## About Central University of Haryana (CUH)

Central University of Haryana (CUH), established under the Central University Act of 2009 during the XI Five Year Plan (2007-2012), is one of fifteen new Central Universities created by the Ministry of Human Resource Development, Government of India. Accredited with an 'A' grade in the second cycle of NAAC assessment in August 2023, CUH ranks among the top 150-200 universities in the National Institutional Ranking Framework (NIRF). Fully funded by the University Grants Commission (UGC), the university operates from its permanent 484-acre campus located in Jant-Pali villages, Mahendergarh district, Haryana, offering 83 academic programs across undergraduate, postgraduate, and research levels.

## Concept Note

As India nears its centenary of independence in 2047, the country is undergoing a major demographic shift. The elderly population (60+) is expected to double, reaching 347 million by 2050, making up over 20% of the total population. By 2046, seniors may outnumber children. A significant portion of this aging population suffers from chronic illnesses—75% have conditions like hypertension, diabetes, and heart disease. Mental health concerns, including depression, affect about 20% of those aged 45 and above, worsened by social isolation and stigma.

Limited access to quality healthcare, especially in rural areas where 70% of the elderly live, further exacerbates these challenges. Many seniors experience loneliness, neglect, and a lack of mental health support. Addressing these issues requires urgent and systematic interventions across multiple sectors to ensure dignified, secure, and fulfilling lives for India's aging population.

## Event Highlights

- **Paper Presentations**
- **Panel Discussions**
- **Keynote Addresses**
- **Special Interactions**
- **Poster Presentations**

## About National Institute of Social Defense (NISD)

The National Institute of Social Defense (NISD), under the Ministry of Social Justice and Empowerment, Government of India, is a key training and research institute focused on social defense. It develops human resources in areas like drug abuse prevention, senior citizen welfare, transgender rights, and beggary prevention. Serving as a Central Advisory Body, NISD coordinates with government and non-government bodies at various levels. Its work includes research, training, consultancy, and publications aimed at shaping policies and programs to protect and uplift marginalized and vulnerable populations.

## Aims and Objectives

The conference Elder Well-Being in India: Contributing to India's Vision @2047 aims to address challenges faced by the elderly and identify actionable solutions aligned with India's Vision 2047—an inclusive, equitable, and sustainable future. To ensure older adults actively participate in this vision, policies must cater to their specific needs.

The conference will bring together government officials, NGOs, RWAs, researchers, and senior citizen forums to discuss innovative approaches to healthcare, social security, community care, and technology-driven solutions. These interdisciplinary discussions will focus on developing frameworks that enhance the well-being of the elderly, enabling them to contribute meaningfully to society rather than being passive recipients of care.

By integrating elderly welfare into India's broader developmental agenda, the conference seeks to foster a society where aging is supported with dignity, inclusion, and empowerment.

**NO  
REGISTRATION  
FEE !**

*\*TA will be provided as per university norms to the first 25 outstation and 125 local participants.*
