concerned subject.

Objectives:

- To carry out research, writing, and organizational skills in the field of Asian history through an independent study project and completion of a long written assignment based on primary sources
- To investigate in-depth knowledge and understanding of approaches, methods and theories in the Historical Sciences and the region and topic of specialization
- To undertake further postgraduate study
- To prepare the candidate for M.Phil. and PhD Research by providing one-to-one training related to research design and the use of sources in a specific region.

Unit – 1: Making of 'History' as a Discipline and Nature of Historical Sources

E. Genesis of the discipline "history"
F. Sources and History-Writing
G. Abode of Historical Sources
H. Expanding the Categories of Historical sources

Unit - 2: **Colonialism, Nationalism and Communalism**

A. Colonialism in India
B. Colonial Economy
C. Nationalism in India
D. Communalism in India

Unit – 3: Caste, Gender, and Family

A. Understanding Modern Caste
B. Invention of Colonial Categories
C. Gendered Identities
D. Colonizing Family

Unit – 4: Law, Medicine, and Environment

A. Law in Colonial India
B. Medicine and Public Health

C. Medicine and Advertisement
D. Ecological Resources

Classroom strategy:
It will be a blend of formal theoretical teaching and discussions. Audio-visual display, presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized. **The 30 percent of this paper will be taught online and rest of it will be offline.**

ANNEXURE 2

(New courses to be introduced at GEC and DCEC level)

SEMESTER: I

PAPER-9: THE BIG HISTORY

(SAHS HA 010105 GE 4004)

Number of credits: 4

Nature of course: GEC

Aim of the course: The broad aim is to develop a broad multidisciplinary historical approach about the journey of the universe and human civilization till our present era.

Objectives of the course:

i. To know the beginning and expansion of the universe.
ii. To know the creation of solar system, earth and the arrival of human.
iii. To understand the historical phases of human civilization.
iv. To understand modernity and sustainability of human civilization.

Learning outcome for students:

- Students will be able to appreciate the importance of inter-disciplinary approach in academics;
- Next, they will be able to know the integration of scientific and socio-cultural approaches;
- Third, they will also be able to develop a global approach in a global environment;
- Next, they will be able to inculcate rational ways to examine and analyse the physical, biological, technological and socio-cultural constructs;
- Next, the learning of using data, models, reasoning, quantification and graphics will help them garner some basic skills;
- They will be able to comprehend various present days human problems and working for their solutions through integrating regional-global collaborations.

Unit 1: The Beginning of Cosmos:

A. Scientific theories; Religious origin
B. The expansion: stars and galaxies
C. The solar system

Unit 2: The Earth:

A. The formative phase: Atmosphere and Geological changes
B. The coming of life: Plants and animals

Unit 3: The Human:

A. Evolution and early phase
B. The age of Anthropocene: Agriculture, Early Civilizations
C. Ancient and Medieval World

Abhiranjan Kumar

Unit 4: Modernity Arrives:

A. Ideas and progresses
B. The crisis of modernity
C. Sustainability and future

Classroom strategy:

It will be a blend of formal offline and online teaching with the necessary aid of audio-visual devices. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized

SEMESTER: II

PAPER: 11-HISTORY & CINEMA

(SAHS HA 010206 DCEC 4004**)**

Number of credits: 4

Nature of course: DCEC

Aim of the course: The broad aim is to develop a broad understanding between history and cinema and to know if cinema can be medium to read history.

Objectives of the course:

v. To know the beginning of cinema.
vi. To know the relationship that exists between history and cinema.
vii. To use cinema as a source of history to the extent possible.

Learning outcome for students:

- They will be able to appreciate the positive importance of cinema
- They will know the history of cinema
- They will be to find the relationship between cinema and history
- They may be able to use cinema as a source of history

Unit 1: The Beginning of Cinema:

A. Introduction
B. 19^{th} century and the beginning
C. The early years and the spread of cinema

Unit 2: Cinema and History:

A. Cinema as a source: Possibility and limitation
B. Treatment of historical themes in cinema
C. Official history, Propaganda and cinema

Unit 3: Selected Historical Themes and Cinema:

A. Biographies
B. World War
C. Racism

Unit 4: Documentary, TV Shows and history:

A. Difference between documentary and cinema
B. Documentary as a source
C. Popular TV shows and historical representation

Classroom strategy:

It will be a blend of formal offline and online teaching with the necessary aid of audio-visual devices. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized

SEMESTER: II

PAPER: 10- NORTH EAST INDIA: ANCIENT TO PRESENT

(SAHS HA 010205 DCEC 4004**)**

Number of credits: **4**

Nature of course: **DCEC**

Aim of the course: The broad aim is to make students aware about the history of Northeast India and to bring this course within mainstream history.

Objectives of the course:

i. To know the history of Northeast India.

ii. To know the academic progresses made in this field.

iii. To know about the socio-political, economic, cultural and literary history of the region.

iv. To understand the interdisciplinary historical milieu for the study of this course.

Learning outcome for students:

i. The students will be able to know about the Northeast people, culture, history and their problems and struggles.
ii. The idea of India as a nation-state will become more integral and closer to students.
iii. This will allow students to understand the importance of North-East in the lives of India.
iv. It will also help them to undo their biasness, prejudices or any non-real perception, if any, about the land, the people and the culture of north-east.

UNIT 1: Northeast: A General Introduction

A. Introduction: the land and the people

B. Culture and religion

C. Society in Northeast

D. Literary forms, heritage and identity

UNIT 2: Ancient and Medieval Northeast History:

A. Sources: Archaeological and literary

B. Polity and Society

C. Economy

D. Culture and religion

Abhiranjan Kumar

UNIT 3: Northeast during Colonial period:

A. British and the political domination

B. Northeast and freedom movement

C. Education and missionaries; Economy

D. Writings on Northeast: Colonial and Regional

UNIT 4: Northeast in the post-independent phase:

A. Constitutional integration and Central policies for inclusion

B. Voices and politics of dissent and resistance

C. External threats and security

D. Opportunities: political, commercial and cultural

Classroom strategy:

It will be a blend of formal theoretical teaching and audio-visual teaching. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures will also be organized.

DEPARTMENT OF HISTORY & ARCHAEOLOGY

CENTRAL UNIVERSITY OF HARYANA

SYLLABUS: M. A.

Jant-Pali Villages, Mahendragarh, Pin: 123031, Haryana, India
Website: cuh.ac.in
NAAC accredited 'A' grade University

(Established under the Central Universities Act, 2009 of the Parliament)

ABOUT

Department of History and Archaeology is one of the youngest departments of studies of the University opened in the academic year 2014-15. The Department of History and Archaeology is functioning under the School of Arts, Humanities and Social Sciences, the oldest & founding school of the University. The department offers PG programme (MA- History & Archaeology) of two years duration with four semesters, M. Phil. and Ph. D. The Department marks a departure from the traditional teaching and understanding of the concerned subject by bringing qualitative shift in its curricula, teaching methodology, perception development and in the realm of knowledge gain.

VISION

Expanding the horizon of the field of History where no one remains untouched in the march towards humanity, civilization and sustainability. It endorses the belief of this university that we "…must have the vision to see where higher education can take us in a future where human can live in peace and prosperity…"

MISSION

To inculcate human values among the people through propagating the sense of History with multidisciplinary approach for the better understanding of society and realizing mutual coexistence.

OBJECTIVES

- To inculcate sense of History among students and others;
- To discuss the subject in the changing environment;
- To highlight the utility of the subject in the present scenario;
- To focus on multidisciplinary approach;
- To make history a meaningful way to understand changes in society and the surroundings for a fuller development of the self as well as the society;
- To help minimize the abuses/misuses of history;
- To initiate the process of dialogue in historical contexts among the stakeholders in order to establish a more reasoned, liberal and flexible society based on the social virtues like mutual understanding and cooperation; and
- To relocate, re-contextualize and reposition the missing historical sections/issues/aspects.

SEMESTER: I

PAPER 1: INTRODUCTION TO HISTORY AND ITS RESEARCH METHODS

Number of credits: **5**

Nature of course: **Core**

Aim of the course: The broad aim is to acquaint students with the basic understanding of the subject history, its philosophy, the research method and other basic ideas.

Objectives of the course:

i. To understand the idea of history;
ii. To develop a critical reading of the subject;
iii. To know the philosophy of the subject; and
iv. To know the methods employed in history.

UNIT 1: Understanding History:

A. Meaning, Rationality, Nature and Scope
B. Aspects of history; Types of history
C. Emerging trends: New history, Sub histories, Big history
D. Relation of history with other subjects

UNIT 2: Philosophy of History:

A. Historical facts; Objectivity and bias in history
B. Causation; Idea of progress in history
C. Generalization; Explanation and interpretation; Value judgment in history
D. Post- modernist skepticism and history

UNIT 3: Methods and Sources in History:

A. Research methods; Hypothesis
B. Data collection and selection
C. Historical criticism
D. Historical Sources

UNIT 4: Elements and Techniques of Historical Research:

A. Research Process in history
B. Formalization of research work: foot notes, charts, tables, arrangement of references, indexing, appendices, bibliography
C. Presenting research work: Report, Research paper, Project, Dissertation and Thesis.
D. Use of computer: MS word, PPT, Basic Excel, Using internet and reliability of internet information

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

PAPER: 2: INTRODUCTION TO ARCHAEOLOGY

Number of credits: 5

Nature of course: Core

Aim of the course: The broad aim is to acquaint students with the basic understanding of the subject matter of archaeology as an autonomous and important part of history, its technical dimensions and uncovering it layer by layer.

Objectives of the course:

i. To explore the term archaeology and to know its scientific beginning;

ii. To develop a critical reading of the subject;

iii. To know the philosophy of the subject;

iv. To explore the technical aspects of it;

v. To understand the subject with the aid of other natural and social sciences.

UNIT 1: Introduction to Archaeology

1. Archaeology: definition, scope, relevance

2. Relation with history and science

3. Terms in archaeology: culture assemblages

UNIT 2: History of Archaeology

1. History of archaeology in colonial India: from 18th century to 1902

2. History of archaeology in colonial India: from 1902 to 1947

3. Archaeology in Independent India: contribution of institutions and individuals

UNIT 3: Methods of Data Retrieval

1. Field discoveries: aims and methods of Explorations

2. Unearthing the sites: planning excavations, layout, techniques of Excavations–Vertical; Horizontal, tools and equipments.

3. Methods of recording the contexts of excavated remains: preparation of sections and plans, three-dimensional recording, site formation processes, floatation technique,

UNIT 4: Chronology and Dating Methods

1. Stratigraphy: Principles of stratification, Identification and recording of strata, Reconstruction of cultural sequence

2. Other methods of Relative chronology: Typology, Cross-dating, Palynology

3. Absolute methods of dating: Radiocarbon, Potassium-argon, Thermoluminescence, Pollen analysis, Dendrochronology

Classroom strategy:

The major emphasis will be both on theory as well as practical aspects. Besides the formal lectures, the field survey and practical training will be duly focused upon. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teachin g of the course.

Suggested readings:

• Aitken, M. J. 1990. Science based Dating in Archaeology. London: Longmans.

• Atkinson, R. J. C. 1953. Field Archaeology. London: Methuen and Co.

• Barker, P. 1982. Techniques of Archaeological Excavation. London: Batsford.

• Wheeler, R. E. M. 1954. Archaeology from the Earth. Harmondsworth: Penguin Books.

PAPER: 3: CULTURE IN ANCIENT INDIA

Number of credits: 5

Nature of course: Core

Aim of the course: It is intended to provide the students higher level understanding of the history of the ancient societies. The different aspects belonging to the ancient world will be thoroughly examined in the light of the new researches in the mentioned field.

Objectives of the course:

i. To explore the ancient Indian culture;
ii. To develop a critical understanding of the subject;
iii. To understand the process of development into cultural fields of ancient Indian civilization;
iv. To enlighten the students with the cultural formation and the need for heritage building measures.

UNIT I INTRODUCTION TO INDIAN CULTURE

1. Origin of the study of Ancient Indian Culture
2. The main characteristics of Ancient Indian Culture.
3. Geographical and Ethnic Profile
4. Methods and approaches to the study of Indian Culture: - Imperialist, Nationalist, Marxist.

UNIT II SOCIAL INSTITUTIONS IN ANCIENT INDIA

1. Varna system- Meaning, origin and development; Difference between Varna and Jāti.
2. Āśrama system- Concept and Cultural significance of Āśrama system.
3. Sanskāra- Concept and cultural importance of Sanskāra; Marriage system in Ancient India.
4. Purusārtha: Concept of Rin and nature and aims of Education in Ancient India.

UNIT III DHARMAS IN ANCIENT INDIA

1. Vedic dharma- various devī and devatās, Yajñas and sacrifices.
2. Buddhism- Origin of Buddhism; Hīnayāna and Mahāyāna, Vajrayāna and Tantric Buddhism
3. Jainism- Origin and Development of Jainism; Other heterodox sects.
4. Hinduism- Vaisnavism; Saivism and Saktism.

UNIT IV LITERARY TRADITIONS IN ANCIENT INDIA

1. Vedic literature- Vedas, Upanishadas, Brāhmanas, Āranyakas; Sutra- Smritis and Dharmaśāstras.
2. Buddhist literature- Pitakas (with special reference to Vinayapitaka and Suttapitaka);

Dhammapada.

3. Jain Literature- Pariśiṭha Parvaṇa; Kalpasūtra; Āċārānga sūtra.
4. Sanskrit literature- Arthaśāstra, Buddhacharita; Kamasutra; Manusmriti; Epics

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. Screening featurefilms related to the concerned topics and documentary movies may also form part of the teaching scheme.

Suggested readings:

- Basham, A.L. The History and Doctrines of the Ajivikas: a Vanished Indian Religion, London, 1951

PAPER: 4 MEDIEVAL EUROPE

Number of credits: 5

Nature of course: CORE

Aim of the course: The broader aim is to make pupil understand the different historical phases during the medieval Europe.

Objective of the course:

i. To know the civilizational development in medieval Europe

ii. To critically examine the various facets of historical development

UNIT 1: The Carolingian Empire
A. Downfall of Roman Empire
B. Causes of Coronations of Charlemagne
C. Administration of Charles the Great
D. Carolingian Renaissance

UNIT 2: Imperial Age
A. Otto the Great
B. Frederic Barbossa
C. Frederic-II
D. Philip Augustus

UNIT 3: Feudalism
A. Rise
B. Features
C. Culture
D. Decline

UNIT 4: Rise of Papacy
A. Investiture Controversy
B. Pope Gregory VII
C. Pope Innocent III
D. Crusades: Causes and Effects

Classroom strategy:
The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. **The 30 percent of this paper will be taught online and rest of it will be offline.**

Suggested readings:

- Hummer, Hans J. *Politics and Power in Early Medieval Europe: Alsace and Frankish Realm, 600-1000*. Cambridge: CUP, 2005.

PAPER: 5: HISTORY OF HARYANA

Number of credits: **4**

Nature of course: **GE**

Aim of the course: The broader aim is to make pupil understand the different historical phases in the history of Haryana. How Haryana marched towards its journey to civilization will form a major aim of the paper.

Objectives of the course:

i. To know the civilizational development in Haryana;
ii. To focus on the regional history;
iii. To provide a socio-cultural study of the area; and
iv. To critically examine the various facets of historical development.

UNIT 1: Ancient Haryana:

A. Sources of Ancient Period
B. Harappan Civilization: General Features
C. Growth of Vedic Civilization and Historicity of battle of Mahabharata.
D. From Republic to Empire: Yaudheyas, Agras and Kunindas; Pushpabhutis

UNIT 2: Medieval Haryana:

1. Rise of New Powers:

A. Sources of Medieval Period
B. Gurjara-Pratiharas;
C. Tomaras;
D. Chahamanas.

2. Sultanate Period:

A. Haryana on the Eve of Turkish Invasion;
B. Revolts of Meos and Rajputs;
C. Provincial Administration-Iqta system;
D. Economic, Social and Cultural Changes.

UNIT 3: Mughal Period:

A. First and Second Battle of Panipat and Hemu; Revolt of Satnamis
B. Pargana Administration
C. Economy-Land Revenue System: Cropping pattern and Irrigation System; Industries and Commerce.
D. Socio-Religious Movement-Bhakti and Sufi: Spread and Impact

UNIT 4: Modern Haryana:

A. Sources of Modern Period;
B. Political: Emergence of Marathas, Jats and Sikhs; George Thomas

Socio-Religious Movements in Haryana: a. Arya Samaj, b. Sanatan Dharam

C. Development of Education in Colonial Haryana;
D. Political Movements: i. Revolt of 1857; ii. Rise of Political Consciousness; iii. National Movement (1885-1919); iv. 1920- 1947: Mass Movements; Non Cooperation; Civil Disobedience; Praja Mandal, Quit India Movement; Regional Consciousness-Unionist Party.

Classroom strategy:

With the help of formal lectures and discussions the rather unfamiliar aspects of the age will be discussed. Guest lecture, too, may be arranged depending upon the requirement of the course module.

Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested Readings:

PAPER: 6: ART, ARCHITECTURE AND CULTURE IN ANCIENT WORLD

Number of credits: **4**

Nature of course: **GE**

Aim of the course: Through this paper, it is desired to make students understand how art, architecture and culture grew in the ancient world. It will be of particular interest to the students of the ancient history and those who are interested in the concerned field.

Objectives of the course:

i. To understand the basics of the art, architecture and culture of the ancient world;
ii. To study the growth of artistic skills among the ancient people in their own milieu
iii. To demystify various aspects related to this topic.

UNIT 1: Ancient Mesopotamia:

A. Sources-Categories and Types of Archaeological Sources; Sequence of the Culture;
B. Socio-Political Factors Leading to the Development of Art and Culture.
C. Architectural Structures and their Functional Features; Minor arts and Craftsmanship.
D. Religion, Mythology and Beliefs; Writings, Literature.

UNIT 2: Ancient Egypt:

A. Early and Old Kingdom- Beginning, Features, Pyramids-Function, Purpose, Technology.
B. Middle Kingdom.
C. New Kingdom.
D. Religion-Gods, Priests and Temples, Mythology, Ideas, Daily Life, Culture.

UNIT 3: Ancient Greeko- Roman World

A. Historiography; Sources.
B. The Bronze Age Greek Art-Minoa, Mycena, Thera, Crete.
C. Architecture, Temples, Painting, Pottery;
D. Religion, Myths, Philosophy, Literature, Daily Life.

UNIT 4: Ancient Rome:

A. Historiography; Sources.
B. Roman Art and Culture- Relationship with Socio, Political and Economic Factors; Design, Construction and methods in Roman Buildings.
C. Art and Architecture in Imperial Rome.
D. Religion, Myths, Literature, Philosophy, Daily Life.

Classroom strategy:

With the help of formal lectures, discussions and video films, the rather unfamiliar aspects of the age will be discussed. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

SEMESTER-I

PAPER: 7: GENDER AND WOMEN IN ANCIENT WORLD

Number of credits: **4**

Nature of course: **GE**

Aim of the course: The broad aim is to make students knowledgeable and also to sensitize them about women in a historical perspective.

Objectives of the course:

i. To develop a critical understanding of the subject;
ii. To know the conditions of women in main civilizations of the ancient world;
iii. To know the history of women in her material milieu.

UNIT 1: Introduction:

A. Understanding gender; Gender and historical analysis; its contribution towards understanding social relations in ancient world;
B. Gender and the prehistoric world: technological development, social settings, cultural, religious and ideological development and women;
C. Historiography on women in ancient world.

UNIT 2: Women in Ancient Mesopotamia:

A. Women in Sumerian and Babylonian worlds;
B. Temple, religion and politics: women in ancient Mesopotamia;
C. Education, health, culture and social and legal status.

UNIT 3: Women in Ancient Egypt:

A. Women through the kingdoms: The Early dynastic period, Old, Middle and Late kingdoms;
B. Social, economic and legal status of women in ancient Egypt;
C. Political connections, health, education, medicine and the issue of women in ancient Egypt world.

UNIT 4: Women in Greeko-Roman World:

A. Critical understanding of the historiography;
B. Women in ancient Greece: From archaic to Hellinistic period- A socio-political, economic and cultural perspective.
C. Women in ancient Roman world: From Pre-Roman to Republic to Empire- A socio-political, economic and cultural perspective.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. Graphics and videos may also form part of the teaching wherever it is required and possible.

Suggested readings:

SEMESTER: I

PAPER: 8: LIFE IN MEDIEVAL EUROPE

Number of credits: **4**

Nature of course: **GE**

Aim of the course: The broad aim is to make students aware about the medieval lives. Besides, political aspects, knowing the society of medieval world is an interesting issue for the students of medieval history students.

Objectives of the course:

i. To develop a critical understanding of the subject;
ii. To know the conditions of people in general in medieval world;
iii. To know the progress of civilization through the medieval ages.

UNIT 1: Political:

A. Post Roman Polity and the Nature of state;
B. Kingship, Nobility and Clergy
C. Church and Political institution;
D. Rebellions Especially of Fourteenth Century and the Crisis; Its Outcome

UNIT 2: Economic:

A. Agriculture with particular reference to feudal dynamics;
B. Trade, Commerce and Industry;
C. Growth of Urban Centres and Urban Life;
D. Innovations and the Artisans and the Merchants.

UNIT 3: Social and Cultural:

A. Social and Cultural Life;
B. Life of Women;
C. Religious Practices and Institutions;
D. Socio-Cultural Institutions

UNIT 4: Ideas and Education:

A. Ideological and philosophical development;
B. Growth of Universities;
C. Science and Technology;
D. Continuation, Revivalism and Change.

Classroom strategy:

It will be a blend of formal theoretical teaching and audio-visual teaching. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed.

Suggested readings:

- Henri Pirenne, Economic and Social History of Medieval Europe, Routledge, London, 1958.
- Marc Bloch, Feudal Society, Vol. II, Rotletdge & Kegan Paul Ltd. Chicago, 1964.

- Georges Duby, Early Growth of European Economy: Warrior and Peasants from the Seventh to the Twelfth Century, Cornell, 1974.

SEMESTER: I
PAPER-9: THE BIG HISTORY

Number of credits: 4

Nature of course: GEC

Aim of the course: The broad aim is to develop a broad multidisciplinary historical approach about the journey of the universe and human civilization till our present era.

Objectives of the course:

i. To know the beginning and expansion of the universe.
ii. To know the creation of solar system, earth and the arrival of human.
iii. To understand the historical phases of human civilization.
iv. To understand modernity and sustainability of human civilization.

Learning outcome for students:

- Students will be able to appreciate the importance of inter-disciplinary approach in academics;
- Next, they will be able to know the integration of scientific and socio-cultural approaches;
- Third, they will also be able to develop a global approach in a global environment;
- Next, they will be able to inculcate rational ways to examine and analyse the physical, biological, technological and socio-cultural constructs;
- Next, the learning of using data, models, reasoning, quantification and graphics will help them garner some basic skills;
- Comprehend various present days human problems and working for their solutions through integrating regional-global collaborations.

Unit 1: The Beginning of Cosmos:

A. Scientific theories; Religious origin
B. The expansion: stars and galaxies
C. The solar system

Unit 2: The Earth:

A. The formative phase: Atmosphere and Geological changes
B. The coming of life: Plants and animals

Unit 3: The Human:

A. Evolution and early phase
B. The age of Anthropocene: Agriculture, Early Civilizations
C. Ancient and Medieval World

Unit 4: Modernity Arrives:

A. Ideas and progresses
B. The crisis of modernity
C. Sustainability and future

Classroom strategy:
It will be a blend of formal offline and online teaching with the necessary aid of audio-visual devices. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized

SEMESTER: II

PAPER: 1: HISTORIOGRAPHY FROM ANCIENT TO CONTEMPORARY WORLD

Number of credits: **5**

Nature of course: **CORE**

Aim of the course: The broad aim is to make students aware about the development of history writing in different historical phases continuing till present days.

Objectives of the course:

i. To know the beginning of history writing.
ii. To know the progress of history writing in different ages.
iii. To understand the growth of numerous philosophical, intellectual and ideological constructs in all these phases.
iv. To understand the growth of historiography in the given historical milieu.

UNIT 1: Historiography in Ancient World:

A. Introduction and the beginning;
B. Greek-Roman Historiography;
C. Chinese Historiography;
D. Ancient Indian Historiography

UNIT 2: Historiography in the Medieval World:

A. Medieval Islamic Historiography;
B. Historiography in Medieval Europe;
C. Historiography in Medieval India;
D. Historiography during Renaissance and Reformation

UNIT 3: Historiography in Modern Age:

A. Historiography during Enlightenment and Romanticism
B. Nationalist and Literary Expression: British and German Historiography
C. Berlin Revolution: Niebuhr and Ranke
D. Materialists' and Positivists' Assertions-Marx and Comte

UNIT 4: Ideological Shift in 20th Century Historiography:

A. Modern Historiography: Continuation and Changes
B. Annals School of History
C. Post-Colonial Historiography—Subaltern historiography
D. Critical Literary theory and historiography

Classroom strategy:

It will be a blend of formal theoretical teaching and audio-visual teaching. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures will also be organized.

SEMESTER: II

PAPER: 2: PRE- HISTORY OF SOUTH ASIA

Number of credits: **5**

Nature of course: **CORE**

Aim of the course: The broad aim is to make students aware about the south Asian pre-history through the field of archaeology.

Objectives of the course:

i. To know various concepts and themes related to the pre-history of South Asia.
ii. To know how men lived in this part of the world in various phases of Paleolithic and Mesolithic age.

Unite-1: Introduction

1. Prehistory: definition, scope, terminology and periodization
2. Quaternary Period: position of prehistory in geological chronology, climatic conditions
3. Prehistoric sites: type and nature of sites, landscape configuration, primary and secondary sites
4. Stone tool technology, typology, material and study of stone artefacts

Unite -2: Palaeolithic Culture

1. Lower Palaeolithic cultures: nature and significance of the technology, distribution and variation, important sites, chronology.
2. Middle Palaeolithic cultures: nature and significance of the technology, distribution and variation, important sites, chronology.
3. Upper Palaeolithic cultures: nature and significance of the technology, distribution and variation, important sites, chronology.

Unite-3: Mesolithic Culture

1. Mesolithic cultures: distribution, artefacts, technology, raw material, economy, pottery, animal domestication.
2. Important sites: Bagor, Tilwara, Langhnaj, Birbhanpur, Teri sites, Adamgarh, Bhimbetka, Sarai Nahar Rai, Mahadaha, Damdama
3. Ornaments and Rock Art

Unit-4: Current Trends in South Asian Prehistory

1. Debates related to pre-historic terminology of cultural phases.
2. The position of the Soanian in the South Asian Palaeolithic.
3. South Asian Paleolithic in the global context

Classroom strategy:

It will be a blend of formal theoretical teaching and audio-visual teaching. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures will also be organized.

Suggested readings:

SEMESTER: II
RISE OF MODERN WEST

Number of credits: 5

Nature of course: CORE

Aim of the course: The broad aim is to make students aware about the numerous changes and continuity in Europe prior to the rise of modernism.

Objective of the course:

i. To understand the growing complex interrelationship that existed between the political, economic and socio-cultural elements.

ii. To understand the causes of the numerous changes and its repercussions.

iii. To understand its impact on the world.

UNIT 1: Age of Renaissance and Reformation:

A. Renaissance: Humanism, Rationalism, Individualism.

B. Renaissance in Art, Architecture and Painting

C. Reformation: Religion, God, Holy Book

D. Reformation in various parts of Europe and Counter-reformation

UNIT 2: Age of Geographical Discovery and Commercial Revolution:

A. Cartography, Cosmology and Navigation

B. Discovering new land: Africa, America, Asia

C. Commercial Revolution

D. Mercantilism in Theory and Practice

UNIT 3: Industrial Revolution:

A. Invention of Machines

B. Structural change in industrial production

C. Emergence of Capitalism

D. Industrialization in England and other parts of Europe

UNIT 4: The Intellectual Revolutions of 17th and 18th Centuries:

A. The Philosophical Foundations of Scientific Revolution

B. Impact of Scientific Revolution

C. The Enlightenment

D. Modernism

Classroom strategy:

It will be a blend of formal theoretical teaching and discussions. Audio-visual display, presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized. **The 30 percent of this paper will be taught online and rest of it will be offline.**

SEMESTER: II

PAPER: 5: MEDIEVAL ISLAMIC WORLD

Number of credits: **2**

Nature of course: **GE (*compulsory*)**

Aim of the course: The broad aim is to make students aware about the genesis, growth and development of Islam in history.

Objectives of the course:

i. To know the beginning of Islam.
ii. To understand the factors responsible for their growth and development;
iii. Impact on the world.

UNIT 1: Background and emergence of Islam:

A. Geographical Condition of Arabian Peninsula
B. Social and Economic Conditions of Pre-Islamic Arabia
C. Religious and Political Conditions of Pre-Islamic Arabia
D. Life and Teachings of Prophet Muhammad.

UNIT 2: The Caliphate:

A. Causes of Expansion of Islam, Character and Achievements of Orthodox Caliphs
B. Abu Bakr
C. Umar
D. Usman& Ali

UNIT 3: Islamic State under Umayyad Dynasty:

A. Society
B. Administrative Institutions
C. Cultural Achievements
D. Decline

UNIT 4: Evolution of Islamic State under Abbasid Dynasty:

A. Society & Economy
B. Administrative Institutions
C. Cultural Achievements
D. Decline

Classroom strategy:
It will be a blend of formal theoretical teaching and audio-visual teaching. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized.

Suggested readings:

- P. K. Hitti, A Short History of the Arabs

- Amir Ali, Short History of Saracenes.
- W. Muir, The Caliphate: Its Rise and Fall
- T. W. Arnold, The Caliphate
- Hussai, The Arab Administration
- Md. Sayeed, Arab kiSabhyata
- Bipin Bihari Sinha, Madhyakalin Islam
- K. P. Sahu, Islam- Udbhavaur Vikas

SEMESTER: II

PAPER: 6: CONTEMPORARY WORLD

Number of credits: **4**

Nature of course: **DCEC**

Aim of the course: The broad aim is to make students aware about the numerous changes with continuity at global levels affecting the larger landscape of the world.

Objectives of the course:

i. To understand the geo-political conditions of the world in the post second world war scenario;
ii. To understand the growth of cold war followed by American imperialism and a post modern, post-colonial world;
iii. To understand the development of various issues linked with the very survival of mankind like environmental issues.

UNIT 1: Post Second World War Scenario-Ideologies and Institutions:

A. Cold War-Historiography, Introduction, Features, Outcome; Major Political Imbroglio-US & its relation with USSR, Cuba and Vietnam; Korean Wars, Sino-Japanese, Indo-Pak War, Collapse of Berlin War.
B. NAM: Concept, Features, Results.
C. UN: Origin, Structure, Allied Bodies, Works, Evaluation.
D. WTO, NATO, LPG/Globalization.

UNIT 2: Technology and a New World:

A. Horrors of Technology-Weapons of Mass Destruction-Nuclear, Hydrogen and Bio- Weapons: Introduction, Threat, (Im) Balance, Spread; History of guns-AK 47.
B. Top 11 Innovations & their Impact: Satellites, Aeroplane, Internet & Computers, Radio & Television, Mobile Phones, Bullet Trains, Cloning and Genetic Engineering, Antibiotic, Renewal Energy, Cinematic Technology and e-Commerce,
C. Computer and Internet-Global Village, Terror/Security, Liberation/Bondage of humans.
D. History of the use of Technology in Education-Printing Press, Internet, Video Conferencing, Satellite and Television, Online Classes.

UNIT 3: Terrorism and the Modern World:

A. Meaning, Ideology, Causes, Acts, Organization and Effects.
B. Types of Terrorism-State Terrorism, Bioterrorism, Cyber terrorism, Eco terrorism, Narco terrorism, Nuclear Terrorism, Suicidal Terror; Categories of Groups-Separatists, Ethnocentric, Nationalist, Revolutionary, Political, Religious, Social, Domestic, International/Transnational.
C. History of Spread and Most Affected Areas-South Asia, Middle East, Africa and Parts of Europe; War against Terror-US-Taliban, US-Iraq.
D. Emergence of Religious Terrorism-Al Qaida, Taliban and ISIS.

UNIT 4: Idea of Development and the Question of Survival:

A. Development: Introduction, History of Development from 20^{th} to 21^{st} Century, Facets, Industries & Government vis-à-vis Common Men, Idea of sustainability.
B. Ecological and Environmental issues-Global Warming, Depletion of Natural resources, Conservation and Government Policies.

C. Political Philosophy of Modern Age & their Suitability-Democracy & Liberalism, Totalitarianism.
D. History of the Search for Alternative Ideology-Modernity, Post-Modernity.

Classroom strategy:

It will be a blend of formal theoretical teaching and discussions. Audio-visual display, presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized.

Suggested readings:

- Gerard Chaliand and Arnaud Blin. 2007. The History of Terrorism from Antiquity to Al Qaeda.
- Mark Juergensmeyer. 2001. Terror in the Mind of God: The Global Rise of Religious Violence.
- Talal Asad. 2007. On Suicide Bombing.
- Susan Faludi. 2007. The Terror Dream: Fear and Fantasy in Post-9/11 America.
- Hoffman, Bruce (2006), *Inside Terrorism* (2nd ed). New York: Columbia University Press
- Walter Reich, Ed. Origins of Terrorism: Psychologies, Ideologies, Theologies, States of Mind (2nd Ed.)
- Natasha Miskovic and Harals Fischer, Ed. The Non Aligned Movement and the Cold War.
- Peter Dricker, Ed., IMF/ World Bank/ WTO: The Free Market Fiasco.

SEMESTER: II

PAPER: 7: HISTORY OF WORLD CINEMA

Number of credits: **4**

Nature of course: **DCEC**

Aim of the course: The broad aim is to make pupil understand the history of the inauguration of cinema on the world horizon with its growing intent, influence, glamour and potential as well as harbinger of change.

Objectives of the course:

i. To understand the gradual evolution of the technique of cinema with its far reaching consequences.
ii. To understand the growth, hold and glamour of the most popular visual medium of expression, called cinema.
iii. To understand the unpredictable journey of aesthetic, fantasy, magic, imagination treading along the path of reality.

UNIT 1: World Cinema:

A. History of the beginning: the 19th century

PAPER: 10- NORTHEAST INDIA: ANCIENT TO PRESENT

Number of credits: **4**

Nature of course: **DCEC**

Aim of the course: The broad aim is to make students aware about the history of Northeast India and to bring this course within mainstream history.

Objectives of the course:

i. To know the history of Northeast India.
ii. To know the academic progresses made in this field.
iii. To know about the socio-political, economic, cultural and literary history of the region.
iv. To understand the interdisciplinary historical milieu for the study of this course.

Learning outcome for students:

i. The students will be able to know about the Northeast people, culture, history and their problems and struggles.
ii. The idea of India as a nation-state will become more integral and closer to students.
iii. This will allow students to understand the importance of North-East in the lives of India.
iv. It will also help them to undo their biasness, prejudices or any non-real perception, if any, about the land, the people and the culture of north-east.

UNIT 1: Northeast: A General Introduction

A. Introduction: the land and the people
B. Culture and religion
C. Society in Northeast
D. Literary forms, heritage and identity

UNIT 2: Ancient and Medieval Northeast History:

A. Sources: Archaeological and literary
B. Polity and Society
C. Economy
D. Culture and religion

UNIT 3: Northeast during Colonial period:

A. British and the political domination
B. Northeast and freedom movement
C. Education and missionaries; Economy
D. Writings on Northeast: Colonial and Regional

UNIT 4: Northeast in the post-independent phase:

A. Constitutional integration and Central policies for inclusion
B. Voices and politics of dissent and resistance
C. External threats and security
D. Opportunities: political, commercial and cultural

Classroom strategy:

It will be a blend of formal theoretical teaching and audio-visual teaching. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures will also be organized.

SEMESTER: II
PAPER: 11-HISTORY & CINEMA

Number of credits: 4

Nature of course: DCEC

Aim of the course: The broad aim is to develop a broad understanding between history and cinema and to know if cinema can be medium to read history.

Objectives of the course:

i. To know the beginning of cinema.
ii. To know the relationship that exists between history and cinema.
iii. To use cinema as a source of history to the extent possible.

Learning outcome for students:

- They will be able to appreciate the positive importance of cinema
- They will know the history of cinema
- They will be to find the relationship between cinema and history
- They may be able to use cinema as a source of history

Unit 1: The Beginning of Cinema:

A. Introduction
B. 19th century and the beginning
C. The early years and the spread of cinema

Unit 2: Cinema and History:

A. Cinema as a source: Possibility and limitation
B. Treatment of historical themes in cinema
C. Official history, Propaganda and cinema

Unit 3: Selected Historical Themes and Cinema:

A. Biographies
B. World War
C. Racism

Unit 4: Documentary, TV Shows and history:

A. Difference between documentary and cinema
B. Documentary as a source
C. Popular TV shows and historical representation

Classroom strategy:
It will be a blend of formal offline and online teaching with the necessary aid of audio-visual devices. Presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized.

SEMESTER: III

PAPER: 1: PROTO -HISTORY OF INDIA

Number of credits: **5**

Nature of course: **Core**

Aim of the course: The broad aim is to acquaint students with the basic understanding of the proto history of India with all its variations and features.

Objectives of the course:

i. To explore the proto- history and to know its evolution.
ii. To develop a critical reading of the subjects.

Unit-1: Introduction

A. Proto-history: definition, scope, terminology and periodization
B. Development from Mesolithic to Neolithic culture
C. Proto-historic sites: type and nature of sites, landscape configuration

Unit-2: Neolithic Cultural Traditions

A. Neolithic cultures of Afghanistan and Baluchistan
B. Neolithic culture of Mid Ganga Basin- Lahuradewa, Jhusi etc.
C. Neolithic culture of Kashmir valley
D. Neolithic cultures of the Vindhyas
E. South Indian Neolithic
F. Eastern and North eastern Indian Neolithic

Unit-3: Harappan Civilization

A. Early Harappan Culture: origin and development, geographical distribution, extent, settlement patterns, regional variation (Kulli, Nal, Amri, Kot Diji, Hakra, Ravi, Sothi-Siswal, Padri, Pre-Prabhas, Anarta)
B. Matura Harappan Culture: extent, town planning, architecture, trade, economy, technology, script, art, socio political and religious organization.
C. Late Harappan Culture: geographical distribution, salient features and various theories of decline.

Units-4: Iron Age and Chalcolithic Cultures

A. Ochre Coloured Pottery culture: distribution pattern, characteristic features, chronology, relation to copper hoardes.
B. Painted Grey Ware culture: distribution pattern, characteristic features, chronology, relation to late Harappan culture.
C. Megalithic cultures of India: distribution pattern, different types of megaliths, characteristic features.
D. Chalcolithic cultural tradition: Kaytha, Ahar, Malwa, Jorwe.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. However, Field surveys and practical information too will form part of wider understanding. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

SEMESTER: III

PAPER: 2: HISTORICAL ARCHAEOLOGY

Number of credits: **5**

Nature of course: **Core**

Aim of the course: The broad aim is to acquaint students with the basic understanding of the historical archaeology-as a concept and as a full -fledged subject matter.

Objectives of the course:

i. To explore the word historical archaeology.
ii. To find - out its importance and its reading in Indian context.

Unit-1: Introduction

A. Historical Archaeology: Definition and scope.
B. Literary tradition and archaeology
C. Ceramic assemblage: northern black polished ware, black and red ware, red polished ware, rang mahal ware, rouletted ware, russet coated ware,

Unit-2: Pre Mauryan Period and Mauryan Period

A. Brief review of archaeology of pre-Mauryan period from 6th century B.C. to 4th century B.C. and contemporary cultural assemblage including potteries of the sub-continent.
B. Technology and elements of economy – historical urbanization.
C. Archaeology of Mauryan period: NBP and other contemporary wares, use of scripts and other salient elements: late 4th century B.C. to 2nd century B.C.

Unit-3: Post Mauryan Period:

A. Archaeology of the Kushan period and other contemporary dynasties (2nd century B.C. to end of 3rd century A.D.).
B. Archaeology of the Guptas period and other contemporary dynasties (4th century A.D. to 6th century A.D.).
C. Archaeology of 7th century A.D. to 8th century A.D. in different regions.

Unit-4: Cultural Sequence of Important Sites:

A. Hastinapur, Taxila, Ahichchhatra, Purana Qila, Thanesar (Harsha-ka-Tila), Rajghat, Rajgir, Sisupalgarh, Adam, Nagarjunakonda, Arikamedu and Chandraketugarh

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

- Allchin, R. 1995. The Archaeology of Early Historic South Asia The Emergence of Cities and States. Cambridge University Press.

- Dhavalikar, M. K. 1999. Historical Archaeology of India. New Delhi: Books and Books.
- Dymond, D. P. 1974. Archaeology and History: A Plea for Reconciliation. London: Thames and Hudson.

SEMESTER: III

PAPER: 3: INDIAN NUMISMATICS

Number of credits: **5**

Nature of course: **Core**

Aim of the course: The broad aim is to acquaint students with the basic understanding of numismatics in Indian context and also its growth, features and variations in different ages.

Objectives of the course:

i. To understand numismatics as a major theme and source for the study of history.
ii. To know the origin, features, techniques etc. in Indian context.

Unit-1: Introduction

A. Numismatics: Definition and historical importance
B. Origin and antiquity of coinage in India
C. Metal content of coins, weight and shape
D. Technique of minting coins: Punch-marked, cast, die-struck and mints

Unit-2: Early Indian Coins:

A. Punch-marked coins: distribution, symbols, chronology, metrology
B. Tribal coins: Yaudheyas, Agras and Kunidas.
C. Indo-Greek coins: distribution, salient features, coins type of Strato-I and Menander

Unit-3: Post Mauyran Coins

A. Kushanas coins: distribution, general features, symbols, coins type of Kujula Kadphises, Wima Kadphises and Kanikasya
B. Satavahana coins: distribution, symbols, general features coins type of Sri Satakarni, Gautamiputra Satakarni and Vasisthiputra Pulumavi.
C. Gupta coins: general features of gold coins, metrology, foreign influence, distribution and symbols,

Unit-4: Post Gupta Coins:

A. Huna coins: distribution, symbols, salient features
B. Indo-Sassanian (Gadhaiya) coins: distribution, symbols, salient features
C. Rajput coins: Tomara, Pratihara, Parmar and Chahmana

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

SEMESTER: III

PAPER: 4: INDIAN EPIGRAPHY UP TO 1200 AD

(*SEMINAR PAPER-Compulsory*)

Number of credits: **2**

Nature of course: **DCEC**

Aim of the course: The broad aim is to acquaint students with the basic understanding of epigraphy in Indian context and also its growth, features and variations in different ages.

Objectives of the course:

i. To understand epigraphy as a major theme and source for the study of history.
ii. To know the origin, features, techniques etc. in Indian context.

Unit-1: Introduction

A. Epigraphy and historical reconstruction
B. Origin and antiquity of writing in India
C. Origin and development of Brahmi and Kharoshthi scripts
D. Eras and Dates in Indian inscriptions: kali, vikrama, saka, gupta

Unit-2: Mauyran Inscription

A. Asokan Rock Edict II (Girnar)
B. Asokan Rock Edict XII (Girnar)
C. Asokan Rock Edict XIII (Shahbazgarhi)
D. Rummindei Piller Inscription of Asoka

Units-3: Post-Mauyran Inscription

A. Hathigumpha Inscription of Kharavela
B. Sarnath Buddhist Image Inscription of Kanishka I
C. Nasik Inscription of Vasishthputra Pulumavi
D. Girnar Rock Inscription of Rudradaman I

Unit-4: Gupta and Post Gupta Inscription

A. Allahabad Pillar Inscription of Samudragupta
B. Bhitari Pillar Inscription of Skandagupta
C. Aihole Inscription of Pulakesin II
D. Gwalior Inscription of Mihirabhoja

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

SEMESTER: III

PAPER: 5: PROTO -HISTORY OF INDIA

Number of credits: **4**

Nature of course: **GE**

Aim of the course: The broad aim is to acquaint students with the basic understanding of the proto history of India with all its variations and features.

Objectives of the course:

i. To explore the proto- history and to know its evolution.
ii. To develop a critical reading of the subjects.

Unit-1: Introduction

A. Proto-history: definition, scope, terminology and periodization
B. Development from Mesolithic to Neolithic culture
C. Proto-historic sites: type and nature of sites, landscape configuration

Unit-2: Neolithic Cultural Traditions

A. Neolithic cultures of Afghanistan and Baluchistan
B. Neolithic culture of Mid Ganga Basin- Lahuradewa, Jhusi etc.
C Neolithic culture of Kashmir valley
D Neolithic cultures of the Vindhyas
E. South Indian Neolithic
F. Eastern and North eastern Indian Neolithic

Unit-3: Harappan Civilization

A. Early Harappan Culture: origin and development, geographical distribution, extent, settlement patterns, regional variation (Kulli, Nal, Amri, Kot Diji, Hakra, Ravi, Sothi-Siswal, Padri, Pre-Prabhas, Anarta)
B. Matura Harappan Culture: extent, town planning, architecture, trade, economy, technology, script, art, socio political and religious organization.
C. Late Harappan Culture: geographical distribution, salient features and various theories of decline.

Units-4: Iron Age and Chalcolithic Cultures

A. Ochre Coloured Pottery culture: distribution pattern, characteristic features, chronology, relation to copper hoardes.
B. Painted Grey Ware culture: distribution pattern, characteristic features, chronology, relation to late Harappan culture.
C. Megalithic cultures of India: distribution pattern, different types of megaliths, characteristic features.
D. Chalcolithic cultural tradition: Kaytha, Ahar, Malwa, Jorwe.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. However, Field surveys and practical information too will form part of wider understanding. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

SEMESTER: III

PAPER: 6: INDIAN ARCHITECTURE UP TO 1200 AD

Number of credits: **4**

Nature of course: **GE**

Aim of the course: The broad aim is to acquaint students with the growth, features, styles and regional variations in the field of Indian architecture.

Objectives of the course:

i. To understand the process of the evolution of Indian architecture.
ii. To know the origin, features, styles, buildings, art etc. in Indian context.

Unit-1: Traditions of Architecture in India

A. Introduction to components of Architecture
B. Protohistoric architecture with emphasis on Harappan town planning
C. Building the rule of the early Mauryan dynasty: wooden origins
D. Sources of Inspiration of Mauryan Architecture: Foreign and Indigenous.

Unit 2 Emergence and Development of Structural Stupa Architecture

A. Origin of Stupa Architecture -Theoretical aspects.
B. Stupa Architecture - Pre-Mauryan and Mauryan period.
C. Study of important stupa: Sanchi, Bharut Amravati, Nagarjunkonda and Taxila
D. Structural monasteries and Chaityas.

Unit 3 Emergence and Development of Rock-cut Architecture

A. Origin of Rock-cut Architecture-Theoretical aspects.
B. Study of important rock cut cave: Barabar Hills, Udaygiri, Khandagiri, Karle, Bhaje, Kanheri and Ajanta
C. Hindu rock-cut caves at Elephanta and Udaygiri.
D. Study of Rock-cut Architecture-Practical Training of Plan drawing.

Unit 4 Emergence and Development of Temple Architecture

A. Origin of Temple Architecture- Theoretical aspects.
B. Archaeological remains of structural temples.
C. Style of Temple Architecture: Nagara, Dravida and Vesara
D. Evolution of the Temple Architecture.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

SEMESTER: III

PAPER: 7: INTRODUCTION TO ARCHAEOLOGY

Number of credits: **4**

Nature of course: **GE**

Aim of the course: The broad aim is to acquaint general students with the basic understanding of the subject matter of archaeology as an autonomous and important part of history, its technical dimensions and uncovering it layer by layer.

Objectives of the course:

i. To explore the term archaeology and to know its scientific beginning;
ii. To develop a critical reading of the subject;
iii. To know the philosophy of the subject; and
iv. To explore the technical aspects of it;
v. To understand the subject with the aid of other natural and social sciences.

UNIT 1: Introduction to Archaeology

1. Archaeology: definition, scope, relevance
2. Relation with history and science
3. Terms in archaeology: culture assemblage

UNIT 2: History of Archaeology

1. The background: from antiquarianism to modern archaeology
2. History of archaeology in colonial India: from 18th century to 1947
3. Archaeology in Independent India: contribution of institutions and individuals

UNIT 3: Methods of Data Retrieval

1. Field discoveries: aims and methods of Explorations; Chance discoveries; Map and satellite image studies; village to village survey, salvage archaeology, geophysical methods, sampling methods, photogrammetry, geographical Information System .
2. Unearthing the sites: planning excavations; layout; techniques of Excavations –Vertical; Horizontal, tools and equipments.
3. Excavation of sites: habitation, rock-shelter, prehistoric sites, burial and stupa etc.
4. Methods of recording the contexts of excavated remains; preparation of sections and plans, role of stratigraphy, three dimensional recording, site formation processes, retrieval of botanical and other non-artefactual remains: floatation technique, soil analysis, sample collection of various materials.

UNIT 4: Chronology and Dating Methods

1. Stratigraphy: Principles of stratification, factors and process of formation of layers, Identification and recording of strata, Reconstruction of cultural sequence
2. Determining the chronology and periods of the excavated remains

3. Other methods of Relative chronology: Typology, Statistical studies

4. Absolute methods of dating: Radiocarbon, Potassium-argon, Thermoluminiscence, Pollen analysis, Fluorine test, Obsidian hydration, Dendrochronology

Classroom strategy:

The major emphasis will be both on theory as well as practical aspects. Besides the formal lectures, the field survey and practical training will be duly focused upon. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

SEMESTER: III

PAPER: 8: INDIAN ARCHITECTURE UP TO 1200 AD

Number of credits: 4

Nature of course: DCEC

Aim of the course: The broad aim is to acquaint students with the growth, features, styles and regional variations in the field of Indian architecture.

Objectives of the course:

i. To understand the process of the evolution of Indian architecture.
ii. To know the origin, features, styles, buildings, art etc. in Indian context.

Unit-1: Traditions of Architecture in India

A. Introduction to components of Architecture
B. Protohistoric architecture with emphasis on Harappan town planning
C. Building the rule of the early Mauryan dynasty: wooden origins
D. Sources of Inspiration of Mauryan Architecture: Foreign and Indigenous.

Unit 2 Emergence and Development of Structural Stupa Architecture

A. Origin of Stupa Architecture -Theoretical aspects.
B. Stupa Architecture - Pre-Mauryan and Mauryan period.
C. Study of important stupa: Sanchi, Bharut Amravati, Nagarjunkonda and Taxila
D. Structural monasteries and Chaityas.

Unit 3 Emergence and Development of Rock-cut Architecture

A. Origin of Rock-cut Architecture-Theoretical aspects.
B. Study of important rock cut cave: Barabar Hills, Udaygiri, Khandagiri, Karle, Bhaje, Kanheri and Ajanta
C. Hindu rock-cut caves at Elephanta and Udaygiri.
D. Study of Rock-cut Architecture-Practical Training of Plan drawing.

Unit 4 Emergence and Development of Temple Architecture

A. Origin of Temple Architecture- Theoretical aspects. B.
Archaeological remains of structural temples.
C. Style of Temple Architecture: Nagara, Dravida and Vesara
D. Evolution of the Temple Architecture.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

PAPER: 9 : ART AND ICONOGRAPHY

Number of credits: **4**

Nature of course: **DCEC**

Aim of the course: The broad aim is to acquaint students with the growth of art and iconography in India.

Objectives of the course:

i. To understand the process of the evolution of Indian art and iconography.
ii. To know the features, styles and also the socio-economic and religious influences behind it.

Unit-1: Early Indian Art Tradition

A. Art in prehistoric India
B. Art in protohistoric India – sculpture in diverse mediums, paintings and other works of art.
C. Art tradition in pre Mauryan and Mauryan period: stone, terracotta, stucco, bone, ivory, metal etc.

Unit-2: Post Mauryan Art Tradition

A. Sunga and Satavahana art tradition:
B. Kushana art: schools of art Mathura and Gandhara.
C. Gupta art: schools of art Mathura and Sarnath.
D. Art traditions of Vakataka, Pallava, Chalukya, and Rashtrakuta

Unit-3: Hindu Iconography

A. Emergence and development of Iconography of Vishnu: Sadharan murtis, incarnations, other important representations of Vishnu, Regional traits of Vaishnava iconography
B. Emergence and development of Iconography of Shiva: Anugraha murtis, Samhara murtis, Vishesha murtis, Regional traits of Shaiva iconography
C. Brahma, Ganesha, Surya, Karttikeya
D. Development of Iconography of Goddesses: Saptamatrikas, Durga, Lakshmi, Saraswati, Mahishsuramardini, Chamunda, Bhairavi, Regional traits of Shakta iconography.

Unit-4: Buddhist and Jaina Iconography

A. Origin of Buddha images: different iconographic forms, Manushi and Dhyani Buddhas
B. Bodhisattva: Avalokiteswara Maitreya, Manjusri and other Female Buddhist deities: Tara, Maha Mayuri and Prajnaparamita
C. Evolution of Jaina images, Adinatha, Neminatha, Parsvanatha, Mahavira, Bahubali,
D. Jaina Yaksha and Yakshi: Ambika, Chakreshvari, Padmavati, Saraswati, Kubera

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

SEMESTER: III

PAPER: 10: CONSERVATION & PRESERVATION

Number of credits: **4**

Nature of course: **DCEC**

Aim of the course: The broad aim is to acquaint students with the skill of archaeological conservation and preservation.

Objectives of the course:

i. To understand the process of the conservation and preservation.
ii. To know the techniques and relevance.

Unit-1: History and Principles of Conservation & Preservation

A. History of archaeological conservation and preservation in India
B. General principles and guidelines for conservation and preservation of monuments / sites and excavated remains in India
C. Distribution of monuments in different geographical zones and their conservation problem

Unit-2: Conservation: Materials and Techniques

A. Stone: classification, quarries, selection, specifications, defects, types of masonry, techniques of jointing and pointing
B. Brick: types, kilns, material composition, techniques of manufacturing, characteristics, specifications, bonding and laying,
C. Wood: structure of timber, seasoning, defects and treatment, use in buildings, causes of decay and remedies

Unit-3: Foundation, Scaffolding and Constructional Members

A. Foundation: types of foundation, typical failures of foundation, Consolidating and strengthening of foundations.
B. Scaffolding: types of scaffolding, temporary supports, propping and strutting, centering, shoring, timbering of deep trenches, providing of chutes, safety measures
C. Constructional Members: pointing, underpinning, inlay work, stucco work and tile work

Unit-4: Preservation of Antiquities

A. Metallic Antiquities: Gold, Silver, Copper, Bronze and Iron
B. Organic Antiquities: Ivory, Bone, Wood and Textile
C. Siliceous and Argillaceous Antiquities: Stone, Semi-precious stone, Terracotta and Pottery

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

- Agrawal O. P. 1977. Care and Preservation of Museum Objects, New Delhi: National ResearchLaboratory for Conservation of Cultural Property.
- Allchin B., F. R. Allchin and B. K. Thapar 1989. Conservation of the Indian Heritage. New Delhi: Cosmo Publications

- Thapar, B. K. 1989 Conservation of the Indian Heritage. New Delhi: Cosmo Publication.

SEMESTER: III

PAPER: 11: ANTIQUARIAN LAWS

Number of credits: **4**

Nature of course: **DCEC**

Aim of the course: The broad aim is to acquaint students with the antiquarian laws in India in order to understand the legal aspects of the world of Indian archaeology.

Objectives of the course:

i. To know the antiquarian laws in India.
ii. To know its significance and need.

Unit-1: Introduction

A. History of antiquarian laws in India
B. Importance and significance of antiquarian laws
C. General Problems and implementation

Unit-2: Important Legislations

A. The Indian Treasure Trove Act, 1878
B. The Ancient Monuments Preservation Act, 1904
C. The Ancient Monuments and Archaeological Sites and Remains Act, 1958
D. The Antiquities and Art Treasures Act, 1972

Unit-3: Related act and Rules

A. Land Acquisition Act, 1894
B. Public Premises (Eviction of unauthorized occupants) Act, 1971
C. Public Premises (Eviction of unauthorized occupants) Rules

Unit-4: International Conventions

A. The Athens Charter for the Restoration of Historic Monuments, 1931
B. Convention concerning the protection of the World Cultural and Natural Heritage, 1972
C. UNESCO Recommendation for the protection of movable cultural property, 1978
D. Charter for the Protection and Management of the Archaeological Heritage, 1990

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

- Acts of Indian and International law.
- Sites of Archaeological survey of India.

SEMESTER: III

ANCIENT INDIA

PAPER: 1: TRENDS AND THEMES IN ANCIENT INDIAN HISTORIOGRAPHY

Number of credits: **5**

Nature of course: **CORE**

Aim of the course: The broad aim is to make students knowledgeable about the tradition of history writing in ancient India.

Objectives of the course:

i. To develop a critical understanding of the subject;
ii. To know how it began and developed in India.
iii. To know the various forms in which it was produced.

UNIT 1: Introduction:

A. The Beginning; Historiography.
B. Forms of Early Historical Expressions-Itihas in Veda; Gatha, Narsamsi, Akhyan, Danstuti.
C. Itihas Purana Tradition.
D. Sutamagadha Traditions; Vamsanucharita; Prasastis and Dynastic Chronicle

UNIT 2: Establishing the Tradition:

A. History in the Epics-The Mahabharata, The Ramayana.
B. History as Literature-Kalidas, Vishakhadatta.
C. History as Biography-Harshacharita, Ramacharita.
D. Inscriptions as Official History and the Bards.

UNIT 3: Alternative Historiography:

A. The Buddhist Writings.
B. The Jaina Writings,
C. Foreign Accounts and Ancient Indian History.
D. Historical Traditions in Ancient South India.

UNIT 4: Themes in Ancient Indian Historiography:

A. The Concept of Time in Ancient India: Cyclical or Linear.
B. Debate on the Historical Consciousness.
C. Asiatic Modes of Production, Oriental Despotism and Hydraulic State.
D. Historians of Ancient India-Banabhatta, Kalhan.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. Graphics and videos may also form part of the teaching wherever it is required and possible.

SEMESTER: III

PAPER: 2: HISTORY OF POLITICAL IDEAS AND INSTITUTIONS IN ANCIENT INDIA

Number of credits: **5**

Nature of course: **CORE**

Aim of the course: The broad aim is to make students understand the political development in its fullest measure in ancient India.

Objective of the course:

i. To develop a critical understanding of the subject;
ii. To know the beginning of state formation in ancient India;
iii. To critically analyse the evolution of different political ideas and institutions in ancient India.

UNIT 1: Introduction:

A. Understanding the Beginning-The Vedas & the Process of Evolution.
B. Historiography-Colonial, Nationalist and Marxist.
C. Sources
D. The Concept of Oriental Despotism.

UNIT 2: Towards the Formation of State:

A. Rigvedic Political Institutions
B. Later Vedic Polity
C. State Formation in Pre-Mauryan Times
D. Saptanga Theory of State

UNIT 3: Towards the Empire:

A. Socio-Economic Basis of Mauryan State.
B. Nature.
C. Central Administration.
D. Revenue System.

UNIT 4: Post Mauryan Polity:

A. Post Maurya to Pre Gupta Polity-Sungas, Kushana & Satvahans and the Republicans.
B. Gupta Polity.
C. Polity during Harshavardhan.
D. Post Harsha Polity and the Rise of the Regional Kingdoms-Pala, Pratihara and Rashtrakuta.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. Graphics and videos may also form part of the teaching wherever it is required and possible.

SEMESTER: III

PAPER: 4: SOCIAL HISTORY OF ANCIENT INDIA (1500 BC-1200 AD)

Number of credits: **2**

Nature of course: **DCEC**

Aim of the course: The broad aim is to make students understand the development of system and set up in its fullest measures in ancient India.

Objectives of the course:

i. To develop a critical understanding of the subject;
ii. To know the beginning and spread of social institutions in ancient India;
iii. To critically analyse the evolution of various social activities.

UNIT 1: Introduction:

A. Historiography.
B. Sources
C. Rg Vedic Society.
D. Transition to Later Vedic Society.

UNIT 2: Traditions and Institutions:

A. Varnashram System and origin of Jati-Process, Theory and Debate.
B. Marriage
C. Samskara
D. Ashrama.

UNIT 3: Marginalised Groups:

A. Shudra.
B. Varnashankar.
C. Slavery-Debate.
D. Tribals.

UNIT 4: Changes in Ancient India:

A. Social Changes.
B. Proliferation of Caste.
C. Spread of Aryan Culture and their Movement across India.
D. Status of Peasantry and their Protests.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. Graphics and videos may also form part of the teaching wherever it is required and possible.

Suggested readings:

- Romila Thaper, Ancient Indian History
- R. S. Sharma, Social Changes in Early Medieval India
- R. S. Sharma, Sudras in Ancient India
- C. Sircar, Some Aspects of Earliest Social History of India
- Jai Shankar Mishra, Prachin Bharat ka Samajik Itihas

- The Gahdavals- Rama Neogi.
- Rajputana ka Itihas- G S Ojha.

SEMESTER: III

PAPER: 6 : ORIENTALISM

Number of credits: **4**

Nature of course: **GE**

Aim of the course: The broad aim is to make students understand the basic understanding of the concept of orientalism and its uses in Indian context.

Objectives of the course:

i. To develop a critical understanding of the subject;
ii. To know the application of the term Orientalism in Indian contexts;
iii. To know its benefits and shortcomings.

UNIT 1: Early Phase:

A. Historiography; The Beginnings: The knowledge about the Orient before colonial conquest – The need for knowledge about the colony.
B. The Portuguese and Dutch attempts.
C. Production of knowledge and strategies of control under the English East India Company -the greater extent of British control and their bigger needs.
D. The work before Jones – Warren Hastings.

UNIT 2: Early Orientalism:

A. Early Orientalism: William Jones and the Asiatic Society – Jones' life and work – the Asiatic Society and Asiatic Researches – Wilkins, Colebrooke, Wilson and textual studies.
B. Princep and epigraphy – Cunningham and Archaeology – Havell, Fergusson and art.
C. Orientalism in imperial ideology – the role of "native" scholars.
D. Orientalism without empire: German and French "Indology"- Max Müller and the high noon of Orientalism.

UNIT 3: Orientalism: Theory and Practice

A. The Orientalist Constructions: The "discovery" of India – Historiography, ethnology and study of languages – construction of images and stereotypes: (a) the theory of the Aryan race (b) the Indian village community (c) unchanging East (d) Indian spirituality vs. Western materialism (e) Oriental Despotism and Asiatic Mode of Production.

B. Orientalism in Action: The use in colonial control and domination – boosting middle class morale.
C. Orientalism and Indian "renaissance" – Orientalism and revivalism
D. Orientalism and Indian nationalism – communal ideology – the expansion of database about India's past.

UNIT 4: Criticism of Orientalism:

A. Early reactions – the implicit acceptance in early nationalist writings.
B. The modern historians" perspective – Edward Said and the Foucauldian understanding – Critique of Said – recent Japanese work.
C. An assessment of Orientalism – Orientalism today.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. Graphics and videos may also form part of the teaching wherever it is required and possible.

NOTE: *One paper is to be taken from other department which will carry 4 credits.*

SEMESTER: III MODERN INDIA

PAPER: 1: HISTORIOGRAPHY IN MODERN INDIA

Number of credits: **5**

Nature of course: **CORE**

Aim of the course: The broad aim is to acquaint students with the deep understanding of the historiography of modern India with all its dissensions, consensus and alternative concepts.

Objective of the course:

i. To understand the beginning of historiography in modern India.

ii. To know the various schools of historians and history writing within their historical milieu.

iii. To construct history in its wider form on the basis of the historiographical traditions.

UNIT 1: Beginning:

A. Introduction to modern Indian historiography;
B. Foreign traveller's account in medieval and early modern Indian period;
C. European missionaries in India and their writings;
D. Indian history and British writings in 18th century;

UNIT 2: 18TH-19TH century and history writing:

A. Oriental studies in India; Major orientalists
B. Imperialist writings on India: Utilitarian and Evangelicals
C. Major imperialist historians
D. Marx's Asiatic mode of production

UNIT 3: History writing in India from 20th century to Our Age:

A. Nationalist History and Historians
B. Marxist Historiography and major historians
C. Subaltern Historiography
D. Rewriting Indian History: Politics or history

UNIT 4: Selected Themes of Modern Indian Historiography:

A. Historiography of Indian Nationalism.
B. Historiography of 1857 Revolt.
C. Historiography of India's Partition.
D. Economic Nationalism and History Writing.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

SEMESTER: III MODERN INDIA: 1757 AD-1947 AD

PAPER: 12: HISTORY OF CHILDHOOD

Number of credits: 4

Nature of course: DCEC

Aim of the course: It is intended to provide the students higher level understanding of the history of Childhood. The different aspects Childhood will be thoroughly examined in the light of the new researches in the mentioned field.

Objectives of the course:

i. To explore the idea of Childhood;

ii. To develop a critical understanding of the subject;

iii. To understand the process of development into different fields in the idea of Childhood;

iv. To enlighten the students with the socio-cultural notion of Childhood.

UNIT – 1: History of Childhood: Its Genealogy, Historiography, and Growth of Modern Idea of Childhood in West

A. Defining Childhood: Childhood and History,
B. Genealogy of the modern idea of childhood: from 15^{th} Century to present time
C. Studying Childhood as a Discipline, Making of the discipline of history of childhood in 20^{th} and 21^{st} Centuries
D. Historiography and history of Childhood

UNIT – 2: Theoretical Approaches to History of Childhood

A. Theorizing childhood: childhood and human age, space, time, and childhood
B. Idea of ideal childhood in history
C. Theoretical dimensions for childhood study in other disciplines.
D. Scholars in Childhood history: Philippe Aries, Linda A. Pollock, Colin Heywood, Adriana Wilson

UNIT – 3: Understanding Classical Childhood

A. Sources for childhood study in classical period (Greek, Rome, China, India).
B. Childhood as an idea in classical periods (Greeko-Roman)
C. Classical childhood among various social group
D. Multiple aspects of classical childhood

UNIT – 4: Making of Medieval and Modern Childhood

A. Children or half-adult: An inquiry into the notion of childhood in medieval western societies.
B. Discourse on medieval conception of childhood
C. Idea childhood from pre-modern notion of childhood.
D. Childhood in colonial society: Fusion of Western and Indigenous Conception of Childhood.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. Screening feature films related to the concerned topics and documentary movies may also form part of the teaching scheme.

SEMESTER: III

MODERN INDIA: 1757 AD-1947 AD

PAPER: 13: PEASANTS, WORKERS AND TRIBES IN COLONIAL INDIA (IDENTITIES, REVOLTS AND CONTESTATIONS)

Number of credits: **4**

Nature of course: **DCEC**

Aim of the course: The broad aim is to know the people at margins and their existence in the colonial rule, the problems encountered by them and how they meted out the reactions.

Objective of the course:

I To know the various circumstances in which these classes suffered, struggled and made ways for themselves.

ii. To deliberate upon the various other issues afflicting these classes.

UNIT 1: Introduction:

A. Introduction; Historiography; Sources.
B. Peasants-Approaches, Methods, Issues, Characteristics of Peasant Societies.
C. Workers-Formation, Unions, Conditions.
D. Tribals-Introduction, Quest for Survival in New Age, Government Policies.

UNIT 2: Resistance:

A. Government Policies and Peasantry; Resistance-Modes, Reaction and
B. Pre 1857 Peasant Revolts; Peasantry and 1857 Revolt;
C. Peasant Resistance in 20th Century.
D. Tribal Movements- Causes, Role of Middlemen and Moneylenders, Tribal and Environment.

UNIT 3: Workers:

A. Last quarter of 19th Century and Workers.
B. Workers, Trade Unions, Associations-INC and Left.
C. Government Policies and Responses; Industrialists and Workers.
D. Workers and Indian National Movement.

UNIT 4: Peasants, Tribals and Indian National Movement:

A. Peasants in Indian National Movement
B. Regional Variations: UP, Bihar, Maharshtra, Andhra and Central Province
C. Tribals and the Indian Naitonal Movement
D. Tribals: Self and Others

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

						26	Total Credit

NOTE: ***Paper first will be writing dissertation which will carry 16 credits.***

SEMESTER: IV

PAPER: 2: SCIENCE IN ARCHAEOLOGY

Number of credits: **5**

Nature of course: **SEEC**

Aim of the course: The broad aim is to acquaint students with the uses of science of archaeology while studying the subject.

Objective of the course:

i. To know the use of science in the field of archaeology.
ii. To know its significance, need and also how it helps in enhancing the scope and research of archaeology.

Unit-1: Introduction:

A. Role of various sciences in archaeological research
B. Geological time-scale – the position of the Quaternary Period within the standard geological column.
C. Description and interpretation of natural and archaeological section in the field

Unit-2: Geoarchaeology and Environmental Archaeology:

A. Rocks and Minerals – definition and types, their characteristic features.
B. Fluvial environments in archaeology: river terraces and other formations
C. Palaeo-environmental survey of India during Pleistocene and Holocene with example
D. Human–land relationships: understanding the impact of environmental change on early societies

Unit-3: Archaeozoology and Archaeobotany:

A. Application of archaeozoology in reconstruction of past
B. Survey of animal fossil remains and archaeozoological remains from archaeological sites in India
C. Application of archaeobotany in reconstruction of the past
D. Survey of plant remains and related evidences from archaeological sites in India

Unit-4: Anthropology and Chemistry:

A. Meaning and scope of Anthropology and its relevance in archaeological studies
B. Physical anthropology and its application to archaeology
C. Preliminary study of soils and sediments, pH, colour, texture, organic carbon, calcium carbonate and phosphate contents.
D. Chemical conservation and preservation of archaeological finds: metals, stones, terracotta, bone etc.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

SEMESTER: IV

PAPER: 3: DEBATES IN ARCHAEOLOGY

Number of credits: **5**

Nature of course: **SEEC**

Aim of the course: The broad aim is to explore some of the vexatious areas in the field of archaeology and how the debates takes shape.

Objective of the course:

i. To know the problematic areas and the debates surrounding it.

Unit-1 Debate in Pre-history and Related Issues:

A. Terminology of cultural phases in Indian archaeology.
B. Recent theories and debates on human origins, dispersals and behavior
C. Problem of South Indian ashmounds
D. Debating of origins of rice

Unit-2: Debate in Harappan Civilization and Related Issues:

A. Origin of Harappans: foreign & indigenous theories
B. Rig-vedic text and Harappan civilizaion: problems of corroboration
C. Identity of the Sarasvati River
D. Horse in the Harappan civilization- a matter of debates

Unit-3: Debate in Vedic Period and Related Issues:

A. Aryana invasion: myths and reality
B. The problem of dating the great epics: Mahabharata and Ramayan
C. The antiquity of iron technology and second urbanization

Unit-4: Debate in Post Vedic Ancient India:

A. Gupta Age as Golden Age: Archaeological Perspective
B. Problem area of archaeology: Dwaraka and Rama Setu
C. Mahabharata and Ramayana: Reality or Myth-Archaeological Study

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

NOTE*: Paper first will be writing dissertation which will carry 16 credits.*

SEMESTER: IV

PAPER: 2: PROBLEMS AND DEBATES IN ANCIENT INDIA

Number of credits: **5**

Nature of course: **SEEC**

Aim of the course: The broad aim is to make students understand the importance of key unresolved areas of ancient past.

Objective of the course:

i. To develop a critical understanding of the subject.

NOTE: In this paper, the emphasis is not only on mere narration but also on critically brainstorming the unresolved issues of ancient India.

UNIT I:
The Aryan problem – Debates – Invasion hypothesis – Migration Hypothesis –
R.S.Sharma, Romila Thankar.

UNIT II:
From Tribe to State – Janapada Polity – Mauryan political apparatus –Debates on Arthasastra.

UNIT III:
Did India have a Golden age during the Guptas?

Unit IV:
Concept of crisis – Kali Age – Transition from ancient to Medieval- the Feudalism debate.

Classroom Strategy:
The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course. Graphics and videos may also form part of the teaching wherever it is required and possible.

SEMESTER: IV

PAPER: 2: ANCIENT INDIAN PHILOSOPHY AND KNOWLEDGE SYSTEM

Number of credits: **5**

Nature of course: **SEEC**

Aim of the course: The broad aim is to understand the ancient treasure of Indian wisdom through their religion and philosophy.

Objective of the course:

i. To know the history of ancient Indian knowledge system.
ii. To know about the growth of ancient Indian philosophy.
iii. To understand the relation between the two and the beginning of a thinking tradition in ancient India.

UNIT 1: Beginning of Ancient Indian Philosophy and Knowledge:

A. Vedic Corpus-Rg Veda, Sama Veda, Yajur Veda and Atharva Veda; Brahamanas; Aranyaks.
B. Cosmology of the Vedas- Origin of Calendar, Linguistics and Astronomy.
C. Vedangas and Specialized Knowledge; Sulba Sutra and Vedic Geometry; Upaveda.
D. Upanishads-Basis of Indian Philosophy: Atman and Brahma.

UNIT 2: Creation of Knowledge and Philosophy in a Transitional Society:

A. Buddhist and Jainist Philosophy- Epistemology, Cosmology, logic.
B. Evolution of Social Philosophy-The Dharmasastras; the Smritis; Puranas.
C. Philosophy of Other Heterodox Sects- Ajivkas, Lokayat.
D. The Six Schools-Sankhya, Yoga, Nyaya, Vasheshika, Purva Mimansa, Vedanta/Uttar Mimansa; the Six Sub Schools of Vedanta.
E. Tolkappiyam and manual; contributions of Tiruvalluvar; linguistic and grammar; Temple culture and worship – the Agamas.

UNIT 3: Classical knowledge System:

A. Astronomy and Mathematics – Bhaskara, Aryabhata, Varahamihira;
B. Treatises on Statecraft: The Arthasastra;
C. Healthcare Systems: Ayurveda-Vrksha, Hasti and Asva; Samhitas- Charaka, Susruta, and Bhela; Patanjali-Yoga System.
D. Lexicography: Amara and Hemachandra; Histrionics: Bharata and Natyasastra; Vatsayana- Kamasutra; Architecture: Samarangana Sutradhara.

UNIT 4: Theoretical Discourse:

A. Growth of Logic/Nyaya-Sixteen Categories; Anvikshki.
B. Language and Grammar - Dhvani and Rasa: Anandvardhan and Abhinav Gupta and Sphota-Sphotavada of Bhartihari.
C. Cosmology – Jiva-atma and loka – panchabhutas, padarthas.
D. Concepts of truth- Laukika, Vyavaharika and Paramarthika.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

- H.C.Bharadwaj: Aspects of Ancient Indian Technology.
- D.P.Chattopadhyaya: Science and Society in Ancient India.
- A.K.Bag: Science and Civilization in Ancient India, Vol.I.
- A.K.Bag: India and Central Asia; Science and Technology (2 vols.).

						26	Total Credit

NOTE: ***Paper first will be writing dissertation which will carry 16 credits.***

SEMESTER: IV

MEDIEVAL INDIA

PAPER: 2: POPULAR RESISTENCE IN MUGHAL INDIA

Number of credits: **5**

Nature of course: **CORE**

Aim of the course: The broad aim is to study the factors and contexts which gave rise to discontentment and eventually leading to vocal and violent manifestations during the Medieval India.

Objective of the course:

i. To know the reasons leading to anti –establishment outbursts.
ii. To make use of official as well as traditional and non- official sources for the study.

UNIT 1: Introduction:

A. Introduction; Historiography; Sources.

UNIT 2: Political and Economic Revolts:

A. Revolts of Nobility: 1560-1740-Causes, Nature, Outcome.
B. Zamindar's Revolts: Zamindars and the Mughal administration; Nature and Power of the New Zamindars, Local Uprisings and its impact on Mughal Polity; Jat Revolt.
C. Peasant's Revolt: Causes, Nature, Modes and Response of the state.

UNIT 3: Other Resistences:

A. Religious Revolts: Raushaniya Movement (1585, 1611-16, 1628 AD); Satnami Revolt (1628 AD); Sikh Revolt.
B. Merchants Resistence.
C. Everyday Resistence.

UNIT 4: Regional Resistences:

A. Maratha
B. Jat.
C. Bundela
D. Rohilla

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

Suggested readings:

- Khan, A.R., Chieftains in the Mughal Empire during the Reign of Akbar, Shimla, 1977.

SEMESTER: IV

MEDIEVAL INDIA

PAPER: 3: THEMES, PROBLEMS AND PERSPECTIVES OF MEDIEVAL INDIAN HISTORY

Number of credits: **5**

Nature of course: **SEEC**

Aim of the course: The broad aim is to highlight and discuss the problematic zones in the reading of medieval Indian history.

Objective of the course:

i. To know the vexatious issues afflicting the different sectors of governance and society.
ii. To deliberate upon the historical contexts in which such issues developed.

UNIT 1: The Political Structure:

A. Delhi Sultanate – Sultan, Nobility and Ulema: Conflict, Consensus and Continuity.
B. The Mughul State: Nature-Patrimonial Bureaucratic State; Revenue System –Mansabdari; Provincial Government- Suba, Sarkar, Pargana.
C. South Indian Kingship – Segmentary or Military Feudal? – Ritual and politics in Kingship.
D. Regional States – Rajput Polity; Maratha-Concept of Swarajya among Marathas.

UNIT 2: Socio-Economic:

A. The Village community – Landlords, tenants and labourers – Service and rent - organisation of occupations and social positions (Zamindar, Raiyat, Mirasi Ayakar and Balutedari) – Role of the Village headman.
B. Caste and Social stratification – Caste as occupational division and ideology – Theories of Louis Dumont and Criticisms.
C. Artisan groups and their organization of production – Local trade, Local market, trading groups.
D. Urbanism-Causes, Features, Types-Administrative, Coastal and Industrial.

UNIT 3: Religion and Culture:

A. Islam and Sufism; Din-i- Ilahi; Coming of Christianity.
B. Indigenous sects – Saivism and Vaishnavism.
C. Medieval Bhakti Movement – Syncretic tradition- Ramanand, Kabir and Nanak; Sectarian traditions- Chaitanya, Meera and Tulsidas; Maharashtra and South Indian Bhakti; Temple centers and pilgrimages.
D. Literature in Persian, Sanskrit and regional languages; Performance traditions – Music art, sculpture and architecture (Indo-Persian and indigenous forms); Festival and ceremonies; science and technology.

UNIT 4: Early Modern or Late Medieval:

A. Conceptualising Late Medieval/Early Modern.
B. Eighteenth century India – Decline of the Mughal state: Mughals and the 'successor' states.
C. Growth of regional cultural identities.
D. Social and cultural roots of Indian 'backwardness': The uropean rientalist perceptions and their critique.

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

NOTE: ***Paper first (according to serial number) will be writing dissertation which will carry 16 credits.***

SEMESTER-IV
SOCIAL CHANGE IN MODERN INDIA: 1769-1947

Number of credits: 5

Nature of course: CORE

Aim of the course: The broad aim is to make students aware about the numerous changes and continuity in colonial Indian society.

Objective of the course:

i. To understand the theories in social history.

ii. To examine the social-history writing

iii. To understand the complex interrelationship that existed between various institutions of Indian society.

UNIT – 1: Colonial Knowledge Production and English Officials in India

A. Colonial Official and Indian Languages (Persian, Sanskrit and Hindoostani)
B. Indigenous Law and Colonial Administration: William Jones, Nathaniel Halhed, Thomas Colebrooke
C. Gazetteers and Census: Social engineering of Indian Society; Cartography in India
D. Self and Other; Colonial Narrative of Indian Society

UNIT – 2: Caste and Colonial Modernity

A. Caste and *Jati*: Perception and Practice of Caste in pre-colonial Indian society
B. Textualization of Caste: Census and politics of social hierarchy
C. Modernization of Caste: Caste Associations and Effort for Social Mobility
D. Dalit Movement: Jotiba Phule, Periyar, Narayan Guru and Dr. B.R. Ambedkar

UNIT – 3: Colonial Education and Making of Educated middle Class

A. System of Education in Pre-Colonial Indian Society
B. Anglo-Oriental Debate on Education
C. Macaulay Minute, Woods Despatch, Hunter Commission on Indian education
D. Emergence of Educated Middle Class

UNIT – 4: Family and Childhood

A. Family in pre-colonial Indian Society
B. Women and Social Reform Movements
C. Modernization of Family: Changing Role of Women and Children
D. Making of Colonial Childhood: Family and School

Classroom strategy:
It will be a blend of formal theoretical teaching and discussions. Audio-visual display, presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized. **The 30 percent of this paper will be taught online and rest of it will be offline.**

SEMESTER: IV

MODERN INDIA: 1757 AD-1947 AD

PAPER: 3: ECONOMIC HISTORY OF INDIA: 1757 AD-1947 AD

Number of credits: 5

Nature of course: SEEC

Aim of the course: The broad aim is to know the development of Indian economy under the British period.

Objective of the course:

i. To know the various circumstances in which Indian economy developed under the British rule.

ii. To deliberate upon the outcome of this development and also the role of economic nationalism in the struggle against the British.

UNIT I: Introduction:

A. Historiography
B. Indian economy in the 18^{th} century
C. De-industrialization
D. Contemporary Indians and Critique of Colonial Indian Economy

UNIT II: Agriculture:

A. Colonial Land Revenue System
B. Commercialization of Agriculture
C. Famines
D. Irrigation

UNIT III: Trade, Commerce and Industries:

A. Industrial policies and Reports
B. Large Scale Industries; Mining
C. Foreign Trade and Balance of Payment
D. Fiscal system: Money, Credit & Banking

UNIT IV: Other Aspects of Colonial Indian Economy

A. Population, Migration and Labour
B. Transportation and Communication-Railways, Postal and Telegraph, Shipping
C. Growth of Indian Capitalist Class
D. Indian National Congress and Economic issues

Classroom strategy:

The major emphasis will be on theory aspect. Hence formal lectures will be given priority. Guest lecture, too, may be arranged depending upon the requirement of the course module. Projects, assignments, discussions and tutorial classes will form part of the class room teaching of the course.

COURSE I: RESEARCH METHODOLOGY IN HISTORY

Course Code: SAHS HA 03 0101 C 6006 (Ph.D.)

Credit: 06

Nature: Core

Aim: The broader aim is to make a researcher acquaint with the basic understanding of research methodology in history.

Objectives:

i. To inculcate the idea of discipline centric research;
ii. To make researcher understand the process of research in history;
iii. To develop a sense of critical reading of texts;
iv. To make aware of how to use sources and computer for enhancing research output.

UNIT – 1: Understanding Research

A. Definition and Meaning
B. Types of research; Ethics in Social Science research
C. Theory building and research in social sciences
D. Research in history: looking into why, how and what

UNIT – 2: Methods in History

A. Qualitative and Quantitative; Descriptive and Analytical; Inductive and Deductive; Subjectivity and Objectivity
B. Historical criticism: External and Internal criticism
C. Reading and re-reading: Post Structuralism, deconstruction, postmodernism and history
D. Comprehending sources: Archaeological, literary and web-based

UNIT – 3: Techniques of Historical Research

A. Understanding research process in history
B. Preparing synopsis; Historigraphical Review
C. Collection and classification of data
D. Post data collection phase: analysis, generalization, synthesis and discussion

UNIT – 4: Arrangement, Presentation and Use of computer

A. Formalizing research work: footnotes, charts, tables, arrangement of references, indexing appendices, bibliography

B. Presentation: Research paper, Dissertation, Thesis, Project, Report
C. Basic computer: MS word, PPT, Photoshop basic
D. Using internet, reliability of internet information

Recommended Reading:

OPTION II: ARCHAEOLOGY

Number of Credit: 06

Nature of Course: Elective

Aim of the Course: The broad aim is to make the research-oriented students develop a critical understanding of the various archaeological, epigraphic, numismatics and art related sources for the reconstruction of ancient Indian history.

Objectives of the Course:

i. To make students critically understand the various nuances of archaeology in the reconstruction of Indian history;
ii. To provide in-depth critical understanding of art and architecture as an important aspect of the socio-cultural milieu of the past;
iii. To enamour students into the intricacies involved into pursuing and writing ancient history at higher level.

UNIT – 1: Archaeology and Archaeological Remains

A. Archaeology: Definition and scope; Limitations of the source
B. Field methods: exploration and excavation
C. Chronology: Relative and Absolute
D. Importance of excavated remains for historical reconstruction

UNIT – 2: Epigraphy

A. Significance of Paleography
B. Epigraphy: meaning, scope and limitations
C. Dating the historical events
D. Historical Reconstruction

UNIT – 3: Numismatics

A. Numismatics: meaning and scope; limitation of the source
B. Occurrences and nature of collection
C. Classification and types of coins
D. Historical reconstruction

UNIT – 4: Art and Architecture

A. Medium based classification: Clay sculpture, stone, metal, painting
B. Historical relevance; Limitations of the source
C. Historical reconstruction: religious, social, political, economic, technological

D. Types of monuments and architectural remains; Methods of study: plan, section, elevation and decoration

COURSE II (To be opted any one)

OPTION I: SOURCES OF ANCIENT INDIAN HISTORY

Number of Credit: 06

Nature of Course: Elective

Aim of the Course: The broader aim is to inculcate a critical understanding of the various sources of ancient Indian history.

Objectives of the Course:

i. To develop critical understanding of the students for the various sources of literary, archaeological, epigraphic and numismatics importance, ethnographic and their application in the scientific reconstruction of ancient Indian history;
ii. To make students critically understand the different forms of writing traditions of historical importance like biographies, foreign accounts etc.
iii. To inspire students into the intricacies involved into pursuing and writing ancient history at higher level.

UNIT – 1: Literature:

A. Vedic Literature
B. Brahmanical Literature
C. Buddhist Literature
D. Jain Literature

UNIT – 2: Histories and Biographies:

A. Itihasa-Purana Tradition and Charitas with special reference to the Buddhacharita, Rajatarangini and Harshacharita
B. Account of foreign travelers with special reference to Meghasthenes, Hiuen-tsang, and Al-beruni
C. Romantic and folk literature with special reference to the Malavikagnimitram of Kalidasa and the Kathasaritsagara of Somadeva

UNIT – 3: Archaeological Sources:

A. Stone Age tools – Tool techniques and uses
B. Ceramic Assemblage;
C. Monuments as a source of ancient Indian history

UNIT – 4: Epigraphy and Numismatics:

A. Seals as a source of ancient Indian history
B. Inscriptions as a source of ancient Indian history
C. Coins as a source of ancient Indian history

Recommended Reading:

OPTION III: HISTORIOGRAPHY OF MODERN INDIA

Number of Credits: 06

Nature of Course: Elective

Aim of the Course: The broader aim is to introduce and impart the basic concepts concerning historiography of modern India which is vital for higher studies in the concerned subject.

Objectives:

- To carry out research, writing, and organizational skills in the field of Asian history through an independent study project and completion of a long written assignment based on primary sources
- To investigate in-depth knowledge and understanding of approaches, methods and theories in the Historical Sciences and the region and topic of specialization
- To undertake further postgraduate study
- To prepare the candidate for PhD Research by providing one-to-one training related to research design and the use of sources in a specific region.

Unit – 1: Making of 'History' as a Discipline and Nature of Historical Sources

A. Genesis of the discipline "history"
B. Sources and History-Writing
C. Abode of Historical Sources
D. Expanding the Categories of Historical sources

Unit - 2: **Colonialism, Nationalism and Communalism**

A. Colonialism in India
B. Colonial Economy
C. Nationalism in India
D. Communalism in India

Unit – 3: Caste, Gender, and Family

A. Understanding Modern Caste
B. Invention of Colonial Categories
C. Gendered Identities
D. Colonizing Family

Unit – 4: Law, Medicine, and Environment

A. Law in Colonial India
B. Medicine and Public Health
C. Medicine and Advertisement

D. Ecological Resources

Classroom strategy:
It will be a blend of formal theoretical teaching and discussions. Audio-visual display, presentations, assignments, discussions, quiz and brainstorming sessions will equally be employed. Wherever possible, guest lectures may also be organized. **The 30 percent of this paper will be taught online and rest of it will be offline.**

1. Background

Considering the curricular reforms as instrumental for desired learning outcomes, all the academic departments of the Central University of Haryana made a rigorous attempt to revise the curriculum of undergraduate and postgraduate programmes in alignment with National Education Policy-2020 and UGC Quality Mandate for Higher Education Institutions-2021. The process of revising the curriculum could be prompted with the adoption of ―Comprehensive Roadmap for Implementation of NEP-2020‖ in the 32nd meeting of the Academic Council of the University held on April 23, 2021. The Roadmap identified the key features of the Policy and elucidated the Action Plan with well-defined responsibilities and an indicative timeline for major academic reforms.

The process of revamping the curriculum started with a series of webinars and discussions conducted by the University to orient the teachers about the key features of the Policy, enabling them to revise the curriculum in sync with the Policy. Proper orientation of the faculty about the vision and provisions of NEP-2020 made it easier for them to appreciate and incorporate the vital aspects of the Policy in the revised curriculum focused on ‗creating holistic, thoughtful, creative and well-rounded individuals equipped with the key 21st-century skills for the development of an enlightened, socially conscious, knowledgeable, and skilled nation'.

With NEP-2020 in background, the revised curricula articulate the spirit of the policy by emphasising upon— integrated approach to learning; innovative pedagogies and assessment strategies; multidisciplinary and cross-disciplinary education; creative and critical thinking; ethical and Constitutional values through value-based courses; 21st century capabilities across the range of disciplines through life skills, entrepreneurial and professional skills; community and constructive public engagement; social, moral and environmental awareness; Organic Living and Global Citizenship Education (GCED); holistic, inquiry-based, discovery-based, discussion based, and analysis-based learning; exposure to Indian knowledge system, cultural traditions and classical literature through relevant courses offering ‗Knowledge of India'; fine blend of modern pedagogies with indigenous and traditional ways of learning; flexibility in course choices; student-centric participatory learning; imaginative and flexible curricular structures to enable creative combination of disciplines for study; offering multiple entry and exit points initially in undergraduate programmes; alignment of Vocational courses with the International Standard Classification of Occupations maintained by the International Labour Organization; breaking the silos of disciplines; integration of extra-curricular and curricular aspects; exploring internships with local industry, businesses, artists and crafts persons; closer collaborations between industry and higher education institutions for technical , vocational and science programmes; and formative assessment tools to be aligned with the learning outcomes, capabilities, and dispositions as specified for each course. In the case of UG programmes in Engineering and Vocational Studies, it was decided that the departments shall incorporate pertinent NEP recommendations while complying with AICTE, NBA, NSQF, International Standard Classification of Occupations, Sector Skill Council and other relevant agencies/sources. The University has also developed consensus on the adoption of Blended Learning with 40% component of online teaching and 60% face to face classes for each programme.

The revised curricula of various programmes could be devised with concerted efforts of the faculty, Heads of the Departments and the Deans of Schools of Study. The draft prepared by each department was discussed in a series of discussion sessions conducted at the

Department, School and University level. The leadership of the University has been a driving force behind the entire exercise of developing the uniform template and structure for the revised curriculum. The Vice-Chancellor of the University conducted series of meetings with Heads and Deans to deliberate upon the vital parameters of the revised curriculum to formulate a uniform template featuring Background, Programme Outcomes, Programme Specific Outcomes, Postgraduate Attributes, Structure of Masters Course, Learning Outcome Index, Semester-wise Courses and Credit Distribution, Course-level Learning Outcomes, Teaching-Learning Process, Blended Learning, Assessment and Evaluation, Keywords, References and Appendices. The experts of various Boards of Studies and School Boards contributed to a large extent in giving the final shape to the revised curriculum of each programme.

To ensure the implementation of curricular reforms envisioned in NEP-2020, the University has decided to implement various provisions in a phased manner. Therefore, the curriculum may be reviewed annually to gradually include all relevant provisions of NEP-2020.

The Guiding Principles adopted/adapted from the NEP 2020 to develop the Curriculum Framework for Master of journalism and mass communication program are:

G-1: Education must build character, enable learners to be ethical, rational, compassionate, and caring, while at the same time prepare them for gainful, fulfilling employment

G-2: Indian culture and values…Rich legacies to world heritage must not only be nurtured and preserved for posterity but also researched, enhanced, and put to new uses through our education system

G-3: With the rise of big data, machine learning, and artificial intelligence, many unskilled jobs worldwide may be taken over by machines, while the need for a skilled workforce, particularly involving mathematics, computer science, and data science, in conjunction with multidisciplinary abilities across the sciences, social sciences, and humanities, will be increasingly in greater demand

G-4: With the quickly changing employment landscape and global ecosystem, it is becoming increasingly critical that children not only learn but more importantly learn how to learn.

G-5: There must also be seamless integration and coordination across institutions and all stages of education

G-6: Facing and addressing these challenges will require high-quality interdisciplinary research across fields that must be done in India and cannot simply be imported; the ability to conduct one's research also enables a country to much more easily import and adapt relevant research from abroad much of the very best research in the world has occurred in multidisciplinary university settings.

2. Preamble

Learning Outcome-based Curriculum Framework is the need of the hour. This framework provides a paradigmatic shift from the traditional pattern of education to a choice-based credit system and includes enlightenment about the course aspects. The courses were introduced as per the course curriculum and the scheme and syllabi, but the LOCF format gives a detailed knowledge of what a student could learn from a course and how it will help him/her for better employment. Besides the main objectives of explicit description of the course, the LOCF format allows the students and teachers. Another hand extends based on asure the outputs in both qualitative and quantitative measures.

As per UGC, The fundamental premise of LOCF is to specify what graduates completing a particular programme of study are expected to know, understand and be able to do at the end of their programme of study. The LOCF approach makes the student an active learner, the teacher a good facilitator, and together they lay the foundation for lifelong learning.

The idea behind LOCF is to decide the desired outcome within the framework of the current Choice Based Credit System (CBCS) for undergraduate and postgraduate programmes and then design the curriculum to obtain these outcomes. The outcomes will be determined in terms of skills, knowledge, understanding, employability, graduate attributes, attitudes, values, etc., gained by students upon completing the course.

UGC wants to replace the marks or percentage-based evaluation system with CBCS, which "not only offers opportunities and avenues to learn core subjects but also exploring additional avenues of learning beyond the core subjects for holistic development of an individual. The Generic Elective (GE) course has to be compulsorily taken from an unrelated discipline/subject.

Hence, the new LOCF for Journalism and Mass Communication aims to impart more skill-based and practical training to the learners as per the nature of the field. This will enable the students to have a more holistic understanding of the subject and the ability to secure productive employment after completing their post-graduation.

In the current framework of M.A (MAJMC) in Journalism and Mass Communication, an effort has been made to offer more skill training and specialisation of the course fields. The course syllabus includes a varied mix of theoretical, practical, Skill-based, General elective, and Departmental elective courses. The students will choose and make a combination of subjects of their choice in each semester as per their desired interest areas. Each paper provides a complete description of what the learners will learn and the outcome after completing the particular course. It will help the students better understand and make the right choice with or without the help of others.

3. Introduction to Journalism and Mass Communication

Journalism and mass communication as an interdisciplinary subject touches almost all the branches of studies of human interest. Different departments of studies contribute equally to the development of humans and their world. Every branch shares a story with a large number of people and comes under journalism and mass communication.

The discipline Journalism and mass communication teach to create, manage and monitor the content that goes out to the masses. Mass Communication and Journalism both are the two sides of the same coin yet different. If the content is news, that mass communication function is called journalism. Other hands, there are many various forms of mass communication- Public Relations and marketing communication, Filmmaking, Photography, Radio and Television, Content Writing, Copywriting, digital media, information society and many more. From Information to entertainment, there are various platforms to practice Journalism and mass communication. It also accommodates new forms and technology to grow to all extents. Print to Digitization of mass media can be a great example. By practising this discipline, one can fulfil their passion for living things and contribute to humanity. As an academic discipline, it trains the fundamental practices and ethics of the domain.

In-depth research of different areas of journalism and mass communication is another facet of the discipline. It leads to contributing to the discipline itself and growing according to time and needs. There are ample opportunities to pursue independent research in the field of journalism and mass communication. At the same time, the discipline journalism and mass communication provides academic research at its full focus and strength and develops new academia in journalism and mass communication.

4. Programme Outcomes

On completing M. A. Programme, the students shall be able to realise the following programme outcome:

PO-1: Demonstrate holistic understanding of life in varied manifestations.

PO-2: Discuss and apply various social, political and literary trends in real-life situations.

PO-3: Understand and discuss contemporary socio-political, cultural and literary context through a multidisciplinary approach.

PO-4: Demonstrate an ability to use relevant theoretical concepts in real-life situations.

PO-5: Ability to integrate the traditional knowledge with the latest advances in social sciences and humanities.

PO-6: Formulate valid propositions on the basis of multidisciplinary and cross-disciplinary understanding of disciplines.

PO-7: Appreciate and analyse regional, national and international scenarios.

PO-8: Demonstrate the ability to interpret and analyse the realities of life from a social perspective.

PO-9: Propose solutions to the existing human problems as a well-informed and competent individual.

5. Programme Specific Outcomes

On completing M. A. in Journalism & Mass Communication, the students shall be able to realise the following outcomes:

PSO-1: Develop a critical understanding of communication and its varied forms.

PSO-2: Compare the trends in media produced in different contexts.

PSO-3: Exhibit Technical skill and competency for researching mass communication.

PSO 4: Enhancement soft skills and personality development

PSO 5: Enhance the ability to use language proficiently and correctly, both in speech and writing.

PSO 6: Develop understanding and competency on digital media

PSO 7: Command over various media Tools and techniques

PSO 8: Identify and apply an appropriate theoretical framework for media text.

PSO 9: Develop theoretical and practical capability on media Research

PSO 10: Hands-on training and field exposure

6. Semester wise structure

The programme is contenting of four semesters and required to achieve 104 credits are to be achieved through the various core, departmental electives, school level electives and open generic courses, demonstrated as below:

Master of Journalism and Mass Communication: 104 Credits					
Course/Sem	**Sem-1 (Credits)**	**Sem-2 (Credits)**	**Sem-3 (Credits)**	**Sem-4 (Credits)**	**Total**
Discipline Specific Courses Core (including practical training/dissertation)	20	25	15	20	80
Discipline Specific Elective Courses	4	4	8	0	16
Open Choice Courses/ GEC	4		4		8
Common Course(s) for Community Service/ Remembrance of University Kulgeet, National Anthem, National Song/ National Integration/Games and Sports/Campus Development					To be shown in the award list separately as per the University Guidelines
Total	**28**	**29**	**27**	**20**	**104**

7. Postgraduate Attributes

- Disciplinary Knowledge
- Creative and Critical Thinking
- Reflective Thinking
- Problem Solving
- Analytical Reasoning
- Communication Skills
- Research Skills
- Life Skills
- Multicultural Competence
- Moral and Ethical Values
- Life-long Learning
- Global Competency

Course Structure of Master of Journalism and Mass Communication (MAJMC) under Choice Based Credit System for the year 2021-22 and beyond

Total No. of Credits in Four Semesters = 104 (96 + 8) (MAJMC Course + Course offered by other Department)

Semester-I Total Credits: 24

The first semester shall consist of 24 credits with 4 core courses. There shall be a 4-credit GEC/MOOC course which students are required to choose from courses offered by any other department of the university or UGC approved MOOC courses. There shall be a 0 credit Soft skill course which will be evaluated in Grades (As per ordinance) and grades will not be included in aggregate.

S. No.	Course Code	Course Title	Type	L	T	P	Total Credit	Class Hours per week	Theory (Mark)	Practical (Mark)	Internal Mark	Total Mark

“Dissertation ” deals with minor research work. Students have to submit a dissertation, completed with the guidance of assigned supervisors who shall guide students in completing their dissertation.

· Soft skill course evaluation will be in Grading (As per ordinance) and will not be included in aggregate.

Skill Enhancement Elective Course (SEEC),Core courses (C) , Generic Elective Courses(GEC)

Core Papers

First Year (Semester I)

1	SHSS DJMC 010101 C 3205	Introduction to Communication-I
2	SHSS DJMC 010102 C 3115	Writing Skills
3	SHSS DJMC 010103 C 3205	Media Laws and Ethics
4	SHSS DJMC 010104 C 3205	Introduction to Media

Semester II

5	SHSS DJMC 010208 C 3205	Introduction to Communication-II
6	SHSS DJMC 010209 C 3205	Communication Research
7	SHSS DJMC 010210 C 3205	Communication for Development
8	SHSS DJMC 010211 C 3205	Digital Media
9	SHSS DJMC 010212 C 0005	Internship (4- Weeks)

Second Year (Semester III)

10	SHSS DJMC 010316 C 3115	Reporting and Editing
11	SHSS DJMC 010317 C 3115	Advertising
12	SHSS DJMC 010318 C 3115	Audio Visual Production

Semester IV

13	SHSS DJMC 010426 C 3105	Photography
14	SHSS DJMC 010427 C 3105	Advertising and Public Relations Writing
15	SHSS DJMC 010428 C 3105	Dissertation
16	SHSS DJMC 010429 C 3105	Internship (4- Weeks)

Elective Courses (EC)

Discipline Specific Elective Papers

Semester II

1	SHSS DJMC 010213 C 3104	Contemporary Issues and Mass Media
2	SHSS DJMC 010214 C 2204	Cross Cultural Communication

Semester III

3	SHSS DJMC 010319 DCEC 2204	Media Marketing Management

2	SHSS DJMC 010320 DCEC 2204	Public Relation writing
4	SHSS DJMC 010321 DCEC 2204	Portfolio
5	SHSS DJMC 010322 DCEC 2204	Cinema Studies
6	SHSS DJMC 010323 DCEC 2204	Sports Journalism

Semester IV

7	SHSS DJMC 010431 DCEC 2204	Gender and Media Sensitivity
8	SHSS DJMC 010432 DCEC 2204	Art, Culture and Entertainment Reporting
9	SHSS DJMC 010433 DCEC 2114	Graphic and Design

III. Generic/Interdisciplinary Course

Semester I

01	SHSS DJMC 010106 GEC 3104	Media Literacy
02	SHSS DJMC 010107 GEC 3104	Marketing and Promotion
03	SIAS LIS 01 03 GEC 3104	Media and Information Literacy*

Semester II

04	SHSS DJMC 010215 C 3104	Media and Society

Semester III

05	SHSS DJMC 010324 GEC 3104	Film Appreciation
06	SHSS DJMC 010325 GEC 3104	Event Management

Semester IV

07	SHSS DJMC 010434 GEC 3104	Social Marketing

IV. Skill Enhancement Course

Semester I

01	SHSS DJMC 010105SEEC 2200	Soft Skills*

Semester IV

02	SHSS DJMC 010430C 3105	Communication Skills*

10. Teaching-Learning Process

The MAJMC Programme is designed to encourage the acquisition of disciplinary knowledge, understanding, skills, attitudes and ethical values required for media and information-based professions and jobs. Keeping this in mind the teaching-learning experiences should be designed and implemented to enable active/participative learning of the students. Librarianship being a practice-oriented service profession, the development of practical skills constitutes an important aspect of the Programme's teaching-learning process. To provide knowledge, develop understanding and impart required skills in the students, a variety of teaching-learning approaches would be adopted. These include

- Expert Lectures from eminent Media Professionals
- Seminars, Discussions and debates
- Brainstorming sessions
- Case studies
- Demonstrations
- Practical
- Tutorials
- Group/ Peer teaching and learning
- Project-based learning
- Field-based learning
- Open-ended project work
- Quiz and games
- Technology-enabled learning, etc.

A teaching-learning process suitable to impart problem-solving, reasoning and analytical skills may also be adopted. Internship and/or industrial training in Media and other information organizations will be a value-adding teaching-learning opportunity. Modes of study are flexible, being offered on both, the student's traditional face-to-face experience is enriched with the support of an e-learning portal, i.e. CUH LMS.

11. Blended Learning

Blended learning is a combination of face-to-face and online learning in a way that one compliments the other. It provides individuals with the opportunity to enjoy the best of both worlds. For example, a student might attend classes in a real-world classroom setting and then supplement the lesson plan, activities, and resource-based learning that can take place online. The students can use the course of the CUH LMS portal using login and password.

The department employs a blended approach in teaching all the courses some way or the other but, the broad metrics of blended learning is presented in the following table:

The programme is contenting of four semesters and required to achieve 104 credits are to be achieved through the various core, departmental electives, school level electives and open generic courses, demonstrated as below:

Master of Journalism and Mass Communication: 104 Credits				
Course/Sem	**Mode**	**Face to face**	**Online**	**Total**
Core Courses /Practical/Dissertation	Blended	60	20	80
Discipline-Specific Elective Courses	Blended	10	6	16
Open Choice Courses/ GEC	Blended	3	1	8
Total		**73**	**27**	**104**

While actual delivery of knowledge the use of ICT enabled teaching-learning may slightly vary according to the knowledge and exposure of the individual faculty.

Integration of MOOCs with the Courses: The students are encouraged to take up the MOOCs. It would further help the students to understand the newer trends both in the area of the MOOC/ Study and also teaching-learning pedagogies. These courses may be described as self-study courses to attain some skills but will not be required to be passed/ qualified. It's solely up to the student how much of the content they would use, complete the course or not, and attain the certificate or not from the SWAYAM course after the examination.

10. Assessment and Evaluation

Assessment is within each unit, including the dissertation. Assessment methods vary according to the nature of the content and material. Individual written assignments and exercises are the norms, but some units may use other methods, including individual practical exercises, group work projects and unseen examination papers or compiling resources and bibliographies. Most assessments have an element of choice, allowing you to focus on aspects of interest. Assessment Criteria are descriptions, based on the intended learning outcomes, of the skills, knowledge or attitudes that you need to demonstrate to complete an assessment successfully, providing a mechanism by which the quality of an assessment can be measured. Grade- Related Criteria are descriptions of the level of skills, knowledge or attributes that you need to demonstrate to achieve a certain grade or mark in an assessment, providing a mechanism by which the quality of an assessment can be measured and placed within the overall set of marks. Assessment Criteria and Grade-Related Criteria will be made available to you to support you in completing assessments. These may be provided in programme Statutes and Ordinances, unit specifications, on the virtual learning environment or attached to a specific assessment task.

The assessment activities may broadly be categorised as below:

• Continuous Comprehensive Evaluation (online or otherwise) at regular after the achievement of each Course-level Learning Outcomes
• Formative Assessment based on activities of a learner throughout the programme instead of one-time assessment
• Oral Examinations to test presentation and communication skills
• Open Book Examination for better understanding and application of the knowledge acquired
• Group Examinations on Problem solving exercises
• Seminar Presentations
• Review of Literature
• Collaborative Assignments
• Practical examination
• Evaluation of dissertation and project report

Students are encouraged to exchange thoughts, develop ideas and learn from one another. Assessment is by individual or group assignments aimed at developing self-reliance and autonomy and foster the capacity for lifelong continuing self-development and learning. The dissertation is a substantial component of the degree offering an opportunity to demonstrate a comprehensive understanding of a particular specialism and a systematic and professional approach to research. It is a substantive task that requires an investigation of a relevant chosen area under the supervision of a faculty.

11. Key Features

- ❖ NEP-2020 based Syllabus
- ❖ Wide range of core and elective courses
- ❖ Multi-disciplinary academic subject knowledge
- ❖ Properly spelt out measurable outcomes for each course
- ❖ Latest ICT tools and techniques incorporation in courses
- ❖ Opportunities for sustained Professional Growth
- ❖ Incorporation of professional values and Indian ethos
- ❖ Research-based practices through information, data and research literacies
- ❖ Technology-enabled teaching-learning practices
- ❖ Focus on Indian Knowledge System

Semester – I

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010101 C 3205	Introduction to Communication-I	C	3	2	0	5	5	70	0	30	100

Learning Outcomes

The learning outcomes of this paper are:

- The students will learn about different facets of communication.
- They will learn about the designing part of communication.
- They will also learn about communication techniques.
- The students will learn about the functioning of mass communication.

UNIT I Communication

- Communication: Meaning, Nature and Process
- Features of Human Communication
- Functions, Types and Forms of Communication
- Barriers to Communication
- Role of Communication in Society

UNIT II Communication Models

- Aristotle's model, Shannon & Weaver's mathematical model, Berlo's SMCR model, Lasswell's model, Osgood and Schramm's Circular model, Gerbner's Model, Schramm's Field of experience model

UNIT III Communication Situation

- Group dynamics, Dyad and Triad
- Peer pressures; Reference Group
- Groupthink; Communicative Action
- The cultural context of communication

UNIT IV Mass Communication

- Mass Communication: Concept, Features and Functions
- Concept and Characteristics of Mass Broadcasting and Narrowcasting
- Global Village and Retribalization
- Manufacturing consent: Propaganda, and Hegemony

Suggested Readings

- Baran and Davis. Introduction to Mass Communication Theory 5th Edition (Wadsworth, 2005) Berlo, David. The Process of Communication (1960)
- DeVito Joseph A. Interpersonal Communication Book (Pearson Education US, 2006) Fiske, John. Introduction to Communication Studies (Routledge, 1990)
- Kumar, J. Keval. Mass Communication in India, (Jaico, 2010) McLuhan, M. Understanding Media 2nd ed. (Taylor and Francis,2005) McQuail, Denis. Mass Communication Theory, 6th ed., (Sage, 2010)

- Narula, Uma. Handbook of Communication Models, Perspectives, Strategies(Atlantic, 2006) Narula, Uma. Mass Communication Theory and Practice (HarAnand, 2008)
- Rogers M. Everett. A History of Communication Study (Free Press, 1997)
- Sontag, Susan. et al. The Medium is the Massage: An Inventory of Effects (Penguin, 2008) Williams, Raymond. Communication (Penguin, 1976)

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010102 C 3115	Writing Skills	C	3	1	1	5	6	50	20	30	100

Learning Outcomes

- The learning outcomes of this paper are:
- The students will learn about the historical importance of writing.
- They will learn about the various kinds of writing.
- They will also learn about bilingual writing skills.
- The students will learn about the writing for media

UNIT I Basics of Writing

- Evolution of writing
- Importance of Writing
- Essentials of Good writing
- Language Skills and Media

UNIT II Writing for Communication

- Formal writing
- Writing for Self
- Writing for an individual and short group
- Writing for mass

UNIT III Translation in Writing

- Translation- Definition, significance and types
- Vocabulary- the importance of right words.
- Words & Phrases, synonyms & antonyms
- Writing for bilingual

UNIT IV Writing and Media

- Basic features of media writing
- Media Terminology
- Various forms of writing
- Style and structure of writing

Practical

- Multilingual translation (Minimum 5)
- Article writing (Minimum 5)
- News, editorial and feature writing (Minimum 5)
- Media writing (Minimum 5)

Suggested Readings

- Usha Raman, Writing for the Media, Oxford University Press, 2009
- Bruce Bartlet, Et. AL, Writing for Visual Media, Focal Press, 2013
- Basic Media Writing by Melvin Mencher
- Writing for the Mass Media (8th Edition) by James Glen Stovall

- Nortran, William Van, Media Writers Guide
- Dixit Surya Prasad, Media Writing Process

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010103 C 3205	Media Laws and Ethics	C	3	2	0	5	5	70	0	30	100

Learning Outcomes

- The students will learn about the history of media laws.
- They will learn about the different media laws.
- They will also learn about the different rules for safeguarding journalists.
- The students will learn about journalistic ethics.

Unit I

- History of Media Regulations in India; Need for media regulation; Press and Registration of Books Act; Press Council Act, 1978; Copyright Act-1957; Obscenity law; media regulators: IBF, NBA

Unit II

- Indian Cinematograph Act, 1952; Cable Television Regulation Act; 1995 Drugs and Magical Remedies (Objectionable Advertising) Act,1954, Parliamentary regulation, Prasar Bharati Act.

Unit III

- Right to Freedom of Speech and Expression, Article 19(a); Official Secrets Act, 1923; RTI Act, 2006; Defamation law; The Contempt of Court Act (as amended); Intellectual Property Rights; Privacy laws; The Information Technology Act, 2000 (as amended)

Unit IV

- Press Council of India's norms of Journalistic Conduct; NBA's Code of Ethics and Broadcasting Standards; Difference between Ethical vs legal; Press and accountability in Democracy; Ethical issues in Journalism, Regulation of social media

Suggested Readings

- C.S. Rayudu& S.B. NageswarRao Mass Media Laws and Regulations (Himalaya Publishing House, 2013)
- DD Basu. Law of the Press, (Prentice Hall, New Delhi, 2006) Rao, M. C. The Press, National Book Trust (1974)
- Menon, P. K. Journalistic Ethics (Pointer Publishers, Jaipur, 2005) Thakurta, P.G. Media Ethics (Oxford University Press, 2009)

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010104 C 3205	Introduction to Media	C	3	2	0	5	5	70	0	30	100

Learning Outcomes

- The students will learn about the overall understanding of the emergence of print media.
- They will learn about the different facets of Radio.
- They will also learn about the evolution of Television as a medium of mass communication.
- The students will learn about the emergence of Cinema, the Internet and digital convergence.

UNIT I Media evolution

- Evolution of print media: The World Context
- Folk media
- Pre and Post Indian Independence Journalism; Press during Emergency
- Major News Agencies: Indian and Foreign
- Press Commissions in India; Committees: Chanda, Verghese, Joshi
- MacBride Commission and NWICO

UNIT II Radio

- Beginning of Radio: India and World
- The emergence of All India Radio
- Radio Ceylon and BBC in Indian Radio scenario
- Commercial broadcast: FM Radios
- Non-commercial broadcast: Community Radio

UNIT III Television

- History of broadcasting
- Genesis and evolution of Television: India and World
- Doordarshan and Private Channel eras
- Educational Television in India- SITE, Edusat

UNIT IV Internet and Cinema

- Evolution of the Internet in India; Digital revolution; Digital convergence
- Cinema in India: Genesis, Evolution and Response
- Bollywood: Commercial, Parallel and Multiplex Cinema

Suggested Readings

- Adorno.T. The Culture Industry (Psychology Press, 2001)
- Asa Briggs, Peter Burke, Social History of the Media (Wiley, 2010) H.R.LuthraIndian Broadcasting (Publication Division, 1986)
- KC Sharma, & JN Sharma, Journalism in India: History Growth Development (Oscar, 2008) Kumar, Keval, J. Mass Communication in India, 4th Edition (Jaico, 1994)

- Mazumdar, Aurobindo, Indian Press and Freedom Struggle, (Orient-Longman, 1993), Natarajan, J, History of Indian Journalism, (Publications Division, 1955) R.ParthaSarathi. Journalism in India, (Sterling, 2001)
- S C Bhatt. Indian Press since 1955 (Publication Division, 1997)
- Vilanilam, J. Mass Communication in India: A Sociological Perspective (Sage, 2005)

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010105SEEC 2200	Soft Skills*	SEEC	2	2	0	0	4	70	0	30	0

Learning Outcomes

- Students would be familiar with the language and grammar for communication.
- Students would be trained in attractive presenting skills.
- Students will learn official communication skills.
- familiarize the different modern platforms of official communication.

Unit I

- Language Proficiency
- Difference between Written and Oral Communication
- Pronunciation: Clarity and Standardization, Intonation and Accent

Unit II

- Personality traits; Dressing: Formal and Casual
- Principles of good Listening; Body language

Unit III

- Writing letters: Official and Demi Official
- Writing official e-mails and SMS
- Social media and Netiquette

Unit IV

- Time management; Developing Leadership traits;
- Public speaking Cultural assimilation, Personal Virtues: Honesty,
- Keeping promises, Dedication Developing a sharp memory,
- Motivation for self-growth

Suggested Readings

Fredrick H. Wentz ,Soft Skills Training – A workbook to develop skills for employment

Barun K. Mitra, Personality Development and Soft skills , Oxford University Press

Semester II

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010208 C 3205	Documentary film theory	C	3	2	0	5	5	70	0	30	100

Learning Outcomes

- The students will learn about the rules and regulations of the media.
- The students will learn different laws and rules governing various reporting aspects.
- The students would be acquainted with the technical and legal aspects of the media field.

UNIT-1

- Introduction to documentary
- Documentary film movement in the world
- Documentary film development in India
- Important personality in documentary film making in India

UNIT -2

- Film theory
- Concept of non-fiction
- Realism in film
- Film semiotic
- Small screen and documentary

UNIT-3

- Copyright and intellectual rights issues
- Understanding of documentation
- Documentary for socio-culture development
- Propaganda and Campaign

UNIT-4

- Diegetic and Non diegetic
- Importance of sound in documentary
- Pre-production, Production and post-production
- 5-minute documentary filmmaking on any topic

Suggested Readings

- Reardon Nancy and Flynn Tom, On Camera: How to Report, Anchor and Interview, Focal Press
- Holman Tomlinson, Sound for Digital Video, Elsevier Publication
- Proffers Nicholas T, Film Directing Fundamentals, Focal Press
- Aufderheide Patricia, Documentary Film- A Very Short Introduction, Oxford Publication.
- Directing Documentary, Focal Press
- Mollison Martha, Production Video, Viva Books Private Ltd.

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010209 C 3205	Communication Research	C	3	2	0	5	5	70	0	30	100

Learning Outcomes

- Enhance your understanding and appreciation of the study of communication and how knowledge is derived in the Communication discipline as a whole,
- Increase your knowledge of the principles, objectives, and limitations of different approaches to research and scholarship,
- Translate your research methods knowledge and skills into varying practical career fields.

Unit I

- Research and Research Perspective:
- Research and Research types;
- Social Research and Communication Research;
- Functional, Positivist, and Interpretive perspectives;
- Deductive and Inductive approaches;
- Theory and Method.

Unit II

- Research Design and Methodological approaches:
- Research Design;
- Meaning and types – Experimental, Descriptive and Exploratory;
- Quantitative and Qualitative Research and others, Mixed Method approach;
- Variables and Hypothesis – Types and Role of Communication Research.

Unit III

- Sampling and Data Collection: Sampling types and methods;
- Data collection tools – Observation, Interview, Schedule and Questionnaires, Focus Group; Presentation of data;
- Averages, Dispersion, Correlation and Association of attributes with exercises;
- Case study and Content Analysis; Test of Hypothesis;
- Validity and Reliability.

Unit IV

- Specified Methods for Communication Research:
- Semiology and Linguistics,
- Ethnography,
- Deconstruction, Discourse analysis,
- Textual and Intertextual reading.

Reading list:

- Reinard, J.; Introduction to Communication Research, (McGraw Hill, 2001)
- Sarantakos, S.; Social Research, (Palgrave, New York, 1988)
- Gillian Rose; Visual Methodologies, (New Delhi, Sage Publications, 2007)

- Young, P.V; Scientific Social Surveys and Research, (Prentice Hall of India Pvt. Ltd., 1984) Kothari, CR; Research Methodology, Methods and Techniques Calcutta, (Wiley Eastern Ltd.,
- 1985).
- Hansen, Anders & et al. ; Mass Communication Research Methods London, (Mc Millan, 1988)
- Paneerselvam; Research Methodology, (New Delhi, Prentice Hall of India, 2007).
- Watt, James H; Research Methods for Communication Science, (Sydney, Alliyn& Bacon, 1995).
- Churton, Mel; Theory and Method, (Hampshire, Mc Millan, 2000).

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010210 C 3205	Communication for Development	C	3	2	0	5	5	70	0	30	100

Learning Outcomes

- Upgrade human resources with specialized knowledge and skills on communication for social change.
- Expand the knowledge base of theories around development, and its interrelation to
- Culture, behaviour change, social transformation and; human rights principles.
- Understand the newer approaches to C4D concepts, methods and techniques.
- Impart skills on carrying out research, design, development, implementation, monitoring & evaluation of C4D interventions
- facilitate on the field exposure to techniques of designing and developing effective C4D strategies, interventions for social transformation.

Unit I Development and Development Communication :

- Definition, Dimensions and indicators of Development;
- India's Development Scenario; Under development Syndrome, Development Communication: Definition, Features and Theoretical Perspective – Modernization, Critical and Liberation Perspective;
- Approaches to Development Communication, Idea of Happiness
- Five-year Planning, Cleanliness and Development, Skill education and Development

Unit II Modes and Strategy of Development Communication :

- Development Communication as Social Action for Directed Change;
- Modes of DC – Diffusion of Innovation, Advocacy and National campaigns, Social Marketing; Specific Varieties – Health Communication, Educational Communication for lifelong learning, Development Support Communication (UNDP);
- Extension Services in India, Social Marketing, Empathy

Unit III Mass Media and Development :

- Mass Media and Development Communication; Media and Nation Building;
- Communicative Action (Habermas); Participatory democracy through Community Radio and Leadership communication role;
- RTI provisions in India; Minimal effect hypothesis, Development journalism, Development and Change, Development Reporting, Media Advocacy

Unit IV ICT and Social Media for Development :

- Digital divide, Access and use of ICT in India;
- Network Society and Expansion of Contacts;
- Social Media and Self Development;
- E-governance; Globalisation of Culture.

Reading list:

- Kapoor, I. The Postcolonial Politics of Development. (London and New York: Routledge,2008)
- Melkote, S. R. and Steeves, H. L. Communication for Development in the Third World: Theory and Practice for Empowerment, 2nd Edition. (London: Sage,2001)

- Mody, B. (ed.) International and Development Communication: A 21st Century Perspective, 2nd Edition, (Thousand Oaks, CA: Sage Publications, 2003)
- Roy, S. Globalisation, ICT and Developing Nations: Challenges in the Information Age, (New Delhi: Sage,2005)
- Manyozo, L. Media, Communication and Development: Three Approaches. (London: Sage,2012)

SHSS DJMC 010211 C 3205	Digital Media	C	3	1	1	5	6	50	20	30	100

Learning Outcome:

- demonstrate substantial in-depth knowledge about the meaning of digital media, information technologies and their uses in contemporary mediatized societies and cultures.
- Be aware of the current research in the area of digital media, culture and society.
- Adopt an independent and critical approach to information and research in the field of digital media and society.
- Demonstrate the writing skills required in the field of digital communication.
- Gain employment opportunities in the field of digital media and communication landscape.

Unit I Digital Media

- Digital Media: Definitions and Concept;
- Features of New Media;
- History of New Media; New vs Old media;
- World Wide Web: Concept and evolution

Unit II New Media Technologies

- Wearable technologies;
- Technological determinism;
- New Media Marketing;
- New Media Economy; Hyper-textuality;
- Digital Divide;
- Clouds technology

Unit III Society and New Media

- The Rise of Information Society;
- New Media Movements and Campaigns, Democratisation of Media/information;
- The phenomenon of YouTube Celebrities;
- New Media Literacy, Social Networking Sites & platforms, Netizens and Cyborgs,
- Internet addiction, Virtual World vs the Real-world

Unit IV Cyber Journalism

- Blogs,
- Microblogging sites like Twitter,
- Narrowcasting and Broadcasting Ethics of Cyber-journalism,
- Merits and Demerits of Cyber journalism,
- Effects of cyber journalism on society,
- Cybercrime and society

Practical

- Write content for different social media platforms

- Blogs, Web page, Digital poster
- Manage social media profile (like facebook, linkedin)
- Microblogging

Reading list:

- Lister, Martin, Jon Dovey, Seth Giddings, Iain Grant and Kieran Kelly. New Media: A Critical Introduction. 2nd ed. (Routledge, 2008)
- Manovich, Lev. The Language of New Media. Cambridge, (MIT press,

  2001) Papacharissi, Zizi, ed. A Networked Self: Identity, Community,

  and Culture on Social Network Sites. (New York: Routledge, 2011)

- Rettberg, Jill Walker. Blogging. Cambridge, (UK: Polity P, 2008)
- Bell, David and Barbara Kennedy, eds. The CyberCultures Reader. 2nd ed. (New York: Routledge, 2007)

Practical:

- Making a Blog.
- Use of social networking sites
- Selection of Content for New Media.
- Use of E-Mail

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010212 C 0005	Internship (4- Weeks)	C	0	0	0	5	30	50	20	30	100

At the end of the second semester and after Term-end Exams, all students are required to undergo a 4-week internship with a media house/organization of their choice and/or in consultation with concerned teachers. They are also required to submit a Performance Assessment Report (PRA) in prescribed Proforma (Performa will be provided by the Department). Performance Assessment Report to be submitted by the organization in which a student has completed the internship.

The PRA shall contain details of the internship (work/duties/tasks performed, copies of work done, assignment details etc.) is to be submitted within a month of commencement of the third semester or as per the deadline decided by the department/school.

Based upon this report Internal Examiner evaluate and power-point presentation, External Examiner shall conduct the viva-voce.

Learning Outcome:

The expected learning outcomes of this paper are as follows:

- Discuss the application of classroom theory in the context of the student's work experience
- Apply appropriate skills in the techniques of getting a job
- Recognize knowledge and skills that relate to the technical aspects of their discipline
- Demonstrate in a written work report a broad understanding of the organization for which the student worked
- Practice good work habits
- Establish interpersonal relationships through personal contacts on the job and employer evaluations

All of these goals and objectives are parts of the Internship program. For some students, some of the objectives may

be more important than others. However, the Internship is designed to be an individual course of study flexible

enough to meet the special individual needs of students and employers.

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010213 C 3104	Contemporary Issues and Mass Media	DCEC	3	1	0	4	4	70	00	30	100

Learning Outcome:

- Understand and analyse some of the present-day environmental, political, economic and social concerns and issues.
- Highlight the importance of human rights and their implementation in India.
- Understand the present-day problems and challenges and their implications on development.

Unit–I

Ecology and its related concerns:

- Climate change and Global warming- causes, consequences and remedial measures • Deforestation- causes, consequences and remedial measures
- Coastal regulatory Zone- need and importance, CRZ Act
- Sustainable development- concept, need and significance
- Movements related to environmental protection

Unit- II

Human Rights

- UDHR and its significance
- CRC and CEDAW
- DRD

Legislative measures concerning India.

- **Women:** Constitutional Rights and legal safeguards, Domestic and Family Violence Act of 2012, Sexual Harassment Act at the Work Place 2013, The Criminal Law (Amendment) Act of 2013
- **Child**: Protection of Children from sexual offence Act -2012 (POCSO), ChildLabour Act with new amendments, Juvenile Justice (Care and Protection of Children Act) 2000.
- **Education**: Right to Education Act 2009
- **Health**: National Health Policy of 2015, Transplantation of Human organs Act of 2002, Prenatal Diagnostic Technique Regulation and prevention of Misuse amendment rules of 2003, Prohibition of sale of cigarettes and other tobacco products around educational institutions 2004.

Unit-III

Political concerns and challenges

- Crime and Politics
- Corruption: Causes and remedial measures. RTI Act, Lokpal Bill.

- Whistle-Blowers- WhistleBlowers protection act 2011.
- Anti- State violence- Naxalism and its Impact.
- Insurgency concerning North-East – Issues involved, ULFA, Nagas, Manipur issue, AFSPA and its impact.
- Terrorism- causes, consequences and remedial measures

Unit- IV

Economic development and challenges:

- The Role of MIDC in the economic development of Maharashtra
- Special Economic Zone: Its role and significance in Maharashtra
- Food Security Act 2013
- Agrarian issues: rural indebtedness, farmers' suicides and its implications.

Social development and challenges:

- Tribal Issues: Marginalisation of the Tribals, Forest Rights Act, Land Acquisition Act. • Police reforms: Problems faced by Police and the Need for Reforms
- Illegal immigration from Bangladesh: Challenges and impact
- Developmental Issues: Displacement and rehabilitation

Semester III

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010316 C 3115	Reporting and Editing	C	3	1	1	5	6	50	20	30	100

Learning Outcomes:

- Students would understand the significance of reporting.
- Students will be able to inculcate the news values and basics of news writing.
- Students would know the different styles of reporting for different mass media.
- Students will have an understanding of different types of reporting and reporting beats.
- Students would be familiarized with the basics of reporting, editing and recent trends in the field.

Unit - I

- News: Concept and definition, types of news, sources of news, the structure of news report
- Reporting: Concept, methods and techniques of news gathering, recent trends in reporting
- Techniques of news writing: Straight, Quoting, Interpretation, Comment, Analysis etc.
- Types of Reporting: Political, Economic, Crime, Science, Sports, Culture, Legislature, Judicial, Disaster, Accident, Travelogue, Conference, Environmental, Health, Developing follow-up, News Agency Reporting

Unit – II

- Newsgathering process and flow
- Reporting staff and their personalities and responsibilities; Reporters, Correspondents, Stringers, Freelancers, Citizen Journalists
- Approaches to Reporting: Objective, Interpretive, Investigative.
- Reporting Beats, Scoops, Ground Reporting, Web Reporting

Unit – III

- Reporting and Editing for Radio
- Structuring Radio Copy, Editing Agency Copy, and Illustrating copy with sound effects.
- Interview techniques and skills for Radio
- Field reporting, reporting specialised areas, investigative reporting, voice dispatches, and writing headlines.

Unit – IV

- Reporting and Editing for Television
- Reporting and editing a news package and news bulletin
- Interview techniques and skills for television
- Do’s and Don’ts of Television reporting
- Writing for Broadcast News, Digital Media

Practical

- Collect news and write news for Print, Television, Radio, and Digital Media.
- Prepare a News Bulletin for Radio
- Prepare a news bulletin for Television
- Prepare 10 news reports of different beats.
- Record and Edit Interviews for Radio and Television.

Suggested Readings

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010317 C 3115	Advertising	C	3	1	1	5	6	50	20	30	100

Learning Outcomes:

1. Students would understand the meaning and significance of advertising.
2. Students would be familiarised with the structure and recent trends in the advertising industry.
3. Students would be able to identify, analyze, and understand the advertising environment.
4. Students would inculcate the creative process of preparing advertising messages for various mass media.
5. Students would be familiarized with identifying, understanding, and applying for integrated brand promotion.

Unit – I

- Advertising: Concept, Meaning and Definition, Features and functions
- Types of Advertising
- Growth of Advertising- World and India
- Advertising models: AIDA, DAGMAR

Unit – II

- Principles and Appeals in Advertising
- Components of Advertisement- Ad copy, Slogans, Body, Logo, Layout and Illustrations
- Planning and Designing advertisement for different media
- Marketing Mix, Advertising Campaigns, Consumer Segmentation, Target Audiences
- Leaflets, Brochures, Pamphlets, Coffee Table Book

Unit – III

- Advertising Agency: Meaning, Structure, and functions
- Advertising Budget- Planning and Coordinating
- Media Planning- Choosing appropriate media for advertising
- Advertising as a Branding strategy
- Growth and recent trends in the advertising sector

Unit – IV

- Advertising Regulatory Mechanism
- Code and Ethics of Advertising
- Advertising regulatory bodies: ASA, ASCI
- Research and Advertising
- Major Laws related to Advertising

Practical

- Prepare five advertisements for print media
- Prepare five advertisements for Radio
- Prepare Leaflet, Brochure, Pamphlets, and Coffee Table Book
- Prepare five advertisements for Television
- Prepare two advertisements for Web Media

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010318 C 3115	Audio Visual Production	C	3	1	1	5	6	50	20	30	100

Learning Outcomes

1. Students would understand the basics of electronic media productions.
2. Students would be trained for audio-visual productions.
3. Students will learn different audio-video production equipment and software for editing.
4. Students would inculcate the skills required for AV (Audio-visual productions) industry.
5. Students would be familiarized with audio-visual productions for different formats and media.

Unit – I

- TV studio and production: structure and working
- Video Camera: Parts, working, features and effects: optical zoom, digital zoom, focal length, focus, depth of field, aperture, neutral density filter, shutter speed, white balance, image distortion, shooting frame rate, aspect ratio.
- Advanced video cameras
- Basics of audio: properties of sound, types of program sounds, the concept of sound, functions of sound, types of microphones
- Terms used in the audio recording: Fade-in, Fade-out, fade under, sweetening, phase cancellation; Audio Faders and Mixers, Audio Formats
- Editing: Introduction, Elements: Motivation, Information, Composition, Sound, Camera angle, Continuity; Transitions: Cut, Dissolve, Fade, Wipe, Editing Modes, Linear Editing, Non-Linear Editing.

Unit – II

- Role and responsibilities of personnel for video production
- Role and responsibilities of personnel for News
- Production process: Pre-Production, Production, and Post-Production

Unit – III

- Various genres of TV programmes, TV news copy
- Audio-visual documentary: Scripting, Elements of a documentary, writing a documentary proposal
- Scripting Fiction: Basic Concept, Developing plot, character development and dialogue.
- Lighting and Audio-Video Productions: Properties of Light- intensity, colour, quality, dispersion, direction factors that influence light, lighting surface, lighting objects, lighting different situations, lighting ratio

Unit – IV

- Production for Print, Advertising, and Digital Media
- Producing advertisements, Photo production and editing for print, Digital Media Production
- Do's and Don'ts of Audio-video production
- Basics of audio-video production for the web especially social media

Practical

- Write for different types of programs.
- Anchoring with using Teleprompter
- Recording and editing voice-over for different programs.
- Moderating studio news program.
- Record and Edit Documentary.
- Prepare audio-visual assignments as per recent times and trends.

Suggested Readings

2. Shooting TV News: Views from Behind the Lens, Rich Underwood, Focal Press, Oxford, 2007
3. Nonlinear Editing: Storytelling, Aesthetics and Craft, Bryce Button, CMP Books, Berkley, 2002
4. Video Editing: A Post Production Primer, Steven E. Browne, Focal Press, Amsterdam, 2002.
5. How Video Works: From Analog to High Definition, Focal Press, Oxford, 2007
6. The Economic Regulation of Broadcasting Markets: Evolving Technology and Challenges for Policy, Ed. Paul Seabright and Jurgen Von Hagen, Cambridge, 2007
7. Broadcast Management in India: Major Guidelines and Policy Frameworks, Angela Wadia, Kanishka Publishers, New Delhi, 2007.
8. Indian Television and Video Programmes: Trends and Policies, Mridula Menon, Kanishka Publishers, New Delhi, 2007

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010319 DCEC 2204	Media Marketing Management	DCEC	2	2	0	4	4	70	0	30	100

Learning Outcomes:

- Students would understand the basics of Media management.
- Students would know different marketing aspects and models of marketing management.
- Students would learn crisis management and conflict management in Marketing Management.
- Students would inculcate the skills required for Management and Marketing field.
- Students would be familiarized with Media organisations, ownership patterns, structures and working.

Unit – I

- Media Management- Definition, Concept and Scope
- Principles of Management - Taylor, Fayol, Mayo
- Functions of Media Management
- Role of Media in Marketing
- Regional, National, and International Marketing

Unit – II

- Media ownership
- Structure of a Media Organization
- Crisis Response in Media Organization
- Staff selection in Media Organizations

Unit – III

- Media Marketing: Definition, Concept and Scope
- Media Products and Media Markets
- Different Marketing Models: Mckinsey model, Ansoff matrix
- The BCG matrix, Diffusion of Innovation, DRIP, 7 P of Marketing Mix, Push and Pull Marketing, HTP model, SWOT analysis
- Digital Media Marketing
- Instruments of Media Marketing Measurement- TRP, TAM, RAM, ABC, IRS Revenue-Expenditure in Media

Unit – IV

- Organizational Behaviour: Definition, Importance and Scope
- Types of Conflict- Intrapersonal, Interpersonal and Organizational Conflict Management
- Stress Management- Definition and Causes of Stress, Porter 5 forces

Suggested Readings

SHSS DJMC 010320 DCEC 2204	Public Relation writing	DCEC	2	2	0	4	4	70	0	30	100

Learning Outcomes:

- Students would understand the basics of Public Relations.
- Students would know about publicity, propaganda, advertising, Digital PR, Corporate communications etc.
- Students will learn different tools and methods of Public Relations.
- Students will inculcate the writing skills for PR writing.
- Students would be familiarized with the laws and ethics of Public Relations.

Unit – I

- Definition and Concept of Public Relations, Publicity, Propaganda, Advertising
- Fundamentals of Writing
- Functions of Public Relations
- PR Writing- Features and functions
- Writing aspects: Lucidity and Directness, Authenticity and credibility, Authorial voice

Unit – II

- Writing for Print Media
- Basics of Reporting and Editing
- Writing Features, Articles, Blogs, Backgrounders, News Analysis
- Writing for PR- Basics

Unit – III

- Different PR writing styles
- Writing for Crisis Management
- Writing Press Release, Difference between news, story and press release
- Writing Minutes, Memos, Report, Letter

Unit – IV

- Three models of PR: Propaganda, Publicity, and two-way public relations
- Latest trends in PR and PR writing
- Writing for different PR tools

Suggested Readings

- Public Relations in India by J. M. Kaul, Kolkata: Naya Prokash.
- Public Relations: The Profession and the Practice by Baskin W.Otis, AronoffE. Croig and Lattimore Dan. Dunique: Brown & Benchmark.
- Vigyapan aur Jansampark by Jaishri Jethwaney, Ravi Shanker and Narender Nath Sarkar. New Delhi: Sagar Publications.

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010321 DCEC 2204	Portfolio	DCEC	2	2	0	4	4	70	0	30	100

Learning Outcomes :

- Students would be trained for journalistic works.
- Students would be able to write and produce for different mass media.
- Students will have practical training along with academics.
- Students will inculcate the skills for writing and working in the media field.
- Students would be familiarized with the media environment through these practical works.

In this course, each student shall prepare a portfolio containing the productions carried out during the course. A minimum number of productions mentioned against each item must be part of the portfolio. Here, Portfolio refers to the class note in which the concerned teacher assigns work, corrects, and needs to be asked to rewrite and puts his signature on every work assigned with a date. The portfolio is for 40 marks. An external examiner will take a test giving three practical questions and students need to answer any two. That will be 30 marks. A student who does not have a portfolio will not be allowed to appear for the examination.

Practical:

- News Report of the events around-07
- Article -05
- Feature -05
- News analysis -05
- Press Release —05
- Development story-03
- Development article -02
- Backgrounder -02
- Caption writing for photographs ---05
- Newspaper Page make up-1
- Magazine Page design-1
- Newsletter -1
- Leaflets/Brochures/Posters/Coffee Table Book- 3

In addition to the above, as assigned by the concerned teacher.

Suggested Readings

- Feature Writing for Journalists, Sharon Wheeler, Routledge, New York.
- George, A.H. (1990). News Writing, Kanishka Publications.

- Stein, P. & Burnett (2000). News Writer's Handbook: An Introduction to Journalism, Blackwell Publishing.
- Intule & Anderson (2002). News Writing and Reporting for today's media, MCGraw Hill Publication.
- Julian, Harris, Kely Leiter, Stanley, Johnson, 'The Complete Reporter, Macmillan Publishing Co, New York.

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010322 DCEC 2204	Cinema Studies	DCEC	2	2	0	4	4	70	0	30	100

Learning Outcomes:

- Students would be familiar with the glorious journey of cinema.
- Students would be trained in motion picture productions.
- Students will learn operating production equipment and software for editing.
- Students would inculcate the skills required for the Cinema industry.
- Students would be aware of producing motion pictures for different formats and media.

Unit – I

- Introduction to Indian Motion Picture Industry
- Research in motion picture production
- History of Cinema, Screen Grammar
- Film Theory
- The golden period of Cinema
- Regional Cinema vs. Bollywood
- FTII, Cinema as Industry

Unit – II

- The Art of Storytelling
- Motion picture: Production and Management
- Motion Picture Censor Certification, Distribution and Exhibition
- Production of Short Film: Writing, Shooting, Editing and directing narrative
- Single screen vs. multiplex cinema
- Liberalisation and Cinema

Unit – III

- Dynamics of picture and sound
- Types of sound in film production
- Creative, technical, and business aspects of motion picture production
- Current status, challenges and opportunities in the entertainment industry, OTT platforms

Unit – IV

- Basics of Composition of static shots
- Basics of Composition of moving shots
- Recording and editing shots and soundtracks for moving picture
- Film as an Art: Perspective and Descriptive theories
- Films and Culture, Films and Society, Film and the observer

Suggested Readings

Semester IV

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010426 C 3105	Photography	C	3	1	1	5	6	50	20	30	100

Learning Outcomes:

- The students will learn Professional photography skills.
- They will learn different techniques of photography.
- They will also learn about societal and cultural expressions through photography.
- From the practical component, they will learn how to use cameras, equipment, and software efficiently for photography.

Unit I

- Evolution of Photography
- Types of Camera: Film-based and digital
- Parts and Functioning of a camera
- Types of Camera Lenses; Micro and Macro photography

Unit II

- Exposure Triangle: Aperture, ISO and Shutter Speed.
- Basic Composition of shots
- Types of Camera angles and Shots
- Concept of Focus and Depth of Field

Unit III:

- Types of Camera Lenses
- Equipment of photography: Flash, tripods, battery, flash memory, lighting meter, filters Light: Characteristic and Types
- Lighting sources and types and modifiers

Unit IV:

- Types of Photography: Portrait, Landscape, Sports, Wild-life Photography, Nature Photography, Candid Photography, Street Photography
- Studio and Outdoor Photography
- Basic working in Photoshop
- Layers, Brushes, filters and tools of Photoshop

Practical:-

- Creating 5 photos each in the following categories
- Portrait
- Street
- Landscape
- Rural
- Concept shoot

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010427 C 3105	Advertising and Public Relations Writing	C	3	1	1	5	6	50	20	30	100

Learning Outcomes:

- The students will learn about creating a better relationship between the organisation and society.
- They will learn to express the creative aspects of the product.
- They will also learn about how to convince the target audience through the media.
- From the practical component, they will learn about different tools for creating and disseminating advertising messages effectively.

Unit I

- Public Relations Writing
- Fundamentals of PR writing
- Creativity in PR writing
- Press Release, News, feature, PR writing, House Journal Writing
- Photo caption Writing
- Crisis management writing

Unit II

- Writing for Internal and External Public
- Writing for Digital media, Blog, Email, SMS
- Ethics in Public Relations; PRSI code
- PR Campaign Writing

Unit III

- Writing for Advertising
- Classified, Display Ads, Special target Audience writing
- Advertising campaign writing
- Creativity in Advertising
- The different advertising writing style

Unit IV

- Advertising appeals
- Corporate identity for image building
- PR and corporate advertising
- Case Studies: Corporate Communication

- Case Study Writing
- Media writing in crisis (Covid 19 pandemic)

Practical:

- Writing Press Release-5
- Preparing PR Case Study-2
- Writing PR feature-5
- Developing PR Campaign-2
- Preparing Press Kit (Organization's brief, press release)-1

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010429 C 3105	Internship (4-Weeks)	C	0	0	0	5	30	50	20	30	100

Learning Outcomes :

- The students will have practical exposure.
- They will learn about the different methods and techniques of working in the mass media.
- They will also learn about how to identify news and how to cover it.
- From the practical component, they will learn how to produce for different program genres and mass media.

At the end of the 3rd semester and after Term-end Exams, all students are required to undergo a 4-week internship with a media house/organization of their choice and/or in consultation with concerned teachers. They are also required to submit a Performance Assessment Report (PRA) in prescribed Proforma (Performa will be provided by the Department). Performance Assessment Report to be submitted by the organization in which a student has completed the internship.

The PRA shall contain details of the internship (work/duties/tasks performed, copies of work done, assignment details etc.) to be submitted within a month of commencement of the third semester or as per the deadline decided by the department/school.

Based upon this report Internal Examiner evaluate and power-point presentation, External Examiner shall conduct the viva-voce.

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010430C 3105	Communication Skills*	SEEC	3	2	0	0	5	70	0	30	100

Learning Outcomes:

- To develop the skills for professional communication.
- To train the students for developing communication skills for different contexts in the profession.
- To learn different writing techniques for professional communication.
- To inculcate the skills required for expressing through Resume and Curriculum Vitae.
- To familiarize me with creativity and different communication activities.

Note: As it is non -credit course, there will be two lectures and two practicals every week. There will be four units in this course. The students shall be required to submit practical assignments before the term-end examination based on paper. The examination of the course shall be conducted as a theory and practical exam both.

Unit-1

- Communication as Process
- Motives for Communication
- Effective Communication And its benefits
- Barriers to effective communication

Unit-2

- Formal writing and literary writing
- Writing Styles
- Writing CV
- Formal Letters
- JAM (Just a minute talk)
- Minute Memo
- Letter Writing

Unit-3

- Spoken language: Accent and Vocabulary
- Greetings and Introduction
- Public Speaking, Group Discussion, Extempore
- Presentation skills

Unit 4

- Personality traits
- Dressing Code
- Communicating through body language: Gestures, Postures, kinesis,
- Mannerisms and Etiquettes
- Listening with empathy

SHSS DJMC 010433 DCEC 2114	Graphic and Design	DCEC	2	1	1	4	4	50	20	30	100

Learning Outcome:

- To acquaint students with the different tools and techniques of Graphics Designing
- To train the students as per the industry requirements.
- To learn different professional techniques for the graphic design field
- To inculcate the skills required for expressing products or ideas through Graphics Designing.
- To familiarize with the creativity and different aspects of Design for different media and purposes.

Unit-1

- Introduction to Graphics
- Meaning and Definition
- Concept of graphics design, importance and its applications
- Principles of design

Unit-2

- Visual illusions
- Balance in design
- Elements of Art: Line, Shape, Space, Color, Tone, Texture,

  Pattern Introduction to Layout and its types

Unit-3

- Types and tools of Graphics
- Designing Logo
- Importance and purpose of a logo
- Poster design

Unit-4

- Basic graphics creation InDesign
- Editing in InDesign
- Basic graphics creation in Photoshop
- Editing in Photoshop

Practical

- Designing logo-5
- Creating Newspaper layouts-5
- Designing Poster-5
- Creating Advertising layouts-5
- Basic photo edits-5

Sriniwas, M.N. Caste in Modern India & other Essays(Media promoters and Publishers Ltd. 1962) Tester, K. Media, Culture and Morality (Routledge, 1994)

Semester III

Course Code	Course Title	Category	L	T	P	Total Credit	Hours	Theory	Practical	Internal	Total Mark
SHSS DJMC 010324 GEC 3104	Film Appreciation	GEC	3	1	0	4	4	70	0	30	100

Learning Outcomes

- Students would develop a basic understanding of films, their genres and their interpretation.
- Students would be trained in the basics of shooting and editing films.
- Students would learn different aspects of Film: Shooting, editing, writing, censorship, broadcasting etc.
- Students would inculcate the skills required for understanding and producing films.
- Students would be familiarised with the history of films, current trends, different approaches to understanding films etc.

Unit – I

- Film as a medium of expression; Film Genres
- Approaching Films: Semiotics, Psychoanalysis, Linguistics
- Film forms: Narrative and Non-Narrative

Unit – II

- Film Aesthetics
- Regional and National Cinema in India, Bollywood, World Cinema
- Film movements; The rise of Multiplex Cinema

Unit – III

- Basic Camera Shots and movements
- Film editing Principles: Mise-en-scene and montage
- Diegetic and Non-diegetic elements in a film

Unit – IV

- Major Film festivals and awards: Indian and Global
- Writing film reviews
- Film certification categories

Suggested Readings

Dear Professor Dalal, Dr Rajeev Singh and Colleagues

Greetings from Chandigarh

Please add these readings mentioned below and you may delete some not so good/old publications .

I hereby give my conditional consent and approval to the proposed items thoroughly discussed in the two online meetings we held on the matter. This approval is subject to addition of these readings as far as the syllabus is concerned.

On rest of the items you have my unqualified approval.

This may be kindly considered be a formal letter.

regards,

ashutosh kumar

The following readings are to be included. would enrich the list and would be helpful. a few corrections also

- Paper III. Comparative Politics; no uniformity in mentioning the year of publication in the reading list
- Paper IV: Chanchal ji publication: Journal name to be italicized not the article title

Paper IV: consider adding (and please delete few also)

1. 1. *Politics in India: Structure, Process and Policy* , 2017 by Subrata K. Mitra , Routledge, London and New Delhi

Semester-I

Paper-III - SSH POS01 (103) C5005

Comparative Political Analysis-I

Course Objective:

The course aims at acquainting the students with the nuances of Comparative Politics by imparting to them the central ideas, concepts, and theories that make up this field. This course is different from the ones taught in other universities, which are built around a set of country studies. The focus of this course is to undertake a thorough discussion of the basic grammar of comparative politics. This understanding will go a long way in helping students make sense of politics across time and space. The instructor will discuss case studies to help students understand broader issues of comparative politics.

Course learning outcomes:

After the completion of this course, the students will be able to:

CLO 1: Understand comparative politics and apply their knowledge to make sense of the political dynamics of the wider world.

CLO 2: Understand important political developments around the globe using the tools of comparative politics.

CLO3: Explore questions and concepts related to political culture, socialization, development, and modernization.

CLO 4: Apply the concepts of comparative politics to various political systems using approaches such as system analysis and structural functionalism.

Unit I

Comparative Politics: Meaning, Significance, Nature, and Evolution

Comparative Method: Challenges of comparison and Comparative Political Analysis.

Unit II

Comparative Politics: Different Perspectives

Structural

Institutional

Cultural

Political Economy

Unit III

Colonialism: Forms and Impact

Nationalism and Anti-colonial Movements

Decolonization

Unit IV

Nature of State: Capitalist, Socialist, Post-Colonial, Welfare State

The Nation States and Globalization

Political Regimes: Democratic and Non-Democratic

Semester-I

Offered to other Departments: (General Elective Course)

Paper-V-Code:(SSHPOS01(105) GEC4004

Indian National Movement

Course Objective:

It is aimed to provide opportunity for students to be familiar with the diverse vision that guided the makers of the Indian Constitution. Course is also aimed to make students learn about the different historical trajectories, movements and processes due to which we formed our constitution as it is today.

Course Outcome:

CLO 01: Students will be able to analyse the process of rise of modern India and its foundation made by social reformer and freedom fighters.

CLO 02: Students will be able to analyse social background of Indian Nationalism.

CLO 03: It will help students to illustrate the rise and growth of Economic Nationalism in India.

CLO 04: Students will acquire knowledge about the freedom struggle and partition of India and making of Indian Constitution in aftermath.

Unit-I

Colonialism in India
National Movement

Unit-II

Peasant Movements
Labour Movements

Unit-III

Revolutionary Movement

The rise and growth of Communalism

Unit-IV

An Economic Critique of Colonialism

Freedom and Partition

Constitutional Development

Semester-I

Paper-VII Code: SSHPOS01 (106) GEC4004

Principles of Political Science

Course Objective:

This course is designed to disseminate knowledge about state, sovereignty, and other basic concepts of political science. By the end of this course, students would be able to understand and analyze the theoretical framework of political science and have practical knowledge regarding the different concepts of political science.

Course learning outcomes:

CLO 01: To have an insight regarding political science and its different concepts.
CLO 02: To be able to know about the state and its theories regarding its origin and nature.
CLO 03: To be able to understand sovereignty, its constituents, and forms.
CLO 04: To have an insight regarding the power, authority, different forms and attributes as well as its relations with legitimacy.
CLO 05: To have the knowledge of rights, their attributes, and different forms with special reference to UDHR.
CLO 06: To have the knowledge of liberty, equality, and laws as well as their relations with one another.
CLO 07: To be able to understand political science in a more specific and objectives manner.

Unit I

Political Science: Concept, Nature, Scope and Significance

Unit II

State, Sovereignty, Government

Unit III

Power, Authority, Legitimacy,

Unit IV

Rights, Liberty, Equality, Laws

Suggested Readings:

Semester –II

Paper-VIII Code: SSH POS01 (107) C5005

Political Theory-II

Course objective:

This course aims to develop an understanding of the traditional and contemporary concepts in the discourse of political science, their western and non-western perspectives, and the key debates about them. Also, the course aims to make students acquainted with the values and issues of modern governance.

Course learning outcomes:

CLO 1: It helps students to get familiarized with different dimensions and the contemporary relevance of different concepts and theories.

CLO 2: Students will be able to understand and learn the different theories and contemporary debates in democracy.

CLO 3: It helps to make students a strong base in new political theories which emerged after 1990's like globalization and multiculturalism.

CLO 4: Understand the reasons for the emergence of new theories like post-modernism.

Unit –I

Critical Approaches: Postmodernism, Feminism, Multiculturalism

De-parochializing Political Theory

Unit-II

Citizenship: Classical and Modern

Unit-III

Democracy: Evolution, Theories, Trends

Unit –IV

Recent Debates in Political Theory

Suggested Readings:

Semester-II

Paper: IX Code: (SSH POS01 (108) C5005)

Western Political Thought-II

Course Objective:

The course is aimed to provide students with the historical, social and cultural context to relate to contemporary political society. It is hoped that familiarity with the ideas or concepts of some major western political thinkers will help the students to understand different perspective and approaches to concepts like State, politics, government, sovereignty, citizenship and so on.

Course learning outcomes:

CLO 1: The course will help students to theoretically locate the diverse intellectual traditions in the west.

CLO 2: It helps students to engage and critically examine the significant issues of the western political philosophy.

CLO 3: Students by the end of term will have a comparative perspective of political philosophies in the West and India.

Unit- I

Immanuel Kant

G.W.F Hegel

T.H. Green

Unit- II

Jeremy Bentham

J.S. Mill

Unit-III

Semester-II

Paper: X Code- SSH POS01 (109) C5005

Comparative Political Analysis-II

Course Objective:

This course aims to clarify and reinforce the most important concept studied in the course (Comparative Political Analysis) offered in the previous semester. The course will demonstrate how political institutions fundamentally guide the actions of political agents. Thus, the instructor will emphasize the significance of political institutions by familiarizing students with the political institutions 'in action'.

Course learning outcomes:

After the completion of this course, the students will be able to:

CLO 1: Learn about States, Nations, and the basics of democratic and non-democratic regimes.
CLO 2: Compare state power using the yardsticks of power, authority, legitimacy and capacity.
CLO 3: Compare and assess political institutions in different political systems.
CLO 4: Develop a thorough understanding of the interrelationships between organs of government in different political systems.
CLO 5: Understand the role of political participation, electoral politics, political parties and party systems in democratic regimes.

Unit I

Constitution and Constitutionalism: Forms of constitutions, Rule of Law, Judicial Independence, Constitutional Morality, Crisis of Constitutionalism.

Unit II

Democratisation: Democratic Transition and Consolidation

Theories of Development: Modernization, Underdevelopment, Dependency, World Systems theory.

Unit III

Structures of Power: Ruling class, power elites, democratic elitism

Unit IV

Actor and Processes: Electoral Systems, Political Parties and Party System, Interest groups, Social Movements, New Social Movements, Non-Governmental Organisations (NGOs).

Semester-II

Paper-X Code: SSH POS01 (110) C5005

International Relations

Course Objective:

The paper aims to acquaint the students with major concepts and theories that are central to the understanding of contemporary International Relations. It explores the Nature, Scope and Development of International Relations along with theories that are at the core of explanation to relations between states.

Course learning outcomes:

After the completion of this course, the students will be able to:

CLO 01: Familiarization with the concept of International Relations as an academic discipline and its scope.

CLO 02: Have a broad understanding of various key concepts such as Power and National Power.

CLO 03: Acquire a comprehensive knowledge of mainstream theories: Realism, Structural Realism, Neo-Marxism, and Neo-Liberalism that have shaped and influenced international politics and assess the relevance of these theories in the present context.

CLO 04: Students will be able to know the evolution and genesis of the institutional framework of UN.

Unit- I

International Relations as an Academic Discipline and Scope;

National Power;

Conflict Resolution and Deterrence.

Unit-II

Approaches of International Relation: Realism, Structural Realism,

Neo-Marxism, Neo-Liberalism

Unit -III

United Nations: Aims, Objective, Structure, and evaluation of the working of UN.

Unit- IV

United Nations: Organs, Peace and Development Perspectives, Humanitarian Interventions.

Research Methodology

Course Objective

This course introduces approaches and methodologies in the social sciences, to stimulate students to actively engage with social science research and help them apply appropriate research methodologies to the research areas of their choosing.

Course learning outcomes:

This course will—

CLO 1: Enable the students to understand and undertake the scientific study of politics

CLO 2: Help students use the basic tools and techniques needed to critically examine and produce scholarly research in political science.

CLO 3: Provide the students with a series of strategies to design their research

CLO 4: Help students develop an integrated approach to quantitative and qualitative analysis.

Unit-I

Research: Meaning, Nature and Scope

Scientific Research: Meaning, Nature and Steps

Concepts, Variables, Hypothesis, Theory

Unit-II

Identification of Research Problem

Research Design

Steps involve in Research Design

Qualitative and Quantitative Research

Unit-III

Methods of data collection: Quantitative and Qualitative Research

Experimental Research

Case Research

Interpretive Research

Unit-IV

Techniques of Data Analysis and Interpretation

Report/Paper writing

Referencing, Citation and Bibliographic intext

Semester-III

Paper XX Code: SSH POS01 (118) DEC4004 (i)

Federalism in India

Course Objective

This course aims at familiarising the students with all the dimensions of Indian federalism. More specifically, the objective is to help students understand how the union government and the states interact in various dimensions of public policy making and implementation.

Course learning outcomes:

CLO 1: The students will understand what federalism is and why it matters.

CLO 2: The students will be able to compare Indian federalism from federalism practiced in other developed and developing countries.

CLO 3: Students will understand and appreciate the role and significance of non-centralization, decentralization, interdependent policy making and power-sharing in India.

CLO 4: Students will be able to identify researchable issues in Indian Federalism.

Unit-I

Principles and Practice of Federalism

Comparative Federalism: Concepts and Theories

Unit -II

Nature of Federalism in India

Evolution of Indian Federalism since 1947

Unit-III

Political Parties, Party System and Federalism in India

Second Chambers in Federal States: Rajya Sabha in Perspective

Unit-IV

Federalism and Foreign Relations in India

Semester-III

Paper: XXII Code: SSH POS01 (118) DEC 4004 (iii)

Introduction to Public Administration

Course Objective:

To study the theoretical framework of public administration, its evolution, different administrative theories, principles of organization and budget, and public policy issues.

Course learning outcomes:

CLO 1: To enable, to understand and analyze different theories of administration, evolution and generic of public administration.

CLO 2: To appreciate the principles of organization with the nature and type of chief executive and its extended agencies.

CLO 3: To have an insight regarding the evolution and development of administrative theories and concepts.

CLO4: To be enabled to understand the budgetary process and public policy perspectives.

UNIT I

Public Administration: Meaning, Nature Scope and Significance, Public and Private Administration, New Public Administration (NPA), New Public Management (NPM)

UNIT II

Administrative Theories: Scientific Management Theory (F.W.- Taylor), Classical Theory (Henry Fayol, Gulick and Urwick), Max Weber and Bureaucratic Approach, Human

Relation Theory (Mayo), Decision making Model (Herbert Simon), Ecological Theory (F.W. Riggs)

UNIT III

Principles of Organization: Organization: Nature and Concept, Structure of Organization: Chief Executive, Line, Staff and Auxiliary Agencies, Principles of Organization: Hierarchy, Unity of Command, Span of control, Authority and Responsibility, Delegation, Co-ordination, Communication.

UNIT IV

Budget and Public Policy: Budget: Meaning and Principles of Budget, Process of Budget in India. Public Policy: Concept, formulation and implementation

Semester-III

Paper: XXIV Code - SSHPOS01(120) 120GEC4004

Introduction to National Security

Objectives: The structure of the course has been organized so as to ensure that there is a minimum core component which students of National Security shall have to study the basic requirement of the subject. This core component revolves around the following major subject areas:

- To understand the basics and various dimensions of National Security.
- To understand contemporary non-conventional security issues like terrorism, environment etc.
- To understand the security concerns, policies and treaties in contemporary world.
- To understand the India's strategic and diplomatic moves to maintain peace.
- To understand the contemporary nuclear, cyber or social media related threats for national security.

Course Learning Outcomes:

Some of the learning outcomes that the students of this course are expected to exhibit:

CLO 1-Understanding the basics and importance of the National security and related issues.

CLO 2-Understanding the relationship between national interest and foreign policy.

CLO 3-Discuss and debate on the contemporary security issues and solutions.

CLO 4-Understanding the factors affecting peace and security of a Nation.

Unit-I

National Security: Evolution, Theory and Practice

Key Concepts: Non-Alignment, Balance of Power, Collective Security, Comprehensive Security and Human Security

Unit-II

National vs. International Security: Issues, debates and Challenges in Contemporary World

National Security vs. Human Security

Arms Race vs. Disarmament

War vs. Peace

Unilateralism vs Multilateralism

Unit-III

Non-Conventional Security Concerns: Local, National and Global

Terrorism and Counterterrorism

Cyber, Environmental and Health Security: Preparedness & Response

Social Media, Diplomacy & National Security

Unit-IV

Issues and Challenges to India's National Security

India's Security and Strategy vis-a-vis US, Russia, Pakistan and China

Threats to India's National Security; The Boundary Dispute, Terrorism and Migration

***Suggested Readings*:**

Semester: IV

Paper: XXIX Code: SSH POS01 (125) DEC4004 (i)

Contemporary Issues in World Politics

Course Objectives:

- To understand the issue of Identity crisis and the emergence of ethnic conflicts and the status in contemporary time
- To develop an empathetic outlook towards the issue of cross border terrorism
- To debate and develop insightful gains around the role of INGOs/IGOs
- To acquire holistic and sensitive approach to comprehend environmental issues
- To understand the crisis related to energy and the world politics to secure the energy
- To discuss, debate and develop thought provoking ideas around the issues of armed conflicts, civil war, terrorism

Course learning outcomes:

CLO 1: Students shall be able to identify the challenges to democracy in the world and provide their own suggestions to tackle the same

CLO 2: The terms like Banana Republics being understood through debates and discussion shall be identified in real life

CLO 3: Students shall be able to identify the factors causing energy crisis and debate towards the probable solution of the issue

CLO 4: The broader debates concerning Nuclear Proliferations shall be well understood and further contributed to by the students

CLO 5: Issues of armed conflicts, civil war and terrorism shall be critically reviewed, debated and understood

Unit I

Democratic Challenges in the World

Authoritarian Regimes

Identity Issues and Ethnic Conflicts

Unit II

Cross Border Terrorism and Non-State Actors

Globalization and INGOs/IGOs

Unit III

Environmental Issues and debate on Climate Change

Energy Crisis and World Politics

Unit IV

Nuclear Proliferations and New World Order,

Non-Conventional Security Issues: Migration, Disaster, Food Security, Cyber Security

Suggested Readings:

Semester-IV

Paper: XXX Code: SSH POS01 (125) DEC4004 (ii)

Comparative Federalism

Course Objectives:

The main objective of this course is to understand the normative theory of federalism and how it is applied in practice in federal systems. In this course, we will explore the logic of centralization, decentralization, self-rule and shared rule. The course will also look into the relationship between federalism and political democracy & conflict on the one hand and federalism and economic growth on the other.

Course Learning Outcomes

Upon successful completion, students will have the knowledge and skills to:

CLO1-Explain the concept of federalism, its origin and its intended purposes;

CLO2-Assess the nature of federalism (the content of self-rule and shared rule) in a country and how it works within its context;

CLO3-Demonstrate understanding of the principles of designing federalism in different contexts;

CLO4-Demonstrate understanding of comparative Federalism in presentations and research.

Unit I:

The Meaning, Origin and Purposes of Federalism

Unit II:

Principles of Designing Federalism

Unit III:

Assignment of Taxation and Spending Authority

Unit IV:

Federalism and Political Conflicts

Federal Governance and Economic Growth

Suggested Readings:

- Beramendi, Pablo. 2007. *Federalism. In C. Boix and S. Stokes (Eds).* Oxford Handbook of Comparative Politics.

Semester-IV

Paper-XXXI-Code (SSHPOS01 (125) DEC4004 (iii)

Political Ideologies

Course Objective:

This course aims to introduce students to the concept of ideology and its relationship with other political concepts such as power and legitimacy. We will explore the main features of several major political ideologies of the world and their role in the creation and functioning of the governmental structures and system.

Course Learning Outcome:

CLO 1-Demonstrate an understanding of the central themes of the political ideologies examined

CLO 2-Critically read and analyses modern and contemporary texts by key thinkers

CLO 3-Illustrate and evaluate the development of the central tenets of political ideologies

CLO 4-Compare and contrast different ideological tradition

CLO 5-Apply political ideologies to the analysis of real-world political, economic and social institutions

Unit- I

Liberalism

Marxism

Unit-II

Nationalism

Anarchism

Unit -III

Conservatism

Fascism

Unit-IV

Feminism

Cosmopolitanism

Environmentalism

Suggested Reading:

Semester-IV

Paper-XXXII Code: (SSH POS01 (126) GEC4004

Modern Indian Political Philosophy

Course Objective: - To inculcate the values, Dedication, and devotion towards our nation and it helps understand the vision of Indian political thinkers in a broader way.

Course Learning Outcome: -

some of the learning outcomes are as follow: -

CLO 1-To understand various social and religious reform movements and efforts by social reformers to revive the golden era of ancient India.

CLO 2-To learn about the different visions in freedom struggle (Moderates, Extremists, revolutionaries)

CLO 3-To learn about the role and relevance of Gandhian ideals and vision of Dr. B.R. Ambedkar.

CLO 4-To understand the idea of Hinduism and cultural nationalism.

Unit-I

Hinduism

Vedanta

Unit-II

Nationalism

Secularism

Unit –III

Socialism

Humanism

Unit-IV

Feminism

Environmentalism

Semester-IV

Paper: XXXIII Code - SSHPOS01(127) GEC4004

Introduction to Peace and Conflict Resolution

Course Objectives-

The paper aims at acquainting the students with the core elements of peace and conflict studies. The course is designed to meet the following objectives:

- Develop the understanding of origin of peace and conflict studies
- Develop the understanding of concepts such as peace keeping, peace-making, peace building
- To have an understanding from theoretical to practical perspective

- Role of international institutions in the peace and conflict management
- Basic understanding of Major conflict areas around the world
- Issues related with human rights and humanitarian intervention

Course Outcome-

After the completion of the course students will be able to: -

CLO1-Understand the factors led to the development of peace and conflict studies

CLO2-Understand the meaning of peace keeping, peace-making, peace building, responsibility to protect, Agenda for peace etc

CLO3-Understand the theoretical developments

CLO4-Understand the nature and types of conflicts

CLO5-Understand the roles played by international organisations, institutions, state and individual to promote international peace

CLO6-Understand the mechanisms of conflict resolution – negotiations, mediations, facilitation and arbitration

CLO7-Understand the major conflicts of different nations

UNIT I

Introduction to Peace and Conflict studies

Origin, Growth and Development of Peace and Conflict Studies

Key Concepts of Peace and Conflict: Peace Keeping, Peace Making, Peace Building, Conflict Resolution, Prevention and Transformation

UNIT II

Understanding Peace and Conflict

Theories of Peace and Conflict: Liberal, Marxist, Gandhian and Feminist

Types of Conflict: Clash of Civilization, Environmental Conflict, Ethnic Conflict and Terrorism

UNIT III

Conflict Resolution and Strategy of Peace Making

Role of Multilateral Organisations in Conflict Resolution,

Contemporary Initiatives for Conflict Resolution: Agenda for Peace, Responsibility to Protect (R2P) and Beyond

The strategy of Peace Making: Actors; - Approaches; – Facilitation, Mediation, and Arbitration, Processes; – Negotiations, Institutions, Individuals and State,

UNIT IV

Contemporary International Conflicts and Human Rights

Contemporary Conflicts: Rwanda, Afghanistan, Kosovo, Palestine, Syria and Ukraine

Human Rights and Humanitarian Intervention in Conflict Prone Zones

Minutes of BoS

19 and 20 August, 2021

Offline meeting of Board of Studies was held on 19th and 20th August, 2021 at 10:00 A.M. Following members were present in the meeting:

1. Dr. V.N. Yadav (Convenor)
2. Prof. (Retd.) Umed Singh (External Expert)
3. Dr. Payal Chandel (Member)
4. Dr. Pradeep Kumar (Member)
5. Dr. Vishnu N. Kucheriya (Special Invitee)
6. Dr. Ravi Pratap Pandey (Special Invitee)
7. Dr. Ritu Sharma (Special Invitee)

At the outset, Dr. V.N. Yadav welcomed to esteemed members of BoS and presented all agenda items. Agenda items were discussed and resolved accordingly.

Item No.	Agenda	Minutes
1.	To consider and approve the Scheme of B.Sc. Psychology Honors programme w.e.f. 2021-2022	Scheme of the B.Sc. Psychology Honors was discussed and finalized.
2.	To consider and approve the Syllabi of Semester- I & II of B.Sc. Psychology Honors programme	Syllabi of 1st and 2nd Semesters of B.Sc. Psychology Honors were discussed and approved.
3.	To discuss and approve the panel of examiners (paper setting, practical exams etc.) for B.Sc. Psychology Honors programme	The panel of examiners (paper setting, practical exams etc.) for B.Sc. Psychology Honors programme was discussed and approved.
4.	To consider and approve the Syllabus of Semester- III & IV of M.A. Psychology programme	Syllabus of Semester- III & IV of M.A. Psychology programme was discussed and finalized.
5.	To discuss and approve the panel	Panel of examiners (paper setting,

	of examiners (paper setting, practical exams, dissertation etc.) for M.A. Psychology programme	practical exams, dissertation etc.) for M.A. Psychology programme was discussed and approved.
6.	To consider and approve the syllabi of PG Diploma in Rehabilitation Psychology (PGDRP) and Advance Diploma in Child Guidance and Counseling (ADCGC).	Syllabi of PG Diploma in Rehabilitation Psychology (PGDRP) and Advance Diploma in Child Guidance and Counseling (ADCGC) were considered and finalized that the syllabi of Rehabilitation Council of India (RCI, New Delhi) may be implemented for both the courses.
7	To revise the coding of M.A. Psychology Programme.	The coding of M.A Psychology Programme was revised. Earlier it was **SAHS** (School of Arts, Humanities and Social Sciences) and now changed as **SHSS** (School of Humanities and Social Sciences).

20.08.2021
Dr. V.N. Yadav (Convenor)

20.8.21

Semester – I

CHILD DEVELOPMENT

Paper Code: SHSSS PSY 05 01 01 C 3126

Lectures: 3, Tutorial: 1, Practical's: 2

Total Credits: 6

Objectives

To study theoretical frameworks to understand characteristics of children at different age epochs.
To critically examine the bi-directional relationship between the child and his /her ecological context of development.
To identify attributes of positive parenting.

Unit I
Development of Children: Theoretical Perspectives
(Basic constructs and application)

Principles of Growth and Development
Development of Cognition: Piaget
Development of Personality: Psychosocial Theory – Erikson
Moral Development: Piaget, Vygotsky, Bandura and Sears
Theory of Attachment
Theories of Play Development; Piaget, Erikson, Axiline, Hildreth, Parton, Smilansky

Unit II
Developmental Characteristics of Children
(Infancy and Early Childhood)

Development during Prenatal Period
Infancy and Toddlerhood: Developmental Characteristics across Domains (bio social behavioral shifts)
Early Childhood Years: Developmental Characteristics across Domains (bio social, behavioral shifts)
Developmental Progression in Play Behaviour, Functions of Play and types of Play
Play Activities and Games for Pre-school Children

Unit III
Developmental Characteristics of Children
(Middle Childhood and Adolescence)

Middle Childhood Years: Developmental Characteristics across Domains (bio social, behavioral shifts)
Middle Childhood Years: Developmental Progression in Play Behaviour and Play Activities and Games
Adolescence: Developmental Characteristics across Domains (bio social, behavioral shifts)
Adolescence: Developmental Progression in Play Behaviour and Play Activities and Games

Unit IV

Acquisition of Skills

School Readiness Skills
Reading Skills
Spelling Skills
Writing Skills
Arithmetic

PRACTICAL

A) Field Work Tasks

• Study the development of the child over a period of 6-8 months and analyze the role of his context in his development.
• Studying the micro processes of a pre-school programme. • Observation of Children at Different Age Epochs

B) Self Development Workshops

• Streamlining Life Styles
• Learning Styles

SCHEME OF TEACHING

A) Process of Developing Skills

• Students would observe children across ages, domains, settings and social class to understand developmental gradations and individual variations. Synthesis workshops would be organized to integrate data from the field.
• Workshops would be organized on Storytelling and Creative work with children.

• Students would understand long term case studies of two children at two different age epochs over a period of 6 months.

B) Application

The students would be required to apply their understanding of positive correlates of development by designing Parent Education material and address parenting issues across developmental stages.

C) BREAK-UP OF CONTENTS INTO KNOWLEDGE SKILL AND APPLICATION AREAS

Knowledge	Skills	Applications
Basic Introduction to Child Development Development of Children: Theoretical Perspectives Developmental Characteristics of Children Key Issues across Developmental Stages Play Development in Children Play activities and games of children across developmental stages. Development of skills in children	Interpreting behaviour and development of children with reference to 'Developmental' and 'Ecological' context Playing with children across developmental stages ***(The above would be carried out through assignments of observing children in naturalistic settings, field placements and subsequent discussions and interpretations of these observations during skill workshops and group discussions)***	• Play activities of children across ages • Developmental characteristics of child • Micro processes of pre-school education

EXCEPTIONAL VARIATIONS IN CHILD DEVELOPMENT

Paper Code: SHSSS PSY 05 01 02 C 3126

Lectures: 3, Tutorial: 1, Practical's: 2
Total Credits: 6

OBJECTIVES

To appreciate the concept and strategies of promotion of mental health
To understand manifestation and causes of behavior and learning problems in children
To understand types and causes of disabilities in children.
To appreciate the concept and strategies for prevention of disabilities & behavior & learning problems in children

THEORY

Unit I

Basics of Mental Health and Disabilities

Concept of Mental Health: Indian & Western Perspectives
Learning & Behavior Problems: Manifestation, Causal Associates; Risk Factors, Protective Mechanism, and Resilience
Classification System of Childhood & Adolescent Psychiatric Disorders: Need and Types
Concept of Disability: Medical Model, Social Model, Levels of Interventions and Strategies of Prevention of Disabilities)

Unit II

Childhood Disabilities and Developmental Disorders

Cerebral Palsy and Disability of Movement, Disability of Sight; Disability of Hearing; (Causes, Early Identification, Management & Prevention).
Epilepsy: Manifestation, Causes, Types and Management (first aid)
Mental Retardation: Definition; Classification; Causes; Associated Problems; Prevention & Early Identification; Assessment; Prognosis and Types of Interventions.
Speech and Language Problems of Children: Assessment of Language, Types of Speech Problems and Types of Interventions

Autism Spectrum Disorders: Manifestation (Asperger and Autism); Causal Associates; Early Identification and Assessment; Prognosis and Types of Interventions.

Unit III

Learning Problems

Scholastic Backwardness: Casual Associates; Framework of Assessment; and Types of Interventions
Learning Disabilities: Definition, Causal Associates; Associated Problems; Assessment; Prognosis and Types of Interventions
Workshops for Spot Diagnosis

Unit IV
Internalizing Problems and Externalizing Problems

(Manifestation, Causes & Management)

Fear & Anxieties including School Phobia and Examination Stresses
Depression & Suicide
Conversion Reaction
Obsessive Compulsive Reaction Disorder
Conduct Disorders
Attention Deficit Hyperactive Disorder
Substance Abuse

PRACTICAL

A) Field Work Tasks

• Participant's observations of professional working with children with disability / Learning and Behaviour problems
• Observe process of work of assessment for diagnosis of at least four different types of disability / learning and behaviour problems

B) Self Development Workshops

• Examination Stress

SCHEME OF TEACHING

A) PROCESS OF DEVELOPING SKILLS

• Students would be attending Child & Adolescent Guidance and Counselling Centres to observe children with different Disabilities, Behaviour & Learning Problems

• Student would be conducting participant observations of professionals working with children with disability / learning and behaviour problems.

• Workshops for spot diagnosis of children with L & B problems in CGC / AGSC on the basis of manifestation of disorders

B) APPLICATIONS

- The student would study at least four children with Disability or Learning & Behaviour Problems to comprehensively study the manifestations, multidisciplinary assessments and interventions.
- Student would identify criteria for differential diagnosis of different learning and behavior problems.

Knowledge	Skills	Applications
Basic Introduction to Child Development Development of Children: Theoretical Perspectives Developmental Characteristics of Children Key Issues across Developmental Stages Play Development in Children Play activities and games of children across developmental stages. Development of skills in children	Interpreting behavior and development of children with reference to 'Developmental' and 'Ecological' context Playing with children across developmental stages ***(The above would be carried out through assignments of observing children in naturalistic settings, field placements and subsequent discussions and interpretations of these observations during skill workshops and group discussions)***	Play activities of children across ages Developmental characteristics of child Micro processes of pre-school education

Speech and Language problems of children: Types; Prognosis; Management and Assessment of Language.

Learning Problems

Scholastic Backwardness: Casual Associates; Framework of Assessment; Management.

Learning Disabilities: Definition, Causal Associates; Assessment; Prognosis and Management

Borderline Intelligence: Manifestation assessment & Types of Interventions

Behavior Problems

Internalizing problems

(Manifestation Causes & Management)

Externalizing Problems

(Manifestation, Causes, Management)

TECHNIQUES OF CHILD AND ADOLESCENT ASSESSMENT

Paper Code: SHSSS PSY 05 01 03 C 3126

Lectures: 3, Tutorial: 1, Practical's: 2

Total Credits: 6

OBJECTIVES

To acquire an understanding of issues & processes of assessment of children across ages.
To familiarize with the measures of assessments across domains.
To develop an understanding of usage and application of selected measures of assessment.
To gain competency in skills of conducting observations and interview as methods of assessment of children and adolescents.

THEORY

Unit I

Interviewing and Observation as a Method of Assessment

Understanding Interview as a method.
Interviewing Skills (Listening, Leading, Reflecting, Interpreting & Summarizing)
Questioning Skills in Clinical Interview (Socratic Questioning, Circular Questioning etc.)
Application of Interviewing Skills: Case History; Family Functioning Assessment; Exploring Parental Concerns and Interviewing Adolescents
Understanding Observation Method
Types of Observations
Process of Conducting Observations
Process of Conducting Play Sessions
Recording and Interpreting Observations across Domains
Denver Developmental Screening Test

Unit II

Assessment of Intelligence and Adaptive Behavior

Concept & Theory of Intelligence
Concept of Adaptive Behaviour
Wechsler's Intelligence Scale for Children (WISC III) and Indian norms of WISC (Father Malin's)
Stanford Binet Intelligence Test
Ravens Progressive Matrices
Vineland Adaptive Behavior Scale
Assessment of Home Environment: HOME Inventory and Family Environment Scale.

Unit III

Assessment of Temperament, Personality and Socio Emotional Development

Scope of Personality Assessment
Personality Inventories 16 Personality Factor Questionnaire
Semi Projective Tests; Incomplete Sentences Blank; House Tree Person Test

Projective Tests: Children's Apperception Test

Unit IV

Psycho Educational Assessment

Components of Educational Assessment (Reading, Comprehension, Spellings and Writing, Written Expression and Arithmetic)
Process of Educational Assessment; skill Workshops on each of the basic skills
Recording, Interpretation and Analysis of Educational Assessment

PRACTICAL

A) Field Work Tasks

During the placement in CGC / AGSC the students would undertake

- Case history
- Play observations
- Interview adolescents
- Adaptive behavior assessment
- Psycho educational assessment
- Personality assessment

Interpreting clinical observation and assessment undertaken by the professionals in CGC / AGSC

B) Self Development Workshops

• Responding styles
• Listening skills

SCHEME OF TEACHING

A) PROCESS OF DEVELOPING SKILLS

Workshops would be planned for students to develop interviewing and questioning skills.
Students would be familiarized with the specific tests, scales, checklists etc. through demonstrations and mock sessions and simulated practice.
Students would be facilitated to appreciate process of assessments across ages through observations of professionals at work during field placements.
Student would do simulated practice on their long-term case.

B) APPLICATIONS

Students would apply their understanding about different measures of assessment by interpreting the clinical observations and assessments undertaken by professionals.

C) BREAKUP OF THE CONTENTS INTO KNOWLEDGE, SKILLS & APPLICATION AREAS

Knowledge	Skills	Applications
• Professional Practices in Assessment of Children and Adolescents • Interviewing as a Method	• Identifying appropriate measures that can be used for children of different ages to assess their development /skills and	Clinical work: • Case History • Play observation, • Adolescent

- Observation as a Method
- Process and measures of assessment of Infants & Pre-schoolers
- Process and measures of assessment of school aged children
- Process and measures of assessment of Adolescents
- Psycho Educational Assessment: need scope and process

abilities.

- Interviewing and questioning Skills
  - Listening
  - Leading
  - Reflecting
  - Summarizing
  - Setting Boundaries
  - Interviewing Parents and Care Givers to understand Developmental history, Family Functioning
  - Skills and methods of observation
  - Conducting observations of children across developmental stages and across settings
- Conducting psycho-educational assessment.

Interviews,

- VABS
- Multiple Intelligences
- Learning styles

(All the above would be actualized through skill workshops, field placement and observations of professionals at work)

CHILD'S RIGHTS AND POLICY

Paper Code: SHSSS PSY 05 01 04 C 3126

Lectures: 3, Tutorial: 1, Practical's: 2

Total Credits: 6

OBJECTIVES

To analyze programmes and services for children with respect to Right Based Programming.
To analyze the school from the system's perspective
To demonstrate skills in assessing Family Functioning.

THEORY

Unit I

Child Rights

• Convention on the Rights of the Child
• Differentiating between Needs and Rights of Children
• Understanding Right's Based Programming for Children
• Analyzing and Strengthening Institutions & Programmes from Rights Perspective
• Synthesis Workshops

Unit II

Laws related to Disability and Children in Difficult Circumstances

• The Persons with Disabilities (Equal Opportunities, Protection of Rights and Full Participation) Act 1995
• The National Trust Act 1998
(The processes of implementation & utilization of the above Acts)
• Juvenile Justice Act
• Immoral Traffic Prevention Act
• Acts related to Adoption
(The processes of implementation & utilization of the above Acts)

Unit III

Understanding School as a Social System

• Critical Appraisal of Educational System in India
• Understanding School Processes with respect to Teaching, Learning, Evaluation, Communication etc.
• Analyzing and Strengthening School as a System
• Mental Health Activities in School; Levels of Interventions

Unit IV

Understanding Family as a Social System

• Theoretical Framework for Understanding Family (Ecological, Developmental and Systems Approach)

• Family Assessment: Genogram, Circular questioning, Mc Masters Model of Family Assessment

PRACTICAL

A) Field Work Tasks

• Studying the School from a 'Systems Perspective'
• Studying micro-processes related to school mental health / counselling services
• Studying the implementation processes related to PWD Act, Certification process for Children with Disability / JJ Act, Juvenile Courts, Child Welfare Committee / Adoption

B) SELF DEVELOPMENT WORKSHOPS

• Negotiation Skills

SCHEME OF TEACHING

A) PROCESS OF DEVELOPING SKILLS

• Workshops would be organized to familiarize the students with Rights based programming on CRC (Convention on the Rights of the Child)

• The students would study Institutions working with children. During these visits they would observe programme components and activities and delivery mechanism of these Institutions and analyse them from the Rights Perspective. The students are also expected to then suggest ways of strengthening the institution.

• Field Visits for understanding implementation processes related to PWD Act, JJ Act, Adoption etc (e.g. Juvenile Courts, Child Welfare Committee, Certification process for Children with Disability etc).

• A set of workshops would be planned for students to develop skills in understanding school processes. Simultaneously placement in a school setting would enable observation & analysis of school processes. The students would after studying the school processes suggest alternative processes that would facilitate positive mental health of students.

• Student would be appraised of Mc Master Model of Assessment of Family functioning through demonstration, mock sessions, simulations & guided skills workshops

B) APPLICATION

1. The student would be required to apply their understanding of Rights and Systems perspective to analyze processes of any one of the following Institutions/programmes:
• Children's Institution
• Programme for Street and Working Children.

2. The student would be required to apply their understanding of school as a system to analyze its processes.

C) BREAK-UP OF THE CONTENTS INTO KNOWLEDGE, SKILLS AND APPLICATION AREAS

Knowledge	Skills	Application
• Situational Analysis of Children in India and National Policies and Programmes for children • Introduction to Right's Perspective towards Planning Programmes for Children • Laws related to Children : Processes of implementation and utilization of Acts • Understanding School as a System • Understanding Family as a Social System • Understanding the Framework for assessment of family functioning	• Observing programmes of children and understanding programme components and delivery mechanisms • Analyzing school from the System's Perspective ***(The above would be actualized through Skill Workshops and Observational Visits and Field Work)*** Rights perspective School processes / observation of children Legislation Micro-processes related to school mental health and counselling services	• Studying School as a System • Micro process related to school mental health • Studying Children's Institutions from 'Rights' perspective

Semester–II

GROUP WORK & COMMUNITY INTERVENTIONS

Paper Code: SHSSS PSY 05 02 05 C 3126

Lectures: 3, Tutorial: 1, Practical's: 2
Total Credits: 6

OBJECTIVES

To develop an understanding of the nature and scope of group work interventions
To acquire beginning skills in planning & designing group work intervention with children and adolescents
To acquire skills in conducting group work interventions
To develop an understanding of the community, its challenges, concerns and issues.
To acquire skills in integrating mental health interventions for children in community-based programme.

Unit I
Group Work as a Method

Definition, Purpose, and Relevance
Types of Groups: Treatment Groups and Task Groups
Principles of Group Work
Applications of Group Work for Life Skill Development: Self-awareness Communication, Interpersonal Skills and Empathy, Problem solving and Decision making, Creative thinking and Critical thinking and Coping with Emotions and Stress.
Stages of Group Work
(Planning, Working and Ending stages)

Unit II
Group Work Process and Dynamics

Programme Media and Processing Group Work Activities (Role plays, Games, Simulations)
Frameworks for Designing Group Work Intervention (Donna Walker Cycle, Addie Model)
Group Dynamics: Concept and Components
Leadership Styles and Facilitation Skills

Mock Sessions and Synthesis Workshops

Unit III

Community Organization as a Method

Definition, Purpose & Principles of Community Organization
Stages of Community Organization
Techniques of Knowing the Community (Participatory Learning & Action)
Types and Levels of Community Participation; Self Help Groups; Participatory Monitoring and Sustainability
Community Awareness

Unit IV

Community Based Organizations: Structure and Functioning

• Relevance of Community Organisation to Mental Health
• Community Mental Health Service Systems
• Studying Community Based Programmes Working in the area of Disability / Child Care / Adolescent Development
• Strengthening and Integrating Mental Health Activities into existing Programmes for Children

PRACTICAL

A) Field Work Tasks

• Conducting Focus Group Discussion with Adolescents for need assessment

• The student would plan, organize and evaluate group work intervention with Children or Adolescents in a school)

• Critical study of Community Based Organization with respect to the programme activities, service delivery and involvement of community in the programme mechanisms.

B) Self Development Workshops

• Conflict Resolution

• Self Exploration

SCHEME OF TEACHING

A) PROCESS OF ACQUIRING SKILLS

• Skill Workshops on different programme media (Simulations, games. Role plays)

• Skill Workshops on frameworks for Designing Group Work Interventions
• Skill Workshops for developing skills of understanding Group Processes and Conflict Resolution.
• Skill Workshops to undertake Life Skill Education with children and adolescents.
• Skill Workshops on Participatory Learning Appraisal Techniques.
• Skill Workshop on Designing Community Awareness Programme.

B) APPLICATION

• The student would plan, organize and evaluate group work intervention with Children or Adolescents in a school)

• The student would critically study Community Based Organization with respect to the programme activities, service delivery and involvement of community in the programme mechanisms.

C. BREAKUP OF THE CONTENTS INTO KNOWLEDGE, SKILLS AND APPLICATION AREAS

Knowledge	Skills	Application
• Group Work as a Method : Definition, Purpose, and Relevance, Principles and Types of Group Group Dynamics • Stages of Group Work Community Organization as a Method Stages and Techniques of Community Organization Structure and Functioning of Community Based Organization Building on Community	• Conducting Focus group Discussions for need assessment of adolescents • Using programme media Games , simulations and role plays for conducting group work intervention • Developing facilitation skills for group work. • Skills of planning Group Work Intervention. • Skills of Conducting Life Skill Education • Techniques of conducting Participatory Learning Appraisal • Conducting Community Awareness Programme	• Undertaking Group Work Interventions in a school or Children's institution • Studying Community Based Organization with respect to the programme activities, service delivery and involvement of community in the programme mechanisms. • Studying Legislative processes of the Children's Institution.

FAMILY INTERVENTIONS

Paper Code: SHSSS PSY 05 02 06 C 3126

Lectures: 3, Tutorial: 1, Practical's: 2

Total Credits: 6

OBJECTIVES

To develop a basic understanding of the 'Approaches' and Types of Counselling Interventions.
To acquire beginning skills in Guiding & Counselling families.
To acquire beginning skills in Parent Training

THEORY

Unit I
Guidance and Counselling: Basic Concepts

Guidance, Counselling and Psychotherapy: Definitions and Critical Differences.
Basic Essential Skills in Counselling (Interview and Communication Skills etc.)
Types of Family Interventions: Family Guidance, Family Counselling and Family Therapy

Unit II
Social Casework Practice

Definition and Principles of Social Casework Practice
Process of Social Casework Practice, Study: Thinking in Problem Solving; and Diagnostic Work up; Joint Solution Finding and Goal Setting; Implementation of Plan and Termination (on CGC cases)
Case worker - Client relationship, Role of Case worker
Social investigations; Home visit & School visit

Unit III
Family Guidance

(For Parents of Children with Disabilities)
Guidance Messages for Parents of Children with Mental Retardation, ADHD Learning Disability and Pervasive Developmental Disorders
Sensitization Workshop (Empowered Parents)
Skills of Undertaking Family Guidance (Guided Skill Workshop)
Indications and Contraindications
Practice Guidelines

Unit IV
Parent Training and Therapy

• Parent Child Interaction Therapy (PCIT):

- Theoretical Constructs; Framework and Content
- Process of PCIT
- Indications & Contraindications
- Practice Guidelines

• Behavioral Modification: Theoretical Constructs and Principles

- Functional Analysis of Behavior
- Behavior Modification Techniques
- Developing Behavior Modification Plan
- Indications & Contraindications
- Practice Guidelines

PRACTICAL

A) Field Work Tasks

• During the placement in Child Guidance Centre / Adolescent Guidance Service Centre the students would undertake the following:

- Social Investigations
- Parent Guidance and Counselling
- Parent Training / PCIT

B) Self Development Workshops

• Emotional Intelligence
• Myers Briggs Type Indicator
• Empathy: Losses Exercise

SCHEME OF TEACHING

A) PROCESS OF DEVELOPING SKILLS

• Skills in family guidance & counselling would be honed through listening to Experiences of Empowered Parents, Guided Workshops, Simulated Practice and Role Plays.

• Skills Parent training for Behaviour Management and PCIT would be honed through Guided Skill Workshops and case studies to understand clinical applications of Behaviour Modification.

• Assignment on Eco-mapping of services

B) APPLICATIONS

1. Students would undertake Family Guidance / Counselling with families of children with Learning, Behaviour or Developmental Disorders

2. Student will undertake Behavior Modification / PCIT during their field placements in Clinics / Institutions.

3. Student would undertake Social Investigation and Restructuring of Home Environment for two cases.

C. BREAKUP OF CONTENTS INTO KNOWLEDGE, SKILL AND APPLICATION AREA

Knowledge	Skills	Applications
• Concept of Guidance counselling and psychotherapy • Approaches to counselling: Theoretical Orientations • Types of Family Interventions • Social Casework Practice: Principles, Stages and Process • Family Guidance: Framework • Guidance messages for parents of children with Disability, ADHD Learning Disability, Border Line Intelligence and Pervasive Developmental Disorders • Concept Process and Techniques of Parent Training • Theoretical Constructs of PCIT • Framework and Process of conducting PCIT • Behaviour Modification Theoretical Constructs • Principles and Methods • Functional Analysis of Behaviour • Behaviour Modification Techniques	• Basic Skills in Counselling (Rapport Formation, Interview, Communication and Skills, for promoting disclosures etc.) • Skills of Family guidance • Skills for Conducting Parent training for Behaviour Management and Parent child Interaction Therapy ***(All there would be honed through workshops demonstrations, mock sessions, and role plays.)***	Clinical Work (I Term): • Diagnostic workup, • Social investigations (Home visit, HOME, school visit etc.) Clinical Work (II Term): • Parent Counselling, • Home based intervention with parents, parent training, PCIT, • Clinical case report

INTERVENTIONS FOR CHILDREN

Paper Code: SHSSS PSY 05 02 07 C 4004

Lectures: 3, Tutorial: 1, Practical's: 2

Total Credits: 6

OBJECTIVES

To acquire beginning skills in Play Therapy for children with Emotional and Behavior problems.
To acquire understanding of strategies for enhancing skills development in children with Disabilities and Emotional Problems.
To critically appreciate the strategies for reworking the school environment for children with Disabilities & Learning problems

THEORY

Unit I

Directive Play Therapy

Play for Therapy with Children

Communicating with Children; Promoting Disclosures

Directive Play Therapy: Theoretical underpinnings

Framework and Role of Therapist

Using different Play Media with Children

Practice Guidelines

Indications and Contraindications

Applications of Play Therapy

Unit II

Non-Directive Play Therapy

Theoretical Underpinnings

Exploring Non-directive Play Therapy: A Case Study Approach

Role of the Therapist

Setting up of Play room

Stages of Play Therapy

Practice Guidelines

Indications and Contraindications

Unit III

Skill Training

Concept of Skills Training

Activities of Daily Living and Communication Skills (Ref. to Mentally Challenged Children); Activities and Methods

Social Skills Training (Ref. to children with Emotional / Behavioral Disorders) Sequence, Activities and Methods

Unit IV

Reworking School Environment

Modifications in Teaching, Learning and Evaluation Processes for Children with ADHD, Aspergers and Learning Disability

Provision by CBSE & Alternative Education Systems

Mainstreaming, Integration and Inclusion; Concept & Scope

Creating Least Restrictive Environment in School: Some Models

PRACTICAL

A) Field Work Tasks

• Students would apply Play Techniques for counselling children with behaviour and emotional difficulties

• Students would psycho-educate parents for reworking school environment of the child

B) Self Development Workshops

• Enhancing Self Esteem

SCHEME OF TEACHING

A) PROCESS OF DEVELOPING SKILLS

• Students would be exposed to the process of undertaking 'Play Therapy' with children through simulations, role plays, demonstrations & practice sessions.

• Students would be exposed to the process of undertaking Family Life Education with Adolescents through self-development workshops, facsimile experiences and practice sessions with groups of adolescents.

B) APPLICATIONS

1. Students would undertake short term Play Therapy with an abused child or child having an emotional problem.
2. Student would design a context specific module on Family Life Education for Adolescents in small groups.
3. Student would document in groups 'Best Practice' in inclusive / alternative education for children with learning problems.

C) BREAKUP OF CONTENTS INTO KNOWLEDGE, SKILL AND APPLICATION AREAS

Knowledge	Skills	Applications
• Play Techniques for Children: Theoretical Underpinnings. • Directive Play Therapy • Non Directive Play Therapy • Skill Training • Family Life Education • Reworking School Environment	Process of undertaking Play Therapy with children Negotiating towards joint solutions for creating least restrictive environment for the child. (All these would be honed though workshop, demonstrations, mock sessions & role plays)	• Case study of the child • Direct intervention with the child (0-12years) in the clinic / institution (individual counselling, play therapy or using play techniques)

INTERVENTION FOR ADOLESCENTS

Paper Code: SHSSS PSY 05 02 08 C 4004

Lectures: 3, Tutorial: 1, Practical's: 2

Total Credits: 6

OBJECTIVES

To acquire beginning skills in undertaking Cognitive Behaviour Therapy with Adolescents.
To acquire beginning skills in undertaking Family Life Education with Adolescents
To acquire beginning skills in conducting Career Guidance and Counselling with Adolescents.
To develop an understanding of Group Counselling Technique

THEORY

Unit I

Cognitive Behaviour Therapy

Theoretical Underpinnings
Basic Concepts of Cognitive Behaviour Therapy, Core Beliefs; Negative Automatic Thoughts; Thought Feeling Action Cycle; Cognitive Distortions
Process of Cognitive Behaviour Therapy
Case Conceptualization
Mental Status Examination
Identifying Cognitive Distortion

Unit II

Cognitive Behavior Therapy: Application

Cognitive Techniques of Interventions
Behavioral Techniques of Intervention
Matching Techniques to Common Problems of Adolescents: Anxiety, Depression and Common Developmental Issues
Practice Guidelines
Indications & Contraindications
Documentation

Unit III

Family Life Education

Concept of Family Life Education and Scope

Designing and implementing of FLE Programme

Sexuality & Gender (Self Development Workshop)

Reproductive Health and HIV AIDS

Unit IV

Career Guidance and Counselling

• Need and Scope of Career Guidance
• Basic Concepts of Career Guidance: Characteristics of Career; World of Work; Influences on Career Choices
• Domain of Career Assessment: Interests; Aptitude; Personality; Academic Profiling and Informal Methods
• Planning and Conducting Career Talks
• Individual Profiling
• Process of Career Counselling

PRACTICAL

A) Field Work Tasks

Student would:

• Conduct Career Talks

• Undertake Individual profiling of two students for undertaking Career Guidance • Undertake Cognitive Behaviour Therapy with one or two adolescents

B) Self Development Workshops

• Sexuality and Gender • Cognitive Beliefs

• Addressing Irrational Cognitive beliefs

SCHEME OF TEACHING

A) PROCESS OF DEVELOPING SKILLS

• Student would be exposed to Techniques of Cognitive Behaviour Therapy through role plays, demonstrations and practice sessions.

• Skill workshops would be designed for conceptualizing a case, evolving working hypothesis & planning interventions through case studies and life presentation of cases being handled by students in the field.

• The student would be exposed to conducting career talks through mock sessions in class room & practice sessions in schools.

• The student would be familiarized with different measures for understanding career assessment of students.

• Students would be exposed to the process of undertaking 'Skill Training' with children through simulations, role plays, demonstrations & practice sessions.

APPLICATIONS

• The student would be able to undertake Career Guidance with three students.

• The student would undertake CBT with 1 -2 Adolescents.
• The student would design a context specific Family Life Education Programme for Adolescents

Knowledge	Skills	Applications
CBT Theoretical underpinning and Basic Concept and Techniques. ,CBT –process Application of CBT to common problems and development mental issues of adolescents Family Life Education Group Counselling **Career Guidance :** Concept ,Process of Individual and Group Guidance	Skills of Cognitive Behaviour Therapy Assessment. Case Studies for case conceptualization Demonstration of Behavioural & Cognitive Intervention through role plays, video feedback rehearsals. Planning CBT Interventions Skills of conducting career talks Interpreting findings of vocational profiling. Collection of data on different careers.	• Career Guidance and Profiling • Direct intervention with the adolescents (Practice skill of Cognitive Behaviour Therapy, Supportive Counselling etc.)

INTEGRATING INTERVENTIONS

Paper Code: SHSSS PSY 05 02 09 C 4004

Lectures: 3, Tutorial: 1, Practical's: 2

Total Credits: 6

I. OBJECTIVES

1. To integrate assessment and therapeutic intervention skills in context of the situation, need and age.
2. To design, monitor and evaluate mental health interventions at individual, group or community level.

THEORY

Unit 1. Planning School Mental Health Programme

Concept

WHO Model of School Mental Health
Need Assessment Strategies
Designing the Services

Pedagogy for Training
Developing Workshops for Parents and Teachers

Unit 2 Planning Intervention for Children: Clinical Work at CGC/ AGSC

Conceptualizing Assessment
Integrating Assessment to reach Diagnostic Workup
Planning Interventions

Unit 3 Planning Intervention for Children in Difficult Circumstances

Understanding impact of Trauma and Abuse on Children
Planning intervention for children affected by trauma and abuse

Issues in Pre & Post Adoptive Counselling of Parents
Supportive Counselling
Crisis Intervention

Unit 4 Ethical Issues in Counselling

Role of an Effective Counsellor
Conceptual Framework for Ethical Decision Making

Good Practices of Counselling Services in School
Application of Ethical considerations (Simulated Exercises)

III. PRACTICAL

A) Field Work Tasks

Undertaking supportive interventions for Children in Difficult Circumstances.

Undertaking interventions with children with learning and behaviour problems in Child Guidance Centre and Adolescents Guidance Service Centre.

B) Self Development Workshops

Stress Management

Child Sexual Abuse

IV. SCHEME OF TEACHING

A) PROCESS OF DEVELOPING SKILLS

The paper is essentially a skill based one wherein the student would integrate assessment and interventions learnt across papers to address issues, concerns and problems of children at individual, group and community level. The students will practice these skills during their placements in Clinics, Schools and Institutions for children in difficult circumstances. The students would be provided individualized supervision through faculty and outside professionals. Skill workshops would also be conducted to facilitate the students to integrate frameworks of assessments and interventions.

B) APPLICATIONS

The students would be given the following assignments to apply the key skills learnt during the programme:

The student would formulate Intervention plans for two children with (Diagnostic workup given) Learning & Behaviour Problem

The student would design an Individual & Group Intervention for children who are trafficked or are affected by violence or abuse.

The student would identify 'best practice' of interventions with children in difficult circumstances based on field work experiences

The student would evolve school mental health programme in context of study of their school.
The student would Design Training Sessions / Modules along specific data collected

during Training Need Assessment

Students would plan workshops in small groups on positive parenting in a school setting.

Developing career guidance service.

C) BREAKUP OF CONTENTS INTO KNOWLEDGE SKILL AND APPLICATION AREAS

Knowledge	Skills	Applications
• Planning & organizing Workshop	• Workshop on Need Assessment & designing Training for Parent and Teachers	• Case Study of Self
• Planning Interventions for Children with Learning & Behaviour Problems	• Sensitization Workshops to understand impact of Trauma, Abuse and Neglect	• Undertake supportive Interventions for children in difficult circumstances
• Planning Interventions for Children in Difficult Circumstances	• Workshop on issues of Pre adoptive & Post Adoptive Counselling	• Design and implement context specific family life Education program for Children & adolescents
• Planning School Mental Health Programme Ethical Issues in Practice	• Workshops on Integrating Assessments to draw intervention plans Adoptive Counselling	• Designing and implementing need-based training. • Any other

Paper-10

Field Work

SHSSS PSY 05 02 10 C 0202

Objectives

1. To facilitate the development of thinking, feelings and attitude relevant to professional practice.
2. To provide exposure opportunities to work with children and child related systems to develop sensitivity about issues and concerns of children.
3. To enable students develop core skills relating to preventive, promotive & clinical activities with children across settings.
4. To develop among students, the ability to integrate theoretical learning with practice experience

Settings

The students would have opportunity of working in the following settings

- School
- Child Guidance Centre & Adolescent Guidance Service Centre
- Children's Institution

Tasks

Sl. No.	Subject	Task to be undertaken
1	Child Development	□ Micro processes of pre-school education □ Developmental characteristics of child □ Play activities of children across ages
2	Exceptional Variations in Child Development	Clinical work: □ Educational Assessment Personality Assessment □ Corner's etc.) □ Special diagnostic rating scales (CARS, Spot diagnosis □ Play sessions (II level) □

3	Techniques of Child & Adolescent Assessment	Clinical work: □ Case History □ Play observation □ Adolescent Interviews □ Vineland Adaptive Behaviour Scale □ Multiple Intelligences □ Learning styles

4	Child Rights & Policy	□ Studying School as a System □ Micro process related to school mental health □ Studying Children‟s Institutions from „Rights‟ perspective
5	Group Work & Community Interventions	□ Designing and Conducting Developmental group work with adolescents □ Legislative processes of the Children‟s Institution
6	Family Interventions	Clinical work (Term I): □ Diagnostic workup □ Social investigations (home visit, HOME, school visit etc.) Clinical work (Term II): □ Parent Counselling □ Home based intervention with parents, parent training, PCIT □ Clinical case report
7	Intervention for Children	□ Case study of the child □ Direct intervention with the child (0-12years) in the clinic / institution (individual counselling, play therapy or using play techniques)
8	Intervention for Adolescents	□ Career guidance and profiling

		□ Direct intervention with the adolescents (Practice skill of cognitive behaviour therapy, supportive counselling)
9	Integrating Interventions	□ Supportive group interventions in the institutions □ Case study of self

School: During the placement in the school the following tasks would be undertaken by the students:-

- Studying School as a System
- Micro process related to school mental health
- Designing and Conducting Developmental group work with adolescents
- Micro processes of pre-school education
- Career guidance and profiling

Child / Adolescent Guidance Service Centre: The students would conduct assessments, plan and monitor interventions with children & their families. Following tasks would be undertaken:-

- Case History
- Play observation
- Adolescent Interviews
- Vineland Adaptive behavior Scale
- Educational Assessment
- Personality Assessment
- Special diagnostic rating scales
- (CARS, Corner‟s etc.)
- Play sessions (II level)
- Spot diagnosis
- Diagnostic workup
- Social investigations (home visit, HOME, school visit etc.)
- Parent Counselling
- Home based intervention with parents, parent training, PCIT
- Clinical case report
- Restructuring school environment
- Direct intervention with the child (0-12years) in the clinic / institution (individual counselling, play therapy or using play techniques)
- Direct intervention with the adolescents (Practice skill of cognitive behaviour therapy, supportive counselling)

Children's Institution: In the Children's Institution the following tasks would be undertaken by the students:-

Studying Children's Institutions from 'Rights' perspective and their legislative processes

Direct intervention with the children and adolescents (Practice skill of Play Therapy, Cognitive behavior Therapy, Supportive Counselling etc.)

Supportive group interventions in the institutions

Other Field Assignments: The student would undertake following other assignments:-

Case study on self

Case study of one child

Placements in the Field

Time Schedule / Days: Every student has to spend a minimum of 15 hours a week (2 days) on field work.

During the first term students would be placed primarily in the schools (Every Tuesday) and AGSC/CGC and also carry out their free flowing assignments related to case studies

(Every Saturday). By the end of the first term they would start visiting Children's

Institutions for 3 – 4 hours on a Saturday.

During the second term students would be placed primarily in Children's Institutions (Every Tuesday) and AGSC/CGC and also carry out their free flowing assignments related to case studies (Every Saturday). The students would be briefly provided opportunity to work in schools to carry out their tasks related to career guidance.

The placement in the CGC/AGSC will be carried out on rotation in batches on **Tuesdays** and **Fridays** afternoons as per the roster drawn out for the purpose. This placement will be carried out through the year.

Attendance Requirement

The students are required to attend at least 90 percent of total field work days during concurrent field work placement.

Reporting of Field work

Students would get a **Log Sheet** in which they will fill up the work done in the field work agency. The agency supervisor would duly sign the log sheets.

During the first term the students would be expected to submit **field work reports** on **every Monday**. The report would be based on 'process recording' of experiences in the field. Thereafter they would make **synthesis report** for each of the field work tasks. The synthesis report would comprise all the process recordings of a particular task along with 'Analysis'(i.e. relating field experiences to theory or Learning's) and 'Self in relation to the task'(i.e. Self growth or Feelings).

During the Second term the students would be only submitting Synthesis reports.
However, for the purpose of supervision they will be required to make fieldwork diaries.

The Synthesis reports would be the basis of field work evaluation at the end of the programme along with Viva voice.
The internal evaluation will be based on classroom presentations of field work tasks, observations of student's work and process recordings

Field Work Supervision

Every student will be supported through intensive process of individual supervision. The student would get on opportunity of 40 - 45 minutes of individual interaction time with his / her supervisor once in a fortnight (Tuesday afternoons). Group supervision will also be provided to enhance integration of theory & practice and to develop skills.

The students will also be provided clinical supervision for their work in CGC/AGSC.

Paper-11

Internship

SHSSS PSY 05 02 11 C 0202

In addition to concurrent field work the students are also required to undergo two months of internship training immediately after appearing in their final examination. Students are not eligible to the award of degree unless they successfully complete this training. Preferences for the area and organizational setting during Internship are invited by February - March every year. The students are expected to make choices in order of preference. The Institute tries to arrange suitable organizations for placement. If in spite of best efforts the Institute may not be able to accommodate preference of the student, they will have to accept the alternative placements

Paper–I
Disability and Rehabilitation
SHSS PSY 04 01 02 C 4105
Hours: 60 Hours

Unit-I

Introduction–Overview of the profession, history and growth of rehabilitation field, areas of specialization, current issues and trends in different areas of rehabilitation, magnitude and incidence of disability, cost of disability, major national reports and surveys

Unit II

Concepts and theory – Impairment, disability and handicap, types and causes of impairments, realms of impairments, concept of functional capacity, coping and well-being, quality of life and

its functional domains, content areas, methods of assessment, specific and global indicators of quality of life

Unit III

Disability and Rehabilitation – Models of disability and rehabilitation, enabling–disabling processes, impact of the physical, social and psychological environments on the enabling–disabling processes, effects of disability on participation, psychosocial theories of adjustment, strategies to enhance adjustment, functional limitations and strategies to reduce and accommodate limitations

Unit IV

Disability through life-cycle – Specific problems pertaining to each stage of life - childhood, adolescence, young adulthood, middle age, and older adulthood, and adapting strategies

Unit V

Ethics and policy issues – Rehabilitation ethics, rehabilitation policies and Acts(Persons with Disabilities Act, The National Trust Act, Mental Health Care Act, Rehabilitation Council of India Act, UNCRPD), assistance, concessions, social benefits and support from government, and voluntary organizations; contemporary challenges, civil rights and legislation, empowerment issues

Paper II

Psychosocial Issues in Disability

SHSS PSY 04 01 02 C 4105

Hours: 60 Hours

Unit-I

Stress and Coping Style – Stress due to disability, threat to life and physical wellbeing, body image, independency, autonomy and control, self-concept, self-esteem, life goals and future plan, invisible disabilities, marginalization, Denial, regression, compensation, rationalization, emotional reaction – grief, loss, guilt and fear, coping styles and strategies, stages of adaptation and adjustment, factors impeding adjustment to disability and disabling processes, psychological control

Unit-II

Mental health issues – Psychopathological reactions such as anxiety, depression, adjustment problems, other co-existing mental morbidity, emotional and behavioral disorders in children and adolescents, problems related to marital and sexual life, abuse and exploitation, substance use, interventions for mental illnesses

Unit-III

Family issues – Relationship issues with family, problems of families of disabled adults and children, impact of disability on family, family burden, needs of family and models of family adaptation, intervention to strengthening family support to disabled

Unit-IV

Social issues – Societal attitudes toward disabilities, measurement of attitude and strategies for attitude change, social environment, social participation, social interaction, social network and support, disabling factors, prejudice, stigma, discrimination, marginalization, gender disparity

Unit-V

Vocational issues - Career competency, career development issues, work related stress, economic independence, well-being, assistive devices for activities of daily living, mobility aids, at work place, sensory devices, environment modifications and universal designs, needed support system

Paper-III
Practical
SHSS PSY 04 01 03 C 0055

Rehabilitation Interventions and Viva Voce (Vocational Training for One Special Need Children)

Internal Assessment of Semester-I

In each subjects of Group – A, 30% marks shall be determined on the basis of two internal exams (theory and practical), each conducted for 50 marks. The marks so obtained are added to the marks allocated to the respective subjects in the final examinations. The results of the final examinations will be declared on the basis of the total so obtained.

Semester-II

Paper IV

Rehabilitation Assessment and Counseling

SHSS PSY 04 02 04 C 4105

Hours: 60 Hours

Unit-I

Assessment – Need for assessment in counseling, assessment based model for decision making, planning, and implementing individualized interventions, various instruments used for assessing cognitive, learning, behavioral, and emotional functioning, social and emotional development, assessment of perception of the problems and potential to participate and benefit from interventions, and assessing intervention efficacy

Unit-II

Theory and concepts – Definition and goals of rehabilitation counseling, theories and techniques, counselor role, boundaries of confidentiality, ethical guidelines in counseling activities, concept of dual relationships, professional challenges in counseling and conflict resolutions, models, spiritual, culture and gender issues in counseling

Unit-III

Intervention Approaches – Individual counseling approaches viz. non-directive, existential, humanistic, person-centered, cognitive and behavioral counseling, and behavior modification, techniques of remedial training for scholastic/learning problems

Unit-IV

Specific Interventions – Specific intervention for developing social skills, academic skills, assertiveness, anger management, addressing anxiety/mood disorders, assessing family functioning, its strengths and resources, family counseling, crisis intervention

Unit-V

Vocational counseling – Assessment and components of vocational counseling viz. identifying interests, goals and plans, and counseling during the training and job placement processes, scheme related to skill development

Paper-V

Community Based Rehabilitation

SHSS PSY 04 02 05 C 4105

Hours: 60 Hours

Unit-I

Goals and Objectives–Definition of CBR, Goals and objectives, key principles - equality, social justice, solidarity, integration and dignity

Unit-II

Components–Creation of a positive attitude, provision of rehabilitation services, education and training opportunities, creation of micro and macro income generation opportunities, provision of long term care facilities, prevention of causes of disabilities and monitoring & evaluation

Unit-III

Role of CBR professionals–As local advocates, liaison and continuity of care, continued supervision of home programs, community initiatives to remove barriers that affect exclusion, advocacy

Unit-IV

Initiatives – Social counseling, training in mobility and daily living skills, community awareness raising, facilitating access to loans, vocational training, information for local self-help groups, contacts with different authorities, school enrolment

Unit-V

Empowerment issues – Approaches for empowering - social mobilization, political participation, communication, self-help groups and organization working for persons with disabilities

Paper-VI
Internship
SHSS PSY 04 02 06 C 0505

Submission: Five fully worked-out Rehabilitation Counseling Records which include case formulation, problem areas elicited, type and technique/s employed to resolve the problems, and the processes of counseling. Out of five records, two shall be related child cases including one from multiple disabilities.

Minimum prescribed clinical work during the training.

By the end of I year

_____

1) Assessment & workup of client and/or family	25
2) Counseling of persons and/or family with disability	25

(Out of 25 cases 5 shall be related to children)

Internal Assessment of Semester-II

In each subjects of Group – A, 30% marks shall be determined on the basis of two internal exams (theory and practical), each conducted for 50 marks. The marks so obtained are added to the marks allocated to the respective subjects in the final examinations. The results of the final examinations will be declared on the basis of the total so obtained.

Semester-I

INTRODUCTION TO PSYCHOLOGY
SHSS PSY 03 01 01 FC 5106

Objective

This course will provide a basic and elementary knowledge of the history, schools, major contributors and basic concepts of psychology.

Learning Outcomes

After the completion of the course the student will be able to

1. *Identify and explain the origin, nature and scope of Psychology.*
2. *Describe various schools of psychology & the difference among them.*
3. *Compare and criticize the contributions of major psychologists.*
4. *Develop the ability to understand basic concepts in psychology.*

UNIT-I

Psychology: Nature, Psychology as a Science, Fields of Psychology, Psychology and Related Disciplines-Sociology, Education, Economics.

Methods: Experimental, Observation, and Case Study.

Case study/Research article: Analysis of a phobia in a five-year-old boy (Freud, 2001).

UNIT-II

Schools of Psychology: Basic Tenets of Structuralism, Functionalism. Behaviorism and Gestalt.

Case study/Research article: Behaviour as seen by the actor and as seen by the observer (Nisbet, 1973).

UNIT-III

Learning: Nature, Methods, and Factors Affecting.

Types of Learning: Trial and Error, Insight, Observational and Social learning.

Case study/Research article: The Case of Zinermon v. Burch (1990): The Importance of Capacity.

UNIT-IV

Motivation: Nature, Physiological and Psychological Motives.

Emotion: Types and Theories- James-Lange, Canon Bard.

Case study/Research article: Conditioned emotional reactions (Watson & Rayner, 1920).

Suggested Readings

Experimental Psychology

SHSS PSY 03 01 02 FC 5106

Objective

Through this course, the students will be introduced to the fields of Psychology. The students will be taught popular theories related with the field and will be acquainted with fundamentals of conducting a Psychology experiment in laboratory setting.

Learning Outcomes

After completing the course, students will be able to:

- *Identify the basic principles of empiricism*
- *Explain the basic principles of experimental psychology applied to implementation of research.*
- *Apply the principle of carrying out an experiment to address questions of causation.*

Unit I

Experimental Psychology: Meaning, Nature and History.

Weber's and Fechner's' Law.

Experimental Method: Meaning and steps.

Unit II

Sensation: Nature and Types.

Psychophysics: Meaning, Problem and Methods.

Unit III

Perception: Meaning, Nature, Organization of stimulus and Factors Affecting.

Perception of Figure-ground, Form and Time.

Unit IV

Classical Conditioning: Meaning, Nature and Steps.

Transfer of Learning: Meaning and Types.

Reaction Time: Meaning and Types.

PRACTICUM-I

SHSS PSY 03 01 03 FC 4046

Objective

This course will enable students to understand and apply the general concepts of psychology through experiments & psychological tests.

Learning Outcomes

At the end of this course, you should be able to able to independently administer the instruments for testing purpose.

Ten of the following practicals shall be conducted during the semester. One practical will be allotted to the candidate during examination and evaluation will be based on Practical Conduction, Report and Viva-Voce during the practical Exam.

1. Simple Reaction Time
2. Transfer of Training
3. Span of Attention
4. Muller-Lyer Illusion
5. Weber Law
6. Intelligence Testing
7. Perception of Time
8. Figural After Effect
9. Maze Learning
10. Depth Perception
11. Mapping of Color Zones

12. Determination of AL
13. Determination of DL
14. Study of Emotions (Facial Expression)
15. Sound Localization
16. Color Mixture
17. Color Contrast
18. Retinal After Image

GEC-I

General Psychology

SHSS PSY 03 01 01 GEC 5106

Objective

This course will introduce the students with the basic principles of Psychology. It will further introduce students with the recent advancements in the general Psychology

Learning Outcomes

At the end of this course students will be able to:

- *Define and explain the basic principles in Psychology.*
- *Demonstrate the principles of the Psychology in daily life.*

UNIT-I

Psychology: Nature and Scope, Schools of Psychology.

Methods of Study: Experimental, Observation, and Case Study.

UNIT-II

Sensation: Nature and Types

Perception: Nature, and Perceptual Organization.

UNIT-III

Motivation: Nature; Theories – Drive and Need Hierarchy Theory.

Emotion: Emotional expression, and Theories of Emotions - Canon-Bard, James-Lange.

UNIT-IV

Intelligence: Nature, Theories- Two Factor, Group Factor, and Multiple Intelligence.

Personality: Nature, Determinants, Theories of H.J. Eysenck, R.B.Cattell.

Suggested Readings

Clifford T. Morgan, Richard King, John R. Weis, and John Schopler (1993). *Introduction to Psychology (7th Edition).* Tata McGraw Hill Book Co. New Delhi.

Ernest R. Hillgard, Richard C. Atkinson, Rita L. Atkinson (1975). *Introduction to Psychology. (6th Edition),* Oxford IBH publishing Co. Pvt. Ltd. New Delhi.

Gazzaniga, M. Heatherton, T. Halpern, D. & Heine Steve (2012). *Psychological Science.* WW Norton & Company. Inc. New York.

Foundation Course

Physiological Psychology

SHSS PSY 03 02 04 FC 5106

Objective

This paper is designed to provide an understanding about the physiological bases of behaviour. It will further introduce the structure and functions of neural organization

L*earning Outcomes*

- *Appreciating the biological bases of human behavior including neural, biochemical, evolutionary, and genetic mechanisms.*
- *Developing critical thinking to use scientific techniques for biological psychology and developing an awareness of ethical issues accompanying them.*
- *Having basic knowledge about the structures of nervous system, division and functions.*
- *Understanding biological mechanisms involved in psychological processes such as motivation and emotion.*

UNIT-I

Physiological Psychology: Nature and Scope.

Methods- Stimulation, Imaging techniques, Ablation, Recording Techniques.

Case study/Research article: Never, ever shake a baby (Heffelfinger, 2010).

UNIT-II

Cell: Structure and Functions. Neuron: Structure, Types and Functions.

Neurotransmitters.

Case study/Research article: Association of specific overt behavior pattern with blood and cardiovascular findings (Friedman & Rosenman, 1959).

UNIT-III

Nervous System: Central Nervous System- Brain and Spinal Cord; Peripheral Nervous System- Somatic and Autonomic.

Case study/Research article: Brain abnormalities in murderers indicated by positron emission topography (Raine, Buchsbaum&LaCasse, 1997).

UNIT-IV

Glandular System: Hormones and their action; Physiological bases of Motivation and Emotion; Exocrine vs Endocrine.

Endocrine Gland: Structure, Location, and Functions.

Case study/ Research article: Development of the Adolescent brain (Blakemore & Choudhury, (2006).

Foundation Course

Semester-II

COGNITIVE PSYCHOLOGY

SHSS PSY 03 02 05 FC 5106

Objective

The main objective is to develop core competency in the area of cognitive psychology. To acquaint students with the different approaches of cognitive psychology. To explain the various models of attention and memory, and basic understanding of thinking, language acquisition, and problem-solving behavior. They will be able to explain how the human brain interprets and manipulates information.

Learning Outcomes

After completing the course, students will be able to:

- *Comprehend various cognitive phenomena*
- *Elaborate different approaches of cognitive psychology.*
- *Describe various models of attention, memory, and forgetting.*

UNIT–I

Cognitive Psychology: Historical Background, Scope, Approaches- Top-Down, Bottom-Up, and Information Processing.

Case study/Research article: An Analysis of Thoughts, Behaviours, and Emotions in Daily Decision-Making (Kalahasthi, Bhuptani, & Kapoor, 2017).

UNIT- II

Attention: Nature, and Capacity. Selective Attention: Nature, Models- Filter and Attenuation. Divided Attention.

Case study/Research article: An adapted serial reaction time task for sequence learning measurements (Sengottuvel, & Rao, 2013).

UNIT-III

Memory: Nature, Types, Models-Atkinson and Shiffrin, Levels of Processing.

Forgetting: Nature, Factors, and Theories-Interference and Decay.

UNIT-IV

Thinking: Nature and Types. Problem Solving- Nature and Strategies.

Language: Nature, Process and Acquisition.

PRACTICUM-II

SHSS PSY 03 02 06 FC 4046

Objectives

To enable the students to acquire skills in various experiment and applying those skills and information in conducting experiments.

Learning Outcomes

After completing the course, student will be able to conduct the various experiments to verify the psychological theories.

Ten practicals shall be conducted during the semester. One practical will be allotted to the candidate during examination and evaluation will be based on Practical Conduction, Report and Viva-Voce during the practical Exam.

1. Short Term Memory (STM)
2. Long Term Memory
3. Concept Formation.
4. Retroactive Inhibition.
5. Proactive Inhibition
6. Serial Position Effect
7. Forgetting Curve
8. Divided Attention
9. Hemispheric Specialization.
10. Stroop Test
11. Sociometry
12. Problem Solving
13. Bender-Gestalt Test
14. Visual Activity
15. Finger Dexterity
